CHINA FINANCE ONLINE REPORTS FIRST QUARTER 2005 RESULTS

(Beijing, China, April 29, 2005) China Finance Online Co. Limited (Nasdaq: JRJC), a leading Chinese online financial information and listed company data provider, today announced its financial results for the quarter ended March 31, 2005:

- * Net revenues grew by 106% compared to the same period in 2004 to US\$1.93 million for the quarter.
- * Net income grew by 146% compared to the same period in 2004 to US\$1.28 million for the quarter. Basic and diluted income per ADS were each US\$0.06 for the quarter, basic and diluted income per share were each US\$0.01 for the quarter.
- * Gross margin for the quarter was 94%, compared to 90% for the same period in 2004. Net income margin was 66% for the quarter, compared to 56% for the same period in 2004.

FINANCIAL RESULTS

For the first quarter of 2005, China Finance Online reported net revenues of US\$1.93 million, an increase of 106% from US\$934,000 for the same period in 2004 primarily due to continued growth in average subscription fee per subscriber, as compared to the same period in 2004. Net revenues decreased by 7% from US\$2.07

Edgar Filing: China Finance Online Co. LTD - Form 6-K

million in the fourth quarter of 2004, which is mainly attributable to the negative impact of the prolonged weak Chinese stock market performance during the first quarter of 2005. Revenue from our advertising related business for the quarter contributed US\$179,000, representing 9% of net revenues for the first quarter of 2005.

Gross profit increased by 117% to US\$1.81 million for the first quarter of 2005 from US\$837,000 for the same period in 2004 because cost of revenues decreased as a percentage of net revenues. Gross margin was 94% in the first quarter of 2005 compared with 90% for the same period in 2004 or 95% in fourth quarter of 2004.

Operating expenses for the first quarter of 2005 totalled US\$721,000, an increase of 123% from US\$323,000 reported for the same period in 2004. This increase is primarily the result of increases in our general and administrative expenses, and to a lesser extent, contributed from sales and marketing expenses and product development expenses. Total operating expenses were 37% of net revenues for the first quarter of 2005, compared with 35% for the same period in 2004.

- o General and administrative expenses for the quarter were US\$357,000, an increase of 401% from US\$72,000 for the same period in 2004, which is mainly due to the purchase of a domain name and reporting and other related costs associated with our becoming a public company in the U.S. The increase of the expense, to a lesser extent is also due to the staff compensation as a result of the increased number of employees.
- o Sales and marketing expenses for the quarter increased by 82% from US\$124,000 for the same period in 2004 to US\$226,000. This increase is largely the result of an increase in our advertising expenditures starting from the second quarter of 2004 and an increase in the number of our customer service and sales personnel to meet the increased subscription demand.
- o Product development expenses for the quarter were US\$58,000, an increase of 59% from US\$37,000 for the same period in 2004, primarily due to increases in the salary and compensation expenses of personnel engaged in the research, development and implementation of our new products.

4

As a result of the foregoing, income from operations for the first quarter of 2005 was US\$1.10 million, an increase of 114% from US\$514,000 for the same period in 2004 and a decrease by 24% from US\$1.44 million for the previous quarter. Net income for the first quarter of 2005 was US\$1.28 million, representing an increase of 146% from US\$519,000 for the same period in 2004, and a decrease of 31% from US\$1.85 million in the previous quarter.

Net income margin for the first quarter of 2005 was 66%, compared to 56% for the same period in 2004, and 89% in the previous quarter. The total income tax expenses for the quarter were US\$160,000 compared to the US\$9,000 for the same period in 2004. The difference is attributable primarily to the fact that CFO Beijing was exempted from enterprise income tax in 2004 and will be subject to 12% enterprise income tax rate in 2005. Basic income per ADS was US\$0.06, and basic income per share was US\$0.01 for the first quarter of 2005. Diluted income per ADS was US\$0.06, and diluted income per share was US\$0.01 for the first quarter of 2005.

The number of new subscribers for the first quarter of 2005 was 2,606, representing a decrease of 78% from 11,745 for the same period in 2004. Repeat subscribers for the first quarter of 2005 were 3,713, representing a decrease of

Edgar Filing: China Finance Online Co. LTD - Form 6-K

26% from 4,992 for the same period in 2004. Decreases in number of new subscribers and in number of repeat subscribers were primarily due to further weakening in China's stock markets during the first quarter of 2005.

Average subscription fee per subscriber, or ASF, for new subscribers increased by 51% to US\$208 for the first quarter of 2005 from US\$138 for the same period in 2004 but decreased by 27% from US\$285 in the previous quarter. ASF for repeat subscribers increased by 51% to US\$238 for the first quarter of 2005 from US\$158 for the same period in 2004 but decreased by 20% from US\$297 in the previous quarter. We believe that the decrease in our ASF quarter over quarter for both new and repeat subscribers is primarily attributable to further weakening in China's stock markets during the first quarter of 2005, which has dampened the investors' interests in more expensive and more comprehensive products.

NEW PRODUCTS AND PARTNERSHIPS

In April, we signed framework cooperation agreements with China Construction Bank (CCB), China Minsheng Banking (CMBC) and CITIC Industrial Bank (CITICIB). According to the agreements, CCB, CMBC and CITICIB will help promote and market our new service offering, Personal Finance, to their existing banking customers. Personal Finance is our new proprietary financial service package. It combines personal finance tools such as book keeping, financial report and payment alert with comprehensive real time personal wealth management product information and news. We expect to launch Personal Finance in early third quarter in 2005.

Since January 2005, we have signed more content co-branding partnerships with high-traffic Chinese Internet portals such as tom.com, china.com and 21cn.com. According to the arrangements we will embed our contents directly in our partners' finance or securities channels. We believe that these sponsorships will help our brand awareness and attract more users to our website.
