### News Release

#### **Nomura Reports Third Quarter Financial Results**

**Tokyo, January 29, 2007** Nomura Holdings, Inc. today reported consolidated financial results for the third quarter of the fiscal year ending March 31, 2007.

#### **Third quarter summary**

Net revenue for the third quarter was 322.9 billion yen (US\$2.7billion)<sup>1</sup>, a 28.7% quarter-on-quarter increase, and a 10.2% year-on-year decrease. Income before income taxes increased 80.8% quarter-on-quarter, and fell 29.4% year-on-year, to 132.1 billion yen (US\$1.1billion). Net income increased 81.7% quarter-on-quarter, and declined 25.7% year-on-year, to 79.1 billion yen (US\$665 million). ROE for the third quarter was 14.6%.

The third quarter dividend will be 8 yen per share, in line with the target dividend previously announced. Payment of the dividend is planned for March 1, 2007.

In the third quarter, our strategically-important investment trust business continued to perform strongly, and we began to see a recovery in the markets-related business. We are confident that the key strategic investments we announced during the quarter, including the acquisition of Instinet and the investment in Fortress Investment Group, will be effective in accelerating our growth going forward, said Nobuyuki Koga, Nomura President and CEO.

#### **Third quarter business highlights**

**Domestic Retail:** Commissions for distribution of investment trusts\* marked a record since the fiscal year ended March 2002 when we began reporting quarterly earnings under US GAAP. Domestic Client Assets grew to 81.5 trillion yen.

**Global Markets:** Fixed Income revenue recovered. Announced the acquisition of Instinet, a major US agency broker, in order to bolster order execution services for institutional investors.

\* In January 2006, certain functions of Other business were integrated to Asset Management. Certain reclassifications of previously reported amounts have been made to conform to the current presentation.

In Domestic Retail, income before income taxes decreased 19.4% from the same period last year to 117.6 billion yen, as the overall decline in equity transaction value from individual investors led to a drop in retail stock brokerage commissions. Meanwhile, in line with the increasingly diverse range we bolstered our proposal and consulting services for customers and expanded our product offering, leading to strong sales of investment trusts. As a result, commissions for distribution of investment trusts increased. In addition, investment trust administrative fees grew in conjunction with the growth of assets in stock investment trusts.

In Global Markets, income before income taxes declined 62.0% from the prior year to 34.9 billion yen. Fixed Income saw a decline in derivative trading revenue due to changes in the interest rate and foreign exchange markets. In Equity, trading revenue fell as a result of the decline in MPO transactions and block trades.

In Global Investment Banking, income before income taxes decreased by 5.2% compared to the previous year to 32.8 billion yen. Our equity underwriting business was strong as, underpinned by increased corporate activity, we acted as lead manager on a number of major equity financing deals. Our M&A business also remained firm.

In Global Merchant Banking, income before income taxes dropped 24.1% compared to the previous year to 58.0 billion yen. Primary contributors to revenue during the period included the partial sale of Terra Firma investee companies and realized and unrealized gains from the partial sale of our stake in Tungaloy, an investee company of Nomura Principal Finance.

In Asset Management, income before income taxes increased 91.1% from the prior year period to 28.5 billion yen. In addition to the posting of a gain on the sale of our stake in a group company during the second quarter, increased asset management fees as a result of growth in assets under management led to profit growth. Diversification of distribution channels and an expanded product lineup resulted in growth of both public and privately-offered funds, while the investment advisory business showed firm growth, primarily led by fund management needs from overseas.

Other income before income taxes was 24.4 billion yen. Total income before income taxes for all business segments decreased 15.6% from the prior year to 296.0 billion yen.

Net revenue increased 2.9% from the previous quarter to 24.5 billion yen, while non-interest expenses decreased 3.2% to 12.4 billion yen. Income before income taxes increased 9.9% to 12.2 billion yen.

Assets under management increased during the quarter, continuing to contribute to the growth in profits. The posting of both calendar year-end performance fees and unrealized gains from seed money for new product development helped boost profits as well. Investment trust sales remained strong in the quarter. Sales of the My Story Profit Distribution-type Fund (B Course), funds distributed through banks, particularly those offering frequent distributions, and the Nomura Global 6 Assets Diversified Fund being distributed through Japan Post all continued their strong pace of sales. The Asia Attractive Dividend Stock Fund launched during the quarter and other newly-launched funds also enjoyed strong sales.

Total assets under management for the Asset Management division stood at 25.6 trillion yen at the end of December, a 2.6 trillion yen increase from the end of September.
