Diageo to acquire control of United National Breweries

Diageo to acquire control of United National Breweries' traditional sorghum beer business in South Africa by acquiring the remaining 50% interest which it did not already own.

On 28 January 2013, Diageo announced it had entered into an agreement to acquire a 50% interest in the company which owns United National Breweries' traditional sorghum beer business in South Africa with the remaining 50% being held by Pestello Investments Inc., a company affiliated to Dr Vijay Mallya.

Diageo today announced that it has entered into an agreement to acquire the remaining 50% interest in the company, thereby making it a wholly owned subsidiary of Diageo. Diageo will acquire this further interest from Pestello Investments Inc. for an initial payment of \$22 million (approximately £14.8 million) and a potential earn-out payment of up to \$14 million (approximately £9.4 million). The transaction is conditional on (among other things) consent from the South African competition authority and is expected to complete in this fiscal year.

Once completed, this transaction will give Diageo control of the leading traditional sorghum beer business in South Africa, including the ability to make investment decisions to support the continued growth of United National Breweries' brands in the sorghum beer category.

The number of Ordinary Shares allocated comprises those purchased on behalf of the employee using an amount which the employee has chosen to have deducted from salary ("Sharepurchase") and those awarded to the employee by the Company ("Sharematch") on the basis of one Sharematch Ordinary Share for every two Sharepurchase Ordinary Shares.

The Sharepurchase Ordinary Shares were purchased and the Sharematch Ordinary Shares were awarded at a price per share of £19.26.

The Ordinary Shares are held by the Trustee and in the name of the Trustee. Sharepurchase Ordinary Shares can normally be sold at any time. Sharematch Ordinary Shares cannot normally be disposed of for a period of three years after the award date.

2. It received notification on 10 April 2015 that Dr FB Humer, a director of the Company, had purchased 430 Ordinary Shares on 10 April 2015 under an arrangement with the Company, whereby he has agreed to use an amount of £ 8,000 each month, net of tax, from his director's fees to purchase Ordinary Shares. Dr Humer has agreed to retain the Ordinary Shares while he remains a director of the Company.

The Ordinary Shares were purchased at a price per share of £19.26.

The Ordinary Shares referred to in items 1 and 2 above were purchased on the London Stock Exchange.

As a result of the above transactions, interests of directors and PDMRs in the Company's Ordinary Shares and American Depository Shares ("ADS")* (excluding options, awards under the Company's LTIPs and interests as potential beneficiaries of the Company's Employee Benefit Trusts) are as follows:

Diageo PLC

16 April 2015

Interim management statement for the nine months ended 31 March 2015

In the nine months ended 31 March 2015, net sales declined 0.3% on an organic basis and were down 0.7% in the quarter, with volume down 1.7% in the nine month period and 0.8% in the quarter.

In the nine month period reported net sales grew 4.6%. Acquisitions, principally United Spirits Limited, contributed £700 million partially offset by an adverse impact of currency movements of £298 million and a reduction of £28 million due to disposals.

Following developments in Venezuela, including changes to the currency exchange mechanism, the group has translated its Venezuelan operations results for the quarter and for the nine months ended 31 March 2015 at a rate of \$1 = VEF 192.95 (£1 = VEF 285.57). The organic growth rates for the first half shown in the table below reflect this exchange rate.

Organic net sales growth by region:

Latin America and Caribbean	(3.3)	(10.2)	(1.0)
Asia Pacific	(5.5)	(6.0)	(5.4)
Diageo	(0.3)	(0.7)	(0.2)

Commentary on the quarter ended 31 March 2015:

The success of Crown Royal Regal Apple was the biggest driver of increased shipments in US Spirits & Wines and therefore of the improved performance in the quarter in North America. Smirnoff Red's performance continues to improve although it was offset by the weakness of Captain Morgan. In the quarter, DGUSA's shipments were weaker than in the first half due to phasing of shipments. Depletion trends have continued to improve during the quarter across both US spirits and DGUSA.

In Europe, following a broadly flat performance in the first half, the performance in the quarter saw a high single digit net sales decline in Great Britain reflecting the comparison against last year when a buy up ahead of an expected duty increase brought forward sales into the third quarter.

Africa, as expected delivered a stronger performance in the quarter. In Africa Regional Markets and East Africa, net sales continued to grow double digit. Improved performance in the quarter in Nigeria, with the success of Orijin and a steady improvement in Guinness' performance, delivered double digit growth. In South Africa in the quarter, net sales of spirits grew 4% despite the weak economy; however total net sales were down as a result of the transfer of production of Smirnoff Ice Double Black & Guarana to Diageo's DHN joint venture.

In Latin America and Caribbean, while there was a good performance in most domestic markets, currency volatility continues to negatively impact consumer demand and the inventory levels held by customers in some channels. The quarter was also specifically impacted by phasing issues which will benefit performance in the fourth quarter.

Asia Pacific performance in the quarter was broadly in line with the first half as net sales in South East Asia continued to be impacted by the decision to reduce inventory levels held by distributors. In addition, regulatory changes to the sale of beer in the off trade are to be introduced in Indonesia and this impacted performance in the quarter. In the Middle East, political tensions and Diageo's decision to hold prices resulted in a decline in net sales in the quarter. In mainland China, net sales grew 13%, driven by the recovery of Diageo's baijiu business.

At 31 March 2015, net assets were £8,691 million (£8,696 million at 31 December 2014). Net borrowings decreased £404 million from £10,668 million at 31 December 2014 to £10,264 million at 31 March 2015, primarily as a result of £265 million net cash proceeds received from sale of Bushmills less the acquisition cost of the 50% equity interest in Don Julio that Diageo did not already own. The group completed this transaction on 27 February 2015 and the exceptional gain before tax arising on the transaction is expected to be around £200 million.

Using current exchange rates (£1= \$1.47; £1= €1.38; \$1= VEF 193.85) the exchange rate movements for the year ending 30 June 2015 are estimated to adversely impact net sales and operating profit by £240 million and £110 million respectively, and increase net finance charges by £10 million excluding the impact of IAS 21 and IAS 39. As a result of Diageo's adoption of the Simadi exchange rate to translate the results of the group's Venezuelan business, a

hyperinflation charge of approximately £20 million is estimated for the year ending 30 June 2015.

Ivan Menezes, Chief Executive of Diageo commented:

"Our performance in the quarter reflects continued tough conditions in the emerging markets and subdued consumer demand in some developed markets. However it also reflects the actions we have taken to ensure we are building a stronger business. Of key importance is that depletions continue to outpace shipments as we embed our sell out culture. In addition, our decision to destock some wholesale channels in South East Asia and West LAC will improve our ability to track consumer and customer trends and reduce future volatility.

Our route to consumer focus, momentum in reserve and successful innovations have each contributed to building a stronger business although lower inflation and weak economies will lead to subdued net sales growth in the current year despite these improvements.

Consumers in North America remain the most resilient and while lower gas prices and a more favourable macro outlook have not led to a significant shift, growth in the spirits category is improving and our depletion performance continues to build momentum, although I do not expect to see shipments improve until we have lapped last year.

We will continue to strengthen Diageo. We are investing in our brands, enhancing our route to consumer, introducing great innovations such as Crown Royal Regal Apple and Orijin, winning in reserve and focusing on cost and cash. We can realise Diageo's full potential and deliver our performance ambition."

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This document contains 'forward-looking' statements. These statements can be identified by the fact that they do not relate only to historical or current facts. In particular, forward-looking statements include all statements that express forecasts, expectations, plans, outlook and projections with respect to future matters, including trends in results of operations, margins, growth rates, overall market trends, the impact of changes in interest or exchange rates, the availability or cost of financing to Diageo, anticipated cost savings or synergies, expected investments, the completion of Diageo's strategic transactions and restructuring programmes, anticipated tax rates, expected cash payments, outcomes of litigation, anticipated deficit reductions in relation to pension schemes and general economic conditions. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements, including factors that are outside Diageo's control. These factors include, but are not limited to:

- changes in political or economic conditions in countries and markets in which Diageo operates, including changes in levels of consumer spending, failure of customer, supplier and financial counterparties or imposition of import, investment or currency restrictions;
- changes in consumer preferences and tastes, demographic trends or perceptions about health related issues, or contamination, counterfeiting or other circumstances which could harm the integrity or sales of Diageo's brands;
- developments in any litigation or other similar proceedings (including with tax, customs and other regulatory authorities) directed at the drinks and spirits industry generally or at Diageo in particular, or the impact of a product recall or product liability claim on Diageo's profitability or reputation;
- the effects of climate change and regulations and other measures to address climate change including any resulting impact on the cost and supply of water;
- changes in the cost or supply of raw materials, labour and/or energy;
- legal and regulatory developments, including changes in regulations regarding production, product liability, distribution, importation, labelling, packaging, consumption or advertising; changes in tax law, rates or requirements (including with respect to the impact of excise tax increases) or accounting standards; and changes in environmental laws, health regulations and the laws governing labour and pensions;

the costs associated with monitoring and maintaining compliance with anti-corruption and other laws and regulations, and the costs associated with investigating alleged breaches of internal policies, laws or regulations, whether initiated internally or by external regulators, and any penalties or fines imposed as a result of any breaches;

ability to maintain Diageo's brand image and corporate reputation, and exposure to adverse publicity, whether or not justified, and any resulting impacts on Diageo's reputation and the likelihood that consumers choose products offered by Diageo's competitors;

increased competitive product and pricing pressures and unanticipated actions by competitors that could impact Diageo's market share, increase expenses and hinder growth potential;

the effects of Diageo's strategic focus on premium drinks, the effects of business combinations, partnerships, acquisitions or disposals, existing or future, and the ability to realise expected synergies and/or costs savings;

Diageo's ability to complete existing or future business combinations, restructuring programmes, acquisitions and disposals;

- contamination, counterfeiting or other events that could adversely affect the perception of Diageo's brands;
- increased costs or shortages of talent;

disruption to production facilities or business service centres, and systems change programmes, existing or future, and the ability to derive expected benefits from such programmes;

changes in financial and equity markets, including significant interest rate and foreign currency exchange rate fluctuations and changes in the cost of capital, which may reduce or eliminate Diageo's access to or increase the cost of financing or which may affect Diageo's financial results and movements to the value of Diageo's pension funds;

renewal of supply, distribution, manufacturing or licence agreements (or related rights) and licences on favourable terms when they expire;

technological developments that may affect the distribution of products or impede Diageo's ability to protect its intellectual property rights.

All oral and written forward-looking statements made on or after the date of this document and attributable to Diageo are expressly qualified in their entirety by the above factors and by the 'Risk factors' included in Diageo's annual report for the year ended 30 June 2014. Any forward-looking statements made by or on behalf of Diageo speak only as of the date they are made. Diageo does not undertake to update forward-looking statements to reflect any changes in Diageo's expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based. The reader should, however, consult any additional disclosures that Diageo may make in any documents which it publishes and/or files with the US Securities and Exchange Commission (SEC). Diageo announces changes to Executive Committee

After 18 years with Diageo Andy Fennell, currently President, Diageo Africa and a member of the Executive Committee since 2008, is leaving Diageo at the end of the current fiscal year. John O'Keeffe, currently Managing Director, Guinness Nigeria, is to be appointed President, Diageo Africa, joining the Diageo Executive from 1 July 2015 and reporting to Nick Blazquez, President Diageo Africa & Asia. In addition Diageo has today announced that Soren Lauridsen will be appointed Managing Director, Guinness Nigeria following a transition with Andy and John during May and June 2015.

Ivan Menezes, Chief Executive Diageo, commented;

"Andy Fennell has decided to leave Diageo after 18 successful years when he has been Global President for Smirnoff, Chief Marketing Officer and more recently President of our African business. We wish him every success as he reaches out for new challenges.

"We have been able to ensure a smooth transition for both Diageo's African business and for Guinness Nigeria. John O'Keeffe will bring marketing and general management experience to the Diageo Executive and his experience in innovation will be key as we look to increase our mainstream spirits business in Africa. Soren Lauridsen has already joined Diageo and will bring strong leadership skills to his new role in Guinness Nigeria from a career which has taken him from the Nordics to Asia and from Unilever to Carlsberg and now to Diageo. I look forward to working with them both to achieve our ambition."

Update following USL announcement re. outcome of internal inquiry

Diageo is providing this update following the announcement by United Spirits Limited ("USL" and "the Company") on 25 April 2015 in relation to its internal inquiry into certain matters referred to in USL's financial statements and the auditor's report for its financial year ended 31 March 2014.

In its announcement, the board of USL stated that they had lost confidence in Dr Vijay Mallya continuing in his role as a director and as chairman and therefore the board of USL called upon Dr Mallya to resign forthwith as a director and as chairman of the board and step down from his positions in the Company's subsidiaries.

The board of USL also resolved that, in the event Dr Mallya declined to step down, it would recommend to the shareholders of the Company the removal of Dr Mallya as a director and as the chairman of the board. Dr Mallya has indicated he will not tender his resignation.

Diageo is the majority shareholder in USL with a 54.78% holding. As previously announced by Diageo, it has certain contractual obligations to support Dr Mallya continuing as non-executive director and chairman of USL subject to certain conditions and in the absence of certain defaults. Further details of these arrangements are given below.

Subsequent to its announcement on 25 April 2015, USL has provided its inquiry report and all related materials to Diageo. Diageo notes the recommendation of the USL board and will now consider its position under its agreements with Dr Mallya and United Breweries (Holdings) Limited ("UBHL") in light of the inquiry report and materials provided to it.

Additional information

Diageo and UBHL entered into a Shareholders Agreement as part of the transaction announced on 9 November 2012 and which came into effect on 4 July 2013 when Diageo completed the acquisition of its initial 25.02% shareholding in USL. The principal provisions of the Shareholders Agreement were summarised in Diageo's announcement of that transaction.

Under the Shareholders Agreement, the parties agreed to use their respective rights as shareholders such that, among other things, UBHL would be able to nominate one director (who would be Dr Mallya) to the USL board. This right of UBHL is subject to it continuing to hold at least 1,307,950 shares in USL and Dr Mallya continuing to control UBHL. In certain circumstances where Dr Mallya ceases to control UBHL, Dr Mallya may become entitled to succeed to the right to nominate himself as a director of USL subject to his holding at least 1,307,950 USL shares. Previously, UBHL also had the right to recommend a second, independent, non-executive director as long as it continued to hold at least 6,539,750 shares in USL. Following an earlier reduction in the UBHL group's shareholding in USL, this recommendation right has now fallen away.

To give effect to these rights, Diageo is obliged, under the Shareholders Agreement and a separate agreement with Dr Mallya, to support Dr Mallya continuing as non-executive director and chairman of USL. These obligations of Diageo are subject to the conditions described above and the absence of certain defaults by UBHL and Dr Mallya.
