Net Element, Inc.

Edgar Filing: Net Element, Inc. - Form 10-Q

(Exact name of registrant as specified in its charter)

Delaware

90-1025599

(State or other jurisdiction of incorporation (I.R.S. Employer
or organization) Identification No.)

3363 NE 163rd Street, Suite 705

North Miami Beach, Florida 33160

(Address of principal executive offices) (Zip Code)

(305) 507-8808

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☒

Edgar Filing: Net Element, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.) Yes
" No ☒

The number of outstanding shares of common stock, \$.0001 par value, of the registrant as of May 11, 2016 was 114,252,465.

Defined Terms

Net Element, Inc. is a corporation organized under the laws of the State of Delaware. As used in this Quarterly Report on Form 10-Q (this “Report”), unless the context otherwise requires, the terms “Company,” “we,” “us” and “our” refer to Net Element, Inc. and, as applicable, its majority-owned and consolidated subsidiaries. References in this Report to “PayOnline” refer, collectively, to PayOnline System LLC, Innovative Payment Technologies LLC, Polimore Capital Limited and Brosword Holding.

Forward-Looking Statements

This Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Any statements contained in this Report that are not statements of historical fact may be deemed forward-looking statements. Forward-looking statements generally are identified by the words “expects,” “anticipates,” “believes,” “intends,” “estimates,” “aims,” “plans,” “will,” “continue,” “seeks,” “should,” “believe,” “potential” or the negative of such terms and similar expressions. Forward-looking statements are based on current plans, estimates and projections, and therefore you should not place too much reliance on them. Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update any forward-looking statement in light of new information or future events, except as expressly required by law. Forward-looking statements involve inherent risks and uncertainties, most of which are difficult to predict and are generally beyond the Company’s control. The Company cautions you that a number of important factors could cause actual results or outcomes to differ materially from those expressed in, or implied by, the forward-looking statements. These factors include, among other factors:

- the impact of any new or changed laws, regulations, card network rules or other industry standards affecting our business including the U.S. government decision to impose sanctions or other legal restrictions that may restrict our ability to do business in Russia;
- the impact of any significant chargeback liability and liability for merchant or customer fraud, which we may not be able to accurately anticipate and/or collect;
- our ability to secure or successfully migrate merchant portfolios to new bank sponsors if current sponsorships are terminated;
- our and our bank sponsors’ ability to adhere to the standards of the Visa® and MasterCard® payment card associations;
- our reliance on third-party processors and service providers;
- our dependence on independent sales groups (“ISGs”) that do not serve us exclusively to introduce us to new merchant accounts;
- our ability to pass along increases in interchange costs and other costs to our merchants;
- our ability to protect against unauthorized disclosure of merchant and cardholder data, whether through breach of our computer systems or otherwise;
-

the effect of the loss of key personnel on our relationships with ISGs, card associations, bank sponsors and our other service providers;

- the effects of increased competition, which could adversely impact our financial performance;
- the impact of any increase in attrition due to an increase in closed merchant accounts and/or a decrease in merchant charge volume that we cannot anticipate or offset with new accounts;
- the effect of adverse business conditions on our merchants;
- our ability to adopt technology to meet changing industry and customer needs or trends;
- the impact of any decline in the use of credit cards as a payment mechanism for consumers or adverse developments with respect to the credit card industry in general;
- the impact of any adverse conditions in industries in which we obtain a substantial amount of our bankcard processing volume;
- the impact of seasonality on our operating results;
- the impact of any failure in our systems due to factors beyond our control;
- the impact of any material breaches in the security of third-party processing systems we use;
- the impact of any new and potential governmental regulations designed to protect or limit access to consumer information;
- the impact on our profitability if we are required to pay federal, state or local taxes on transaction processing or VAT on content;
- the impact on our growth and profitability if the markets for the services that we offer fail to expand or if such markets contract;
- our ability (or inability) to continue as a going concern;
- the willingness of the Company's majority stockholders, and/or other affiliates of the Company, to continue investing in the Company's business to fund working capital requirements;
- the Company's ability (or inability) to obtain additional financing in sufficient amounts or on acceptable terms when needed;
- the impact on our operating results as a result of impairment of our goodwill and intangible assets;
- our material weaknesses in internal control over financial reporting and our ability to maintain effective controls over financial reporting in the future; and
- the other factors those described in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 and in Part II, Item 1A of this Report and our subsequent filings with the U.S. Securities and Exchange Commission (the "Commission").

If these or other risks and uncertainties (including those described in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 and in Part II, Item 1A of this Report and the Company's subsequent filings with the Commission) materialize, or if the assumptions underlying any of these statements prove incorrect, the Company's actual results may be materially different from those expressed or implied by such statements. We undertake no obligation to publicly revise any forward-looking statement to reflect circumstances or events after the date of this Report to reflect the occurrence of unanticipated events. You should, however, review the factors and risks described in the reports we file from time-to-time with the Commission after the date of this Report.

World Wide Web addresses contained in this Report are for explanatory purposes only and they (and the content contained therein) do not form a part of and are not incorporated by reference into this Report.

NET ELEMENT, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Net Element, Inc. (“We”, “us”, “our” or the “Company”) is a financial technology-driven group specializing in mobile payments and other transactional services in emerging countries and in the United States. We have three reportable segments: (i) North America Transaction Solutions for electronic commerce, (ii) Mobile Solutions (primary Russian Federation and Commonwealth of Independent States (“CIS”)) (iii) Online Solutions, which started up with our acquisition of PayOnline Solutions on May 20, 2015. We are differentiated by our proprietary technology which enables us to provide a broad suite of payment products, end-to-end transaction processing services and superior client support. We are able to deliver these services across multiple points of access, or “multi-channel,” including brick and mortar locations, software integration, e-commerce, mobile operator billing, mobile and tablet-based solutions. In the United States, via our U.S. based subsidiaries, we generate revenues from transactional services and other payment technologies for small and medium-sized businesses. Through TOT Group Russia and Net Element Russia, we provide transactional services, mobile payment transactions, online payment transactions and other payment technologies in emerging countries in the Russian Federation, CIS, Europe and Asia.

Business

Our transactional services business enables merchants to accept credit cards as well as other forms of payment, including debit cards, checks, gift cards, loyalty programs and alternative payment methods in traditional card-present or swipe transactions, as well as card-not-present transactions, such as those conducted over the phone or through the Internet or a mobile device. We market and sell our services through both independent sales groups (“ISGs”), which are non-employee, external sales organizations and other third party resellers of our products and services, and directly to merchants through electronic media, telemarketing and other programs, including utilizing partnerships with other companies that market products and services to local and international merchants. In addition, we partner with banks such as BMO Harris Bank, N.A. in the United States and VTB Bank, Bank of Moscow, Raiffeisen Bank, Kazkommertsbank, and Rietumu Bank in the Russian Federation, CIS, Europe and Asia to sponsor us for membership in Visa®, MasterCard® and/or other card associations and to settle transactions with merchants. We perform core functions for merchants such as application processing, underwriting, account set-up, risk management, fraud detection, merchant assistance and support, equipment deployment and chargeback services.

Our mobile payments business, Digital Provider, LLC (f/k/a Tot Money, LLC) (“Digital Provider”) provides carrier-integrated mobile payments solutions. Our relationships with mobile operators give us substantial geographic coverage, a strong capacity for innovation in mobile payments and messaging, and the ability to offer our clients in-app, premium SMS, online and carrier billing services. We also market our own branded content which is a new business line for our mobile commerce business.

PayOnline provides flexible high-tech payment solutions to companies doing business on the Internet or in the mobile environment. PayOnline specializes in integration and customization of payment solutions for websites and mobile apps. In particular, PayOnline arranges payment on the website of any commercial organization, which increases the convenience of using the website and helps maximize the number of successful transactions. In addition, PayOnline is focused on providing online and mobile payment acceptance services to the travel industry through direct integration with leading Global Distribution Systems, which includes Amadeus® and Sabre®. Key regions of the PayOnline company are the CIS, Eastern Europe, Central Asia, Western Europe, North America and Asia major sub regions. PayOnline offices are located in Russia and in the Republic of Cyprus. We included the results of PayOnline starting in May 20, 2015.

Aptito is a proprietary, next-generation, cloud-based payments platform for the hospitality industry, which creates an online consumer experience in offline commerce environments via tablet, mobile and all other cloud-connected devices. Aptito’s easy to use point-of-sale (“POS”) system makes things easier by providing comprehensive solution to the hospitality industry to help streamline management and operations. Orders placed tableside by customers directly speed up the ordering process and improve overall efficiency. Aptito's mobile POS system provides portability to the staff while performing all the same functions as a traditional POS system, and more.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and reflect all adjustments, which are of a normal and recurring nature, that are, in the opinion of management, necessary for a fair presentation of our condensed consolidated financial position and results of operations for the related periods. All significant intercompany transactions and balances have been eliminated in consolidation. The consolidated results of operations for any interim periods are not necessarily indicative of results to be expected for the full year.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of expenses for the period presented. Actual results could differ from those estimates.

Significant estimates include (i) the valuation of acquired merchant portfolios, (ii) the recoverability of indeterminate-lived assets, (iii) the remaining useful lives of long-lived assets, and (iv) the sufficiency of merchant, aggregator, legal, and other reserves. On an ongoing basis, we evaluate the sufficiency and accuracy of our estimates. Actual results could differ from those estimates.

Cash and Cash Equivalents

We maintain our U.S. dollar-denominated cash in several non-interest bearing bank deposit accounts and we have no cash equivalents. At March 31, 2016 and December 31, 2015, the U.S. based bank balances did not exceed Federal Deposit Insurance Corporation (FDIC) insured institution limits of \$250,000.

We maintain approximately \$609,885 and \$922,062 in uninsured bank accounts in Russia, Ukraine, Cyprus and the Cayman Islands at March 31, 2016 and December 31, 2015, respectively.

Accounts Receivable and Allowance for Doubtful Accounts

Receivables are stated net of allowance for doubtful accounts. We estimate an allowance based on experience with our service providers and judgment as to the likelihood of their ultimate payment. We also consider collection experience and make estimates regarding collectability based on payout trends of the customers. In Russia, the service providers are large telecommunication companies and their affiliates, so we do not reserve for these receivables given their financial strengths and our historical experience with such companies. Allowance for doubtful accounts was \$103,031 at March 31, 2016 and December 31, 2015 respectively.

Other Current Assets

We maintain an inventory of point of sale terminals (including iPads® used for mobile point of sale), which we use to service both merchants and independent sales agents. If the terminals are sold for a fee, we expense the cost of these terminals, plus any setup fees at the time of the sale. Often, we will provide the terminals as an incentive to such merchants and independent sales agents to enter into a merchant contract with us, which have an average length of three years. In such case, the cost of the terminal plus any setup fees will be amortized over the three years. If the merchants early terminate their contract with us, they are obligated to either return the terminal or pay for the terminal. We had \$414,297 in terminals and related equipment at March 31, 2016 and \$345,459 at December 31, 2015, of which \$190,874 has been placed with merchants at March 31, 2016 and \$268,501 at December 31, 2015. Amortization of these terminals amounted to \$36,646 and \$30,735 for the three months ended March 31, 2016 and 2015, respectively.

Fixed Assets

We depreciate our furniture and equipment over a term of three to ten years. Computers and software are depreciated over terms between two and five years. Leasehold improvements are depreciated over the shorter of the economic life or term of each lease. All of our assets are depreciated on a straight-line basis for financial statement purposes.

Expenditures for repairs and maintenance are charged to operating expense as incurred. Expenditures that increase the value or productive capacity of assets are capitalized. At the time of retirements, sales, or other dispositions of property and equipment, the original cost and related accumulated depreciation are removed from the respective accounts, and the gains or losses are presented as other expenses.

Impairment of Long-Lived Assets

We review our long-lived assets for impairment whenever events or changes indicate that the carrying amount of an asset or group of assets may not be recoverable. During the three months ended March 31, 2016 and 2015, we did not recognize any charges for impairment of goodwill and intangible assets.

Intangible Assets

Included in our intangible assets are merchant portfolios which represent the net carrying value of an acquired merchant customer base. Merchant portfolios are amortized on a straight-line basis over their respective useful lives, generally three to five years. Merchant portfolios are assessed for impairment if events or circumstances indicate that their respective carrying values are not recoverable from the future anticipated undiscounted net cash flows attributable to such assets. In such cases, the amount of any potential impairment would be measured as the excess, if any, of carrying value over the fair value of such assets.

We also capitalize direct expenses associated with filing of patents and patent applications, and amortize the capitalized intellectual property costs over five years beginning when the patent is approved.

Additionally, we capitalize the fair value of intangible assets acquired in business combinations. We obtain third party valuations of net assets acquired, and allocate the purchase price of each acquired business to its respective net tangible and intangible assets. Acquired intangible assets include: merchant portfolios, trade and domain names, non-compete agreements, customer relationships, technology and certain contracts.

Capitalized Customer Acquisition Costs, Net

Included in intangible assets are capitalized customer acquisition costs, which consist of up-front cash payments made to certain ISGs for the establishment of new merchant relationships. Capitalized customer acquisition costs represent incremental, direct customer acquisition costs that are recoverable through gross margins (future net cash flows) associated with merchant contracts. The up-front payment to the ISG is based on the estimated gross margin for the first year of the merchant contract. The deferred customer acquisition cost asset is recorded at the time of payment and the capitalized acquisition costs are primarily amortized on a straight-line basis over a period of three years.

Management evaluates the capitalized customer acquisition cost for impairment at each balance sheet date by comparing, on a pooled basis by vintage month of origination, the expected future net undiscounted cash flows from underlying merchant relationships to the carrying amount of capitalized customer acquisition costs. If the estimated future net cash flows are lower than the recorded carrying amount, indicating an impairment of the carrying value of the capitalized customer acquisition costs, the impairment loss is charged to operations.

Unamortized customer acquisition costs were \$1,255,231 and \$1,048,060 at March 31, 2016 and December 31, 2015, respectively, and are reflected as intangible assets in the accompanying unaudited condensed consolidated balance sheets. During the three months ended March 31, 2016, we capitalized customer acquisition costs of \$350,475, and amortized \$143,304 over the three months ended March 31, 2016. During the twelve months ended December 31, 2015, we capitalized customer acquisition costs of \$878,085, and amortized \$356,757 over the twelve months ended December 31, 2015.

Goodwill

Goodwill represents the excess of the cost of the Company's investment in the net assets of acquired companies over the fair value of the underlying identifiable net assets at the dates of acquisition. The Company attributes all goodwill associated with the acquisitions of Unified Payments and PayOnline.

Goodwill is not amortized but is tested, using the income approach, for impairment on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the related entity below its carrying value.

The income approach employs a cash flow model that takes into account (1) assumptions that market participants would use in their estimates of fair value, (2) current period actual results, and (3) budgeted results for future periods that have been vetted by senior management.

Accrued Residual Commissions

We pay agent commissions to ISGs and independent sales agents based on the processing volume of the merchants enrolled. The commission payments are based on varying percentages of the volume processed by us on behalf of the merchants. Percentages vary based on the program type and transaction volume of each merchant. We report commission payments as a cost of revenues in the accompanying condensed consolidated statements of operations and comprehensive loss.

At March 31, 2016 and December 31, 2015, the residual commissions payable to ISGs and independent sales agents were \$702,526 and \$1,205,751, respectively.

We pay agent commission on annual fees between January and April of each year. We amortize the annual fees paid in equal monthly amounts from date of payment to end of year. We pay our agent commissions for annual fees in advance of recognizing the associated revenue. We deferred \$318,566 and \$483,090 of agent commissions paid for annual fees at March 31, 2016 and December 31, 2015, respectively.

Prepaid agent commissions for annual fees are included in prepaid expenses, and commissions payable are included in accounts payable in the accompanying condensed consolidated balance sheets.

Fair Value Measurements

Our financial instruments consist primarily of cash, accounts receivable, accounts payable and debt instruments. The carrying values of cash, accounts receivable and trade payables are considered to be representative of their respective fair values due to the short-term nature of these instruments. The carrying amount of the debt instruments of \$4,040,000 at March 31, 2016 and \$3,965,000 at December 31, 2015 approximates fair value because our current borrowing rate does not materially differ from market rates for similar bank borrowings.

We measure certain non-financial assets and liabilities at fair value on a non-recurring basis. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. We use a three-level fair value hierarchy to prioritize the inputs used to measure fair value and maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 — Quoted market prices in active markets for identical assets or liabilities as of the reporting date

Level 2 — Observable market based inputs or unobservable inputs that are corroborated by market data

Level 3 — Unobservable inputs that are not corroborated by market data

These non-financial assets and liabilities include intangible assets and liabilities acquired in business combinations as well as impairment calculations, when necessary. The fair value of the assets acquired and liabilities assumed in

connection with the PayOnline acquisition were measured at fair value at the acquisition date. The fair values of our merchant portfolios are primarily based on Level 3 inputs and are generally estimated based upon independent appraisals that include discounted cash flow analyses based on our most recent cash flow projections, and, for years beyond the projection period, estimates based on assumed growth rates. Assumptions are also made regarding appropriate discount rates, perpetual growth rates, and capital expenditures, among others. In certain circumstances, the discounted cash flow analyses are corroborated by a market-based approach that utilizes comparable company public trading values, and, where available, values observed in private market transactions. The inputs used by management for the fair value measurements include significant unobservable inputs that are not corroborated by market data, and therefore, the fair value measurements employed are classified as Level 3. The goodwill impairment assessment is primarily based on observable inputs using company specific information and is classified as Level 3.

Foreign Currency Transactions

We are subject to exchange rate risk from our foreign operations in Russia, CIS and Europe, the functional currency of which is the Russian ruble, Kazakhstan tenge and euro. In Russia, we generate service fee revenues and incur product development, engineering, website development, interest expense, and general and administrative costs and expenses. The Russian operations receive income and pay a majority of their operating expenses in rubles, exposing us to exchange rate risk. Additionally, PayOnline processes transactions in Kazakhstan and Europe and earns service fees in tenge and euro.

We do not engage in any currency hedging activities.

Revenue Recognition

We recognize revenue when the following four basic criteria have been met: (1) persuasive evidence of a sales arrangement exists, (2) performance of services or delivery of goods has occurred, (3) the sales price is fixed or determinable, and (4) collectability is reasonably assured. We consider persuasive evidence of a sales arrangement to be the receipt of a billable transaction from aggregators, merchants or a signed contract. Collectability is assessed based on a number of factors, including transaction history with the customer and the credit worthiness of the customer. If it is determined that the collection is not reasonably assured, revenue is not recognized until collection becomes reasonably assured, which is generally upon receipt of cash. We record cash received in advance of revenue recognition as deferred revenue. Our revenues for the three months ended March 31, 2016 and 2015 are principally derived from the following sources:

Transactional Processing Fees: Transactional processing fees are generated primarily from TOT Payments (doing business as Unified Payments), which is our U.S. transaction processing company, PayOnline, which is our Russian online transaction processing company, consolidated effective May 20, 2015 when we obtained control of PayOnline, and Aptito, our point of sale solution for restaurants.

Our transactional processing companies derive revenues primarily from the electronic processing of services including: credit, debit, electronic benefits transfer and alternative payment methods card processing authorized and captured through proprietary and third party networks, electronic gift certificate processing, and equipment sales. These revenues are recorded as bankcard and other processing transactions when processed. In addition to generating service fees, Aptito earns monthly license fees for use of its platform.

Typically, fees charged to merchants for these processing services are based on a variable percentage of the dollar amount of each transaction and in some instances, additional fees are charged for each transaction. Merchant customers also may be charged miscellaneous fees, including statement fees, annual fees, monthly minimum fees, fees for handling chargebacks, gateway fees, and fees for other miscellaneous services.

Generally, we (i) are the primary obligor in our arrangements with our merchant customers, (ii) have latitude in establishing the price of our services, (iii) have the ability to change the product and perform parts of the services, (iv) have discretion in supplier selection, (v) have latitude in determining the product and service specifications to meet the needs of our merchant customers, and (vi) assume credit risk. In such cases, we report revenues as gross of fees deducted by our sponsoring member banks, as well as fees deducted from card-issuing member banks and card associations (Visa® and MasterCard®) on behalf of our sponsoring member banks for interchange and assessments. These fees charged by the card associations to process the credit card transactions are recorded separately as cost of revenue and interchange fees in the accompanying condensed consolidated statement of operations and comprehensive loss.

Service and subscription fees are generated from mobile payment processing services to third party content aggregators provided by Digital Provider. Service fees for services provided for content providers historically have been recorded net of mobile operator fees. During 2015, TOT Money began to offer branded content to customers and changed its name to “Digital Provider”. Digital Provider’s revenues for the access of branded content are recorded at the amounts charged to the mobile customer. A corresponding charge to cost of sales for mobile operator and content fees is recorded for branded content.

Mobile payment processing revenues for third party content providers are accounted for as service fees and presented net of aggregator and mobile operator payments on the condensed consolidated financial statements as these revenues are considered to be agency fees.

Subscription revenues for our branded content are recognized when a content subscriber initiates the purchase of our content using WAP-click, Internet-click, or a SMS-to-short number registered to us. Digital Provider’s subscription revenues are recorded at the amounts charged to the third party customer.

Cost of revenues for Digital Provider is comprised primarily of mobile operator fees, content provider fees and fees for short numbers paid to mobile operators. Additionally, penalties and penalty recoveries are recorded as cost of sales. Funds received from mobile operators, include amounts due to aggregators for supplying us with billable transactions from content providers. Service revenues are presented net of aggregator payments on the condensed consolidated financial statements as these revenues are considered to be agency fees.

Cost of revenues for TOT Payments, Aptito and PayOnline is comprised primarily of processing fees paid to third parties attributable to providing transaction processing and service fees for POS system usage by our merchant customers. Interchange fees and cost of services are recognized as incurred, which generally occurs in the same period in which the corresponding revenue is recognized. Interchange fees are set by the card networks, and are paid to the card-issuing bank. Interchange fees are calculated as a percentage of the dollar volume processed plus a per transaction fee. We also pay Visa® and MasterCard® network dues.

Net Loss per Share

Basic net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share is determined using the weighted-average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares issuable upon exercise of common stock options or warrants. In periods when losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents because their inclusion would have an anti-dilutive effect. At March 31, 2016 and 2015, we had warrants and options to purchase 8,938,900 and 14,643,688 shares, respectively; that are excluded from the calculation of loss per share because they are anti-dilutive.

Income Taxes

We account for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the condensed consolidated financial statements. Under this method, deferred tax assets and liabilities are determined on the basis of the differences between the financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

We recognize net deferred tax assets to the extent that our management believes these assets are more likely than not to be realized. In making such a determination, management considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If management determines that we would be able to realize our deferred tax assets in the future in excess of their net recorded amount, an adjustment would be made to the deferred tax asset valuation allowance, which would reduce the provision for income taxes.

We account for uncertainty in income taxes using a two-step approach to recognizing and measuring uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likely of being realized upon settlement. We recognize a liability for unrecognized tax benefits as

current to the extent that we anticipate payment (or receipt) of cash within one year. Interest and penalties related to uncertain tax positions are recognized and recorded as necessary in the provision for income taxes. Our evaluation of uncertain tax positions was performed for the tax years ended December 31, 2010 and forward, the tax years which remain subject to examination at March 31, 2016. Please see Note 15 for discussion of our uncertain tax positions.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2014-09, “Revenue from Contracts with Customers,” which supersedes the revenue recognition requirements in Topic 605, “Revenue Recognition” and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, which defers by one year the effective date of ASU 2014-09. Accordingly, this guidance is effective for interim and annual periods beginning after December 15, 2017 with early adoption permitted for interim and annual periods beginning after December 15, 2016. The Company plans to adopt this guidance on January 1, 2018. The Company is currently evaluating the effects, if any, that the adoption of this guidance will have on the Company’s financial position, results of operations and cash flows.

In November 2014, the FASB issued Accounting Standards Update 2014-16 (“ASU 2014-16”), Derivatives and Hedging (Topic 815): Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share Is More Akin to Debt or to Equity (a consensus of the FASB Emerging Issues Task Force). ASU 2014-16 does not change the current criteria in GAAP for determining when separation of certain embedded derivative features in a hybrid financial instrument is required, but clarifies how current GAAP should be interpreted in the evaluation of the economic characteristics and risks of a host contract in a hybrid financial instrument that is issued in the form of a share, reducing existing diversity in practice. ASU 2014-16 is effective for annual periods beginning after December 15, 2015, and interim periods thereafter. The adoption of ASU 2014-16 will not have a material impact on our consolidated financial statements, as we do not have outstanding hybrid financial instruments.

In November 2015, the FASB issued ASU No. 2015-17, “Balance Sheet Classification of Deferred Taxes,” which requires entities to present deferred tax assets and deferred tax liabilities as noncurrent in a classified balance sheet. As a result, each jurisdiction will now only have one net noncurrent deferred tax asset or liability. This ASU is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, and entities are permitted to apply either prospectively or retrospectively; early adoption is permitted. The Company is currently evaluating the effects, if any, that the adoption of this guidance will have on the Company’s financial position, results of operations and cash flows.

In January 2016, the FASB issued ASU No. 2016-01, “Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities”. The new standard principally affects accounting standards for equity investments, financial liabilities where the fair value option has been elected, and the presentation and disclosure requirements for financial instruments. Upon the effective date of the new standards, all equity investments in unconsolidated entities, other than those accounted for using the equity method of accounting, will generally be measured at fair value through earnings. There will no longer be an available-for-sale classification and therefore, no changes in fair value will be reported in other comprehensive income for equity securities with readily determinable fair values. The new guidance on the classification and measurement will be effective for public business entities in

fiscal years beginning after December 15, 2017, including interim periods within those fiscal years and early adoption is permitted. The Company is in the process of evaluating the impact of the adoption of ASU 2016-01 on the Company's financial position, results of operations and cash flows.

In February 2016, the FASB issued ASU 2016-02, "Leases" which, for operating leases, requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. The ASU is effective for public companies for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the effects that the adoption of ASU 2016-02 will have on the Company's consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update 2016-08 Revenue from Contracts with Customers (Topic 606) to clarify implementation guidance on principal versus agent considerations (for reporting revenue on a gross or net basis). The ASU is an amendment to Topic 606, clarifies the implementation guidance, and requires an entity to account for revenue as an agent when another entity controls the specified good or service before that good or service is transferred to the customer. This ASU is effective for annual periods beginning after December 15, 2017. The Company is currently evaluating the effects, if any, which the adoption of this guidance will have on the Company's financial position, results of operations and cash flows.

NOTE 2. BASIS OF PRESENTATION AND PRINCIPLES OF CONSOLIDATION

Following the consolidation principles promulgated by U.S. GAAP, the consolidated financial statements of the Company include the assets, liabilities, results of operations, and cash flows of the following subsidiaries:

(1) TOT Group, Inc., a 100% owned subsidiary formed in Delaware; (2) Netlab Systems, LLC, a wholly owned subsidiary formed in Florida; (3) NetLab Systems IP, LLC, a wholly owned subsidiary formed in Florida; (4) OOO Net Element Russia ("Net Element Russia"), a wholly owned subsidiary formed in Russia; and (5) Net Element Services, LLC, a wholly owned subsidiary formed in Florida.

The subsidiaries listed above are the parent companies of several other subsidiaries, which hold the Company's underlying investments or operating entities.

TOT Group is the parent company of TOT Payments, LLC ("TOT Payments") doing business as Unified Payments a wholly owned subsidiary formed in Florida, Aptito, LLC, a 80% owned subsidiary formed in Florida (acquired June 18, 2013), TOT Group Europe LTD, a wholly owned subsidiary formed in the United Kingdom, Unified Portfolios, LLC, a wholly owned subsidiary formed in Florida and OOO TOT Group Russia, a wholly owned subsidiary formed in Russia.

• TOT Payments, LLC is the parent company of:

- Process Pink, LLC, a wholly owned subsidiary formed in Florida;
- TOT HPS, LLC, a wholly owned subsidiary formed in Florida;
- TOT FBS, LLC, a wholly owned subsidiary formed in Florida;
- TOT New Edge, LLC, a wholly owned subsidiary formed in Florida;
- TOT BPS, LLC, a wholly owned subsidiary formed in Florida

- OOO TOT Group Russia is the parent company of its wholly owned subsidiary OOO Digital Provider (f/k/a OOO TOT Money)(a company formed in Russia), PayOnline Systems, LLC (a wholly-owned company formed in Russia), Innovative Payment Technologies, LLC (a wholly-owned company formed in Russia) and TOT Group Kazakhstan, a wholly owned subsidiary formed in Kazakhstan.

• Netlab Systems, LLC is the parent company of Tech Solutions LTD (Cayman Islands).

• Net Element Russia is the parent company of 99% owned OOO TOT Group.

• TOT Group Europe LTD is 100% owner of Polimore Capital Limited (Cyprus) and Brosword Holding Limited (Cyprus)

All material intercompany accounts and transactions have been eliminated in consolidation.

NOTE 3. LIQUIDITY AND GOING CONCERN CONSIDERATIONS

The independent auditors' reports on our consolidated financial statements for the years ended December 31, 2015 contained an explanatory paragraph expressing substantial doubt as to our ability to continue as a going concern.

Our condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. We sustained a net loss of approximately \$1.9 million for the three month period ended March 31, 2016, an accumulated deficit of \$145.8 million and negative working capital of \$4.1 million at March 31, 2016. These conditions raise substantial doubt about our ability to continue as a going concern.

Failure to successfully continue developing the Company's payment processing operations and maintain contracts with merchants, mobile phone carriers and content providers to use TOT Group's services could harm our revenues and materially adversely affect our financial condition and results of operations. We face all of the risks inherent in a new business, including the need for significant additional capital, management's potential underestimation of initial and ongoing costs, and potential delays and other problems in connection with developing our technologies and operations.

We are continuing with our plan to further grow and expand our payment processing operations in emerging markets, particularly in Russia and surrounding countries. Management believes that its current operating strategy will provide the opportunity for us to continue as a going concern as long as we are able to obtain additional financing; however, there is no assurance this will occur. The accompanying consolidated financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

We are required to continually meet the listing requirements of The NASDAQ Capital Market (including a minimum bid price for our common stock of \$1.00 per share) to maintain the listing of our common stock on The NASDAQ Capital Market. On June 19, 2015, we received a deficiency letter from The NASDAQ Capital Market indicating that for 30 consecutive trading days our common stock had a closing bid price below the \$1.00 per share minimum. In accordance with NASDAQ Listing Rules, we were provided a compliance period of 180 calendar days, or until December 16, 2015, to regain compliance with this requirement. On December 17, 2015, we received a letter from The NASDAQ Capital Market notifying us that the initial period of 180 calendar days previously provided to the Company to regain compliance with the requirement was extended for an additional 180 calendar day period, or until June 13, 2016. We can regain compliance with the minimum closing bid price requirement if the bid price of our Common Stock closes at \$1.00 per share or higher for a minimum of 10 consecutive business days. If we do not regain compliance with the minimum closing bid price requirement by June 13, 2016, The NASDAQ Capital Market will provide written notice that our securities are subject to delisting. At such time, we would be entitled to appeal the delisting determination to a NASDAQ Listing Qualifications Panel. We have received Board and shareholder approval to facilitate a reverse stock split to increase the bid price of our common stock, if required. We cannot provide any assurance that our stock price will recover within the permitted grace period.

NOTE 4. ACCOUNTS RECEIVABLE

Accounts receivable consist of amounts due from processors and mobile operators. Total accounts receivable amounted to \$4,424,761 and \$5,198,993 at March 31, 2016 and December 31, 2015, respectively. Accounts receivable primarily included \$2,179,475 and \$1,764,087 of amounts due from mobile operators and \$2,245,696 and \$3,223,287 of credit card processing receivables at March 31, 2016 and December 31, 2015, respectively.

For the three months ended March 31, 2016 and 2015, we recorded \$263,789 and \$96,717 for Automated Clearing House (“ACH”) rejects in the normal course of operation, offset by bad debt recoveries of \$12,047 and \$87,387 from our Russian operations.

Occasionally, Digital Provider advances funds to aggregators for future processing volume. At March 31, 2016 and December 31, 2015, Digital Provider had advances to aggregators of \$189,842 and \$5,863.

We monitor all accounts receivable and transactions with mobile operators and aggregators on a monthly basis to ensure collectability and the adequacy of loss provisions. Considerations include payment history, business volume history, financial statements of borrower, projections of borrower and other standard credit review documentation. Management uses its best judgment to adequately reserve for future losses after all available information is reviewed.

NOTE 5. FIXED ASSETS

Fixed assets are stated at cost less accumulated depreciation and amortization as follows:

	Useful life (in years)	March 31, 2016	December 31, 2015
Furniture and equipment	3 - 10	\$ 170,782	\$ 174,133
Computers	2 - 5	141,692	141,692
Total		312,474	315,825
Less: Accumulated depreciation		(161,262)	(153,702)
Total fixed assets, net		\$ 151,212	\$ 162,123

Depreciation expense for the three months ended March 31, 2016 and 2015 was \$7,560 and \$14,995, respectively.

NOTE 6. INTANGIBLE ASSETS

Shown below are the details of intangible assets at March 31, 2016 and December 31, 2015:

	IP Software	Portfolios and Client Lists	Client Acquisition Costs	PCI Certification	Trademarks	Domain Names	Covenant Not to Compete	Total
Balance at December 31, 2014	\$520,925	\$1,082,731	\$526,728	\$-	\$-	\$-	\$361,667	\$2,492,051
Additions due to Payonline purchase	1,328,000	1,410,000	-	449,000	708,062	429,939	-	4,325,001
Other additions	163,129		878,085					1,041,214
Amortization	(463,451)	(842,806)	(356,753)	(93,542)	(146,290)	(90,793)	(280,000)	(2,273,635)
Divested	-	(160,750)	-	-	-	-	-	(160,750)
Balance at December 31, 2015	\$1,548,603	\$1,489,175	\$1,048,060	\$355,458	\$561,772	\$339,146	\$81,667	\$5,423,881
Additions	42,245	-	350,475	-	-	-	-	392,720
Amortization	(353,304)	\$(176,046)	(143,304)	(37,417)	(41,667)	(24,999)	(70,000)	(846,737)
Balance at March 31, 2016	\$1,237,544	\$1,313,129	\$1,255,231	\$318,041	\$520,105	\$314,147	\$11,667	\$4,969,864

Software

The Company capitalizes software development costs that add value to or extend the useful of the related software it develops for internal use and licensing. Costs for routine software updates are expensed as incurred. Capitalized costs are amortized over 36 months on a straight-line basis. Impairment is reviewed quarterly to ensure only viable active costs are capitalized.

During the three months ended March 31, 2016 and twelve months ended December 31, 2015, the Company capitalized \$0 and \$163,129 of development costs as follows:

- point of sale software (\$0 and \$107,619)
- payment processing software (\$0 and \$46,868)
- mobile payments billing software (\$0 and \$8,642)

Merchant Portfolios

Merchant Portfolios consist of portfolios owned by us that earn future streams of income. The useful lives of these portfolios range from 15 to 36 months at the time of acquisition. The useful lives of merchant portfolios represent management's best estimate over which we expect to recognize the economic benefits of these intangible assets. At March 31, 2016 and December 31, 2015, the net value of these portfolios was \$1,313,129 and \$1,489,175, respectively. For the three months ended March 31, 2016 and March 31, 2015, amortization was \$176,046 and \$219,408, respectively.

Trademarks and domain names.

During 2015, we acquired certain trademarks with a \$312,220 fair market value and domain names with a \$506,330 fair market value at the date of acquisition. At March 31, 2016 and December 31, 2015, the net book value of these trademarks were \$520,105 and \$561,772, respectively, and the net book value of the domain names were \$314,147 and \$339,146, respectively.

Non-Compete Agreements

In connection with the Company's acquisition of Unified Payments, LLC in 2013, two key executives signed covenants not to compete. These covenants have a three-year life and had a net book value \$11,667 and \$81,667 at March 31, 2016 and December 31, 2015, respectively.

Total amortization expense for the three months ended March 31, 2016 and 2015 was \$880,558 and \$423,774, respectively, of which \$33,811 and \$32,752 represented amortization of inventory placed with merchants for the three months ended March 31, 2016 and 2015, respectively.

The following table presents the estimated aggregate future amortization expense of other intangible assets:

Year	Amortization Expense
2016	1,251,216
2017	1,549,436

2018	1,549,436
2019	619,775
2020	-
Total \$	4,969,863

NOTE 7. SHORT TERM DEBT

In September 2014, Digital Provider entered into Supplement Agreements with Alfa-Bank, which renewed and amended the Factoring Credit Facility (“FCF”). Pursuant to such amendments, the FCF will expire on June 30, 2016, the maximum aggregate limit of financing (secured by Digital Provider’s accounts receivable) to be provided by Alfa-Bank to Digital Provider under the FCF is 415 million Russian rubles (approximately US\$10.8 million based on the currency exchange rate on September 17, 2014), Alfa-Bank’s fees (commissions) for providing financing to Digital Provider was amended to be computed as a financing rate that ranges from 13.22% to 14.50% of the amounts borrowed, depending upon the number of days in the period from the date financing is provided until the date the factored receivable is paid. The agreement requires us to comply with covenants. Accordingly, the amounts of our draws will depend on amounts of accounts receivable suitable for assignment at the time we choose to draw under such facility. We have not drawn any funds under the FCF.

Bank Otkritie Credit Agreement.

In November 2014, Digital Provider entered into a factoring services agreement (together with related and ancillary agreements, collectively, the “Bank Otkritie Agreement”) with Bank Otkritie Financial Corporation (“Bank Otkritie”).

We have not drawn any funds under the Bank Otkritie Agreement and this agreement was cancelled on August 31, 2015.

NOTE 8. ACCRUED EXPENSES

At March 31, 2016 and December 31, 2015, accrued expenses amounted to \$3,131,234 and \$2,975,066, respectively. Accrued expenses represent expenses that are owed at the end of the period and have not been billed by the provider or are estimates of services provided. The following table details the items comprising the balances outstanding at March 31, 2016 and December 31, 2015.

	March 31, 2016	December 31, 2015
Accrued professional fees	\$220,140	\$ 220,140
PayOnline earnout	470,584	618,500
Accrued payroll	74,871	79,653
Accrued bonus	1,701,936	1,635,816
Accrued foreign taxes	283,004	79,691
Short term loan advances	175,560	200,000
Other accrued expenses	205,139	141,266
	\$3,131,234	\$ 2,975,066

Accrued bonuses are attributed to our TOT Group subsidiaries, consisting of bonuses that were owed at the date of the Unified Payments acquisition, plus a discretionary bonus accrual.

NOTE 9. LONG TERM DEBT

Long term debt consisted of the following:

	March 31, 2016	December 31, 2015
RBL Capital Group LLC	\$ 4,040,000	\$ 3,965,000
Less Current Portion	(570,017)	(518,437)
Long Term Debt	\$ 3,469,983	\$ 3,446,563

RBL Capital Group, LLC

Effective June 30, 2014, TOT Group, Inc. and its subsidiaries as co-borrowers, TOT Payments, LLC, TOT BPS, LLC, TOT FBS, LLC, Process Pink, LLC, TOT HPS, LLC and TOT New Edge, LLC, entered into a Loan and Security Agreement with RBL Capital Group, LLC (“RBL”), as lender (the “RBL Loan Agreement”). Pursuant to the RBL Loan Agreement, we may borrow up to \$10,000,000 from RBL during the period of 18 months from the closing of this credit facility. Prior to maturity of the loan, the principal amount of the borrowings under the credit facility will carry a fixed interest rate of the higher of 13.90% per annum or the prime rate plus 10.65%. After maturity of the loan, until all borrowings are paid in full, with respect to the advances under the credit facility, an additional three percent per annum would be added to such interest rate, and for any other amounts, obligations or payments due to RBL, an annual default rate not to exceed the lesser of (i) the prime rate plus 13% per annum and (ii) 18.635% per annum. As further described below, borrowings from the line of credit in the amounts of \$3,315,000, \$400,000 and \$250,000 were converted into term loans. At March 31, 2016 and December 31, 2015, we had \$6,035,000 available on our RBL credit line.

The co-borrowers' obligations to RBL pursuant to the RBL Loan Agreement are secured by a first priority security interest in all of the co-borrowers' tangible and intangible assets, including but not limited to their merchants, merchant contracts and proceeds thereof, and all right title and interest in co-borrowers' processing contracts, contract rights, and portfolio cash flows with all processors of co-borrowers.

Effective July 17, 2014 we entered into a \$3,315,000 term loan with RBL. Net proceeds from the loan were used to repay the \$3.0 million MBF loan and related costs and interest, in addition to approximately \$239 thousand for working capital. The loan requires interest only payments at 13.90% interest through January 2015, commencing on August 20, 2014 followed by monthly interest and principal payments of \$90,421 through January 2019 and the loan balance reduced the amount available under our credit line.

Effective February 10, 2015, we entered into a \$400,000 term loan note with RBL. The loan provides for interest-only payments at 13.90% interest through July 20, 2015. From August 20, 2015 through July 20, 2019, the note maturity date, we are obligated to make interest and principal payments of \$10,911 per month and the loan balance reduced the amount available under our credit line. We paid \$8,000 in costs related to this loan.

Effective March 27, 2015, we entered into a \$250,000 term loan note with RBL. The loan provides for interest-only payments at 13.90% interest through July 20, 2015. From August 20, 2015 through July 20, 2019, the note maturity date, we are obligated to make interest and principal payments of \$6,819 per month and the loan balance reduced the amount available under our credit line. We paid \$5,000 in costs related to this loan. Also see Note 17. Subsequent Events.

MBF Merchant Capital, LLC

Effective March 28, 2016, we entered into a \$75,000 term loan note with MBF Merchant Capital, LLC ("MBF"). The loan provides for interest only payments at 14% through May 28, 2016. From June 28, 2016 through March 28, 2017, we are obligated to make interest and principal payments of \$7,989.62 through March 28, 2017, with an additional payment of \$5,500 due at March 28, 2017. MBF is affiliated with one of our board members.

Scheduled Debt Principal Repayment

Scheduled principal maturities on indebtedness at March 31, 2016 is as follows:

2016 (9 mos.)	\$ 570,017
2017	896,384
2018	1,002,343
2019	1,150,896
2020	420,360
Balance March 31, 2016	\$ 4,040,000

NOTE 10. CONCENTRATIONS

Total revenue was \$11,261,059 for the three months ended March 31, 2016, of which \$7,852,648 was derived from processing of Visa®, MasterCard®, Discover® and American Express® card transactions, \$1,992,757 was derived from processing of mobile electronic payments and \$1,414,907 was derived from our PayOnline transactional gateway services.

Total revenue was \$5,540,207 for the three months ended March 31, 2015, of which \$5,177,179 was derived from processing of Visa®, MasterCard®, Discover® and American Express® card transactions and \$363,028 was derived from processing of mobile electronic payments.

For the three months ended March 31, 2016, credit card processing revenues were derived from merchant customer transactions, which are processed primarily by two third-party processors. For the three months ended March 31, 2016, we processed 62% of our total revenue with Priority Payments, Inc. (f/k/a Cynergy Data, LLC) and 8% with Vantiv, Inc. (f/k/a National Processing Company (NPC)).

For the three months ended March 31, 2015, credit card processing revenues were derived from merchant customer transactions, which are processed primarily by two “third-party” processors. For the three months ended March 31, 2015, we processed 71% of its total revenue with Priority Payments, and 18% with Vantiv, Inc. (f/k/a National Processing Company (NPC)).

For the three months ended March 31, 2016, mobile electronic payment revenues were derived from merchant customer transactions which were processed by one mobile operator greater than 5% of sales. For the three months ended March 31, 2016, we processed 7% of our total revenue with Beeline (OJSC Vimpelcom).

For the three months ended March 31, 2015, mobile electronic payment revenues were derived from merchant customer transactions, which are processed primarily by two mobile operators. For the three months ended March 31, 2015, we processed 7% of its total revenue with Beeline (OJSC Vimpelcom), and 7% with MTS (Mobile TeleSystems OJSC).

Although revenues from PayOnline Systems comprises approximately 10% of our total revenue for the three months ended March 31, 2016, no individual customer is significant.

NOTE 11. COMMITMENTS AND CONTINGENCIES

Leases

We lease approximately 5,400 square feet of office space in North Miami Beach, Florida. The lease expires December 31, 2016, with monthly payments of approximately \$19,500.

We lease approximately 1500 square feet of office space in Yekaterinburg, Russia. The lease expires December 2016, at annual rent of approximately \$15,800.

Net Element Russia leases approximately 2,033 square feet of office space in Moscow, Russia at annual rent of \$66,514, as well as one corporate apartment at annual rent of \$14,571. The current lease term for the office space expires on January 31, 2017 and we expect to renew this lease at that time. The current lease term for the corporate apartment expires on February 28, 2017. We believe that these facilities are adequate for our anticipated needs.

PayOnline Systems leases approximately 5,435 square feet of office space in Moscow, Russia at annual rent of \$114,059. The current lease term for the office space expires on July 15, 2016, and we expect to renew this lease at that time. We believe that these facilities are adequate for our anticipated needs.

Share Issuance Commitments

On December 3, 2015, our Compensation Committee approved and authorized the issuance of 5,791,717 restricted shares of the Company common stock to Oleg Firer, the Chief Executive Officer of the Company, in lieu of and in satisfaction of accrued and unpaid compensation due to him in the amount of \$1,042,509. Share issuance is subject to shareholder approval and shares will be not issued and will be deemed forfeited if such shareholders' approval is not obtained by December 31, 2016, in which case Oleg Firer will be entitled to the accrued cash compensation.

On December 3, 2015, the Compensation Committee awarded to Oleg Firer, the Chief Executive Officer of the Company, 3,750,000 restricted shares of the Company common stock as performance bonus. Share issuance is subject to shareholder approval and shares will be not issued and will be deemed forfeited if such shareholders' approval is not obtained by December 31, 2016.

On December 3, 2015, the Compensation Committee awarded to Steven Wolberg, the Chief Legal Officer of the Company, 800,000 restricted shares of the Company common stock as performance bonus. Share issuance is subject to shareholder approval and shares will be not issued and will be deemed forfeited if such shareholders' approval is not obtained by December 31, 2016.

We are obligated to issue shares in the future to satisfy our obligation for the purchase of PayOnline Systems. At March 31, 2016 the present value of our earn-out liability related to this purchase was \$470,584 (also see Note 17. Subsequent Events)

Litigation

First Data Corporation

On July 30, 2013, TOT Payments, LLC, brought an action against First Data Corporation in the State of New York Supreme Court (Index No. 652663-2013). The amount of damages being sought is \$10,000,000 per cause. In its complaint, TOT Payments claims that the defendant breached its obligations pursuant to a 2006 Marketing Agreement entered into between Money Movers of America, Inc. (MMOA) and Paymentech, Inc. (the "MMOA Agreement") to pay MMOA monthly residual income on various merchant accounts boarded with Paymentech pursuant to the MMOA Agreement. TOT Payments, through a series of historic transactions, is the successor in interest to the rights and obligations of MMOA in the MMOA Agreement. The defendant is the successor in interest to Paymentech. On July 15, 2013, the defendant failed to pay to TOT Payments the monthly residuals otherwise due as the defendant alleges that the MMOA Agreement was lawfully terminated in April 2012 and that the defendant had 180 days after the

termination notice to move the MMOA merchants to a new platform failing which the defendant could withhold residual payments and that the defendant would own all merchant accounts boarded under the MMOA Agreement. The amount of the unpaid residuals, are between \$150,000 and \$250,000 net of all interchange charges. TOT Payments disputes receiving proper notice and is disputing the rights of the defendant to withhold monthly residuals due. There was an adjournment because of the motions made in the appellate division. Plaintiffs' opposition to Defendant's motion to dismiss (for lack of standing) was filed on October 24, 2013. Defendant's Reply to Plaintiff's opposition was filed October 31, 2013. Defendants filed both a memorandum in support and an affirmation in support to dismiss and oral argument was heard November 1, 2013. The case was subsequently dismissed and an appeal was filed. On May 12, 2015 The Appellate Division of the Supreme Court overturned the dismissal ruling of the lower Court and reinstated the Plaintiffs case. On April 21, 2016 the Parties entered into a Settlement Agreement settling all matters pertaining to the lawsuit. Pursuant to the terms of the Settlement Agreement, Plaintiff agreed to withdraw the lawsuit and Defendant agreed not to pursue any of its counterclaims. This lawsuit has been fully and finally resolved.

Wayne Orkin

On June 27, 2014, we were served with a lawsuit filed in the Los Angeles County of the Superior Court of California by Wayne Orkin ("Orkin"). Orkin was a former employee of an entity First Business Solutions, LLC ("FBS") that was a subsidiary of Unified Payments, LLC. The assets of Unified Payments, LLC were acquired by us in April 2013. Unified Payments, LLC is also a named defendant in this lawsuit. In his complaint, Orkin is claiming a "unity of interest in ownership" between the Defendants and that each of the named defendants were agents, alter egos and authorized representatives of one another. Orkin claims that the defendants breached its obligations pursuant to a verbal agreement allegedly entered into in 2010 whereby he would allegedly be entitled to certain royalties resulting from the sales of a payment browser technology purchased by FBS from Orkin's entity. The Plaintiff is claiming unspecified damages for alleged breach of contract, breach of covenant of good faith and fair dealing, misappropriation of technology, fraud and conversion. The Company asserts that it never had any dealings with Orkin and strongly denies all allegations contained in the Complaint.

On September 23, 2014, The Court upheld the Motion to set aside a default judgment previously entered against Unified Payments. On the Motion to Dismiss ("demurrer"), Plaintiffs attorney filed an amended complaint to address certain deficiencies raised by our counsel. Requests for Discovery were served on Plaintiff's counsel who recently requested an extension for filing responses thereto. At the court hearing on our demurrer to the Plaintiffs First Amended Complaint, the court gave the Plaintiff another opportunity to clarify its Complaint and Orkin filed a Second Amended Complaint in the California litigation on June 8, 2015. The Defendants filed a Demurrer in response. At a hearing on the matter, the judge sustained the Defendants demurrer to the breach of fiduciary duty claim against Unified Payments and Net Element –essentially dismissing these claims. However, the judge allowed the contract and fraud claims to proceed against all defendants. The parties recently took depositions of various Plaintiff and Defendant parties. Litigation is proceeding in the California Courts and the trial is currently scheduled for June 2016.

As the employment agreement between Orkin and FBS has an arbitration clause that is binding on Orkin in his lawsuit against Unified Payments for alleged breach of the employment agreement, the parties agreed in early November 2014 to stipulate to arbitration in Florida and to stay the California proceedings pending the outcome of the arbitration. A Demand for Arbitration was served on us on May 5th. We will be defending the claims set out in the Arbitration Complaint. We did not assume any of the contracts from the Unified Payments entity acquired in 2013. We understand that the Predecessor Unified entity has filed counterclaims against Orkin in the arbitration matter and that the Arbitration is scheduled for hearing at the end of May 2016. On April 27, 2016, the Parties to the lawsuit and the

Arbitration agreed to a stay of the legal proceedings pending a Settlement Conference which is scheduled in Los Angeles in June 2016.

Aptito.com, Inc.

On August 6, 2014, our subsidiary (Aptito, LLC) filed a lawsuit against Aptito.com, Inc. and the shareholders of Aptito.com, Inc., in state court in the 11th Judicial Circuit in and for Miami-Dade County. This is an interpleader action in regards to 125,000 shares of stock. Aptito, LLC acquired Aptito.com, Inc. in exchange for, among other things, 125,000 shares of Net Element, Inc. stock. There has been disagreement among the Aptito.com, Inc. shareholders as to proper distribution of the 125,000 shares. To avoid any liability in regards to improper distribution, Aptito, LLC filed the interpleader action so as to allow the Defendants to litigate amongst themselves as to how the shares should be distributed. Aptito, LLC intends to soon convene a status conference in which Aptito, LLC will ask to deposit the 125,000 shares into the Court registry and be excused from the action. At that point, it will be up to the Defendants to litigate as to the proper distribution of shares.

Gene Zell

In June 2014, we, as plaintiff, commenced an action in the Miami-Dade Circuit Court, Florida against Gene Zell for defamation of our Company and CEO and tortious interference with our business relationships. In October 2014, the court granted a temporary injunction against Zell enjoining him from posting any information about our Company and CEO on any website and enjoining him from contacting our business partners or investors. Zell violated the Court Order and the Court granted a Motion imposing sanctions against Zell. We continue to seek enforcement of the Court Order.

On April 13, 2015, Zell filed a Motion to set aside the Court Order alleging he was unaware of the Court Proceedings. The Court, on August 26, 2015, dismissed Zell's Motion to dissolve the injunction and the case is moving forward. On October 5, 2015, Zell served Discovery demands on us that was addressed by legal counsel. This matter remains pending.

Dan Hudson

In August 2015, we, as plaintiff, commenced an action in the Miami-Dade Circuit Court, Florida against Dan Hudson for defamation of our Company and CEO and tortious interference with our business relationships. The Motion is for an injunction against Hudson enjoining him from posting any information about our Company and CEO on any website and enjoining him from contacting our business partners or investors. The Company continues to try to locate the Defendant to serve process on him.

Other Legal Proceedings

We are involved in certain legal proceedings and claims which arise in the ordinary course of business. In our opinion, based on consultations with outside counsel, the results of any of these ordinary course matters, individually and in the aggregate, are not expected to have a material effect on our results of operations, financial condition, or cash flows. As more information becomes available, if management should determine that an unfavorable outcome is probable on such a claim and that the amount of such probable loss that it will incur on that claim is reasonably estimable, we will record a reserve for the claim in question. If and when we record such a reserve is recorded, it could be material and could adversely impact our results of operations, financial condition, and cash flows.

NOTE 12. RELATED PARTY TRANSACTIONS

On January 29, 2016, March 1, 2016 and March 24, 2016, we received \$302,285, \$303,318 and \$303,682 from a board member, respectively. It is the intention of management to repay these amounts via issuance of shares of our common stock.

See Note 9 with respect to a note payable to MBF Merchant Capital, LLC.

NOTE 13. STOCKHOLDERS' EQUITY

On January 25, 2016, we issued 425,650 shares of common stock as part of the PayOnline earn-out.

Equity Incentive Plan

On December 5, 2013, our Board submitted and the shareholders approved the Net Element International, Inc. 2013 Equity Incentive Plan (the "2013 Plan"). Awards under the 2013 Plan may be granted in any one or all of the following forms: (i) incentive stock options ("Incentive Stock Options") meeting the requirements of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"); (ii) non-qualified stock options ("Non-Qualified Stock Options") (unless otherwise indicated, references to "Options" include both Incentive Stock Options and Non-Qualified Stock Options); (iii) stock appreciation rights ("Stock Appreciation Rights"), which may be awarded either in tandem with Options ("Tandem Stock Appreciation Rights") or on a stand-alone basis ("Nontandem Stock Appreciation Rights"); (iv) shares of common stock that are restricted ("Restricted Shares"); (v) units representing shares of common stock ("Performance Shares"); (vi) units that do not represent shares of common stock but which may be paid in the form of common stock ("Performance Units"); and (vii) shares of common stock that are not subject to any conditions to vesting ("Unrestricted Shares"). The maximum aggregate number of shares of common stock available for award under the 2013 Plan at March 31, 2015 is 263 subject to adjustment as provided for in the 2013 Plan. The 2013 Plan is administered by the compensation committee.

During the three months ended March 31, 2016 and 2015, we issued common stock to the members of our Board of Directors and recorded compensation charges of \$5,813 and \$21,750, respectively.

At March 31, 2016, we had 3,286,545 incentive stock options outstanding with a weighted average exercise price of \$0.28 and a weighted average remaining contract term of 9.66 years. Of the 3,286,545 incentive options, there were 3,167,351 options in the money with an intrinsic value totaling \$221,715. The remaining options were out-of-the-money and had no intrinsic value at March 31, 2016.

NOTE 14. WARRANTS AND OPTIONS

Warrants

In 2013, the Company (then known as Cazador Acquisition Corporation Ltd.) issued warrants to purchase 8,940,000 shares of common stock in connection with its private placement and initial public offering. At March 31, 2016 and December 31, 2015, we had warrants outstanding to purchase 8,938,900 shares of common stock.

At March 31, 2016, we had 8,938,900 warrants outstanding with a weighted average exercise price of \$7.50 and a weighted average contract term of 1.50 years.

Each warrant entitles the registered holder thereof to purchase one share of our common stock at a price of \$7.50 per share. The warrants will be exercisable only if a registration statement relating to the shares of our common stock issuable upon exercise of the warrants is effective and current.

The warrants expire on October 2, 2017, or earlier upon exercise or redemption.

Options

At March 31, 2016, we had 11,357,143 non-incentive options outstanding with an exercise price of \$0.23 and a remaining contract term of 4.45 years. These options were in the money at March 31, 2016 with a total intrinsic value of \$1,022,143.

NOTE 15. INCOME TAXES

Our net deferred tax assets primarily are comprised of net operating loss carryforwards (“NOLs”), and basis difference in goodwill and intangibles. These NOLs total approximately \$45.9 million and \$40.3 million for federal, and approximately \$10.8 million and \$9.3 million for foreign NOLs as of March 31, 2016 and March 31, 2015, respectively.

The timing and manner in which we will be able to utilize our NOLs is limited by Section 382 of the Internal Revenue Code of 1986, as amended (IRC). IRC Section 382 imposes limitations on a corporation’s ability to use its NOLs when it undergoes an “ownership change.” Generally, an ownership change occurs if one or more shareholders, each of whom owns 5% or more in value of a corporation’s stock, increase their percentage ownership, in the aggregate, by more than 50% over the lowest percentage of stock owned by such shareholders at any time during the preceding three-year period. Because on June 10, 2014, we underwent an ownership change as defined by IRC Section 382, the limitation applies to us. The losses generated prior to the ownership change date (pre-change losses) are subject to the Section 382 limitation. The pre-change losses may only become available to be utilized by us at the rate of \$2.4 million per year. Any unused losses can be carried forward, subject to their original carry forward limitation periods. In the year 2016, approximately \$2.4 million in the pre-change losses will be released from the Section 382 loss limitation. We can still fully utilize the NOLs generated after the change of the ownership, which was approximately \$1.1 million. In 2016, \$2.4 million of the pre-change losses will be released. Thus, we expect the total of approximately \$10.3 million as of March 31, 2016 is available to offset future taxable income.

In order to fully utilize the net deferred tax assets, we will need to generate sufficient taxable income in future years to utilize its NOLs prior to their expiration. ASC Topic 740, “Income Taxes”, requires us to analyze all positive and negative evidence to determine if, based on the weight of available evidence, we are more likely than not to realize the benefit of the net deferred tax assets. The recognition of the net deferred tax assets and related tax benefits is based upon our conclusions regarding, among other considerations, estimates of future earnings based on information currently available, current and anticipated customers, contracts and product introductions, as well as historical operating results and certain tax planning strategies.

We have evaluated the available evidence and the likelihood of realizing the benefit of our net deferred tax assets. From our evaluation, we have concluded that based on the weight of available evidence, it is more likely than not that we will not realize any of the benefit of its net deferred tax assets. Accordingly, at March 31, 2016, we maintain a full valuation allowance totaling approximately \$22.1 million.

Prior to the fourth quarter of 2015, we had a single reportable business segment: payment processing for electronic commerce. On May 20, 2015, we obtained financial and operational control of PayOnline, a provider of online payment processing of online transactions in emerging markets for services fees. Additionally, we rebranded our mobile payments business to Digital Provider and began reporting gross revenues for mobile payments where we provide access to branded content. Given the size of assets and revenues from PayOnline and Digital Provider, we began reporting segment information for three operating segments.

Our three reportable segments include: (i) North America Transaction Solutions for electronic commerce, (ii) Mobile Solutions (primary Russian Federation and CIS) (iii) Online Solutions, which started up with our acquisition of PayOnline Solutions on May 20, 2015. Management determines the reportable segments based on the internal reporting used by our Chief Operating Decision Maker to evaluate performance and to assess where to allocate resources. During the three months ending March 31, 2016 and 2015, the principal revenue stream for all segments came from services fees and branded content.

Factors management used to identify the entity's reportable segments

The Company's reportable segments are business units that offer different products and services in different geographies. The reportable segments are each managed separately because they offer distinct products, in distinct geographic locations, with different delivery and service processes.

North America Transaction Solutions

Our U.S. payment processing business segment consists of the former Unified Payments business and Aptito. This segment operates primarily in North America. In March 2013, we acquired all of the business assets of Unified Payments, a provider of comprehensive turnkey, payment processing solutions to small and medium size business owners (merchants) and independent sales organizations across the United States.

In April 2013, we purchased 80% of Aptito, a cloud based Software-as-a-Service (“SaaS”) restaurant management solution, which provides integrated POS, mPOS, Kiosk, Digital Menus functionality to drive consumer engagement via Apple® iPad®-based POS, kiosk and all other cloud-connected devices.

Mobile Solutions

Our Russian mobile and online payment processing segment consists of Digital Provider which operates primarily in Russia.

In June 2012, we formed our subsidiary, OOO TOT Money to develop a business in mobile commerce payment processing. TOT Money launched its initial operations in Russia as a payment facilitator using SMS (short message services, which is a text messaging service) and MMS (multimedia message services) for mobile phone subscribers in Russia. During 2015, we changed our business model, rebranded our name to Digital Provider, and began to offer branded content to subscribers.

Online Solutions

On May 20, 2015, we acquired the net assets that comprise PayOnline, which includes a protected payment processing system to accept bank card payments for goods and services. PayOnline primarily operates in Russia and CIS.

The accounting policies of the individual transactions in the reportable segments are the same as those of the Company, as described in Note 1. Transactions between reportable segments are primarily conducted at market rates, resulting in segment profits or expenses that are eliminated for reporting consolidated results.

Segment Summary Information*Geographic Summary Information*

The following tables present financial information of the Company's reportable segments at March 31, 2016 and 2015. The "corporate and eliminations" column includes all corporate expenses and intercompany eliminations for consolidated purposes. Prior to May 20, 2015, we only had one segment – Payment processing for electronic transactions.

Three months ended March 31, 2016	North America Transaction Solutions	Russia	Other	Total

NOTE 17. SUBSEQUENT EVENTS

On April 14, 2016, we entered into an Amendment No. 1 to a Letter Agreement for the sale and issuance of restricted stock to Kenges Rakishev, one of our directors.

Pursuant to the amendment to the Letter Agreement in the event that the Stockholders Approval is not obtained by July 19, 2016, (i) the purchase price for the Restricted Shares and the Restricted Options shall be automatically amended to be equal to the product of (x) 4,664,275 and (y) the sum of \$0.1951 and \$0.125, in which case the Investor will have paid to the Company the difference between such price and the previously paid purchase price for the Restricted Shares and the Restricted Options, (ii) the number of Restricted Shares and the Restricted Options issuable to Mr. Rakishev will be adjusted to be equal to the quotient determined by dividing (I) \$910,000 by (II) \$0.3201, or (iii) the Restricted Options will not be issued and Mr. Rakishev will be issued the number of Restricted Shares calculated on the basis of \$0.1951 per share purchase price.

On April 12, 2016, the compensation committee of the Board of Directors rescinded previously granted incentive stock options to purchase approximately 1.6 million shares of our common stock, as the amounts granted were inadvertently in excess of individual grant limitations set forth in the 2013 Plan documents.

On April 15, 2016, we paid the third installment of the earn-out for the PayOnline acquisition. This payment included \$61,736 in cash and 228,651 shares of the Company's common stock valued at \$61,736 on the date issued.

On April 28, 2016, we entered into a letter agreement with RBL for a 90-day extension of the interest only periods of the term loans described in note 9.

On May 2, 2016 we renewed our credit facility with RBL, increasing the facility to \$15 million and extending the term through February 2018.

On May 2, 2016, we entered into a Master Exchange Agreement with Crede CG III, Ltd. ("Crede"), an entity that purchased a portion our previously issued notes held by RBL. Pursuit to the Master Exchange Agreement, we have the right to request that Crede exchange the promissory notes held for shares of our common stock. We issued 978,568 shares of our common stock in settlement of obligations of \$281,142, based on a per share exchange price of 0.2873.

On May 4, 2016, we entered into a \$250,000 term loan note with RBL. The loan provides for interest-only payments at 14.15% interest through October 20, 2016. From November 20, 2016 through October 20, 2020, the note maturity date, we are obligated to make interest and principal payments of \$6,850 per month and the loan balance reduced the amount available under our credit line.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read and evaluated in conjunction with the unaudited condensed consolidated financial statements and notes thereto contained in this Report and with the discussion under "Forward-Looking Statements" on page 2 at the beginning of this Report and the Risk Factors set forth in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 and in Part II, Item 1A of this Report.

Results of Operations for the Three Months Ended March 31, 2016 Compared to the Three Months Ended March 31, 2015

We reported a net loss attributable to stockholders of \$1,847,719, or \$0.02 per share, for the three months ended March 31, 2016 as compared to a net loss attributable to stockholders of \$2,239,208, or \$0.05 per share, for the three months ended March 31, 2015. This resulted in a net loss decrease of \$391,489. These items are discussed further below.

Net revenues consist primarily of payment processing fees. Net revenues were \$11,261,059 for the three months ended March 31, 2016 as compared to \$5,540,207 for the three months ended March 31, 2015.

The increase in net revenues is primarily a result of organic net increases in merchants. In addition, we consolidated online payments revenue for PayOnline and began reporting mobile commerce revenues for branded content.

The following table sets forth our sources of revenues, cost of revenues and gross margins for the three months ended March 31, 2016 and 2015.

Edgar Filing: Net Element, Inc. - Form 10-Q

	Three Months Ended March 31, 2016	Mix	Three Months Ended March 31, 2015	Mix	Increase / (Decrease)
Source of Revenues

Online Solutions	1,414,907	12 %	\$ -	0 %	1,414,907
Total	\$ 11,261,059	100%	\$ 5,540,207	100 %	\$5,720,852

Cost of Revenues

North America Transaction Solutions	\$ 6,653,033	85 %	\$ 4,600,433	89 %	\$2,052,600
Mobile Solutions	1,814,588	91 %	13,639	0 %	1,800,949
Online Solutions	917,620	65 %	-	0 %	917,620
Total	\$ 9,385,241	83 %	\$ 4,614,072	83 %	\$4,771,169

Gross Margin

North America Transaction Solutions	\$ 1,199,615	15 %	\$ 576,747	11 %	\$622,868
Mobile Solutions	178,916	9 %	349,388	96 %	(170,472)
Online Solutions	497,287	35 %	-	0 %	497,287
Total	\$ 1,875,818	17 %	\$ 926,135	17 %	\$949,683

Cost of revenues represents direct costs of generating revenues, including commissions, mobile operator fees, content provider fees, purchases of short numbers, interchange expense and processing fees. Cost of revenues for the three months ended March 31, 2016 were \$9,385,241 as compared to \$4,614,072 for the three months ended March 31, 2015. Included in mobile solutions revenue for the three months ended March 31, 2016 is \$1,897,239 of branded content revenue. The remaining \$96,265 is part of service fees revenue.

The year over year increase in cost of revenues of \$4,771,169 is primarily a result of an increase in U.S. transaction volume, which resulted in a \$2,052,600 increase North American transaction cost, as well a \$1,800,949 increase in mobile costs which now include mobile operator fees and content provider fees when we provide branded content. In addition, we had \$917,620 resulting from PayOnline operations (acquired May 20, 2015). Included in mobile solutions cost of revenue for the three months ended March 31, 2016 is \$1,787,057 of the cost of branded content. The remaining \$27, 531 is included in the cost of service fees.

Gross Margin for the three months ended March 31, 2016 was \$1,875,818 or 17% of net revenue, as compared to \$926,135, or 17% of net revenue, for the three months ended March 31, 2015. Although the total gross margin remained flat at 17%, there were margin improvements in our U.S. transaction processing and greater margins from our Russian online transaction processing, offset by lower margins from our branded content. Included in the mobile solutions gross margin for the three months ended March 31, 2016 is \$110,182 (5.9%) for branded content.

Total operating expenses were \$3,589,156 for the three months ended March 31, 2016, as compared to total operating expenses of \$3,085,569 for the three months ended March 31, 2015. Total operating expenses for the three months ended March 31, 2016 consisted of general and administrative expenses of \$2,449,297, provision for bad debts of \$251,741 and depreciation and amortization of \$888,118. For the three months ended March 31, 2015, total operating expenses consisted of general and administrative expenses of \$2,637,469, provision of bad debts of \$9,331 and depreciation and amortization of \$438,769. The components of our general and administrative expenses are discussed below.

General and administrative expenses were \$2,449,297 for the three months ended March 31, 2016 as compared to \$2,637,469 for the three months ended March 31, 2015. General and administrative expenses for the three months ended March 31, 2016 and 2015 consisted of operating expenses not otherwise delineated in our Unaudited Condensed Consolidated Statements of Operations and Comprehensive Loss including non-cash compensation expense, salaries and benefits, professional fees, rent, filing fees and other operating expenses required to run our business as follows:

Three months ended March 31, 2016

Total	\$ (83,103)	\$ (19,349)	\$ 83,743	\$ (247,132)	\$ (265,841)

General legal expenses decreased \$97,900 during for the three months ended March 31, 2016 versus the three months ended March 31, 2015 primarily due to decreased litigation activity at the corporate level and at our mobile solutions segment. SEC compliance legal fees decreased \$83,371 overall primarily due to less need for filings. Consulting decreased \$83,481 primarily due to less consulting needs in corporate and our North American transaction solutions and mobile solutions offset by an increase in our Online Solutions due to PayOnline being acquired May 20, 2015.

Other general and administrative expenses were \$213,692 (primarily consisting of performance bonuses of \$86,874, communications of \$57,957, office expenses of \$62,474) for the three months ended March 31, 2016 as compared to \$172,291 (primarily consisting of communications of \$48,631, office expenses of \$66,300 and insurance expense of \$50,002) for the three months ended March 31, 2015, representing an increase of \$41,401.

We recorded bad debt expense of \$251,741 for the three months ended March 31, 2016 as compared to \$9,331 for the three months ended March 31, 2015. For the three months ended March 31, 2016, we recorded a loss which was primarily comprised of \$263,789 in ACH rejects offset by a \$12,048 recovery from our Russian operations. For three months ended March 31, 2015 we recorded a loss which was primarily comprised of \$96,717 in ACH rejects offset by a \$87,387 recovery from our Russian operations.

Depreciation and amortization expense consists primarily of the amortization of merchant portfolios plus depreciation expense on fixed assets, client acquisition costs, capitalized software expenses, trademarks, domain names and employee non-compete agreements. Depreciation and amortization expense was \$888,118 for the three months ended March 31, 2016 as compared to \$438,769 for the three months ended March 31, 2015. The \$449,349 increase in depreciation and amortization expense was primarily due to PayOnline (\$262,088 for IP Software, \$41,667 for domain names, \$37,417 for PCI Certification and \$93,048 for portfolios and client lists), offset by \$9,870 decrease in amortization our North American Transaction Solutions segment.

Interest expense was \$150,438 for the three months ended March 31, 2016 as compared to \$117,594 for three months ended March 31, 2015, representing an increase of \$32,844 as follows:

Funding Source	Three months ended March 31, 2016	Three months ended March 31, 2015	Increase / (Decrease)
RBL Note	\$ 147,784	\$ 91,253	56,531
Other	2,654	26,341	(23,687)
Total	\$ 150,438	\$ 117,594	\$ 32,844

The net loss attributable to non-controlling interests amounted to \$37,876 for three months ended March 31, 2016 as compared to \$8,747 for the three months ended March 31, 2015.

Liquidity and Capital Resources

Since our inception, we have incurred significant operating losses. We incurred a net loss \$1,885,595 for the three months ended March 31, 2016 and \$13,327,926 for the year ended December 31, 2015. We had a working capital deficit of \$4,127,819 and an accumulated deficit of \$145,802,767 at March 31, 2016. We had a working capital deficit of \$3,095,375 and an accumulated deficit of \$143,955,048 at December 31, 2015. These conditions raise substantial doubt about our ability to continue as a going concern. The independent auditors' report on our consolidated financial statements for the year ended December 31, 2015 contains an explanatory paragraph expressing substantial doubt as to our ability to continue as a going concern. The accompanying condensed consolidated financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

Our total assets at March 31, 2016 were \$21,615,756 compared to \$22,913,561 at December 31, 2015. The \$1,297,805 decrease in total assets is primarily attributable to a \$774,232 decrease in net accounts receivable, a \$454,017 decrease in net intangible assets, a \$301,238 decrease in cash and a \$205,963 increase in prepaid expenses and other assets. Accounts receivable decreased in 2016 primarily due to receipt of annual fees in the first quarter of 2016 and seasonality as the US holiday season ended.

At March 31, 2016, we had total current assets of \$6,461,249 including \$724,509 of cash, \$4,424,761 of accounts receivable, and \$1,311,979 of prepaid expenses and other assets. At December 31, 2015, we had total current assets of \$7,330,756 including \$1,025,747 of cash, \$5,198,993 of accounts receivable, and \$1,106,016 of prepaid expenses and other assets.

Management expects that our cash flows from operations will not be sufficient to fully execute our business plan through 2016. We expect to have an increase in our capital requirements during the 2016 fiscal year due to our expanding of transactional processing operations and portfolio acquisitions.

We currently believe that we will require an additional \$3.6 million to finance continuing operations as currently conducted over the next 12 months. Additional funds may be raised through debt financing and/or the issuance of equity securities, there being no assurance that any type of financing on terms satisfactory to us will be available or otherwise occur. Debt financing must be repaid regardless of whether we generate revenues or cash flows from operations and may be secured by substantially all of our assets. Any equity financing or debt financing that requires the issuance of equity securities or warrants to the lender would cause the percentage ownership by our current stockholders to be diluted, which dilution may be substantial. Also, any additional equity securities issued may have rights, preferences or privileges senior to those of existing stockholders. If such financings are not available when required or are not available on acceptable terms, we may be unable to implement our business plans or take advantage of business opportunities, any of which could have a material adverse effect on our business, financial condition, results of operations and/or prospects and may ultimately require us to suspend or cease operations, which could cause investors to lose the entire amount of their investment.

The net loss attributable to Net Element, Inc. stockholders was \$1,847,719 for the three months ended March 31, 2016 compared to \$2,239,208 for the three months ended March 31, 2015. Operating activities used \$947,001 of cash for the three months ended March 31, 2016 as compared to \$165,159 of cash used for the three months ended March 31, 2015. Negative operating cash flow of \$947,001 for the three months ended March 31, 2016 was primarily due to a net loss of \$1,847,719, a \$865,158 decrease in accounts payable and a \$171,908 decrease in deferred revenue offset by a \$436,453 decrease in accounts receivable and a \$334,291 decrease in prepaid expenses and other assets.

Net cash used in operations for the three months ended March 31, 2015 was primarily due a net loss of \$2,239,208 offset by an increase in accounts payable of \$667,819, a decrease of \$278,319 in prepaid expenses and other assets, and a decrease of \$131,020 in accounts receivables.

Investing activities used \$396,819 in cash from the purchase of assets compared to \$6,849 of cash used to purchase equipment for the three months ended March 31, 2015.

Financing activities provided \$985,045 in cash for the three months ended March 31, 2016 as compared to \$766,290 of cash provided from financing activities for the three months ended March 31, 2015. Financing activities provided \$985,045 in cash for the three months ended March 31, 2016 resulting from related party advances of \$910,045 and proceeds from indebtedness of \$75,000. Financing activities provided \$766,290 for the three months ending March 31, 2015 primarily from \$650,000 in loan proceeds provided by RBL and \$125,000 of related party advances from our CEO, Oleg Firer, to provide a short-term, working capital advance.

We have Russian operations that transact in foreign currencies including Russian Rubles and Euros. The effect of exchange rate changes increased our US Dollar-denominated cash balance by \$57,537 for the three months ended March 31, 2016 as compared to a \$331,346 decrease for the three months ended March 31, 2015.

Off-balance sheet arrangements

At March 31, 2016, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4) of Regulation S-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of the end of the period covered by this Report, our management conducted an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based on that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were not effective because there are a limited number of personnel employed and we cannot have an adequate segregation of duties, and due to the material weaknesses in our internal control over financial reporting as discussed below under "Management's Report on Internal Control Over Financial Reporting." Accordingly, management cannot provide reasonable assurance of achieving the desired control objective. Management works to mitigate these risks by being personally involved in all substantive transactions and attempts to obtain verification of transactions and accounting policies and treatments involving our operations, including those overseas. We are in the process of reviewing and, where necessary, modifying controls and procedures throughout the Company, particularly in light of our recent acquisitions and the continued integration of these businesses. We will continue to address deficiencies as resources permit.

Management's Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under Exchange Act). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

We recognize that because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management of the Company conducted an assessment of the effectiveness of the Company's internal control over financial reporting as of March 31, 2016, based on the framework in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO II Framework"). Based on management's assessment in accordance with the criteria in the COSO Framework, our management concluded that our internal control over financial reporting was not effective as of March 31, 2016.

Management is aware of the following material weaknesses (a material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected and corrected on a timely basis) in the Company's internal control over financial reporting:

Control Environment

Inadequate Policies and Procedures: Based on management's review of key accounting policies and procedures, our management determined that such policies and procedures were inadequate as of March 31, 2016. Management identified certain policies and procedures as inadequate regarding the design of the control and formal written documentation.

We do not have sufficient personnel or financial resources to provide adequate risk assessment functions.

New Board of Director Members: A changing organizational structure provided challenges to ensure a sound control environment with appropriate tone, authority, responsibilities, and high ethical values. Due to continued changes in board membership, executive management and the composition of Company subsidiaries, we have not been able to provide board training to new board members and establish adequate best practice procedures.

Control Activities

Testing of Internal Controls: The Company's accounting staff is relatively small and the Company does not have the required infrastructure for meeting the demands of being a U.S. public company. As a result we have identified deficiencies in our internal controls within our key business processes, particularly with respect to the design of quarterly accounting, financial statement close, consolidation, and external financial reporting procedures. Management believes there are control procedures that are effective in implementation within our key business processes. However, certain of these processes could not be formally tested because of lack of design, inadequate documentation, and lack of financial resources.

Information and Communication

We did not have adequate written procedures, risk assessment processes or board of directors training at March 31, 2016. Our quarterly reporting process, particularly in Russia, requires additional controls and processes.

Monitoring

Internal Control Monitoring: As a result of our limited financial personnel and ineffective controls (both preventative and detective) management's ability to monitor the design and operating effectiveness of our internal controls is limited. Accordingly, management's ability to timely detect, prevent and remediate deficiencies and potential fraud risks is inadequate.

These material weaknesses impede the ability of management to adequately oversee our internal control over financial reporting on a consistent basis. Management intends to continue focusing its remediation efforts in the near term on providing board and committee members with tools and COSO training designing revised accounting and financial reporting policies and procedures that will help ensure that adequate internal controls over financial reporting are met. Additionally, these revised procedures will be formally documented and procedures will focus on transaction processing, period-end account analyses and providing for additional review and monitoring procedures and periodically assess the need for additional accounting resources as the business develops and resources permit. Management also is committed to taking further action and implementing enhancements or improvements as resources permit. We recognize that, due to the size and stage of development of our foreign businesses, implementation of additional measures may take considerable time.

Notwithstanding the material weaknesses discussed above, our management has concluded that the financial statements included in this Report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented in conformity with generally accepted accounting principles.

Except as specifically described above in this Item 4, there was no change in our internal control over financial reporting during our first fiscal quarter of 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal proceedings.

For a discussion of legal proceedings, see “—Litigation” in Note 11 to the condensed consolidated financial statements contained in Part I, Item 1 of this Report, which section is incorporated by reference herein.

Item 1A. Risk Factors.

In addition to the information set forth in this Report, you should carefully consider the factors discussed in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015, which could materially affect our business, financial condition or future results. The risks described in such reports are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may eventually prove to materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Sales of Unregistered Securities

Information required by Item 701 of Regulation S-K as to unregistered equity securities we sold during the period covered by this Report that were not registered under the Securities Act has been previously reported in the Company’s Current Reports on Form 8-K filed with the Commission.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

A list of the exhibits filed as a part of this Report is set forth on the Exhibit Index that follows page 32 of this Report and is incorporated herein by reference.
