The shares are classified in three (3) types designated as Class B , C and D , in compliance with provisions in Article 5.

Article 5.-

The Company may proceed to the total or partial dematerialization of its share certificates, adopting the account entry system, as established in the Law on Capital Markets.

The Company's shares will be classified into three types:

a) Class B shares, which to date are Seven Hundred Three Million Nine Hundred Fifty Thousand Nine Hundred Twenty-Eight (703,950,928) shares, distributed in the following manner: Six Hundred Fifty-Two Million Fifty Thousand Nine Hundred Twenty-Eight (652,050,928) shares in the name of the Bolivarian Republic of Venezuela, through the Ministry of People's Power for Telecommunications and Informatics; and Fifty-One Million Eight Hundred Ninety-Nine Thousand Nine Hundred Ninety-Nine (51,899,999) shares in the name of the Venezuelan Economic and Social Development Bank (BANDES), through the Autonomous Fund for Social Projects.

Class B shares may be owned only by the Bolivarian Republic of Venezuela and other entities of the National Public Administration, Centralized or Decentralized, that belong one hundred percent (100%) to the Bolivarian Republic of Venezuela. The Bolivarian Republic of Venezuela may, directly or through the aforementioned entities, acquire Class C and Class D shares, and, once acquired, these shares will be automatically converted into the same number of Class B shares, in which case the number of Class B shares will increase as the result of the transfer of these shares to the Bolivarian Republic of Venezuela, directly or through the aforementioned entities of the Venezuelan State.

b) Class C shares, which to date total 44,273,829 shares and which, from the date on which these By-laws were filed in the Mercantile Registry, may be owned only by: (i) active workers with a contract for an indeterminate period of time and workers retired from the Company or from its affiliates, hereinafter known as Participants ; (ii) successors of Class C shareholders that may have received the shares as an inheritance or legacy, who hereinafter will be known as Successors ; (iii) trusts and benefit plans established for the benefit of retired workers and successors of the Company and its affiliates, hereinafter known as Benefit Plans ; and iv) former workers and former spouses of Class C shareholders who have received the shares in a Class C shareholders liquidation in a community property and who were holders of Class C shares before these By-laws were filed in the Mercantile Registry, hereinafter known as Remaining Holders of Class C shares . For purposes of this article Company Affiliates will be those companies in which the company owns more than fifty percent (50%) of its capital stock. Furthermore, for the sole effects provided for in this paragraph b), it will be understood that retired pensioned workers of the Company and its affiliates will be included in the category of retired workers of the Company and its Affiliates mentioned in number i).

Participants, Successors and Other Holders of Class C shares may transfer their Class C shares and any rights derived from them in the following manner: (i) during the Domestic Market Procedure, as described hereunder; and (ii) to third parties, individually, once they have been released from the pre-emption rights stipulated in this paragraph b) and from any possible collateral security. Benefit Plans may transfer ownership of the shares held by them directly to Participants.

For purposes of their subsequent transfer, Participants, Successors and Other Holders of Class C Shares will follow the Domestic Market Procedure described below:

1) Participants, Successors and Other Holders of Class C shares who wish to transfer any Class C shares will offer them first via the Domestic Market to other Participants and Benefit Plans, who will be entitled to acquire all or any part of the Class C shares intended for transfer, in compliance with this paragraph b). All Class C shares available for acquisition by Participants and Benefit Plans, as stipulated in this paragraph b). All Class C shares available for acquisition by Participants and Benefit Plans, according to this paragraph b), will be hereinafter known as Available Shares .

2) Two (2) Available Shares transfer processes will be held each month within the Domestic Market, to be carried out in the following manner:

(2.1) During the first three (3) business days of each fortnight of every month of the year, hereinafter known as Offer Presentation Periods , the Company will receive the sale offers of Available Shares from all Participants, Successors and Other Holders of Class C Shares indicating:

(i) the number of shares they wish to sell; (ii) the lowest price at which the Available Shares may be sold, including the percentage of the discount that Participants may freely decide to apply to the price of the Available Shares, established in compliance with provisions of numeral 2.2) of this paragraph b). This discount may be established by holders of Class C shares wishing to do so at between one percent (1%) and ten percent (10%).

(2.2) The Fixed Price for the sale of the Available Shares will be established on the last banking business day of each Offer Presentation Period. This price will be equal to the price obtained by averaging the closing price of Class D shares registered on the Caracas Stock Market during the first three (3) banking business days of each of the Offer Presentation Periods.

(2.3) The Offer Publication Period - which will last for one (1) business day- will be on the business day following the closing of each Offer Presentation Period, during which time the Company is obligated to publish domestic notifications nationwide stating the sale offers received and processed, so that they may reach all Participants, who will have the right to acquire any or all Available Shares.

These domestic notifications will contain the following information: (i) the number of Available Shares; (ii) the Fixed Price for the sale of Available Shares; (iii) the last day on which Participants or Benefit Plans may exercise their Pre-emption Rights; and (iv) instructions on the mechanism for notifying the Company of the desire to buy said shares.

(2.4) The First Pre-emption Right Period for Participants and Benefit Plans of each process of transfer of Available Shares will begin on the first business day following the closing of the Offer Publication Period for each Available Share transfer process and will last for two (2) business days, during which time Participants or Benefit Plans interested in acquiring any number of Available Shares may exercise their Pre-emption Right by indicating their wish to buy and the purchase price, which may be equal to or higher than the Fixed Price, except for any discounts established in compliance with numeral (2.1) of this paragraph b).

The Pre-emption Right will be exercised strictly in the order in which the offers are submitted, unless offers are received for a purchase price higher than the Fixed Price, in which case, the offerors of the higher price will have preference to acquire the Available Shares in proportion to the number of Available Shares held by each selling shareholder.

(2.5) Participants may transfer of any number of Class C shares they wish to transfer in the terms provided for in this Article, to which end they will pay all debts corresponding to the shares to be sold on each occasion, if any, following the procedures established by the Company.

(2.6) The purchase/sale of shares will be completed between buyer and seller when the seller learns that the buyer has accepted his/her offer, which will be understood to have occurred when the seller has deposited in the trustee bank holding the seller's shares the price corresponding to the purchase of said shares, or when he/she delivers

at the Service Office of CANTV Shareholders a copy of the cashier's check in the name of the seller. The purchase/sale completed in this manner will be irrevocable. Failure by the seller and/or the buyer to comply with their obligations will mean that the activities of the shareholder who failed to comply with the regulations established herein will be suspended for a period of three (3) months, without prejudice to any legal actions that the affected buyer and/or seller may file.

(2.7) Any Available Shares not acquired by Participants within the Pre-emption Right Period may be kept by their holder, who may, if he/she so chooses, (i) re-offer them under the Domestic Market procedure; (ii) make a request to the Company in writing that they be converted into an equal number of Class D shares; or (iii) sell them to third parties, in which case they will be converted to Class D shares.

(2.8) The periods of time established in the preceding numerals in relation to the Domestic Market procedure for the transfer of Available Class C Shares may be modified by the Board of Directors by means of the unanimous decision of all members present at the session dealing with this matter.

3) From the date on which these By-laws are filed in the Mercantile Registry, when a Participant holder of Class C shares, as an active worker ends his/her work relationship with the Company or any of its affiliates for reasons other than retirement, may keep the ownership of his/her shares, but the totality of Class C shares that he/she holds will be automatically converted into an equal number of Class D shares, unless said shareholder states in writing to the Company, at the time of his/her retirement, his/her wish to offer them on an one-time-only basis within the process of Domestic Market described in paragraph b) of this Article 5, in order for his/her Class C shares to be acquired by other Participants and Benefit Plans and can remain as Class C shares. If they are not be acquired by the Participants and Benefit Plans, these shares will be automatically converted into an equal number of Class D Shares.

After any transfer that results in a conversion of Class C shares to Class D shares, said converted shares and their shareholders will have the rights attributed in these By-laws to the holders of Class D shares.

The transfer of any Class C shares to any person or entity other than a Participant or Benefit Plan will mean that said transferred Class C shares, once recorded in the Shareholders Book, will be automatically converted into an equal number of Class D shares. Therefore, the number of Class C shares may diminish with their conversion into Class D shares and the number that constitutes Class D shares will increase into an equal number of **converted** shares.

Any transfer of these Class C shares in violation of provision in paragraph b) will be considered null and void. There will be a mention of this restriction in the corresponding title deeds of said shares.

4) All Participants who, on the date on which these By-laws are filed in the Mercantile Registry, are holders of Class D shares may, if they so choose, convert all or any number of Class D shares they own into Class C shares, in which case it will suffice that the Participant submit a written request to the Company expressly manifesting his/her intention to automatically convert said shares into Class C shares, in accordance with the procedures established by the Company, and the transaction will be recorded in the Shareholders Book. Therefore, the number of shares in Class C **will increase by the same number of converted shares**.

c) To date **Class D shares** total 38,916,092 shares currently held by different shareholders who have subscribed their shares in various capital markets and are created by the conversion of other types of Company shares into this type of Class D shares.
