Notes to Consolidated Financial Statements (unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation

In the opinion of management, the accompanying unaudited interim Consolidated Financial Statements of Eaton Vance Corp. (“the Company”) include all adjustments necessary to present fairly the results for the interim periods in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Such financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures have been omitted pursuant to such rules and regulations. As a result, these financial statements should be read in conjunction with the audited Consolidated Financial Statements and related notes included in the Company’s latest Annual Report on Form 10-K.

Payments to end certain closed-end fund service and additional compensation arrangements

During the first quarter of fiscal 2015, the Company made a one-time payment of \$73.0 million to terminate certain closed-end fund service and additional compensation arrangements with a significant distribution partner. The payment was included as a component of distribution expense in the Company’s Consolidated Statement of Income for the six months ended April 30, 2015.

2. New Accounting Standards Not Yet Adopted

Consolidation

In February 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-02, *Amendments to the Consolidation Analysis*, which amends the consolidation requirements in Accounting Standards Codification (“ASC”) 810, *Consolidation*. Under the amendments in this ASU, all entities, including limited partnerships and similar legal entities, are now within the scope of ASC 810, unless a scope exception applies. The presumption that a general partner controls a limited partnership has been eliminated. In addition, fees paid to decision makers that meet certain conditions no longer cause the decision makers to consolidate variable interest entities (“VIEs”) in certain instances, with the amendments placing more emphasis on variable interests other than fee arrangements in the consolidation evaluation. This ASU also eliminates the deferral under ASU 2010-10, *Consolidation - Amendments for Certain Investment Funds*, and, as such, the Company must evaluate any entities that qualified for the deferral to determine whether these entities are VIEs and whether they should be consolidated. The new guidance is effective for annual periods, and interim periods within those annual periods, for the Company’s fiscal year that begins on November 1, 2016 and allows for either a full retrospective or a modified retrospective adoption

approach. Early adoption is allowed, but the guidance must be applied as of the beginning of the annual period containing the adoption date. The Company is currently evaluating the potential impact on its Consolidated Financial Statements and related disclosures.

Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, which changes the presentation of debt issuance costs in the balance sheet. The new guidance requires that debt issuance costs be presented as a deduction from the carrying amount of the related debt rather than being presented as an asset. Amortization of debt issuance costs will continue to be reported as interest expense. The new guidance is effective for the Company's fiscal year that begins on November 1, 2016 and requires retrospective application for each prior period presented. Early adoption is permitted for financial statements that have not been previously issued. The Company is currently evaluating the impact on its Consolidated Financial Statements.

Customer's Accounting for Fees Paid in a Cloud Computing Arrangement

In April 2015, the FASB issued ASU 2015-05, *Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*, which provides guidance about whether a cloud computing arrangement includes a software license. The guidance does not change the current treatment for accounting for software licenses or service contracts. The new guidance is effective for the Company's fiscal year that begins on November 1, 2016. Early adoption is permitted. The update allows for either prospective or retrospective adoption. The Company is currently evaluating the transition methods and the potential impact on its Consolidated Financial Statements and related disclosures.

Revenue from Contracts with Customers

In April 2015, the FASB proposed a one year delay in the effective date of ASU 2014-09, *Revenue From Contracts with Customers*. ASU 2014-09 currently becomes effective for the Company on November 1, 2017. The Company is currently evaluating the potential impact of this new guidance as well as the available transition methods.

3. Consolidated Sponsored Funds

The following table sets forth the balances related to consolidated sponsored funds at April 30, 2015 and October 31, 2014, as well as the Company's net interest in these funds:

Investment securities, trading

The following is a summary of the fair value of investments classified as trading at April 30, 2015 and October 31, 2014:

(in thousands)	April 30, 2015	October 31, 2014
Short-term debt	\$120,069	\$ 156,972
Other debt - consolidated sponsored funds and separately managed accounts	176,821	83,824
Equity securities - consolidated sponsored funds and separately managed accounts	209,084	140,249
Total investment securities, trading	\$505,974	\$ 381,045

During the six months ended April 30, 2015, the Company seeded investments in five sponsored funds and ten separately managed accounts. During the six months ended April 30, 2014, the Company seeded investments in three sponsored funds. The Company did not seed any separately managed accounts during the six months ended April 30, 2014.

The Company recognized gains related to trading securities still held at the reporting date of \$7.4 million and \$6.9 million for the three months ended April 30, 2015 and 2014, respectively, and \$1.2 million and \$1.9 million for the six months ended April 30, 2015 and 2014, respectively.

Investment securities, available-for-sale

The following is a summary of the gross unrealized gains (losses) included in accumulated other comprehensive loss related to securities classified as available-for-sale at April 30, 2015 and October 31, 2014:

April 30, 2015 (in thousands)	Cost	Gross Unrealized Gains	Losses	Fair Value
Investment securities, available-for-sale	\$ 13,974	\$ 9,833	\$ (124)	\$ 23,683

October 31, 2014 (in thousands)	Cost	Gross Unrealized Gains	Losses	Fair Value
Investment securities, available-for-sale	\$ 21,032	\$ 9,159	\$ (24)	\$ 30,167

Net unrealized holding gains on investment securities classified as available-for-sale included in other comprehensive income (loss), net of tax, were \$1.1 million and \$1.5 million for the three months ended April 30, 2015 and 2014, respectively, and \$0.1 million and \$0.7 million for the six months ended April 30, 2015 and 2014, respectively.

The Company evaluated gross unrealized losses of \$0.1 million as of April 30, 2015 and determined that these losses were not other-than-temporary, primarily because the Company has both the ability and intent to hold the investments for a period of time sufficient to recover such losses. The aggregate fair value of investments with unrealized losses was \$4.3 million at April 30, 2015. No investment with a gross unrealized loss has been in a loss position for greater than one year.

The following is a summary of the Company's realized gains and losses upon disposition of investments classified as available-for-sale for the three and six months ended April 30, 2015 and 2014:

The Company's investments in these CLO entities are measured at fair value on a non-recurring basis using Level 3 inputs. The investments are carried at amortized cost unless facts and circumstances indicate that the investments have been impaired, at which time the investments are written down to fair value.

(2) Investments in equity method investees are not measured at fair value in accordance with GAAP.

(3) Investments, other, include investments carried at cost that are not measured at fair value in accordance with GAAP.

Valuation methodologies

Cash equivalents

Cash equivalents include investments in money market funds, holdings of Treasury and government agency securities, and commercial paper with original maturities of less than three months. Cash investments in actively traded money market funds are valued using published net asset values and are classified as Level 1 within the fair value measurement hierarchy. Treasury and government agency securities are valued based upon quoted market prices for similar assets in active markets, quoted prices for identical or similar assets

that are not active, and inputs other than quoted prices that are observable or corroborated by observable market data. The carrying amounts of commercial paper are measured at amortized cost, which approximates fair value due to the short time between the purchase and expected maturity of the investments. Depending on the nature of the inputs, these assets are generally classified as Level 1 or 2 within the fair value measurement hierarchy.

Investment securities, trading – short-term debt

Short-term debt securities include certificates of deposit, commercial paper and corporate debt obligations with remaining maturities from three months to 12 months. Short-term debt securities held are generally valued on the basis of valuations provided by third-party pricing services, as derived from such services' pricing models. Inputs to the models may include, but are not limited to, reported trades, executable bid and ask prices, broker-dealer quotations, prices or yields of securities with similar characteristics, benchmark curves or information pertaining to the issuer, as well as industry and economic events. The pricing services may use a matrix approach, which considers information regarding securities with similar characteristics to determine the valuation for a security. Depending on the nature of the inputs, these assets are generally classified as Level 1 or 2 within the fair value measurement hierarchy.

Investment securities, trading – other debt

Other debt securities classified as trading include debt obligations held in the portfolios of consolidated sponsored funds and separately managed accounts. Other debt securities held are generally valued on the basis of valuations provided by third-party pricing services as described above for investment securities, trading – short-term debt. Other debt securities purchased with a remaining maturity of 60 days or less (excluding those that are non-U.S. denominated, which typically are valued by a third-party pricing service or dealer quotes) are generally valued at amortized cost, which approximates fair value. Depending upon the nature of the inputs, these assets are generally classified as Level 1 or 2 within the fair value measurement hierarchy.

Investment securities, trading – equity

Equity securities classified as trading include foreign and domestic equity securities held in the portfolios of consolidated sponsored funds and separately managed accounts. Equity securities listed on a U.S. securities exchange generally are valued at the last sale or closing price on the day of valuation or, if no sales took place on such date, at the mean between the closing bid and ask prices on the exchange where such securities are principally traded. Equity securities listed on the NASDAQ Global or Global Select market generally are valued at the NASDAQ official closing price. Unlisted or listed securities for which closing prices or closing quotations are not available are valued at the mean between the latest available bid and ask prices. When valuing foreign equity securities that meet certain criteria, the portfolios use a fair value service that values such securities to reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or other instruments that have a strong correlation to the fair-valued securities. In addition, the Company performs its own independent back test review of fair values versus the subsequent local market opening prices when available. Depending upon the nature of the inputs, these assets generally are classified as Level 1 or 2 within the fair value measurement hierarchy.

Investment securities, available-for-sale

Investment securities classified as available-for-sale include investments in sponsored mutual funds and privately offered equity funds. Sponsored mutual funds are valued using published net asset values and are classified as Level 1 within the fair value measurement hierarchy. Investments in sponsored privately offered equity funds and portfolios that are not listed on an active exchange but have net asset values that are comparable to mutual funds and have no redemption restrictions are classified as Level 2 within the fair value measurement hierarchy.

Derivative instruments

Derivative instruments, which include foreign exchange contracts, stock index futures contracts, commodity futures contracts, interest rate futures contracts and total return swap contracts, are recorded as either other assets or other liabilities on the Company's Consolidated Balance Sheets. Foreign exchange contracts are valued by interpolating a value using the spot foreign exchange rate and forward points, which are based on spot rate and currency interest rate differentials. Stock index futures contracts, commodity futures contracts, interest rate futures contracts and total return swap contracts are valued using a third-party pricing service that determines fair value based on bid and ask prices. Derivative instruments generally are classified as Level 2 within the fair value measurement hierarchy.

Assets of consolidated CLO entity

Assets of the Company's consolidated CLO entity include investments in bank loans, debt securities, money market funds, equity securities and warrants. Fair value is determined utilizing unadjusted quoted market prices when available. Investments in money market funds are valued using published net asset values and are classified as Level 1 within the fair value measurement hierarchy. Debt securities, equity securities and warrants are valued using the same techniques as described above for trading securities. Interests in senior floating-rate loans for which reliable market quotations are readily available are valued generally at the average mid-point of bid and ask quotations obtained from a third-party pricing service. Fair value may also be based upon valuations obtained from independent third-party brokers or dealers utilizing matrix pricing models that consider information regarding securities with similar characteristics. In certain instances, fair value has been determined utilizing discounted cash flow analyses or single broker non-binding quotes. Depending on the nature of the inputs, these assets are classified as Level 1, 2 or 3 within the fair value measurement hierarchy.

Securities sold, not yet purchased

Securities sold, not yet purchased, are recorded as other liabilities on the Company's Consolidated Balance Sheets and are valued by a third-party pricing service that determines fair value based on bid and ask prices. Securities sold, not yet purchased, generally are classified as Level 2 within the fair value measurement hierarchy.

Liabilities of consolidated CLO entity

Liabilities of the Company's consolidated CLO entity include debt securities and senior and subordinated note obligations. Debt securities are valued based upon quoted prices for identical or similar liabilities that are not active and inputs other than quoted prices that are observable or corroborated by observable market data. Senior and subordinated notes are valued utilizing an income-approach model in which one or more significant inputs are unobservable in the market. A full description of the valuation technique is included below within the valuation process disclosure. Depending on the nature of the inputs, these liabilities are classified as Level 2 or 3 within the fair value measurement hierarchy.

Transfers in and out of Levels

The following table summarizes fair value transfers between Level 1 and Level 2 of the fair value measurement hierarchy for the three and six months ended April 30, 2015 and 2014:

	Three Months Ended		Six Months Ended

Substantially all net gains (losses) on investments and note obligations and redeemable preferred shares
(1) attributable to the assets and borrowings of the Company's consolidated CLO entities are allocated to
non-controlling and other beneficial interests on the Company's Consolidated Statements of Income.

(2) Represents the Company's subordinated interest, which was previously eliminated in consolidation. The Company
sold its interest in the first quarter of fiscal 2015. Refer to Note 8.

(3) Transfers out of Level 3 into Level 2 of the fair value measurement hierarchy were due to an increase in the
observability of inputs used in determining the fair value of certain investments.

The following table shows the valuation technique and significant unobservable inputs utilized in the fair value measurement of Level 3 liabilities of the consolidated CLO entity at April 30, 2015 and October 31, 2014:

April 30, 2015 (\$ in thousands)	Fair Value	Valuation Technique	Unobservable Inputs ⁽¹⁾	Value/ Range
			Prepayment rate	30 percent
			Recovery rate	70 percent
			Default rate	200 bps

Senior and subordinated note obligations \$ 123,231 Income-approach Discount rate 75-260 bps

October 31, 2014 (\$ in thousands)	Fair Value	Valuation Technique	Unobservable Inputs ⁽¹⁾	Value/ Range
			Prepayment rate	30 percent
			Recovery rate	70 percent
			Default rate	200 bps
Senior and subordinated note obligations	\$ 149,310	Income-approach	Discount rate	75-250 bps

Discount rate refers to spread over LIBOR. Lower spreads relate to the more senior tranches in the CLO note structure; higher spreads relate to the less senior tranches. The default rate refers to the constant annual default (1) rate. The recovery rate is the expected recovery of defaulted amounts received through asset sales, recovery through bankruptcy restructuring or other settlement processes. The prepayment rate is the rate at which the underlying collateral is expected to repay principal.

Valuation process

Senior and subordinated note obligations of the Company's consolidated CLO entity are issued in various tranches with different risk profiles. The notes are valued on a quarterly basis by the Company's bank loan investment team utilizing an income-approach that projects the cash flows of the collateral assets using the team's projected default rate, prepayment rate, recovery rate and discount rate, as well as observable assumptions about market yields, collateral reimbursement assumptions, callability and other market factors that vary based on the nature of the investments in the underlying collateral pool. Once the undiscounted cash flows of the collateral assets have been determined, the bank loan team applies appropriate discount rates that it believes a reasonable market participant would use to determine the discounted cash flow valuation of the notes. The bank loan team routinely monitors market conditions and model inputs for cyclical and secular changes in order to identify any material factors that could influence the Company's valuation method. The bank loan team reports directly to the Chief Income Investment Officer.

Sensitivity to changes in significant unobservable inputs

For senior and subordinated notes issued by the Company's consolidated CLO entity, increases (decreases) in discount rates, default rates or prepayment rates in isolation would result in lower (higher) fair value measurements, while increases (decreases) in recovery rates in isolation would result in higher (lower) fair value measurements. Generally, a change in the assumption used for the probability of default is accompanied by a directionally similar change in the assumption used for discount rates and a directionally opposite change in the assumptions used for prepayment and recovery rates.

Although the Company believes the valuation methods described above are appropriate, the use of different methodologies or assumptions to determine fair value could result in different estimates of fair value at the reporting date.

6. Derivative Financial Instruments

Derivative financial instruments designated as cash flow hedges

During both the three months ended April 30, 2015 and 2014, the Company reclassified into interest expense \$50,000 of deferred gains related to a forward-starting interest rate swap entered into in connection with the offering of its 3.625 percent unsecured senior notes due June 15, 2023 (“2023 Senior Notes”). During both the six months ended April 30, 2015 and 2014, the Company reclassified into interest expense \$0.1 million of this deferred gain. At April 30, 2015, the remaining unamortized gain on this transaction was \$1.6 million. During the next twelve months, the Company expects to reclassify approximately \$0.2 million of the gain into interest expense.

During both the three months ended April 30, 2015 and 2014, the Company reclassified into interest expense \$56,000 of deferred losses related to a Treasury lock transaction entered into in connection with the issuance of its 6.5 percent unsecured senior notes due October 2, 2017 ("2017 Senior Notes"). During both the six months ended April 30, 2015 and 2014, the Company reclassified into interest expense \$0.1 million of deferred losses on this Treasury lock. At April 30, 2015, the remaining unamortized loss on this transaction was \$0.5 million. During the next twelve months, the Company expects to reclassify approximately \$0.2 million of the loss on the Treasury lock transaction into interest expense.

Other derivative financial instruments not designated for hedge accounting

The Company has entered into a series of foreign exchange contracts, stock index futures contracts, commodity futures contracts, interest rate futures contracts and total return swap contracts to hedge currency risk exposure and market risk associated with its investments in certain sponsored funds and separately managed accounts seeded for new product development purposes. Certain of the consolidated sponsored funds and separately managed accounts may utilize derivative financial instruments within their portfolios in pursuit of their stated investment objectives.

At April 30, 2015 and October 31, 2014, excluding derivative financial instruments held in certain consolidated sponsored funds and separately managed accounts, the Company had 36 and 39 foreign exchange contracts outstanding with four counterparties with an aggregate notional value of \$31.9 million and \$16.8 million, respectively; 1,684 and 2,091 stock index futures contracts outstanding with one counterparty with an aggregate notional value of \$158.4 million and \$177.3 million, respectively; 361 and 566 commodity futures contracts outstanding with one counterparty with an aggregate notional value of \$21.0 million and \$32.3 million, respectively; and 52 and 122 interest rate futures contracts outstanding with one counterparty with an aggregate notional value of \$5.4 million and \$12.4 million, respectively. At April 30, 2015, the Company had three total return swap contracts outstanding with one counterparty with an aggregate notional value of \$31.0 million. As of October 31, 2014, the Company did not have any total return swap contracts outstanding. The number of derivative contracts outstanding and the notional values they represent at April 30, 2015 and October 31, 2014 are indicative of derivative balances throughout each respective period.

The following tables present the fair value of derivative financial instruments, excluding derivative financial instruments held in certain consolidated sponsored funds and separately managed accounts, not designated as hedging instruments as of April 30, 2015 and October 31, 2014:

7.Fair Value Measurements of Other Financial Instruments

Certain financial instruments are not carried at fair value, but their fair value is required to be disclosed. The following is a summary of the carrying amounts and estimated fair values of these financial instruments at April 30, 2015 and October 31, 2014:

(in thousands)	April 30, 2015			October 31, 2014		
	Carrying Value	Fair Value	Fair Value Level	Carrying Value	Fair Value	Fair Value Level
Investments, other	\$2,947	\$2,947	3	\$2,947	\$2,947	3
Other assets	\$6,853	\$6,853	3	\$7,363	\$7,363	3
Debt	\$573,733	\$613,514	2	\$573,655	\$611,015	2

Included in investments, other, is a non-controlling capital interest in Atlanta Capital Management Holdings, LLC (“ACM Holdings”) carried at \$1.3 million at April 30, 2015 and October 31, 2014. The carrying value of this investment approximates fair value. Fair value of this investment is determined using

a cash flow model that projects future cash flows based upon contractual obligations, to which the Company then applies an appropriate discount rate. The fair value of this investment falls within Level 3 of the fair value measurement hierarchy.

Included in other assets at April 30, 2015 and October 31, 2014 is an option exercisable in 2017 to acquire an additional 26 percent interest in Hexavest carried at \$6.9 million and \$7.4 million, respectively. The carrying value of this option approximates fair value. The fair value of this option is determined using a Monte Carlo model, which simulates potential future market multiples of earnings before interest and taxes (“EBIT”) and compares this to the contractually fixed multiple of Hexavest’s EBIT at which the option can be exercised. The Monte Carlo model uses this array of simulated multiples and their difference from the contractual multiple times the projected EBIT for Hexavest to estimate the future exercise value of the option, which is then adjusted to present value. The fair value of this investment falls within Level 3 of the fair value measurement hierarchy.

The fair value of the Company’s debt has been determined based on quoted prices in inactive markets and falls within Level 2 of the fair value measurement hierarchy.

8. VIEs

Investments in VIEs that are consolidated

Sponsored funds

The Company invests in investment companies that meet the definition of a VIE. Disclosure regarding such consolidated sponsored funds is included in Note 3. In the ordinary course of business, the Company may elect to contractually waive investment advisory fees that it is entitled to receive from sponsored funds. Such waivers are disclosed in Note 19.

Consolidated CLO entities

As of April 30, 2015, the Company deems itself to be the primary beneficiary of one non-recourse CLO entity, Eaton Vance CLO IX. In developing its initial conclusion that it is the primary beneficiary of Eaton Vance CLO IX, the Company determined that it had a more than insignificant variable interest in the entity by virtue of its 8 percent residual interest and the presence of an incentive collateral management fee, which combined exposed the Company to a more than insignificant amount of the entity’s variability relative to its anticipated economic performance. In its role as collateral manager of this entity, the Company has the power to direct the activities that most significantly impact the economic performance of the entity. The Company’s variable interest represents an obligation to absorb losses of, or a right to receive benefits from, the entity that could potentially be significant to the entity. In

consideration of these factors, the Company concluded that it is the primary beneficiary of Eaton Vance CLO IX for consolidation accounting purposes.

On November 13, 2014, the Company sold its residual 8 percent interest in Eaton Vance CLO IX to an unrelated third party and recognized a loss on disposal of \$0.3 million. The Company continues to serve as collateral manager of the entity and continues to hold variable interests in the entity in the form of collateral management fees. The Company concluded that it remains the primary beneficiary of the entity due to the significance of the variable interest represented by the incentive collateral management fee and, as a result, continues to consolidate Eaton Vance CLO IX subsequent to the disposition of its residual interest.

The significance of the Company's variable interest in Eaton Vance CLO IX is greater than the significance of the Company's investments in non-consolidated CLO entities in which the Company also holds variable interests and serves as collateral manager.

The assets of the consolidated CLO entity are held solely as collateral to satisfy the obligations of the entity. The Company has no right to the benefits from, nor does the Company bear the risks associated with, the assets held by this CLO entity beyond the Company's management fees generated therefrom. The note holders and other creditors of the CLO entity have no recourse to the Company's general assets. There are neither explicit arrangements nor does the Company hold implicit variable interests that would require the Company to provide any ongoing financial support to the entity.

Interest income and expense are recorded on an accrual basis and reported in gains and other investment income, net, and in interest and other expense, respectively, of the consolidated CLO entities in the Company's Consolidated Statements of Income for the three and six months ended April 30, 2015 and 2014. Substantially all ongoing gains (losses) related to the consolidated CLO entities' bank loans, other investments and note obligations and redeemable preferred shares recorded in earnings for the periods presented are attributable to changes in instrument-specific credit considerations.

Eaton Vance CLO IX

The Company irrevocably elected the fair value option for all financial assets and liabilities of Eaton Vance CLO IX upon its initial consolidation on November 1, 2010. The Company elected the fair value option to mitigate any accounting mismatches between the carrying value of the senior and subordinated note obligations of Eaton Vance CLO IX and the carrying value of the assets that are held to provide the cash flows supporting those note obligations. Unrealized gains and losses on assets and liabilities for which the fair value option has been elected are reported in gains and other investment income, net, of the consolidated CLO entities in the Company's Consolidated Statements of Income. Although the subordinated note obligations of Eaton Vance CLO IX have certain equity characteristics, the Company has determined that the subordinated notes should be recorded as liabilities on the Company's Consolidated Balance Sheets.

The following tables present, as of April 30, 2015 and October 31, 2014, the fair value of Eaton Vance CLO IX's assets and liabilities that are subject to fair value accounting:

April 30, 2015

(in thousands)	CLO Bank Loan Investments		
	Total CLO bank loan investments	90 days or more past due	Senior and subordinated note obligations

Fair value	\$ 141,441	\$ -	\$ 151,982

Changes in the fair values of Eaton Vance CLO IX's bank loans and other investments resulted in net gains (losses) of \$1.2 million and \$(0.7) million during the three months ended April 30, 2015 and 2014, respectively, while changes in the fair value of Eaton Vance CLO IX's note obligations resulted in net losses of \$0.2 million and \$0.3 million, respectively. The combined net gains (losses) of \$1.0 million and \$(1.0) million for the three months ended April 30, 2015 and 2014, respectively, were recorded in gains and other investment income, net, of consolidated CLO entities on the Company's Consolidated Statements of Income for those periods.

Changes in the fair values of Eaton Vance CLO IX's bank loans and other investments resulted in net losses of \$0.3 million and \$0.2 million during the six months ended April 30, 2015 and 2014, respectively, while changes in the fair value of Eaton Vance CLO IX's note obligations resulted in net gains (losses) of \$1.5 million and \$(1.3) million, respectively. The combined net gains (losses) of \$1.2 million and \$(1.5) million for the six months ended April 30, 2015 and 2014, respectively, were recorded in gains and other investment income, net, of consolidated CLO entities on the Company's Consolidated Statements of Income for those periods.

Eaton Vance CLO IX has note obligations that bear interest at variable rates based on LIBOR plus a pre-defined spread, ranging from 0.21 percent to 1.50 percent. The principal amounts outstanding of the note obligations issued by Eaton Vance CLO IX mature on April 20, 2019. It is expected that prepayments received will be used to pay down the entity's note obligations. During the six months ended April 30, 2015 and 2014, \$25.9 million and \$63.8 million, respectively, of prepayments were used to pay down the entity's note obligations. The holders of a majority of the subordinated notes have the option to liquidate Eaton Vance CLO IX, provided there is sufficient value in the entity's assets to repay the senior notes in full.

For the three months ended April 30, 2015 and 2014, the Company recorded net gains (losses) of \$1.5 million and \$(0.7) million, respectively, related to Eaton Vance CLO IX. The Company recorded net income (losses) attributable to other beneficial interests of \$1.3 million and \$(1.6) million for the three months ended April 30, 2015 and 2014, respectively. Net income attributable to Eaton Vance Corp. shareholders was \$0.2 million and \$0.9 million for the three months ended April 30, 2015 and 2014, respectively.

For the six months ended April 30, 2015 and 2014, the Company recorded net gains (losses) of \$1.6 million (including the loss on disposal of its subordinated interest of \$(0.3) million) and \$(0.4) million, respectively, related to Eaton Vance CLO IX. The Company recorded net income (losses) attributable to other beneficial interests of \$1.3 million and \$(2.2) million for the six months ended April 30, 2015 and 2014, respectively. Net income attributable to Eaton Vance Corp. shareholders was \$0.2 million and \$1.7 million for the six months ended April 30, 2015 and 2014, respectively.

The following carrying amounts related to Eaton Vance CLO IX were included in the Company's Consolidated Balance Sheets at April 30, 2015 and October 31, 2014:

(in thousands)	April 30, 2015	October 31, 2014
Assets:		
Cash and cash equivalents	\$5,259	\$8,963
Bank loans and other investments	124,445	147,116
Other assets	414	371
Liabilities:		
Senior and subordinated note obligations	125,913	151,982
Other liabilities	273	298
Appropriated retained earnings	3,808	2,467
Net interest in Eaton Vance CLO IX	\$124	\$1,703

The Company had a subordinated interest in Eaton Vance CLO IX of \$1.4 million as of October 31, 2014, which was eliminated in consolidation.

Eaton Vance CLO 2013-1

On May 1, 2014, the Company sold its 20 percent residual interest in Eaton Vance CLO 2013-1, which it had initially consolidated on October 11, 2013. Although the Company continues to serve as collateral manager of the entity and therefore has the power to direct the activities that most significantly impact the economic performance of the entity, the Company concluded that it was no longer the primary beneficiary of the entity upon disposition of its 20 percent residual interest, at which time the Company deconsolidated the entity.

During the six months ended April 30, 2014, approximately \$4.8 million of organizational and structuring costs associated with the closing of Eaton Vance CLO 2013-1 were recorded in interest and other expense of consolidated CLO entities in the Company's Consolidated Statement of Income.

Changes in the fair values of Eaton Vance CLO 2013-1's bank loans and other investments resulted in net losses of \$0.3 million and \$39,000 during the three and six months ended April 30, 2014, respectively, while changes in the fair value of Eaton Vance CLO 2013-1's note obligations resulted in net gains (losses) of \$(0.8) million and \$2.4 million during the three and six months ended April 30, 2014, respectively. The combined net gains (losses) of \$(1.1) million and \$2.4 million, respectively, for the three and six months ended April 30, 2014 were recorded in gains and other investment income, net, of consolidated CLO entities on the Company's Consolidated Statement of Income.

For the three and six months ended April 30, 2014, the Company recorded net income of \$1.5 million and \$2.0 million, respectively, related to Eaton Vance CLO 2013-1. The Company recorded net income attributable to other beneficial interests of \$0.8 million and \$1.1 million for the three and six months ended April 30, 2014. Net income attributable to Eaton Vance Corp. shareholders was \$0.7 million and \$0.9 million for the three and six months ended

April 30, 2014, respectively.

Investments in VIEs that are not consolidated

Sponsored funds

The Company classifies its investments in certain sponsored funds that are considered VIEs as either equity method investments (generally when the Company owns more than 20 percent but less than 50 percent of the fund) or as available-for-sale investments (generally when the Company owns less than 20 percent of the fund) when it is not considered the primary beneficiary of these VIEs. The Company provides aggregated disclosures with respect to these non-consolidated sponsored fund VIEs in Note 4.

Non-consolidated CLO entities

The Company is not deemed the primary beneficiary of several CLO entities in which it holds variable interests. In its role as collateral manager, the Company often has the power to direct the activities of the CLO entities that most significantly impact the economic performance of these entities. In developing its conclusion that it is not the primary beneficiary of these entities, the Company determined that, for certain of these entities, although it has variable interests in each by virtue of its residual interests therein and the collateral management fees it receives, its variable interests neither individually nor in the aggregate represent an obligation to absorb losses of or a right to receive benefits from any such entity that could potentially be significant to that entity. Quantitative factors supporting the Company's qualitative conclusion in each case included the relative size of the Company's residual interest (in all but one instance representing less than 6 percent of the residual interest tranche and less than 1 percent of the total capital of the entity) and the overall magnitude and design of the collateral management fees within each structure.

At April 30, 2015, the Company holds a 16.7 percent subordinated interest in a warehouse stage CLO, Eaton Vance CLO 2015-1, which it has not consolidated at April 30, 2015. The Company has determined that it does not hold the power to direct the activities that most significantly impact Eaton Vance CLO 2015-1 at April 30, 2015 because that power is shared with the majority holder of the equity.

Non-consolidated CLO entities had total assets of \$2.3 billion and \$2.4 billion as of April 30, 2015 and October 31, 2014, respectively. The Company's variable interests in these entities consist of the Company's direct ownership in these entities and any collateral management fees earned but uncollected. The Company's investment in these entities totaled \$7.8 million and \$4.0 million as of April 30, 2015 and October 31, 2014, respectively. Collateral management fees receivable for these entities totaled \$1.9 million and \$2.6 million on April 30, 2015 and October 31, 2014, respectively. In the first six months of fiscal 2015, the Company did not provide any financial or other support to these entities that it was not previously contractually required to provide. The Company's risk of loss with respect to these managed CLO entities is limited to the carrying value of its investments in, and collateral management fees receivable from, these entities as of April 30, 2015.

The Company's investment in non-consolidated CLO entities is carried at amortized cost and is disclosed as a component of investments in Note 4. Income from these entities is recorded as a component of gains and other investment income, net, in the Company's Consolidated Statements of Income, based upon projected investment yields.

Other entities

The Company holds variable interests in, but is not deemed to be the primary beneficiary of, certain sponsored privately offered equity funds with total assets of \$12.0 billion and \$11.3 billion as of April 30, 2015 and October 31, 2014, respectively. The Company has determined that these entities qualify for the deferral to certain provisions of FASB ASC Subtopic 810-10 – *Consolidation – Overall*, afforded by ASU 2010-10, *Consolidation – Amendments for Certain Investment Funds* (the "Investment Company deferral") and thus determines whether it is the primary

beneficiary of these entities by virtue of its exposure to the expected losses and expected residual returns of the entity. The Company's variable interests in these entities consist of the Company's direct ownership therein, which in each case is insignificant relative to the total ownership of the fund, and any investment advisory fees earned but uncollected. The Company held investments in these entities totaling \$6.9 million and \$6.6 million on April 30, 2015 and October 31, 2014, respectively, and investment advisory fees receivable totaling \$0.6 million on both April 30, 2015 and October 31, 2014. In the first six months of fiscal 2015, the Company did not provide any financial or other support to these entities that it was not contractually required to provide. The Company's risk of loss with respect to these managed entities is limited to the carrying value of its investments in, and investment

advisory fees receivable from, the entities as of April 30, 2015. The Company does not consolidate these VIEs because it does not hold the majority of the risks and rewards of ownership.

The Company's investments in privately offered equity funds are carried at fair value and included in investment securities, available-for-sale, which are disclosed as a component of investments in Note 4. The Company records any change in fair value, net of income tax, in other comprehensive income (loss).

9. Acquisitions

Atlanta Capital Management, LLC ("Atlanta Capital")

In the fourth quarter of fiscal 2014, the non-controlling interest holders of Atlanta Capital exercised a put option related to the original acquisition in fiscal 2001 requiring the Company to purchase an additional 1.3 percent profit interest and a 0.1 percent capital interest in Atlanta Capital for \$6.6 million. The purchase price of this transaction was based on a multiple of Atlanta Capital's earnings before taxes for the fiscal year ended October 31, 2014. The transaction settled in the first quarter of fiscal 2015.

Also in the fourth quarter of fiscal 2014, an Atlanta Capital employee executed a put right related to indirect profit units issued pursuant to the Atlanta Capital Management, LLC Long-term Equity Incentive Plan (the "Atlanta Capital Plan"), requiring the Company to purchase an additional 0.3 percent profit interest in Atlanta Capital for \$0.3 million. The transaction settled in the first quarter of fiscal 2015.

Total profit interests in Atlanta Capital held by non-controlling interest holders, including direct profit interests related to the original acquisition as well as indirect profit interests issued pursuant to the Atlanta Capital Plan, were 13.3 percent on April 30, 2015, reflecting the put transactions described above as well as the grant of an additional 1.1 percent profit interest to employees of Atlanta Capital pursuant to the terms of the Atlanta Capital Plan in the first quarter of fiscal 2015. Non-controlling interest holders did not hold any capital interests in Atlanta Capital as of April 30, 2015.

Parametric Portfolio Associates ("Parametric")

In the first quarter of fiscal 2015, certain non-controlling interest holders of Parametric exercised a put option and the Company exercised a call option related to non-controlling interests in Parametric issued in conjunction with the Clifton acquisition that resulted in the Company's overall acquisition of an additional 0.5 percent profit interest and a 0.5 percent capital interest in Parametric for \$6.7 million. These transactions settled in the first quarter of fiscal 2015.

In the fourth quarter of fiscal 2014, certain employees of Parametric executed a put right related to indirect profit units issued pursuant to the Parametric Portfolio Associates LLC Long-term Equity Incentive Plan (the “Parametric Plan”), requiring the Company to purchase an additional 0.5 percent profit interest in Parametric. The transaction settled in the first quarter of fiscal 2015 for \$5.7 million.

Total profit and capital interests in Parametric held by non-controlling interest holders were 7.4 percent and 2.2 percent, respectively, as of April 30, 2015, reflecting the execution of the put and call transactions described above as well as the grant of an additional 0.5 percent profit interest to employees of Parametric pursuant to the terms of the Parametric Plan in the first quarter of fiscal 2015.

Tax Advantaged Bond Strategies (“TABS”)

In fiscal 2009, the Company acquired the TABS business of M.D. Sass Investors Services for cash and future consideration. During the second quarter of fiscal 2015, the Company made a contingent payment of \$9.1 million to the selling group based upon prescribed multiples of TABS’s revenue for the twelve months ended December 31, 2014. The payment increased goodwill by \$9.1 million as the acquisition was completed prior to the change in accounting for contingent purchase price consideration. The Company is

obligated to make two additional annual contingent payments to the selling group based on prescribed multiples of TABS's revenue for the twelve months ending December 31, 2015 and 2016. All future payments will be in cash and will result in an addition to goodwill. These payments are not contingent upon any member of the selling group remaining an employee of the Company.

10. Intangible Assets

The following is a summary of intangible assets at April 30, 2015 and October 31, 2014:

Phantom Stock Units

During the six months ended April 30, 2015, 6,980 phantom stock units were issued to non-employee Directors pursuant to the Company's 2013 Omnibus Incentive Plan. As of April 30, 2015, there was \$0.3 million of compensation cost related to unvested awards granted under the Omnibus Incentive Plans not yet recognized. That cost is expected to be recognized over a weighted-average period of 1.3 years.

12. Common Stock Repurchases

The Company's current Non-Voting Common Stock share repurchase program was announced on April 15, 2015. The Board authorized management to repurchase and retire up to 8.0 million shares of its Non-Voting Common Stock on the open market and in private transactions in accordance with applicable securities laws. The timing and amount of share purchases are subject to management's discretion. The Company's share repurchase program is not subject to an expiration date.

In the first six months of fiscal 2015, the Company purchased and retired approximately 0.4 million shares of its Non-Voting Common Stock under the current repurchase authorization and approximately 2.6 million shares under a previous repurchase authorization. Approximately 7.6 million additional shares may be repurchased under the current repurchase authorization as of April 30, 2015.

13. Non-operating Income (Expense)

The components of non-operating income (expense) for the three and six months ended April 30, 2015 and 2014 were as follows:

14. Income Taxes

The provision for income taxes was \$43.9 million and \$45.2 million, or 37.6 percent and 38.3 percent of pre-tax income, for the three months ended April 30, 2015 and 2014, respectively. The provision for income taxes was \$60.7 million and \$89.9 million, or 37.2 percent and 38.1 percent of pre-tax income, for the six months ended April 30, 2015 and 2014, respectively. The provision for income taxes in the three and six months ended April 30, 2015 and 2014 is comprised of federal, state, and foreign taxes. The differences between the Company's effective tax rate and the statutory federal rate of 35.0 percent are state income taxes, income and losses recognized by the consolidated CLO entities and other non-controlling interests, and the tax benefit of disqualifying dispositions of incentive stock options.

The Company records a valuation allowance when necessary to reduce deferred tax assets to an amount that is more likely than not to be realized. There was no valuation allowance recorded as of April 30, 2015 or October 31, 2014.

The Company considers the undistributed earnings of its Canadian and Australian subsidiaries as of April 30, 2015 to be indefinitely reinvested in foreign operations. Accordingly, no U.S. income taxes have been provided thereon. As of April 30, 2015, the Company had approximately \$27.1 million of undistributed earnings in our Canadian and Australian subsidiaries that are not available to fund domestic operations or to distribute to shareholders unless repatriated. Repatriation would require the Company to accrue and pay U.S. corporate income taxes. The unrecognized deferred income tax liability on this temporary difference is estimated to be \$3.1 million. The Company does not have a current plan to repatriate these funds.

The Company is generally no longer subject to income tax examinations by U.S. federal, state, local or non-U.S. taxing authorities for fiscal years prior to fiscal 2010.

15. Non-controlling and Other Beneficial Interests

The components of net income attributable to non-controlling and other beneficial interests for the three and six months ended April 30, 2015 and 2014 were as follows:

Amounts reclassified from accumulated other comprehensive income (loss), net of tax, represent the amortization of (1) net gains (losses) on interest rate swaps over the life of the Company's Senior Notes into interest expense on the Consolidated Statements of Income.

Amounts reclassified from accumulated other comprehensive income (loss), net of tax, represent gains (losses) on (2) disposal of available-for-sale securities and were recorded in gains (losses) and other investment income, net, on the Consolidated Statements of Income.

17. Earnings per Share

The following table sets forth the calculation of earnings per basic and diluted share for the three and six months ended April 30, 2015 and 2014 using the two-class method:

(in thousands, except per share data)	Three Months Ended April 30,		Six Months Ended April 30,	
	2015	2014	2015	2014
Net income attributable to Eaton Vance Corp. shareholders	\$70,384	\$74,901	\$99,387	\$146,259
Less: Allocation of earnings to participating restricted shares	1,152	1,825	1,735	3,745
Net income available to common shareholders	\$69,232	\$73,076	\$97,652	\$142,514
Weighted-average shares outstanding – basic	114,415	118,103	114,326	118,060
Incremental common shares	5,315	4,918	5,222	5,504
Weighted-average shares outstanding – diluted	119,730	123,021	119,548	123,564
Earnings per share:				
Basic	\$0.61	\$0.62	\$0.85	\$1.21
Diluted	\$0.58	\$0.59	\$0.82	\$1.15

Antidilutive common shares related to stock options and unvested restricted stock excluded from the computation of earnings per diluted share were approximately 7.5 million and 5.0 million for the three months ended April 30, 2015 and 2014, respectively, and approximately 7.7 million and 5.0 million for the six months ended April 30, 2015 and 2014, respectively.

18. Commitments and Contingencies

In the normal course of business, the Company enters into agreements that include indemnities in favor of third parties, such as engagement letters with advisors and consultants, information technology agreements, distribution agreements and service agreements. In certain circumstances, these indemnities in favor of third parties relate to service agreements entered into by investment funds managed and/or advised by Eaton Vance Management or Boston Management and Research, both wholly owned subsidiaries of the Company. The Company has also agreed to indemnify its directors, officers and employees in accordance with the Company's Articles of Incorporation, as amended. Certain agreements do not contain any limits on the Company's liability and, therefore, it is not possible to estimate the Company's potential liability under these indemnities. In certain cases, the Company has recourse against third parties with respect to these indemnities. Further, the Company maintains insurance policies that may provide coverage against certain claims under these indemnities.

The Company and its subsidiaries are subject to various legal proceedings. In the opinion of management, after discussions with legal counsel, the ultimate resolution of these matters will not have a material effect on the consolidated financial condition, results of operations or cash flows of the Company.

The Company has entered into transactions in financial instruments in which it has sold securities, not yet purchased, as part of its corporate hedging program. As of April 30, 2015, the Company has \$4.4 million included within other liabilities on its Consolidated Balance Sheet related to securities sold, not yet purchased.

19. Related Party Transactions

Sponsored Funds

The Company is an investment adviser to, and has administrative agreements with, certain sponsored funds, privately offered equity funds and closed-end funds for which certain employees are officers and/or

directors. Revenues for services provided or related to these funds for the three and six months ended April 30, 2015 and 2014 are as follows:

(in thousands)	Three Months Ended April 30,		Six Months Ended April 30,	
	2015	2014	2015	2014
Investment advisory and administrative fees	\$215,371	\$219,650	\$437,392	\$444,896
Distribution fees	18,233	19,058	37,140	38,867
Service fees	28,461	30,829	58,308	63,120
Shareholder services fees	585	634	1,417	1,239
Other revenue	885	352	1,315	732
Total	\$263,535	\$270,523	\$535,572	\$548,854

For the three months ended April 30, 2015 and 2014, the Company had investment advisory agreements with certain sponsored funds pursuant to which the Company contractually waived \$3.1 million and \$2.8 million of investment advisory fees it was otherwise entitled to receive, respectively. For the six months ended April 30, 2015 and 2014, the Company waived \$6.5 million and \$5.5 million, respectively, of investment advisory fees it was otherwise entitled to receive.

Sales proceeds and net realized gains (losses) for three and six months ended April 30, 2015 and 2014 from investments in sponsored funds classified as available-for-sale, including sponsored funds accounted for under the equity method, are as follows:

(in thousands)	Three Months Ended April 30,		Six Months Ended April 30,	
	2015	2014	2015	2014
Proceeds from sales	\$20,851	\$48,307	\$32,047	\$63,851
Net realized gains (losses)	297	(399)	341	(336)

The Company bears the non-advisory expenses of certain sponsored funds for which it earns an all-in management fee and provides subsidies to startup and other smaller sponsored funds to enhance their competitiveness. For the three months ended April 30, 2015 and 2014, expenses of \$5.5 million and \$5.0 million, respectively, were incurred by the Company pursuant to these arrangements. For the six months ended April 30, 2015 and 2014, expenses of \$10.5 million and \$10.3 million were incurred by the Company pursuant to these arrangements.

Included in investment advisory fees and other receivables at April 30, 2015 and October 31, 2014 are receivables due from sponsored funds of \$92.7 million and \$94.5 million, respectively.

Employee Loan Program

The Company has established an Employee Loan Program under which a program maximum of \$20.0 million is available for loans to officers (other than executive officers) and other key employees of the Company for purposes of financing the exercise of employee stock options. Loans outstanding under this program, which are full recourse in nature, are reflected as notes receivable from stock option exercises in shareholders' equity and amounted to \$9.2 million and \$8.8 million at April 30, 2015 and October 31, 2014, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Item includes statements that are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, intentions or strategies regarding the future. All statements, other than statements of historical facts, included in this Form 10-Q regarding our financial position, business strategy and other plans and objectives for future operations are forward-looking statements. The terms “may,” “will,” “could,” “anticipate,” “plan,” “continue,” “project,” “intend,” “estimate,” “believe,” “expect” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such words. Although we believe that the assumptions and expectations reflected in such forward-looking statements are reasonable, we can give no assurance that they will prove to have been correct or that we will take any actions that may now be planned. Certain important factors that could cause actual results to differ materially from our expectations are disclosed in the “Risk Factors” in Item 1A in our latest Annual Report on Form 10-K. All subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by such factors. We do not assume any obligation to update any forward-looking statements. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The discussion and analysis below should be read in conjunction with the consolidated financial statements appearing elsewhere in this report. Management has presumed that the readers of this interim financial information have read or have access to Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in our Annual Report on Form 10-K for the year ended October 31, 2014.

General

Our principal business is managing investment funds and providing investment management and advisory services to high-net-worth individuals and institutions. Our core strategy is to develop and sustain management expertise across a range of investment disciplines and to offer leading investment products and services through multiple distribution channels. In executing this strategy, we have developed broadly diversified investment management capabilities and a highly functional marketing, distribution and customer service organization. Although we manage and distribute a wide range of investment products and services, we operate in one business segment, namely as an investment adviser to funds and separate accounts.

Through our subsidiaries Eaton Vance Management (“EVM”) and Atlanta Capital Management, LLC (“Atlanta Capital”) and other affiliates, we manage active equity, income and alternative strategies across a range of investment styles and asset classes, including U.S. and global equities, floating-rate bank loans, municipal bonds, global income, high-yield and investment grade bonds. Through our subsidiary Parametric Portfolio Associates LLC (“Parametric”), we manage a range of engineered alpha strategies, including systematic equity, systematic alternatives and managed options

strategies. Through Parametric, we also provide portfolio implementation services, including tax-managed core and specialty index strategies and centralized portfolio management of multi-manager portfolios, and customized exposure management services. We also oversee the management of, and distribute, investment funds sub-advised by third-party managers, including global, regional and sector equity, commodity and asset allocation strategies. Our breadth of investment management capabilities supports a wide range of products and services offered to fund shareholders, retail managed account investors, institutional investors and high-net-worth clients. Our equity strategies encompass a diversity of investment objectives, risk profiles, income levels and geographic representation. Our income investment strategies cover a broad duration and credit quality range and encompass both taxable and tax-free investments. We also offer a range of alternative investment strategies, including commodity- and currency-based investments and a spectrum of absolute return strategies. As of April 30, 2015, we had \$311.0 billion in consolidated assets under management.

Our principal retail marketing strategy is to distribute funds and separately managed accounts principally through financial intermediaries in the advisory channel. We have a broad reach in this marketplace, with distribution partners including national and regional broker-dealers, independent broker-dealers, registered investment advisors, banks and insurance companies. We support these distribution partners with a team of approximately 130 sales professionals covering U.S. and international markets.

We also commit significant resources to serving institutional and high-net-worth clients who access investment management services on a direct basis. Through our wholly owned affiliates and consolidated subsidiaries, we manage investments for a broad range of clients in the institutional and high-net-worth marketplace in the U.S. and internationally, including corporations, sovereign wealth funds, endowments, foundations, family offices and public and private employee retirement plans.

Our revenue is derived primarily from investment advisory, administrative, distribution and service fees received from Eaton Vance funds and investment advisory fees received from separate accounts. Our fees are based primarily on the value of the investment portfolios we manage and fluctuate with changes in the total value and mix of assets under management. As a matter of course, investors in our sponsored open-end funds and separate accounts have the ability to redeem their investments at any time, without prior notice, and there are no material restrictions that would prevent them from doing so. Our major expenses are employee compensation, distribution-related expenses, facilities expense and information technology expense.

Our discussion and analysis of our financial condition and results of operations is based upon our Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to goodwill and intangible assets, income taxes, investments and stock-based compensation. We base our estimates on historical experience and on various assumptions that we believe to be reasonable under current circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

Business Developments

Prevailing equity and income market conditions and investor sentiment affect the sales and redemptions of our investment products, managed asset levels, operating results and the recoverability of our investments. For the second quarter and first six months of fiscal 2015, the S&P 500 Index, a broad measure of U.S. equity market performance, had total returns of 4.5% and 3.3%, respectively. Over the same periods, the Barclays U.S. Aggregate Bond Index, a broad measure of U.S. bond market performance, had total returns of -0.8% and 2.1%, respectively.

Our ending consolidated assets under management increased by \$15.4 billion, or 5 percent, from the end of the prior quarter to \$311.0 billion on April 30, 2015, reflecting market appreciation and net inflows. Consolidated net inflows of \$6.8 billion in the second quarter of fiscal 2015 represent a 9 percent annualized internal growth rate. For comparison, the Company had consolidated net outflows of \$0.9 billion in the second quarter of fiscal 2014. Average consolidated assets under management increased from the prior quarter by 2 percent, or \$5.9 billion, to \$303.4 billion in the second quarter of fiscal 2015.

The primary drivers of our average effective fee rates are the mix of our assets by product, distribution channel and investment mandate, and the timing and amount of performance fees recognized. Shifts in managed assets among products, distribution channels and investment mandates with differing fee schedules can alter the average effective fee rates earned on our assets under management. Our overall average annualized effective fee rate decreased to 46 basis points and 47 basis points in the second quarter and first six months of fiscal 2015,

respectively, from 50 basis points in both the second quarter and first six months of fiscal 2014. Our average annualized effective investment advisory and administrative fee rate similarly decreased to 40 basis points in both the second quarter and first six months of fiscal 2015 from 42 and 43 basis points in the second quarter and first six months of last year, respectively.

On December 2, 2014, the U.S. Securities and Exchange Commission (“SEC”) granted Eaton Vance exemptive relief to permit the offering of NextShares™, a proposed new type of actively managed exchange-traded product for which the Company is pursuing development. The Company’s commercialization plan includes the launch of a series of NextShares funds that substantially replicate the strategies of existing Eaton Vance mutual funds and licensing the associated intellectual property and providing related services to other fund sponsors to support their launch of NextShares funds. During the second quarter of fiscal 2015, the Company and its wholly owned subsidiary Navigate Fund Solutions LLC (“Navigate”) made progress advancing NextShares toward market introduction. In April 2015, the Company filed amended registration statements with the SEC for 18 initial Eaton Vance NextShares funds and the NASDAQ Stock Exchange LLC filed with the SEC a request to list and trade each of the 18 funds. Navigate has to date entered into preliminary licensing and service agreements with 11 fund advisers, including Eaton Vance. Conditional upon the timing of final regulatory approvals and market readiness, the Company is targeting launch of the initial NextShares funds in the second half of calendar 2015.

Consolidated Assets under Management

Consolidated assets under management of \$311.0 billion on April 30, 2015 increased \$25.2 billion, or 9 percent, from the \$285.9 billion reported a year earlier. Fund net outflows of \$5.3 billion over the last twelve months reflect gross inflows \$32.9 billion offset by outflows of \$38.2 billion. Institutional separate account net inflows were \$13.8 billion, high-net-worth separate account net inflows were \$1.5 billion and retail managed account net inflows were \$2.9 billion over the past twelve months. Net price appreciation in managed assets increased assets under management by \$12.3 billion over the last twelve months.

We report managed assets and flow data by investment mandate. In the first quarter of fiscal 2015, we provided an additional breakout of our assets and flows, separating “Exposure Management” from “Portfolio Implementation.” This separation better highlights the distinctive aspects of these growing business lines. The “Portfolio Implementation” category includes Parametric’s tax-managed core and specialty index strategies and centralized portfolio management services. The “Exposure Management” category includes Parametric’s futures and options-based overlay services.

Consolidated average assets under management presented in the following table represent a monthly average by asset class. This table is intended to provide information useful in the analysis of our asset-based revenue and distribution expenses. Separate account investment advisory fees are generally calculated as a percentage of either beginning, average or ending quarterly assets. Fund investment advisory, administrative, distribution and service fees, as well as certain expenses, are generally calculated as a percentage of average daily assets.

Results of Operations

In evaluating operating performance, we consider net income attributable to Eaton Vance Corp. shareholders and earnings per diluted share, which are calculated on a basis consistent with U.S. GAAP, as well as adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share, both of which are internally derived non-U.S. GAAP performance measures.

We define adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share as net income attributable to Eaton Vance Corp. shareholders and earnings per diluted share, respectively, adjusted to exclude changes in the estimated redemption value of non-controlling interests redeemable at other than fair value ("non-controlling interest value adjustments"), closed-end fund structuring fees, payments to end service and additional

compensation arrangements in place for certain Eaton Vance closed-end funds and other items management deems non-recurring (such as the impact of special dividends, costs associated with the extinguishment of debt and tax settlements) or non-operating in nature. Adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share should not be construed to be a substitute for, or superior to, net income attributable to Eaton Vance Corp. shareholders and earnings per diluted share computed in accordance with U.S. GAAP. We provide disclosures of adjusted net income attributable to

Eaton Vance Corp. shareholders and adjusted earnings per diluted share to reflect the fact that our management and Board of Directors consider these adjusted numbers a measure of the Company's underlying operating performance.

The following table provides a reconciliation of net income attributable to Eaton Vance Corp. shareholders and earnings per diluted share to adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share, respectively, for the three and six months ended April 30, 2015 and 2014:

⁽²⁾ Reflects a \$73.0 million payment, net of tax, to end certain fund service and additional compensation arrangements for certain Eaton Vance closed-end funds.

We reported net income attributable to Eaton Vance Corp. shareholders of \$70.4 million, or \$0.58 per diluted share, in the second quarter of fiscal 2015 compared to net income attributable to Eaton Vance Corp. shareholders of \$74.9 million, or \$0.59 per diluted share, in the second quarter of fiscal 2014. We reported adjusted net income attributable to Eaton Vance Corp. shareholders of \$70.4 million, or \$0.58 per diluted share, in the second quarter of fiscal 2015 compared to adjusted net income attributable to Eaton Vance Corp. shareholders of \$74.9 million, or \$0.59 per diluted share, in the second quarter of fiscal 2014. The change in net income attributable to Eaton Vance Corp. shareholders can be primarily attributed to the following:

- A decrease in revenue of \$2.4 million, or 1 percent, primarily reflecting a decrease in our annualized effective fee rate to 46 basis points from 50 basis points due to a shift in product mix, partially offset by a 7 percent increase in

average assets under management.

Substantially unchanged expenses, reflecting increases in compensation, fund-related and other operating expenses, offset by lower distribution and service fee expenses and reduced amortization of deferred sales commissions.

A \$1.1 million improvement in gains (losses) and other investment income, net, primarily reflecting an increase in interest income.

A \$0.7 million improvement in income (expense) of the Company's consolidated collateralized loan obligation ("CLO") entities, reflecting a decrease in interest and other expense, offset by a decrease in gains and other investment income, net.

A decrease in income taxes of \$1.4 million, or 3 percent, reflecting a decrease in the Company's income before taxes. Consolidated CLO entity income that is allocated to other beneficial interest holders is not subject to tax in the Company's provision.

A decrease in equity in net income of affiliates, net of tax, of \$2.3 million, primarily reflecting a decrease in the Company's proportionate net interest of sponsored funds accounted for under the equity method.

A \$2.4 million increase in net income attributable to non-controlling and other beneficial interest holders, primarily reflecting an increase in net income attributable to non-controlling interest holders of the Company's CLO entities.

Weighted average diluted shares outstanding decreased by 3.3 million shares, or 3 percent, from the second quarter of fiscal 2014. The change primarily reflects the impact of share repurchases over the last twelve months.

We reported net income attributable to Eaton Vance Corp. shareholders of \$99.4 million, or \$0.82 per diluted share, in the first six months of fiscal 2015 compared to net income attributable to Eaton Vance Corp. shareholders of \$146.3 million, or \$1.15 per diluted share, in the first six months of fiscal 2014. We reported adjusted net income attributable to Eaton Vance Corp. shareholders of \$144.5 million, or \$1.19 adjusted earnings per diluted share, in the first six months of fiscal 2015 compared to adjusted net income attributable to Eaton Vance Corp. shareholders of \$148.6 million, or \$1.17 adjusted earnings per diluted share, in the first six months of fiscal 2014. The change in net income attributable to Eaton Vance Corp. shareholders can be primarily attributed to the following:

A decrease in revenue of \$7.7 million, or 1 percent, primarily reflecting a decrease in our annualized effective fee rate to 47 basis points from 50 basis points due to a shift in product mix, partially offset by a 6 percent increase in average assets under management.

An increase in expenses of \$69.0 million, or 15 percent, primarily reflecting the payment of \$73 million to terminate certain closed-end fund service and additional compensation arrangements in the first quarter of fiscal 2015.

Excluding this payment, expenses decreased \$4.0 million, or 1 percent, reflecting decreases in distribution and service fees and reduced amortization of deferred sales commissions, offset by increases in compensation, fund-related expenses and other corporate expenses.

A positive change of \$3.5 million in gains (losses) and other investment income, net, primarily due to an increase in interest income and foreign currency gains.

A decrease in income taxes of \$29.2 million, or 33 percent, reflecting a decrease in the Company's income before taxes.

A decrease in equity in net income of affiliates, net of tax, of \$2.4 million, primarily reflecting a decrease in the Company's proportionate net interest in earnings of sponsored funds accounted for under the equity method.

An increase in net income attributable to non-controlling and other beneficial interest holders of \$0.5 million, primarily reflecting an increase in net income attributable to non-controlling interest holders of the Company's CLO entities, offset by a decrease in the annual adjustment made to the estimated redemption value of non-controlling interests in the Company's majority-owned subsidiaries and a decrease in net income attributable to non-controlling

interest holders in the Company's consolidated funds.

Weighted average diluted shares outstanding decreased by 4.0 million shares, or 3 percent, in the first six months of fiscal 2015 over the first six months of fiscal 2014. The change primarily reflects the impact of share repurchases.

Revenue

Our overall average annualized effective fee rate (total revenue, excluding other revenue, as a percentage of average assets under management) was 46 basis points and 47 basis points in the second quarter and first six months of fiscal 2015, respectively, compared to 50 basis points in both the second quarter and first six months of fiscal 2014. The decrease in our overall average effective fee rate can be primarily attributed to the strong growth of our portfolio implementation and exposure management businesses, which operate at fee rates well below corporate averages. Product mix continues to be the most significant determinant of our overall average effective fee rate.

The following table shows our investment advisory and administrative fees, distribution and underwriter fees, service fees and other revenue for the three and six months ended April 30, 2015 and 2014:

	Three Months Ended				Six Months Ended			
	April 30, 2015	2014	% Change		April 30, 2015	2014	% Change

Investment advisory and administrative fees

Investment advisory and administrative fees were substantially unchanged in the second quarter and first six months of fiscal 2015 versus the same periods a year, earlier primarily reflecting a 7 percent and 6 percent increase in average assets under management, respectively, offset by a decline in our average effective fee rates. The decrease in our average annualized effective investment advisory and administrative fee rate to 40 basis points in both the second quarter and first six months of fiscal 2015 from 42 basis points and 43 basis points in the second quarter and first six months of fiscal 2014, respectively, can be primarily attributed to the impact of a shift in product mix from higher-fee to lower-fee mandates. Performance fees were negligible in the second quarter of fiscal 2015 and \$1.0 million in the second quarter of fiscal 2014. Performance fees totaled \$0.1 million and \$1.1 million in the first six months of fiscal 2015 and fiscal 2014, respectively.

Distribution and underwriter fees

The following table shows the total distribution payments with respect to our Class A, Class B, Class C, Class N, Class R and private equity funds for the three and six months ended April 30, 2015 and 2014:

(in thousands)	Three Months Ended				Six Months Ended			
	April 30, 2015	2014	% Change		April 30, 2015	2014	% Change	
Class A	\$ 207	\$ 320	-35	%	\$ 485	\$ 652	-26	%
Class B	562	911	-38	%	1,206	1,928	-37	%
Class C	15,972	16,531	-3	%	32,534	33,718	-4	%
Class N	33	66	-50	%	83	141	-41	%
Class R	290	245	18	%	575	486	18	%
Private funds	1,169	985	19	%	2,257	1,943	16	%
Total distribution plan payments	\$ 18,233	\$ 19,058	-4	%	\$ 37,140	\$ 38,868	-4	%

Underwriter fees and other distribution income were \$1.8 million in the second quarter of fiscal 2015, a decrease of 16 percent, or \$0.3 million, from the second quarter of fiscal 2014, primarily reflecting a decrease of \$0.4 million in contingent deferred sales charges received on certain Class A share redemptions.

Underwriter fees and other distribution income were \$3.9 million in the first six months of fiscal 2015, a decrease of 1 percent, from the same period a year earlier, primarily reflecting a decrease of \$0.1 million in contingent deferred sales charges received on certain Class A share redemptions.

Service fees

Service fee revenue decreased 8 percent in both the second quarter and first six months of fiscal 2015 from the same periods a year earlier, primarily reflecting a decrease in average assets under management in funds and certain classes of funds subject to service fees.

Other revenue

Other revenue, which consists primarily of sub-transfer agent fees, miscellaneous dealer income, custody fees, Hexavest-related distribution and service revenue, and sub-lease income, increased by \$0.6 million and \$1.2 million in the second quarter and first six months of fiscal 2015, respectively, from the same periods a year earlier, primarily reflecting an increase in Hexavest-related revenue.

Expenses

Operating expenses were substantially unchanged in the second quarter of fiscal 2015 from the same period a year earlier, reflecting increases in compensation, fund-related expenses and other operating expenses, offset by decreased distribution and service fee expenses and reduced amortization of deferred sales commissions. Expenses in connection

with the Company's NextShares initiative totaled approximately \$1.8 million in the second quarter of fiscal 2015, an increase of 128 percent from \$0.8 million in the second quarter of fiscal 2014.

Operating expenses increased by 15 percent, or \$69.0 million, in the first six months of fiscal 2015 from the same period a year earlier, reflecting increases in compensation, distribution expense, fund-related expenses and other operating expenses, offset by decreased service fee expenses and reduced amortization of deferred sales commissions. Included in distribution expense for the first six months of fiscal 2015 is a one-time payment of \$73.0 million to terminate certain closed-end fund service and additional compensation arrangements with a significant distribution partner. Expenses in connection with the Company's NextShares initiative totaled approximately \$3.1 million in the first six months of fiscal 2015, an increase of 84 percent from \$1.7 million in the first six months of fiscal 2014.

The following table shows our operating expenses for the three and six months ended April 30, 2015 and 2014:

Compensation and related costs

The following table shows our compensation and related costs for the three and six months ended April 30, 2015 and 2014:

(in thousands)	Three Months Ended				Six Months Ended			
	April 30, 2015	2014	% Change		April 30, 2015	2014	% Change	
Base salaries and employee benefits	\$ 53,907	\$ 49,720	8	%	\$ 108,933	\$ 101,565	7	%
Stock-based compensation	16,624	14,731	13	%	33,934	29,603	15	%
Operating income-based incentives	33,148	36,683	-10	%	65,984	73,351	-10	%
Sales incentives	15,607	12,986	20	%	30,018	27,054	11	%
Other compensation expense	789	536	47	%	1,398	1,905	-27	%
Total	\$ 120,075	\$ 114,656	5	%	\$ 240,267	\$ 233,478	3	%

The increase in base salaries and employee benefits in the second quarter of fiscal 2015 reflects the impact of higher average headcount as well as annual merit increases. The increase in stock-based compensation reflects both the higher average headcount and an increase in annual stock-based compensation awards. The decrease in operating-income based incentives year-over-year reflects a decrease in pre-bonus adjusted operating income and a modest decrease in bonus accrual rates. Sales incentives increased primarily due to an increase in gross sales on which sales-based incentives are paid. Other compensation expense increased due to higher sign-on bonuses and severance costs.

The increase in base salaries and employee benefits in the first six months of fiscal 2015 reflects the impact of higher average headcount as well as annual merit increases. The increase in stock-based compensation reflects both higher annual stock-based compensation awards and the impact of accelerations of stock-based compensation associated with employee retirements. The decrease in operating-income based incentives year-over-year reflects a decrease in pre-bonus adjusted operating income and a modest decrease in bonus accrual

rates. Sales incentives increased primarily due to an increase in compensation-eligible sales. Other compensation expense decreased due to lower severance costs offset by higher sign-on bonuses.

Distribution expense

The following table shows our distribution expense for the three and six months ended April 30, 2015 and 2014:

(in thousands)	Three Months Ended			Six Months Ended			
	April 30, 2015	2014	% Change	April 30, 2015	2014	% Change	
Class A share commissions	\$818	\$1,080	-24 %	\$1,397	\$2,243	-38 %	
Class C share distribution fees	13,174	13,167	0 %	26,843	26,612	1 %	
Payments to end certain fund service and additional compensation arrangements	-	-	-	73,000	-	NM	
Closed-end fund dealer compensation payments	1,025	4,577	-78 %	4,519	9,267	-51 %	
Intermediary marketing support payments	10,429	11,817	-12 %	21,378	23,627	-10 %	
Discretionary marketing expenses	4,636	4,144	12 %	9,212	8,584	7 %	
Total	\$30,082	\$34,785	-14 %	\$136,349	\$70,333	94 %	

The decrease in Class A share commissions in the second quarter and first six months of fiscal 2015 reflects a decrease in Class A fund sales on which we pay commissions. Class C share distribution fee expense increased modestly in the first six months of fiscal 2015 due to increases in Class C share assets held more than one year. As noted above, distribution expense for the first six months of fiscal 2015 includes a one-time payment of \$73.0 million to terminate certain closed-end fund service and additional compensation arrangements with a major distribution partner pursuant to which we were obligated to make recurring payments over time based on the assets of the respective closed-end funds. Closed-end fund dealer compensation payments decreased in the second quarter and first six months of fiscal 2015, reflecting the impact of the termination of the service and additional compensation arrangements described above. The decrease in marketing expenses associated with intermediary marketing support payments to our distribution partners reflects lower average assets subject to those arrangements. The increase in discretionary marketing expenses primarily reflects an increase in the use of outside agencies.

Service fee expense

Service fee expense decreased by 7 percent, or \$1.9 million, in the second quarter of fiscal 2015 from the same quarter a year earlier, reflecting a decrease in average fund assets retained more than one year in funds and share classes that are subject to service fee payments. Service fee expense decreased 6 percent, or \$3.3 million, in the first six months of fiscal 2015 versus the same period a year earlier for the same reason.

Amortization of deferred sales commissions

Amortization expense decreased 15 percent, or \$0.7 million, in the second quarter of fiscal 2015 from the same period a year earlier, reflecting decreases in Class B share and Class C share amortization expense offset by increases in private fund amortization expense. In the second quarter of fiscal 2015, 70 percent of total amortization related to Class C shares, 9 percent to Class B shares and 21 percent to private funds. In the second quarter of fiscal 2014, 86 percent of total amortization related to Class C shares, 10 percent to Class B shares and 4 percent to private funds.

Amortization expense decreased 20 percent, or \$1.9 million, in the first six months of fiscal 2015 compared to the same period a year earlier, reflecting a decrease in average Class B share and Class C share amortization expense offset by an increase in private fund share amortization expense.

Fund-related expenses

Fund-related expenses increased 6 percent, or \$0.5 million, in the second quarter of fiscal 2015 from the same period a year earlier and 4 percent, or \$0.7 million, in the first six months of fiscal 2015 over the same period a year earlier. The increase in second quarter of fiscal 2015 primarily reflects an increase in expenses borne by the Company on funds for which it earns an all-in fee. The increase in first six months of fiscal 2015 primarily reflects increases in sub-advisory expenses resulting from growth in Company-sponsored funds managed by unaffiliated sub-advisers and other fund-related expenses.

Other expenses

The following table shows our other expense for the three and six months ended April 30, 2015 and 2014:

(in thousands)	Three Months Ended				Six Months Ended			
	April 30, 2015	2014	% Change		April 30, 2015	2014	% Change	
Information technology	\$ 16,849	\$ 14,573	16	%	\$ 33,009	\$ 29,927	10	%

Travel	3,893	3,931	-1	%	7,588	7,921	-4	%
Professional services	2,962	3,462	-14	%	5,128	6,803	-25	%
Communications	1,478	1,446	2	%	2,730	2,613	4	%
Other corporate expense	5,283	5,171	2	%	9,200	10,668	-14	%
Total	\$ 40,304	\$ 38,227	5	%	\$ 78,001	\$ 77,290	1	%

The increase in information technology expense in the second quarter of fiscal 2015 from the second quarter a year ago can be primarily attributed to increases in project-related consulting, software licensing and maintenance fees, and market data costs. The increase in facilities-related expenses over the same period can be attributed to an increase in rent and insurance expense over the same period. The decrease in travel expense over the same period can be attributed to an overall decrease in travel activity. The decrease in professional services expense relates to overall decreases in external legal costs and general recruiting costs in the second quarter of fiscal 2015. The increase in other corporate expenses primarily reflects an increase in corporate memberships and professional development in the second quarter of fiscal 2015 from the second quarter last year.

The increase in information technology expense in the first six months of fiscal 2015 from the first six months of fiscal 2014 can be attributed to increases in project-related consulting, software licensing and maintenance fees, and market data costs. The increase in facilities-related expenses can be primarily attributed to an increase in rent and insurance expense. The lower travel expense can be attributed to an overall decrease in travel activity. The decrease in professional services expense can be attributed primarily to decreases in general recruiting costs and external legal costs. The decrease in other corporate expenses reflects a decrease in other corporate taxes, charitable giving and the amortization of intangible assets related to the Clifton acquisition, offset by an increase in corporate memberships.

Non-operating Income (Expense)

The main categories of non-operating income (expense) for the three and six months ended April 30, 2015 and 2014 are as follows:

	Three Months Ended			Six Months Ended			
	April 30, 2015	2014	% Change	April 30, 2015	2014	% Change	
(in thousands)

Interest and other expense	(611)	(4,188)	-85 %	(1,805)	(12,023)	-85 %	
Total non-operating expense	\$ (5,389)	\$ (7,226)	-25 %	\$(9,816)	\$(13,339)	-26 %	

Gains (losses) and other investment income, net, improved by \$1.1 million in the second quarter of fiscal 2015 compared to the same period a year earlier, primarily reflecting an increase in interest earned. In the second quarter of fiscal 2015, we recognized \$2.5 million of losses related to our seed capital investments and associated hedges, compared to a net loss of \$2.4 million in the second quarter of fiscal 2014.

Gains (losses) and other investment income, net, improved by \$3.5 million in the first six months of fiscal 2015 compared to the same period a year earlier, primarily reflecting an increase of \$2.1 million in interest income earned and \$1.6 million in foreign currency gains. In the first six months of fiscal 2015 we recognized \$3.2 million of losses related to our seed capital investments and associated hedges, compared to net losses of \$2.9 million in the first six months of fiscal 2014.

Interest expense was substantially unchanged in both periods presented, reflecting consistent levels of our outstanding fixed senior notes.

Net income of our consolidated CLO entities totaled \$1.6 million and \$1.7 million in the second quarter and first six months of fiscal 2015, respectively. Approximately \$1.3 million of consolidated CLO entities' net income was included in net income attributable to non-controlling and other beneficial interests for both periods, reflecting third-party note holders' proportionate interests in the net income of the entities in the second quarter and first six months of fiscal 2015, respectively.

Income Taxes

Our effective tax rate, calculated as income taxes as a percentage of income before income taxes and equity in net income of affiliates, was 37.6 percent and 37.2 percent in the second quarter and first six months of fiscal 2015, respectively, compared to 38.3 percent and 38.1 percent in the second quarter and first six months of fiscal 2014,

respectively. Excluding the effect of the consolidated CLO entities' net income (losses) allocated to other beneficial interest holders, our effective tax rate would have been 38.0 percent and 37.5 percent in the second quarter and first six months of fiscal 2015, respectively.

Our policy for accounting for income taxes includes monitoring our business activities and tax policies for compliance with federal, state and foreign tax laws. In the ordinary course of business, various taxing authorities may not agree with certain tax positions we have taken, or applicable law may not be clear. We periodically review these tax positions and provide for and adjust as necessary estimated liabilities relating to such positions as part of our overall tax provision.

Equity in Net Income of Affiliates, Net of Tax

Equity in net income of affiliates, net of tax, for the second quarter of fiscal 2015 primarily reflects our 49 percent equity interest in Hexavest, our seven percent minority equity interest in a private equity partnership managed by a third party and equity interests in certain funds we sponsor or manage. Equity in net income of affiliates, net of tax, was \$3.0 million and \$6.1 million in the second quarter and first six months of fiscal 2015 and \$5.2 million and \$8.5 million in the same periods a year earlier.

The following table summarizes the components of equity in net income of affiliates, net of tax, for the three and six months ended April 30, 2015 and 2014:

(1)Relates to non-controlling interests redeemable at other than fair value.

Net income attributable to non-controlling and other beneficial interests is not adjusted for taxes due to the underlying tax status of our consolidated subsidiaries, which are treated as partnerships or other pass-through entities for tax purposes.

Changes in Financial Condition, Liquidity and Capital Resources

The assets and liabilities of our consolidated CLO entity do not affect our liquidity or capital resources. The collateral assets of our consolidated CLO entity are held solely to satisfy the obligations of the entity and we

have no right to these assets beyond our direct investment in, and management fees generated from, the entity. The note holders of the entity have no recourse to the general credit of the Company. As a result, the assets and liabilities of our consolidated CLO entity are excluded from the discussion of liquidity and capital resources below.

The following table summarizes certain key financial data relating to our liquidity and capital resources on April 30, 2015 and October 31, 2014 and uses of cash for the six months ended April 30, 2015 and 2014:

Liquidity and Capital Resources

Liquid assets consist of cash and cash equivalents and investment advisory fees and other receivables. Cash and cash equivalents consist of cash and short-term, highly liquid investments that are readily convertible to cash. Investment advisory fees and other receivables primarily represent receivables due from sponsored funds and separately managed accounts for investment advisory and distribution services provided. Liquid assets represented 27 percent and 34 percent of total assets on April 30, 2015 and October 31, 2014, respectively, excluding those assets identified as assets of the Company's consolidated CLO entity. Not included in the liquid asset amounts are \$120.1 million and \$157.0

million of highly liquid short-term debt securities with remaining maturities between three and twelve months at April 30, 2015 and October 31, 2014, respectively, which are included in Investments on our Consolidated Balance Sheets. Our seed investments in consolidated funds and separate accounts are not treated as liquid assets because they may be longer term in nature.

The \$126.2 million decrease in liquid assets in the first six months of fiscal 2015 primarily reflects the payment of \$58.4 million of dividends to shareholders, the repurchase of \$123.7 million of Non-Voting Common Stock, the payment of \$18.6 million to acquire additional interests in Atlanta Capital and Parametric and a \$9.1 million contingent payment related to the Company's acquisition of the Tax Advantaged Bond Strategies ("TABS")

business, offset by proceeds from the issuance of Non-Voting Common Stock of \$35.7 million, net proceeds of \$35.0 million from the sale of investments classified as available for sale and net cash from operating activities of \$19.5 million.

On April 30, 2015, our debt consisted of \$250 million in aggregate principal amount of 2017 Senior Notes and \$325 million in aggregate principal amount of 2023 Senior Notes. We also maintain a \$300 million unsecured revolving credit facility with several banks that expires on October 21, 2019. The facility provides that we may borrow at LIBOR-based rates of interest that vary depending on the level of usage of the facility and our credit ratings. The agreement contains financial covenants with respect to leverage and interest coverage and requires us to pay an annual commitment fee on any unused portion. We had no borrowings under our revolving credit facility at April 30, 2015 or at any point during the first six months of fiscal 2015. We were in compliance with all debt covenants as of April 30, 2015.

We continue to monitor our liquidity daily. We remain committed to growing our business and expect that our main uses of cash will be paying dividends, acquiring shares of our Non-Voting Common Stock, making seed investments in new products and strategic acquisitions, enhancing our technology infrastructure and paying the operating expenses of our business, which are largely variable in nature and fluctuate with revenue and assets under management. We believe that our existing liquid assets, cash flows from operations and borrowing capacity under our existing credit facility are sufficient to meet our current and forecasted operating cash needs for the next twelve months. The risk exists, however, that if we need to raise additional capital or refinance existing debt in the future, resources may not be available to us in sufficient amounts or on acceptable terms. Our ability to enter the capital markets in a timely manner depends on a number of factors, including the state of global credit and equity markets, interest rates, credit spreads and our credit ratings. If we are unable to access capital markets to issue new debt, refinance existing debt or sell shares of our Non-Voting Common Stock as needed, or if we are unable to obtain such financing on acceptable terms, our business could be adversely affected.

Recoverability of our Investments

Our \$699.8 million of investments as of April 30, 2015 consisted of our 49 percent equity interest in Hexavest, positions in Company-sponsored funds and separate accounts entered into for investment and business development purposes, and certain other investments held directly by the Company. Investments in Company-sponsored funds and separate accounts and direct investments by the Company are generally in liquid debt or equity securities and are carried at fair market value. We test our investments, other than equity method investments, for impairment on a quarterly basis. We evaluate our investments in non-consolidated CLO entities and investments classified as available-for-sale for impairment using quantitative factors, including how long the investment has been in a net unrealized loss position, and qualitative factors, including the credit quality of the underlying issuer and our ability and intent to continue holding the investment. If markets deteriorate in the quarters ahead, our assessment of impairment on a quantitative basis may lead us to impair investments in future quarters that were in an unrealized loss position at April 30, 2015.

We test our investments in equity method investees, goodwill and indefinite-lived intangible assets in the fourth quarter of each fiscal year and as facts and circumstances indicate that additional analysis is warranted. There have been no significant changes in financial condition in the first six months of fiscal 2015 that would indicate that an impairment loss exists at April 30, 2015.

We periodically review our deferred sales commissions and identifiable intangible assets for impairment as events or changes in circumstances indicate that the carrying amounts of such assets may not be recoverable. There have been no significant changes in financial condition in the first six months of fiscal 2015 that would indicate that an impairment loss exists at April 30, 2015.

Operating Cash Flows

Cash provided by operating activities totaled \$19.5 million in the first six months of fiscal 2015, an increase of \$174.7 million from cash used for operating activities of \$155.3 million in the first six months of fiscal 2014. The increase in net cash provided by operating activities year-over-year primarily reflects a decrease in net cash used in the operating activities of our consolidated CLO entities and a decrease in the net purchase of trading securities, partially offset by a decrease in deferred taxes and an increase in the timing differences in the cash settlements of our other assets and liabilities.

Investing Cash Flows

Cash provided by investing activities totaled \$43.0 million in the first six months of fiscal 2015 compared to \$123.8 million in the first six months of fiscal 2014. The decrease in cash provided by investing activities year-over-year can be primarily attributed to a decrease of \$62.6 million in the net proceeds from the purchase, sale and maturities of consolidated CLO entity investments, a decrease of \$8.1 million in the net proceeds from purchases and sales of available-for-sale securities and the \$9.1 million payment to the sellers of the TABS business in the second quarter of fiscal 2015.

Financing Cash Flows

Cash used for financing activities totaled \$183.3 million in the first six months of fiscal 2015 compared to \$117.9 million in the first six months of fiscal 2014. In the first six months of fiscal 2015 we paid \$18.6 million to acquire additional interests in Atlanta Capital and Parametric, we repurchased and retired approximately 3.0 million shares of our Non-Voting Common Stock for \$123.7 million under our authorized repurchase programs, and issued 2.7 million shares of our Non-Voting Common Stock in connection with the grant of restricted share awards, the exercise of stock options and other employee stock purchases for total proceeds of \$35.7 million. As of April 30, 2015, we have authorization to purchase an additional 7.6 million shares under our current share repurchase authorization and anticipate that future repurchases will continue to be an ongoing use of cash. Our dividends per share were \$0.50 in the first six months of fiscal 2015, compared to \$0.44 per share in the first six months of fiscal 2014. We currently expect to declare and pay comparable regular dividends on our Voting and Non-Voting Common Stock on a quarterly basis.

In the first six months of fiscal 2015, cash used for financing activities also included \$25.9 million in principal payments made on senior notes of our consolidated CLO entity.

Contractual Obligations

We have future obligations under various contracts relating to debt, interest payments and operating leases. During the six months ended April 30, 2015, there were no material changes to our contractual obligations as previously reported in our Annual Report on Form 10-K for the year ended October 31, 2014.

Interests held by non-controlling interest holders of Atlanta Capital and Parametric are not subject to mandatory redemption. The purchase of non-controlling interests is predicated on the exercise of a series of puts held by non-controlling interest holders and calls held by us. The puts provide the non-controlling interest holders the right to require us to purchase these retained interests at specific intervals over time, while the calls provide us with the right to require the non-controlling interest holders to sell their retained equity interests to us at specified intervals over time, as well as upon the occurrence of certain events such as death or permanent disability. As a result, there is significant uncertainty as to the timing of any non-controlling interest purchase in the future. Non-controlling interests are redeemable at fair value or based on a multiple of earnings before interest and taxes of the subsidiary, which is a measure that is intended to represent fair value. As a result, there is significant uncertainty as to the amount of any non-controlling interest purchase in the future. Although the

timing and amounts of these purchases cannot be predicted with certainty, we anticipate that the purchase of non-controlling interests in our consolidated subsidiaries may be a significant use of cash in future years.

We have presented all redeemable non-controlling interests at redemption value on our Consolidated Balance Sheets as of April 30, 2015. We have recorded the current quarter change in the estimated redemption value of non-controlling interests redeemable at fair value as a component of additional paid-in capital and have recorded the current quarter change in the estimated redemption value of non-controlling interests redeemable at other than fair value (non-controlling interests redeemable based on a multiple of earnings before interest and taxes of the subsidiary) as a component of net income attributable to non-controlling and other beneficial interests. Based on our calculations, the estimated redemption value of our non-controlling interests, redeemable at either fair value or other than fair value, totaled \$135.1 million on April 30, 2015 compared to \$107.5 million on October 31, 2014.

Redeemable non-controlling interests as of April 30, 2015 consist of third-party investors' ownership in consolidated investment funds of \$41.3 million; non-controlling interests in Parametric issued in conjunction with the Clifton acquisition of \$20.2 million, non-controlling interests in Parametric issued in conjunction with the Parametric Risk Advisors final put option of \$11.7 million, profit interests granted under the long-term incentive plans of Parametric and Atlanta Capital of \$35.0 million and \$16.8 million, respectively, all of which are redeemable at fair value. Redeemable non-controlling interests as of April 30, 2015 also include non-controlling interests in Atlanta Capital redeemable at other than fair value of \$10.0 million. Redeemable non-controlling interests as of October 31, 2014 consist of third-party investors' ownership in consolidated investment funds of \$8.9 million, non-controlling interests in Parametric issued in conjunction with the Clifton acquisition of \$27.0 million, non-controlling interests in Parametric issued in conjunction with the Parametric Risk Advisors final put option of \$11.7 million and redeemable interests in profit interests granted under the long-term incentive plans of Parametric and Atlanta Capital of \$33.6 million and \$16.2 million, respectively, all of which are redeemable at fair value. Redeemable non-controlling interests as of October 31, 2014 also include non-controlling interests in Atlanta Capital redeemable at other than fair value of \$10.0 million.

Foreign Subsidiaries

We consider the undistributed earnings of our Canadian and Australian subsidiaries as of April 30, 2015 to be indefinitely reinvested in foreign operations. Accordingly, no U.S. income taxes have been provided thereon. As of April 30, 2015, the Company had approximately \$27.1 million of undistributed earnings in our Canadian and Australian subsidiaries that is not available to fund domestic operations or to distribute to shareholders unless repatriated. Repatriation would require the Company to accrue and pay U.S. corporate income taxes. The unrecognized deferred income tax liability on this temporary difference is estimated to be \$3.1 million. The Company does not have a current plan to repatriate these funds.

Off-Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide financing, liquidity, market or credit risk support or engage in any leasing activities that expose us to any liability that is not reflected in our Consolidated Financial Statements.

Critical Accounting Policies

There have been no updates to our critical accounting policies from those disclosed in Management's Discussion and Analysis of Financial Condition in our Form 10-K for the fiscal year ended October 31, 2014.

Accounting Developments

Consolidation

In February 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-02, *Amendments to the Consolidation Analysis*, which amends the consolidation requirements in Accounting Standards Codification (“ASC”) 810, *Consolidation*. Under the amendments in this ASU, all entities, including limited partnerships and similar legal entities, are now within the scope of ASC 810, unless a scope exception applies. The presumption that a general partner controls a limited partnership has been eliminated. In addition, fees paid to decision makers that meet certain conditions no longer cause the decision makers to consolidate variable interest entities (“VIEs”) in certain instances, with the amendments placing more emphasis on variable interests other than fee arrangements in the consolidation evaluation. This ASU also eliminates the deferral under ASU 2010-10, *Consolidation - Amendments for Certain Investment Funds*, and, as such, the Company must evaluate any entities that qualified for the deferral to determine whether these entities are VIEs and whether they should be consolidated. The new guidance is effective for annual periods, and interim periods within those annual periods, for the Company’s fiscal year that begins on November 1, 2016 and allows for either a full retrospective or a modified retrospective adoption approach. Early adoption is allowed, but the guidance must be applied as of the beginning of the annual period containing the adoption date. The Company is currently evaluating the potential impact on its Consolidated Financial Statements and related disclosures.

Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, which changes the presentation of debt issuance costs in the balance sheet. The new guidance requires that debt issuance costs be presented as a deduction from the carrying amount of the related debt rather than being presented as an asset. Amortization of debt issuance costs will continue to be reported as interest expense. The new guidance is effective for the Company’s fiscal year that begins on November 1, 2016 and requires retrospective application for each prior period presented. Early adoption is permitted for financial statements that have not been previously issued. The Company is currently evaluating the impact on its Consolidated Financial Statements.

Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement

In April 2015, the FASB issued ASU 2015-05, *Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement*, which provides guidance about whether a cloud computing arrangement includes a software license. The guidance does not change the current treatment for accounting for software licenses or service contracts. The new guidance is effective for the Company’s fiscal year that begins on November 1, 2016. Early adoption is permitted. The update allows for either prospective or retrospective adoption. The Company is currently evaluating the transition methods and the potential impact on its Consolidated Financial Statements and related disclosures.

Revenue from Contracts with Customers

In April 2015, the FASB proposed a one year delay in the effective date of ASU 2014-09, *Revenue From Contracts with Customers*. ASU 2014-09 currently becomes effective for the Company on November 1, 2017. The Company is currently evaluating the potential impact of this new guidance as well as the available transition methods.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our Quantitative and Qualitative Disclosures About Market Risk from those previously reported in our Form 10-K for the year ended October 31, 2014.

Item 4. Controls and Procedures

We evaluated the effectiveness of our disclosure controls and procedures as of April 30, 2015. Disclosure controls and procedures are designed to ensure that the information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time period specified in the SEC's rule and forms. Disclosure controls and procedures include, without limitation, controls and procedures accumulated and communicated to our management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), to allow timely decisions regarding required disclosure. Our CEO and CFO participated in this evaluation and concluded that, as of the date of their evaluation, our disclosure controls and procedures were effective.

In the ordinary course of business, the Company may routinely modify, upgrade and enhance its internal controls and procedures for financial reporting. However, there have been no changes in our internal control over financial reporting as defined by Rule 13a-15(f) under the Exchange Act that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
