Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. Organization and Business

Virtus Investment Partners, Inc. (the Company, we, us, our or Virtus), a Delaware corporation, operates in the investment management industry through its wholly-owned subsidiaries. Harris Bankcorp, Inc. (Harris Bankcorp), a subsidiary of the Bank of Montreal, owns 100% of the Company's outstanding shares of Series B Convertible Preferred Stock.

The Company, through its affiliates, provides investment management and related services to individual and institutional clients throughout the United States of America. Retail investment management and other related services are provided to individuals through products consisting of open-end mutual funds, closed-end funds and separately managed accounts. Separately managed accounts are offered to high net-worth individuals and include intermediary programs that are sponsored and distributed by non-affiliated broker-dealers, and individual direct managed account investment services that are sold and administered by the Company. Institutional investment management services are provided primarily to corporations, multi-employer retirement funds, foundations and endowments.

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, considered necessary for fair statement have been included. Operating results for the three month and six month periods ended June 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. The condensed consolidated financial statements include the Company's accounts and all wholly-owned affiliates. All significant intercompany transactions and balances have been eliminated in consolidation. These unaudited condensed consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 filed with the Securities and Exchange Commission (SEC).

3. Summary of Significant Accounting Policies

A complete description of the Company's significant accounting policies, which have been consistently applied, are detailed in the Company's 2009 Annual Report on Form 10-K. A summary of certain of our critical accounting policies and estimates, updated with information subsequent to the filing of our Annual Report on Form 10-K, is as follows:

Fair Value of Financial Instruments

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 825, *Financial Instruments*, requires disclosure of the estimated fair values of financial instruments on a quarterly basis. Cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities equal or approximate fair value based on the short-term nature of these instruments. The estimated fair value of long-term debt at June 30, 2010, which has a variable interest rate, approximates its carrying value. Marketable securities are reflected in the financial statements at fair value based upon publicly quoted market prices.

Revenue Recognition

Investment management fees, distribution and service fees and administration and transfer agent fees are recorded as income during the period in which services are performed. Investment management fees, which are accrued monthly, are earned based upon a percentage of assets under management, and are paid pursuant to the terms of the respective investment management contracts, which generally require monthly or quarterly payment. Management fees for structured finance products, such as CLOs and CDOs, that accrue as services are rendered, but are subordinated to other interests and payable only if certain financial criteria of the underlying collateral are met, are recorded as income when the structured finance products are in compliance with required financial criteria and collectability is reasonably assured.

Gross investment management fees earned on open-end mutual funds range from 0.10% to 1.50% of average assets under management, depending on the type of fund. Investment management fees earned on closed-end funds range from 0.50% to 0.85% of average assets under management. Investment management fees earned on separately managed accounts and institutional accounts are negotiated and are based primarily on asset size, portfolio complexity and individual needs and range from 0.08% to 1.00%. Investment management fees earned on structured finance products range from 0.08% to 0.45% of the principal outstanding. The Company accounts for investment management fees in accordance with ASC 605, *Revenue Recognition*, and has recorded its management fees net of fees paid to unaffiliated sub-advisors.

Distribution and service fees are earned based on a percentage of assets under management and are paid monthly pursuant to the terms of the respective distribution and service fee contracts.

Administration and transfer agent fees consist of fund administration fees, transfer agent fees, fiduciary fees and underwriter fees. Fund administration fees are earned based on the average daily assets in the funds. Transfer agent fees are earned based on a contractual amount plus a fee based on the number of accounts at the end of a month. Fiduciary fees are recorded monthly based on the number of 401(k) accounts. Underwriter fees are sales-based charges on sales of certain class A-share mutual funds. The Company utilizes outside service providers to perform some of the functions related to fund administration and transfer agent services. Effective January 1, 2010, a new fund administration agreement was executed with our open-end mutual funds. Under the prior agreement, the fees, which covered all fund administration services, were paid directly to the Company by the funds and were recorded as revenue. A portion of the fees received by the Company were remitted to third party service providers for services performed on behalf of the funds, and were recorded as a distribution and administration expense. As a result of the new agreement, the funds now directly contract for the third-party services and fees paid by the funds directly to the service providers are not reflected as either revenue or expenses of the Company. For the three and six months ended June 30, 2009, \$1.2 million and \$2.3 million, respectively, of payments to third-party service providers was recorded as revenue and expense of the Company.

Other income and fees consist primarily of redemption income on the early redemption of class B-share mutual funds and brokerage commissions and fees earned for distribution of nonaffiliated products. Commissions earned (and related expenses) are recorded on a trade date basis and are computed based upon contractual agreements.

Comprehensive Income (Loss)

At June 30, 2010 and December 31, 2009, all of the Company's financial instruments that are measured at fair value, which consist solely of mutual funds and marketable securities, utilize a Level 1 valuation technique which, as defined in ASC 820, *Fair Value Measurements and Disclosures*, is quoted prices in active markets for identical assets or liabilities.

6. Commitments and Contingencies**Legal Matters**

Edgar Filing: VIRTUS INVESTMENT PARTNERS, INC. - Form 10-Q

The Company is regularly involved in litigation and arbitration as well as examinations and investigations by various regulatory bodies, including the SEC, involving our compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker-dealers and other laws and regulations affecting our products and other activities. Legal and regulatory matters of this nature may involve activities as an employer, issuer of securities, investor, investment advisor, broker-dealer or taxpayer. The Company believes that the outcomes of its legal or regulatory matters are not likely, either individually or in the aggregate, to have a material adverse effect on its consolidated financial condition. However, it is not feasible to predict the ultimate outcome of all legal claims or matters or provide reasonable ranges of potential losses, and in the event of unexpected subsequent developments and given the inherent unpredictability of these legal and regulatory matters, there can be no assurance that our assessment of any claim, dispute, regulatory examination or investigation or other legal matter will reflect the ultimate outcome and an adverse outcome in certain matters could, from time to time, have a material adverse effect on the Company's results of operations or cash flows in particular quarterly or annual periods.

Table of Contents**Virtus Investment Partners, Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****7. Harris Bankcorp Related Party Transactions**

Effective as of December 31, 2008, Harris Bankcorp owns 100% of the Company's outstanding Series B Convertible Preferred Stock. The Company acquired the rights to advise, distribute and administer the Insight Funds from Harris Investment Management, Inc., a subsidiary of Harris Bankcorp, in May 2006. Sub-advisory investment management fees, which are netted against investment management fees in the consolidated statement of operations, and distribution and administration fee expenses paid or payable to Harris Bankcorp related to the Insight Funds for the three and six months ended June 30, 2010 and 2009 were as follows:

	Three months ended June 30,		Six months ended June 30,

Sub-advisory investment management fees	1,057	\$ 1,420	2,295	\$ 2,821
Distribution and administration expenses	135	868	248	1,843
Total fees and expenses related to Harris Bankcorp	1,192	\$ 2,288	2,543	\$ 4,664

In addition, for the first four years after becoming the advisor of the Insight Funds, the Company has agreed to pay to Harris Bankcorp 50.0% of the net profit earned by the Company on the money market mutual funds acquired from Harris Bankcorp. The final payment of \$0.8 million for the measurement period ended in May 2010 has been accrued and will be paid in the third quarter of 2010.

At June 30, 2010 and December 31, 2009, \$1.2 million and \$1.3 million, respectively, was payable to Harris Bankcorp and its affiliates related to sub-advisory investment management fees, distribution and administration fees and money market earn-out obligations in accordance with the above agreement.

Table of Contents**Virtus Investment Partners, Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****8. Stock-based Compensation**

The Company has an Omnibus Incentive and Equity Plan (the Plan) under which officers, employees, directors and consultants may be granted equity-based awards, including restricted stock units (RSUs), stock options and unrestricted shares of common stock. At June, 30, 2010, 1,800,000 shares of common stock were authorized for issuance under the Plan, of which 808,630 remain available for issuance. Each RSU entitles the holder to one share of Virtus common stock when the restriction expires. RSUs generally have a term of two to three years and are either time-vested or performance-contingent. Stock options generally vest over three years and have a contractual life of ten years. Stock options are granted with an exercise price equal to the fair market value of the shares at the date of grant.

A summary of stock-based compensation expense recognized for the three and six months ended June 30, 2010 and 2009 is as follows:

	Three months ended June 30,		Six months ended June 30,

Board of Director Grants

During the six months ended June 30, 2010, 16,719 shares of common stock were granted as part of our directors' annual retainer under the Plan to those non-employee members of the Company's board of directors who receive compensation for his or her Board services. The Company recognized \$0.4 million in stock-based compensation expense for the six months ended June 30, 2010 in connection with these grants.

Table of Contents**Virtus Investment Partners, Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****9. Earnings Per Share**

The following sets forth the computation of basic and diluted earnings per share for the three and six months ended June 30, 2010 and 2009:

	Three months ended June 30,		Six months ended June 30,	
<i>(\$ in thousands, except share data)</i>	2010	2009	2010	2009
Basic and Diluted:				
Net loss attributable to common stockholders	\$ (487)	\$ (3,148)	\$ (327)	\$ (9,986)
Weighted-average number of shares outstanding basic and diluted	5,854	5,811	5,843	5,800
Loss per share basic and diluted	\$ (0.08)	\$ (0.54)	\$ (0.06)	\$ (1.72)

For the three and six month periods ended June 30, 2010 and 2009, 1.7 million shares, representing the common stock equivalents of outstanding Series B Convertible Preferred Stock if converted at the beginning of the year, were excluded from the calculation of diluted earnings per share because their effect would have been anti-dilutive. For the three and six month periods ended June 30, 2010 and 2009, respectively, restricted stock units and stock options outstanding totaling of 0.9 million and 0.8 million, were excluded from the calculation of diluted earnings per share because their effect would have been anti-dilutive.

10. Subsequent Events***Credit Facility Amendments***

On July 8, 2010, the Company entered into Amendment No. 1 to the Credit Facility with The Bank of New York Mellon, as administrative agent, issuing bank and lead arranger, and PNC Bank, National Association, as lender. Pursuant to the terms of the amended Credit Facility, the Company may make payments to redeem and retire convertible preferred stock not to exceed an aggregate amount of \$9,800,000, subject to certain requirements and restrictions described in Amendment No. 1 to the Credit Facility.

On August 2, 2010, the Company entered into Amendment No. 2 to the Credit Facility. The amended Credit Agreement extends the maturity date of the Credit Facility to September 30, 2013 from September 1, 2011, increases the borrowing capacity to up to \$30.0 million for the entire term of the facility and reduces the minimum asset coverage requirement to 1.25 from 1.75. The amended Credit Facility also decreases the applicable margin on the base interest rates available to a range of 1.25% to 3.00% from the original range of 1.75% to 3.50%.

Amendment No. 2 also modified certain restrictive financial covenants, the most significant of which include requiring a (i) minimum required consolidated net worth as of any fiscal quarter end (total stockholders' equity plus the liquidation preference of outstanding convertible preferred shares) to be at least \$65 million, minus redemptions of convertible preferred shares of up to \$9.8 million, plus adjustments for net income, redemptions of convertible preferred securities and equity issuances, if any, after September 1, 2009, and (ii) minimum consolidated assets under management (excluding money market funds) of \$15.0 billion as of each quarter end through March 31, 2012 and \$18.0 billion as of any quarter end thereafter. In addition, a covenant was added that requires minimum liquid assets having a fair value not less than \$7.5 million.

Dividend Declaration

On July 15, 2010, the Board of Directors of the Company declared cash dividends on its Series B Convertible Preferred Stock for the three month period ended June 30, 2010 for a total of \$0.9 million which the Company expects to pay in the third quarter of 2010.

Series B Convertible Preferred Stock Conversion

Edgar Filing: VIRTUS INVESTMENT PARTNERS, INC. - Form 10-Q

On August 2, 2010, the Company exercised its call option to redeem 9,783 shares of the Series B Convertible Preferred Stock for a purchase price of approximately \$9.8 million from Harris Bankcorp. On August 5, 2010, Harris Bankcorp elected to convert the 9,783 shares of Series B Convertible Preferred Stock, including dividends that have been accrued but not yet declared, into 378,446 shares of common stock effective on or about August 7, 2010.

Forward Looking Statements

This Quarterly Report on Form 10-Q contains statements that are, or may be considered to be, forward-looking statements. All statements that are not historical facts, including statements about our beliefs or expectations, are forward-looking statements. These statements may be identified by such forward-looking terminology as expect, estimate, plan, intend, believe, anticipate, may, should, or similar statements or variations of such terms.

Our forward-looking statements are based on a series of expectations, assumptions and projections about our Company, are not guarantees of future results or performance, and involve substantial risks and uncertainty, including assumptions and projections concerning our assets under management, cash inflows and outflows, operating cash flows, expected cost savings and future credit facilities, for all forward periods. All of our forward-looking statements are as of the date of this Quarterly Report only. The Company can give no assurance that such expectations or forward-looking statements will prove to be correct. Actual results may differ materially.

Our business and our forward-looking statements involve substantial known and unknown risks and uncertainties, including the following: (a) the effects of adverse market and economic developments on all aspects of our business; (b) any poor relative investment performance of our asset management strategies and any resulting outflows of assets; (c) any lack of availability of additional and/or replacement financing, as may be needed, on satisfactory terms or at all; (d) any inadequate performance of third-party relationships; (e) the withdrawal of assets from under our management; (f) our ability to attract and retain key personnel in a competitive environment; (g) the ability of independent trustees of our mutual funds and closed-end funds, and other clients, to terminate their relationships with us; (h) the possibility that our goodwill or intangible assets could become impaired, requiring a charge to earnings; (i) the strong competition we face in our business; (j) potential adverse regulatory and legal developments; (k) the difficulty of detecting misconduct by our employees, subadvisers and distribution partners; (l) changes in accounting or regulatory standards or rules; (m) the ability to satisfy the financial covenants under existing debt agreements; and (n) certain other risks and uncertainties described in our 2009 Annual Report on Form 10-K or in any of our filings with the Securities and Exchange Commission (SEC). An occurrence of, or any material adverse change in, one or more risk factors or risks referred to in this Quarterly Report or included in our 2009 Annual Report on Form 10-K or other periodic reports filed with the SEC could materially and adversely affect our operations, financial results, cash flows, prospects and liquidity.

Certain other factors which may impact our continuing operations, prospects, financial results and liquidity or which may cause actual results to differ from such forward-looking statements are discussed or included in the Company's periodic reports filed with the SEC and are available on the our website at www.virtus.com under Investor Relations. You are urged to carefully consider all such factors.

The Company does not undertake or plan to update or revise any such forward-looking statements to reflect actual results, changes in plans, assumptions, estimates or projections, or other circumstances occurring after the filing date of this Quarterly Report, even if such results, changes or circumstances make it clear that any forward-looking information will not be realized. If there are any future public statements or disclosures by us which modify or impact any of the forward-looking statements contained in or accompanying this Quarterly Report, such statements or disclosures will be deemed to modify or supersede such statements in this Quarterly Report.

Overview

Organization and Business

Virtus Investment Partners, Inc. (the Company, we, us, our or Virtus), a Delaware corporation, operates in the investment management industry through its wholly-owned subsidiaries. Harris Bankcorp, Inc. (Harris Bankcorp), a subsidiary of the Bank of Montreal, owns 100% of the Company's outstanding shares of Series B Convertible Preferred Stock.

We are a provider of investment management products and services to individuals and institutions. We operate a multi-manager asset management business, comprising a number of individual affiliated managers, each having its own distinct investment style, autonomous investment process and brand. We believe our customers value this approach, especially institutional customers who appreciate individual managers with distinctive cultures and styles.

Investors have an array of needs driven by factors such as market conditions, risk tolerance and investment goals. A key element of our business is offering a variety of investment styles and multiple disciplines to meet those needs. To that end, for our mutual funds, we supplement the investment capabilities of our affiliated managers with those of select unaffiliated sub-advisors. We do that by partnering with these sub-advisors whose strategies are not typically available to retail mutual fund customers.

We provide our products in a number of forms and through multiple distribution channels. Our retail products include open-end mutual funds, closed-end funds and separately managed accounts. Our fund family of open-end funds is distributed primarily through intermediaries. Our closed-end funds trade on the New York Stock Exchange. Retail separately managed accounts are comprised of intermediary programs sponsored and distributed by unaffiliated brokerage firms, as well as private client offerings originated and maintained by our affiliated managers. We also manage institutional accounts for corporations, multi-employer retirement funds and foundations, endowments, special purpose funds and other types of institutions. Our earnings are primarily driven by asset-based investment management fees charged on these various products. These fees are based on a percentage of assets under management and are calculated using daily or weekly average assets or assets at the end of the preceding quarter.

Market Environment

Financial markets have experienced unprecedented credit and liquidity issues in recent years, resulting in significant volatility and declines in the equity and fixed income markets during this period. Markets have rebounded considerably since the lows reached in the first quarter of 2009, however, they continue to be at levels lower than experienced prior to the beginning of the deterioration of economic conditions. Additionally, concerns over high levels of unemployment, global fiscal problems and the sustainability of the current economic recovery continue to generate uncertainty surrounding the economy and the financial markets going forward. These and other factors may continue to have a significant impact on the global financial markets and economies.

This economic environment has had a direct impact on the investing activities of both retail and institutional investors. The declines and volatility in the equity and fixed income markets in recent years have reduced the value of our assets under management which has resulted in lower fee revenues. The continued uncertainty in the equity and debt markets impacts investor confidence, resulting in investors generally favoring lower investment risk. Low interest rates have had a direct adverse impact on money market funds as investors have reduced allocations to this asset class due to historically low investment returns. The adverse conditions and uncertainties of the markets and the economic environment, which could continue throughout 2010 and beyond, have and may continue to have a negative impact on our assets under management and our revenues.

Changes in our assets under management are driven in great part by the performance of the equity markets. We expect that market volatility could continue at least for the short term. As markets continue to experience volatility, we may experience decreased investment inflows and increased redemptions of certain products as a result of these market conditions.

Money market assets	2,841.0	3,995.2
Total	\$ 25,119.5	\$ 22,440.2

At June 30, 2010, we managed \$25.1 billion in total assets representing an increase of \$2.7 billion from the \$22.4 billion managed at June 30, 2009 and a decrease of \$0.3 billion from the \$25.4 billion managed at December 31, 2009. The decrease in assets under management for the three and six months ended June 30, 2010 was due primarily to market depreciation and decreases in money market assets, offset in part by overall positive net flows. Market depreciation for the three and six months ended June 30, 2010 was consistent with overall performance of the securities markets during the same period. Money market assets declined for the three and six months ended June 30, 2010 as investors continued to shift assets out of these products due to historically low interest rates. Offsetting these decreases for the three and six months ended June 30, 2010 were positive net flows resulting from strong sales of our open-end mutual fund products. Also offsetting the decrease for the three months ended June 30, 2010 was an increase in cash management products for institutional clients.

Total	38	33	\$ 25,588.4	\$ 22,087.4

(1) Average fees earned for money market and long-term mutual funds are net of non-affiliated sub-advisory fees.

The average fee earning assets under management and average fees earned expressed in basis points presented in the table above are intended to provide information in the analysis of our asset based revenue and distribution expenses. Money market and long-term mutual fund fees are calculated based on either average daily net assets or average weekly net assets. Separately managed accounts and institutional fees are generally calculated based on end of the preceding quarter's asset values. Structured finance product fees, which are included in institutional products, are calculated based on a combination of the underlying cash flows and the principal value of the product.

Our product mix shifted towards higher fee earning assets for the three and six months ended June 30, 2010 compared to the corresponding period in the prior year as assets under management from equity products, which have higher fees, increased in proportion to our overall portfolio. In addition, average fees earned in BPs was higher than normal during the six months ended June 30, 2010 due to recognition of \$1.3 million of revenue on structured finance products for subordinated management fees earned in prior periods that were not recognized as revenue until payment of such fees resumed in the first quarter of 2010 upon meeting collateral quality tests.

Table of Contents

Investment Management Fees

Net investment management fees increased \$5.2 million and \$11.8 million for the three and six months ended June 30, 2010, respectively, due to a 17% and 16% increase in average fee earning assets under management compared to the corresponding prior year periods. Assets under management increased primarily as a result of market appreciation combined with overall positive net flows during the last twelve months. Revenues increased at a higher rate than assets under management due to a lower proportion of money market assets, which have lower investment management fee rates than our other products. Money market assets represented 11% of total assets under management at June 30, 2010 compared to 18% at June 30, 2009. Also contributing to the increase for the three and six months ended June 30, 2010 were fees recognized on structured finance products for subordinated management fees that were not being recognized in the corresponding 2009 periods as the collateral being managed did not meet payment requirements at that time.

Distribution and Service Fees

Distribution and service fees, which are asset-based fees earned from open-end mutual funds for distribution services we perform on their behalf, increased by \$1.3 million and \$2.5 million for the three and six months ended June 30, 2010, respectively, as compared to the same periods in 2009 due to higher assets under management. The increase in fees also resulted in a corresponding increase in trail commissions, which are a component of distribution expenses.

Administration and Transfer Agent Fees

Administration and transfer agent fees increased \$1.0 million and \$0.3 million for the three and six months ended June 30, 2010, respectively, as compared to the same period in 2009. Administration and transfer agent fees represent fees earned from our open-end mutual funds for fund administration and transfer agent services. Fund administration fees for certain open-end mutual funds increased \$0.4 million for the three months ended June 30, 2010 and decreased \$0.4 million for the six months ended June 30, 2010 compared to the prior year periods due to changes in fund administration contracts discussed further below. Transfer agent revenues, which are reported net of sub-transfer agent expenses, increased \$0.6 million and \$0.7 million for three and six months ended June 30, 2010, respectively, compared to the same period in the 2009 due to higher transaction volumes.

The Company utilizes outside service providers to perform some of the functions related to fund administration and transfer agent services. Effective January 1, 2010, a new fund administration agreement was executed with our open-end mutual funds. Under the prior agreement, the fees, which covered all fund administration services, were paid directly to the Company by the funds and were recorded as revenue. A portion of the fees received by the Company were remitted to third party service providers for services performed on behalf of the funds, and were recorded as a distribution and administration expense. As a result of the new agreement, the funds now directly contract for the third-party services and fees paid by the funds directly to the service providers are not reflected as either revenue or expenses of the Company, resulting in a decrease in revenues and a corresponding decrease in expenses in 2010 as compared to prior year periods. In April 2010, an amendment to the fund administration agreement was executed with the open-end mutual funds that changes and increases the fee rates received by the Company. In connection with the amendment, the Company implemented additional expense caps that require the Company to reimburse funds for certain expenses that exceed defined thresholds, resulting in higher expense fee waivers for the three months ended June 30, 2010 which are recorded as a reduction to investment management fees.

Employment Expenses

Employment expenses of \$15.5 million and \$31.8 million in the three and six months ended June 30, 2010 increased \$2.3 million and \$4.3 million or 17% and 16% compared to the same periods in the prior year primarily due to increases in variable compensation, both sales and performance based. The increases in variable compensation are the result of higher sales and improved profitability and operating metrics in the first two quarters of 2010 as compared to the first two quarters of 2009.

Distribution and Administrative Expenses

Distribution and administrative expenses increased \$0.3 million and \$0.8 million or 5% and 6% in the three and six months ended June 30, 2010, respectively, as compared to the same periods in 2009. The increases were attributable in part to asset-based trail commissions paid to our distribution partners which increased \$0.5 million and \$1.1 million, respectively, consistent with increases in our assets under management. Trail commissions are fees we pay to broker-dealers for providing sales, marketing and distribution services to investors of our mutual funds. Also contributing to the increase was increased sales based fees paid to third party distribution partners of \$0.3 million and \$0.9 million in the three and six months ended June 30, 2010 due to higher sales. Partially offsetting these increases was the absence of fees paid to third party service providers in the first two quarters of 2010 compared to the first two quarters of 2009 as these fees are no longer paid by the Company. As discussed further under the Administration and Transfer Agent Fee caption above, effective January 1, 2010, certain administration fees due to a third party service provider are no longer reflected as revenue or expenses of the Company in 2010, resulting in a decrease in distribution and administration expenses compared to prior year periods.

Other Operating Expenses

Other operating expenses increased \$0.6 million and \$0.9 million or 8% and 6% for the three and six months ended June 30, 2010, respectively, to \$7.9 million and \$15.4 million for the three and six months ended June 30, 2010 as compared to \$7.4 million and \$14.6 million in the prior year. The modest increase, despite larger increases in assets under management and sales in the first two quarter of 2010 compared to the corresponding 2009 periods, is a result of management's continued efforts to control fixed operating costs.

Restructuring and Severance

For the three and six months ended June 30, 2009, we incurred \$0.2 million and \$0.6 million, respectively, of severance costs resulting from staff reductions at our corporate office and at certain affiliates as we continued cost reduction efforts. For the three and six months ended June 30, 2010, we incurred \$1.1 million of severance costs due primarily to the departure of an individual of the Company.

Intangible Asset Amortization

Edgar Filing: VIRTUS INVESTMENT PARTNERS, INC. - Form 10-Q

Amortization expense of \$1.3 million and \$2.8 million for the three and six months ended June 30, 2010, respectively, decreased \$0.5 million and \$0.9 million or 30% and 25% as compared to the same period in 2009 due to a number of intangible assets related to institutional contracts becoming fully amortized in the last twelve months.

Other Income and Expenses

Other Income (Expense)

Other income decreased \$1.8 million and \$0.5 million for the three and six months ended June 30, 2010, respectively, to an expense of \$0.5 million and \$0.1 million due primarily to changes in the market value of trading securities during these periods.

Interest Expense, net

Interest expense is attributable primarily to our long-term debt and is reported net of interest and dividend income earned on cash equivalents and investments. Interest expense decreased \$0.4 million and \$0.6 million, respectively, for the three and six months ended June 30, 2010 compared to the same period in the prior year. The decrease in interest expense is due to a lower average outstanding debt balance and a lower interest rate in the first two quarters of 2010 compared to the first two quarters of 2009 as a result of our debt refinancing in September 2009. The effective interest rate of the Company's outstanding long-term debt, inclusive of the amortization of deferred financing costs, was 6.29% as of June 30, 2010.

Preferred Stockholder Dividends

On March 4, 2010, the Board of Directors of the Company declared cash dividends on its Series B Convertible Preferred Stock for the three month period ended December 31, 2009 of \$0.9 million, which the Company paid on March 15, 2010. On May 20, 2010, the Board of Directors of the Company declared cash dividends on its Series B Convertible Preferred Stock for the three month period ended March 31, 2010 of \$0.9 million, which the Company paid on July 2, 2010. At June 30, 2010, \$0.9 million of dividends were accrued for the Series B Convertible Preferred Stock for the three months ended June 30, 2010 that were declared on July 15, 2010. At the discretion of the Company, the dividends may be paid in cash or through issuance of additional shares of Series B Convertible Preferred Stock, subject to limitations on dividends under the Company's Credit Facility and, with respect to payment of any accrued dividend in additional shares, approval by our Board of Directors and authorization of the issuance of additional preferred shares by the holders of Series B Convertible Preferred Stock.

- (1) On August 2, 2010, the Company exercised its call option to redeem 9,783 shares of the Series B Convertible Preferred Stock for a purchase price of approximately \$9.8 million from Harris Bankcorp. On August 5, 2010, Harris Bankcorp elected to convert the 9,783 shares of Series B Convertible Preferred Stock, including dividends that have been accrued but not yet declared, into 378,446 shares of common stock effective on or about August 7, 2010.

- (2) Working capital is defined as current assets less current liabilities.

At June 30, 2010, our working capital was \$37.3 million. We believe that our available cash, marketable securities and cash expected to be generated from operations will be sufficient to fund our expected cash operating requirements and other capital requirements in the short-term, which we consider to be the next twelve months. Our ability to meet our future cash needs, including repayment of our Credit Facility, interest payments on our Credit Facility, payment of preferred stock dividends and other operating requirements, will depend upon our future operating performance, the level and mix of assets under management, and general economic conditions, some of which are beyond our control. Additional matters outside of our control that could impact our liquidity include any further deterioration in or continued volatility of the global economy and capital markets and unexpected cash, debt or operating requirements.

Capital Requirements

Our short-term capital requirements, which we consider to be those capital requirements due within one year, include payment of interest on our Credit Facility, payment of annual incentive compensation and payment of preferred stock dividends. Incentive compensation, which is generally the Company's largest annual operating cash payment, is paid in the first quarter of the year. The Company paid approximately \$10.8 million in annual incentive compensation in the three months ended March 31, 2010 related to incentives that were earned during the year ended December 31, 2009. Short-term capital requirements also include quarterly dividends on our outstanding shares of Series B Convertible Preferred Stock. The dividend can be paid in cash or, at the election of the board of directors (and subject to authorization of the issuance of additional preferred shares by the holders of Series B Convertible Preferred Stock), in additional convertible preferred shares. The dividend is cumulative and will continue to accumulate whether or not declared and paid. During the six months ended June 30, 2010 and year ended December 31, 2009, the Company paid \$0.9 million and \$2.9 million, respectively, of preferred stock dividends. Long-term capital requirements could include seed money for new products, principal payments on our outstanding Credit Facility, which expires in September 2013, infrastructure improvements and, possibly, strategic acquisitions.

Table of Contents

The financial markets have experienced a period of significant volatility over the past two years, which has impacted asset outflows and the value of our assets under management and resulted in lower fee revenues. Markets could further decline and there could be significant volatility. Should assets under management decline for any reason, revenues, net income and cash flow could continue to be negatively impacted. Reductions in related variable expenses, primarily incentive compensation and distribution costs, would marginally compensate for this loss of revenue but the Company could experience a material reduction in income from operations.

Capital and Reserve Requirements

We have a subsidiary that is a broker-dealer registered with the SEC and is therefore subject to certain rules regarding minimum net capital, as defined by those rules. The subsidiary is required to maintain a ratio of aggregate indebtedness to net capital, as defined, which may not exceed 15 to 1 and must also maintain a minimum amount of net capital. Failure to meet these requirements could result in adverse consequences to us including additional reporting requirements, tighter ratios and business interruption. At June 30, 2010 and 2009, the ratio of aggregate indebtedness to net capital of the broker-dealer was below the maximum allowed and our net capital was significantly in excess of that required.

Balance Sheet

Cash and cash equivalents consist of cash in banks and highly liquid affiliated money market mutual fund investments. Cash and cash equivalents typically increased in the second, third and fourth quarters of the year as we record, but do not pay, variable incentive compensation. Historically, annual incentives are paid in the first quarter of the year. Marketable securities consist primarily of highly liquid investments in our affiliated mutual funds. We provide capital for funds and strategies in their early stages of development.

Operating Cash Flow

Net cash provided by operating activities of \$4.1 million for the six months ended June 30, 2010 improved by \$26.8 million from net cash used in operating activities of \$22.7 million in the same period in the prior year due primarily to the increase in our assets under management and revenues in the first six months of 2010 compared to the same period in the prior year. Also contributing to the improvement was lower annual incentive payments in the first quarter of 2010 related to the year ended December 31, 2009 as compared to the prior year.

Investing Cash Flow

Net cash used in investing activities consists primarily of capital expenditures related to our business operations and purchases of available-for-sale securities. Net cash used in investing activities decreased \$0.4 million to \$0.2 million in the six months ended June 30, 2010 compared to the corresponding period in 2009 due to a decrease in capital expenditures. Higher capital expenditures were required in 2009 as a result of the spin-off from our former parent company that required us to relocate to a new facility.

Financing Cash Flow

Net cash used in financing activities consists of principal payments on our long-term debt and payment of dividends on our Series B Convertible Preferred Stock.

Table of Contents

Long-term Debt

The Company has a Credit Facility, as amended through August 2, 2010, that provides a senior secured revolving credit facility for the Company that matures in September 2013. The amended Credit Facility provides borrowing capacity of up to \$30.0 million, with a \$2.0 million sub-limit for the issuance of standby letters of credit. Borrowings under the Credit Facility may not at any time exceed, effective August 2, 2010, a minimum asset coverage ratio of 1.25 (\$30.0 million as of June 30, 2010), which in general represents the sum of the Company's cash, marketable securities and investment management fee receivables, excluding certain specified assets, to total outstanding indebtedness (including outstanding letters of credit). The Credit Facility is secured by substantially all of the assets of the Company. At June 30, 2010, \$15.0 million was outstanding under the Credit Facility.

Amounts outstanding under the Credit Facility bear interest at an annual rate equal to, at the Company's option, either LIBOR for interest periods of 1, 2, 3 or 6 months or an alternate base rate (as defined in the Credit Facility agreement), plus an applicable margin, effective August 2, 2010, that ranges from 1.25% to 3.00%. At June 30, 2010, the interest rate in effect for the Credit Facility was 3.19%, exclusive of the amortization of deferred financing costs. Under the terms of the Credit Facility the Company is also required to pay certain fees, including an annual commitment fee of 0.50% on undrawn amounts and a letter of credit participation fee at an annual rate equal to the applicable margin as well as any applicable fronting fees, each of which is payable quarterly in arrears.

The Credit Facility contains customary restrictive covenants, including covenants that restrict (subject in certain instances to minimum thresholds or exceptions) the ability of the Company and certain of its subsidiaries to incur additional indebtedness, create liens, merge or make acquisitions, dispose of assets, enter into leases, sale/leasebacks or acquisitions of capital stock, and make distributions, dividends, loans, guarantees, investments or capital expenditures, among other things. In addition, the Credit Facility contains certain financial covenants, the most restrictive of which include, effective August 2, 2010: (i) minimum required consolidated net worth as of any fiscal quarter end (total stockholders' equity plus the liquidation preference of outstanding convertible preferred shares) to be at least \$65 million, minus redemptions of convertible preferred shares of up to \$9.8 million, plus adjustments for net income, and equity issuances, if any, after September 1, 2009, (ii) minimum consolidated assets under management (excluding money market funds) of \$15.0 billion as of each quarter end through March 31, 2012 and \$18.0 billion as of any quarter end thereafter, (iii) minimum liquid assets having a fair value not less than \$7.5 million, (iv) a minimum interest coverage ratio (generally, adjusted EBITDA to interest expense as defined in and for the period specified in the Credit Facility agreement) of at least 3.00:1, and (v) a leverage ratio (generally, total indebtedness as of any date to adjusted EBITDA as defined in and for the period specified in the Credit Facility agreement) of no greater than 2.75:1. For purposes of the Credit Facility, adjusted EBITDA generally means, for any period, net income of the Company before interest expense, income taxes, depreciation and amortization expense, and excluding non-cash stock-based compensation, unrealized mark-to-market gains and losses, certain severance, and certain non-cash non-recurring gains and losses as described in and specified under the Credit Facility agreement. At June 30, 2010, the Company was in compliance with all covenants.

The Credit Facility agreement also contains customary provisions regarding events of default which could result in an acceleration of amounts due under the facility, including failure to pay principal or interest when due, failure to satisfy or comply with covenants, change of control, certain judgments, invalidation of liens, and cross-default to other debt obligations.

Series B Convertible Preferred Stock

In the fourth quarter of 2008, the Company and our former parent entered into an agreement with Harris Bankcorp, pursuant to which Harris Bankcorp acquired \$45.0 million of convertible preferred stock of the Company representing a 23% equity position in the Company on a fully-diluted basis. The Company received \$35.0 million of proceeds from this transaction in the form of a capital contribution.

As of June 30, 2010, 45,000 shares of our Series B Convertible Preferred Stock, \$1,000 stated value per share, were outstanding. When and if declared by the Company's Board of Directors, the holders of the Company's Series B Convertible Preferred Stock are entitled to receive quarterly dividends per share, payable in arrears, equal to 8.0% per annum of the stated value then in effect, before any dividends are declared or paid on any equity securities of the Company that rank junior to the Series B Convertible Preferred Stock. At the discretion of the Company, such dividends may be paid in cash or in additional shares of the Series B Convertible Preferred Stock and, with respect to payment of any accrued dividend in additional shares, approval by our Board of Directors and authorization of the issuance of additional preferred shares by the holders of Series B Convertible Preferred Stock. Dividends payable on the Series B Convertible Preferred Stock are cumulative and accumulate daily, whether or not declared and whether or not there are profits legally available for their payment. Under the terms of our Credit Facility, payment of dividends on the Series B Convertible Preferred Stock may not exceed 75% of free cash flow (as defined in the Credit Facility agreement) for any quarter and are also restricted from being declared and paid if a default or event of default exists. When declaring the quarterly dividends, considerations of the Board of Directors include whether funds are lawfully available for payment of the dividend, the Company's liquidity position and capital requirements, limitations imposed by any outstanding debt arrangements, the capital market environment and operating results and outlook.

On August 2, 2010, the Company exercised its call option to redeem 9,783 shares of the Series B Convertible Preferred Stock for a purchase price of approximately \$9.8 million from Harris Bankcorp. On August 5, 2010, Harris Bankcorp elected to convert the 9,783 shares of Series B Convertible Preferred Stock, including dividends that have been accrued but not yet declared, into 378,446 shares of common stock effective on or about August 7, 2010.

Contractual Obligations

Our contractual obligations are summarized in our Annual Report on Form 10-K for the year ended December 31, 2009. As of June 30, 2010, there have been no material changes outside of the ordinary course in our contractual obligations since December 31, 2009.

Critical Accounting Policies and Estimates

Our financial statements and the accompanying notes are prepared in accordance with Generally Accepted Accounting Principles (GAAP), which requires the use of estimates. Actual results will vary from these estimates. A complete description of the Company's critical accounting estimates is detailed in our 2009 Annual Report on Form 10-K. Management believes that these critical accounting policies, as set forth in our 2009 Annual Report on Form 10-K, are important to understanding our results of operations and financial position. A summary of certain of our critical accounting policies and estimates, updated with information subsequent to the filing of our Annual Report on Form 10-K, is as follows:

Intangible Assets and Goodwill

Definite-lived intangible assets are comprised of acquired investment contracts. Indefinite-lived intangible assets are comprised of acquired investment contracts with affiliated closed-end registered investment companies. Indefinite-lived intangible assets are tested for impairment annually. Definite-lived and indefinite-lived intangible assets are evaluated for impairment on an ongoing basis whenever events or circumstances indicate that the carrying value of the intangible asset may not be fully recoverable. The Company determines if impairment has occurred by comparing estimates of future undiscounted cash flows to the carrying value of assets. Assets are considered impaired, and an impairment is recorded, if the carrying value exceeds the expected future undiscounted cash flows. We last tested definite-lived and indefinite-lived intangible assets for impairment during the fourth quarter of 2009 and, during the three months ended June 30, 2010, no events or circumstances occurred that indicated the carrying value of definite-lived and indefinite-lived intangible might be impaired.

Goodwill represents the excess of the purchase price of acquisitions and mergers over the identified net assets and liabilities acquired. In accordance with ASC 350, *Goodwill and Other Intangible Assets*, goodwill is not being amortized. A single reporting unit has been identified for the purpose of assessing potential future impairments of goodwill. An impairment analysis of goodwill is performed annually or more frequently, if warranted by events or circumstances affecting the Company's business. We last evaluated goodwill for impairment during the fourth quarter of 2009 and, during the three months ended June 30, 2010, no events or circumstances occurred that indicated the carrying value of goodwill might be impaired.

Revenue Recognition

Investment management fees, distribution and service fees and administration and transfer agent fees are recorded as income during the period in which services are performed. Investment management fees, which are accrued monthly, are earned based upon a percentage of assets under management, and are paid pursuant to the terms of the respective investment management contracts, which generally require monthly or quarterly payment. Management fees for structured finance products, such as CLOs and CDOs, that accrue as services are rendered, but are subordinated to other interests and payable only if certain financial criteria of the underlying collateral are met, are recorded as income when the structure finance products are in compliance with required financial criteria and collectability is reasonably assured.

Gross investment management fees earned on open-end mutual funds range from 0.10% to 1.50% of average assets under management, depending on the type of fund. Investment management fees earned on closed-end funds range from 0.50% to 0.85% of average assets under management. Investment management fees earned on separately managed accounts and institutional accounts are negotiated and are based primarily on asset size, portfolio complexity and individual needs and range from 0.08% to 1.00%. Investment management fees earned on structured finance products range from 0.08% to 0.45% of the principal outstanding. The Company accounts for investment management fees in accordance with ASC 605, *Revenue Recognition*, and has recorded its management fees net of fees paid to unaffiliated sub-advisors.

Distribution and service fees are earned based on a percentage of assets under management and are paid monthly pursuant to the terms of the respective distribution and service fee contracts.

Table of Contents

Administration and transfer agent fees consist of fund administration fees, transfer agent fees, fiduciary fees and underwriter fees. Fund administration fees are earned based on the average daily assets in the funds. Transfer agent fees are earned based on a contractual amount plus a fee based on the number of accounts at the end of a month. Fiduciary fees are recorded monthly based on the number of 401(k) accounts. Underwriter fees are sales-based charges on sales of certain class A-share mutual funds. The Company utilizes outside service providers to perform some of the functions related to fund administration and transfer agent services. Effective January 1, 2010, a new fund administration agreement was executed with our open-end mutual funds. Under the prior agreement, the fees, which covered all fund administration services, were paid directly to the Company by the funds and were recorded as revenue. A portion of the fees received by the Company were remitted to third party service providers for services performed on behalf of the funds, and were recorded as a distribution and administration expense. As a result of the new agreement, the funds now directly contract for the third-party services and fees paid by the funds directly to the service providers are not reflected as either revenue or expenses of the Company. For the three and six months ended June 30, 2009, \$1.2 million and \$2.3 million, respectively, of payments to third-party service providers was recorded as revenue and expense of the Company.

Other income and fees consist primarily of redemption income on the early redemption of class B-share mutual funds and brokerage commissions and fees earned for distribution of nonaffiliated products. Commissions earned (and related expenses) are recorded on a trade date basis and are computed based upon contractual agreements.

Loss Contingencies

The likelihood that a loss contingency exists is evaluated using the criteria of ASC 450, *Contingencies*, and an accrued liability is recorded if the likelihood of a loss is considered both probable and reasonably estimable at the date of the financial statements. We believe that we have considered relevant circumstances that we may be currently subject to, and the financial statements accurately reflect our reasonable estimate of the results of our operations, financial condition and cash flows for the periods presented.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk

Our exposure to market risk is directly related to our role as investment advisor for the funds and accounts we manage as investment advisor. Most of our revenue for the three and six month periods ended June 30, 2010 and 2009 was derived from investment management, distribution and fund administration fees, which are typically based on the market value of assets under management. Accordingly, a decline in the prices of securities would cause our revenue and income to decline due to a decrease in the value of the assets we manage. In addition, such a decline could cause our clients to withdraw their funds in favor of investments offering higher returns or lower risk, which would cause our revenue and income to decline further.

We are also subject to market risk due to a decline in the market value of our investments, consisting primarily of marketable securities. At June 30, 2010, the fair value of marketable securities was \$8.6 million. Assuming a 10% increase or decrease in the fair value of marketable securities at June 30, 2010, our net loss would have changed by \$0.7 million and our total comprehensive loss would have changed by \$0.8 million for the three and six months ended June 30, 2010.

Interest Rate Risk

At June 30, 2010, the Company has \$15.0 million outstanding under the Credit Facility that has a variable interest rate. Amounts outstanding under the Credit Facility bear interest at an annual rate equal to, at the Company's option, either LIBOR for interest periods of 1, 2, 3 or 6 months or an alternate base rate, plus an applicable margin that ranges from 1.25% to 3.00%. At June 30, 2010, the interest rate in effect for the Credit Facility was 3.19%. A hypothetical 200 basis point change in interest rates for the three and six month periods ended June 30, 2010 would have changed our interest expense by approximately \$0.1 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the specified time periods, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on their evaluation, as of the end of the period covered by this Quarterly Report, the Company's Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report.

Changes in Internal Controls

There have been no significant changes in our internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) under the Securities Exchange Act of 1934) that occurred during the period covered by this Quarterly Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The Company is regularly involved in litigation and arbitration as well as examinations and investigations by various regulatory bodies, including the SEC, involving our compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker-dealers and other laws and regulations affecting our products and other activities. Legal and regulatory matters of this nature may involve activities as an employer, issuer of securities, investor, investment advisor, broker-dealer or taxpayer. The Company believes that the outcomes of its legal or regulatory matters are not likely, either individually or in the aggregate, to have a material adverse effect on its consolidated financial condition. However, it is not feasible to predict the ultimate outcome of all legal claims or matters or provide reasonable ranges of potential losses, and in the event of unexpected subsequent developments and given the inherent unpredictability of these legal and regulatory matters, there can be no assurance that our assessment of any claim, dispute, regulatory examination or investigation or other legal matter will reflect the ultimate outcome and an adverse outcome in certain matters could, from time to time, have a material adverse effect on the Company's results of operations or cash flows in particular quarterly or annual periods.

Item 1A. Risk Factors

The Company has had no significant changes to its risk factors from those previously reported in our 2009 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered sales of equity securities during the period covered by this Quarterly Report. There have been no purchases of common stock by the Company or its affiliates during the period covered by this Quarterly Report. Shares of the Company's common stock purchased by participants in the Company's Employee Stock Purchase Plan were delivered to participant accounts via open market purchases at fair value by the third-party administrator under the plan. The Company does not reserve shares for this plan or discount the purchase price of the shares.

Item 5. Other Information

On August 2, 2010, the Company entered into Amendment No. 2 to the Credit Facility with the Bank of New York Mellon, as administrative agent, issuing bank and lead arranger, and PNC Bank, National Association, as lender. The amended Credit Agreement extends the maturity date of the Credit Facility to September 30, 2013 from September 1, 2011, increases the borrowing capacity to up to \$30.0 million (subject to asset coverage requirement) for the entire term of the facility, which was originally scheduled to reduce to \$18.0 million on September 1, 2010, and reduces the minimum asset coverage requirement to 1.25 from 1.75. The amended Credit Facility also decreases the applicable margin on the base interest rates available to a range of 1.25% to 3.00% from the original range of 1.75% to 3.50%.

Amendment No. 2 also modified certain restrictive covenants, the most significant of which include requiring a (i) minimum required consolidated net worth as of any fiscal quarter end (total stockholders' equity plus the liquidation preference of outstanding convertible preferred shares) to be at least \$65 million, minus redemptions of convertible preferred shares of up to \$9.8 million, plus adjustments for net income, redemptions of convertible preferred securities and equity issuances, if any, after September 1, 2009, and (ii) minimum consolidated assets under management (excluding money market funds) of \$15.0 billion as of each quarter end through March 31, 2012 and \$18.0 billion as of any quarter end thereafter. In addition, a covenant was added that requires minimum liquid assets having a fair value not less than \$7.5 million.

On August 2, 2010, the Company exercised its call option to redeem 9,783 shares of the Series B Convertible Preferred Stock for a purchase price of approximately \$9.8 million from Harris Bankcorp. Harris Bankcorp informed the Company on August 5, 2010 that it elected to convert the 9,783 shares of Series B, including dividends that have been accrued but not yet declared, into 378,348 shares of common stock in lieu of a cash payment of \$9.8 million. The conversion will be effective on or about August 7, 2010.
