Item 2.02. Results of Operation and Financial Condition.

Attached as Exhibit 99 to this report is financial and other information regarding the Company and its business as of and for its fiscal year ended December 31, 2007. This information is in substantially the form the Company expects to include in its Form 10-K for its fiscal year ended December 31, 2007, except that the financial information is unaudited.

Item 8.01. Other Events.

On March 10, 2008, Noble International, Ltd. (the Company) filed a Form 12b-25 to report the late filing of its Annual Report on Form 10-K for its fiscal year ended December 31, 2007 (the Form 10-K) due to complications in finalizing its preliminary purchase price allocation for the Company's acquisition of the tailored laser-welded blank business (TBA) of ArcelorMittal on August 31, 2007, as well as determining the impact of a previously disclosed financing commitment letter entered into with ArcelorMittal on February 29, 2008.

Since that filing, the Company has finalized its preliminary purchase price allocation for TBA and closed the convertible debt financing provided by ArcelorMittal. Nevertheless, the Company is still unable to file the Form 10-K due to disclosure issues that have arisen in the last few business days with respect to the Company's equity investment in S.E.T. Enterprises, Inc., a privately-owned metal processing services business (SET), in which the Company owns 4% of the outstanding common stock and a preferred stock investment. The carrying value of each investment is zero at December 31, 2007.

The Company is in the process of determining whether, based on a change in the method of accounting for the Company's investment in SET made in 2006, the Company may be required under Rule 3-09 of Regulation S-X to include in the Form 10-K audited 2005 financial statements for SET. The carrying value of the Company's investment in SET common stock and preferred stock was zero at December 31, 2005. The Company is reviewing this issue with its auditors and may discuss it with the staff of the Securities and Exchange Commission in an effort to resolve it as quickly as possible.

If it is ultimately determined that the audited financial statements for SET are required to be included in the Form 10-K, the Company will need to seek permission from SET and its auditors to include the SET financial statements, and may ultimately be required to re-audit SET's financials in the event such approval is not granted.

The Company intends to resolve these issues and file the Form 10-K as soon as practicable.
