TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-13458

SCOTT S LIQUID GOLD-INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-Q

Colorado
(State or other jurisdiction of
incorporation or organization)

4880 Havana Street,
Denver, CO
(Address of principal executive offices)

84-0920811
(I.R.S. Employer
Identification No.)

80239
(Zip Code)

303-373-4860
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 9, 2012, the Registrant had 10,937,000 of its common stock, \$0.10 par value per share, outstanding.

CAUTIONARY NOTE ON FORWARD-LOOKING INFORMATION

This Report may contain forward-looking statements within the meaning of U.S. federal securities laws. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements and our performance inherently involve risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. Factors that would cause or contribute to such differences include, but are not limited to, continued acceptance of each of our significant products in the marketplace; the degree of success of any new product or product line introduction by us; competitive factors; any decrease in distribution of (i.e., retail stores carrying) our significant products; continuation of our distributorship agreements for Montagne Jeunesse skin care products and Batiste dry shampoos; the need for effective advertising of our products; limited resources available for such advertising; new competitive products and/or technological changes; dependence upon third party vendors and upon sales to major customers; changes in the regulation of our products, including applicable environmental regulations; continuing losses which could affect our liquidity; the loss of any executive officer; and other matters discussed in our Annual Report on Form 10-K for the year ended December 31, 2011 and this Report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may arise after the date of this Report.

Notes to Consolidated Financial Statements (Unaudited)

Scott's Liquid Gold-Inc. & Subsidiaries

Note 1. Organization and Summary of Significant Accounting Policies.

(a) Company Background

Scott's Liquid Gold-Inc. (a Colorado corporation) was incorporated on February 15, 1954. Scott's Liquid Gold-Inc. and its wholly-owned subsidiaries (collectively, the Company, we, our, or us) develop, manufacture, market and sell quality household and skin and hair care products. We are also an exclusive distributor in the United States of Montagne Jeunesse skin sachets and Batiste dry shampoo manufactured by two other companies. Our business is comprised of two segments, household products and skin and hair care products.

(b) Principles of Consolidation

Our consolidated financial statements include our accounts and those of our wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

(c) Basis of Presentation

The Consolidated Statements of Operations, Consolidated Balance Sheets, and the Consolidated Statements of Cash Flows included in this report have been prepared by the Company. In our opinion, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position at September 30, 2012 and results of operations and cash flow for all periods have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. These consolidated financial statements should be read in conjunction with our financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2011. The results of operations for the period ended September 30, 2012 are not necessarily indicative of the operating results for the full year.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts in our financial statements of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include, but are not limited to, the realization of deferred tax assets, reserves for slow moving and obsolete inventory, customer returns and allowances, coupon redemptions, and stock-based compensation. Actual results could differ from our estimates.

(e) Cash Equivalents

We consider all highly liquid investments with an original maturity of three months or less at the date of acquisition to be cash equivalents.

Table of Contents

(f) *Sale of Accounts Receivable*

On November 3, 2008, effective as of October 31, 2008, we entered into a financing agreement with Summit Financial Resources, L.P. (Summit) for the purpose of improving working capital. The financing agreement with Summit was amended on March 12, 2009, March 16, 2011 (effective March 1, 2011) and then again on June 29, 2012 (effective July 1, 2012). The agreement has a term that expires on January 1, 2014, but it may be renewed for additional 12 month periods unless either party elects to cancel in writing at least 60 days prior to January 1, 2014 and thereafter on the anniversary date of each 12 month period.

The agreement provides for a factoring line up to \$1.5 million and is secured primarily by accounts receivable, inventory, any lease in which we are a lessor and all investment property and guarantees by our active subsidiaries. Under the agreement, Summit will make loans at our request and in its discretion based on: (i) its purchases of our receivables, with recourse against us, at an advance rate of 85% (or such other percentage determined by Summit in its discretion) and (ii) our inventory not to exceed certain amounts, including an aggregate maximum of \$500,000. Prior to the recent amendment on June 29, 2012, advances under the agreement had an interest rate of 1.5% over the prime rate (as published in The Wall Street Journal) for the accounts receivable portion of the advances and 4.0% over the prime rate for the inventory portion of the borrowings. The recent amendment reduced these interest rates to 1.0% over the prime rate for the accounts receivable portion and 2.5% over the prime rate for the inventory portion. Consequently, our interest cost adjusts with changes in the prime rate. At September 30, 2012, the prime rate was 3.25%.

In addition, prior to the recent amendment on June 29, 2012, there was an administrative fee of 1.0% per month on the average monthly outstanding loan on the receivable portion of any advance and 1.35% per month on the average monthly outstanding loan on the inventory portion of any advance. The recent amendment reduced these administrative fees to 0.85% per month on the average monthly outstanding loan on the receivable portion of any advance if the average quarterly loan in the prior quarter was less than or equal to \$1,000,000, and to 0.75% if the average quarterly loan in the prior quarter was greater than \$1,000,000 and to 1.0% per month on the average monthly outstanding loan on the inventory portion of any advance.

The agreement provides that neither we nor our active subsidiaries may engage in a change in control transaction without the prior written consent of Summit. Events of default include, but are not limited to, our failure to make a payment when due or a default occurring on any of our other indebtedness.

During the nine months ended September 30, 2012, we sold approximately \$8,199,400 of our accounts receivables to Summit for approximately \$6,969,500. As the advance rate on these accounts receivables was 85%, we retained an interest equal to 15% of those accounts receivables. At September 30, 2012, approximately \$284,000 of this credit line was available for future factoring of accounts receivable invoices and borrowings secured by our inventory.

We report these transactions, using the Financial Accounting Standards Board's (FASB) authoritative guidance, as a secured borrowing rather than as a sale. As a result, affected accounts receivable are reported under Current Assets within our Consolidated Balance Sheets as Trade receivables, net. Similarly, the net liability owing to Summit appears as Obligations collateralized by receivables and inventory within the Current Liabilities section of our Consolidated Balance Sheets. Net proceeds received on obligations collateralized by receivables and inventory appear as cash provided by operating activities within our Consolidated Statements of Cash Flow.

Table of Contents

On March 16, 2011, under a consent agreement from Summit, we entered into a financing agreement with Wells Fargo Bank, National Association (Wells Fargo) for the purpose of further lowering the cost of borrowing associated with the financing of our accounts receivable. Pursuant to this agreement, we may sell accounts receivables from our largest customer at a discount to Wells Fargo; provided, however, that Wells Fargo may reject offers to purchase such receivables in its discretion. These receivables may be purchased by Wells Fargo at a cost to us equal to LIBOR plus 1.15% per annum. The LIBOR rate used depends on the days to maturity of the receivable sold, typically ranging from 102 to 105 days. At September 30, 2012, Wells Fargo used the 104-day LIBOR rate of 0.46%.

The agreement has no fixed termination date, but continues unless terminated by either party giving 30 days prior written notice to the other party. During the nine months ended September 30, 2012, we sold approximately \$2,705,900 of our relevant accounts receivable to Wells Fargo for approximately \$2,652,600. The difference between the invoiced amount of the receivable and the cash that we received from Wells Fargo is a cost to us. This cost is in lieu of any cash discount our customer would have been allowed and, thus, is treated in a manner consistent with standard trade discounts granted to our customers.

The reporting of the sale of accounts receivables to Wells Fargo is treated as a sale rather than as a secured borrowing. As a result, affected accounts receivables are relieved from the Company's financial statements upon receipt of the cash proceeds.

(g) Inventories

Inventories consist of raw materials and finished goods and are stated at the lower of cost (first-in, first-out method) or market. We record a reserve for slow moving and obsolete products and raw materials. We estimate this reserve based upon historical and anticipated sales.

Inventories were comprised of the following at:

	September 30, 2012	December 31, 2011
Finished goods	\$ 1,002,100	\$ 1,191,000
Raw materials	1,036,800	1,067,200
Inventory reserve for obsolescence	(129,600)	(239,000)
	\$ 1,909,300	\$ 2,019,200

(h) Property, Plant and Equipment

Property, plant and equipment are recorded at historical cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets ranging from three to 45 years. Building structures and building improvements are estimated to have useful lives of 35 to 45 years and three to 20 years, respectively. Production equipment and production support equipment are estimated to have useful lives of 15 to 20 years and three to 10 years, respectively. Office furniture and office machines are estimated to have useful lives of 10 to 20 and three to five years, respectively. Carpets, drapes and company vehicles are estimated to have useful lives of five to 10 years. Maintenance and repairs are expensed as incurred. Improvements that extend the useful lives of the asset or provide improved efficiency are capitalized.

Table of Contents

(i) *Financial Instruments*

Financial instruments which potentially subject us to concentrations of credit risk include cash and cash equivalents and trade receivables. We maintain our cash balances in the form of bank demand deposits with financial institutions that we believe are creditworthy. Periodically throughout the year, we have maintained balances in various operating accounts in excess of federally insured limits. We establish an allowance for doubtful accounts based upon factors surrounding the credit risk of specific customers, historical trends and other information. We have no significant financial instruments with off-balance sheet risk of accounting loss, such as foreign exchange contracts, option contracts or other foreign currency hedging arrangements.

The recorded amounts for cash and cash equivalents, receivables, other current assets, accounts payable and accrued expenses approximate fair value due to the short-term nature of these financial instruments. Our long-term debt bears interest at a fixed rate that adjusts annually on the anniversary date to the then prime rate. The carrying value of our long-term debt approximates fair value as of September 30, 2012 and December 31, 2011.

(j) *Long-Lived Assets*

We follow FASB authoritative guidance as it relates to the proper accounting treatment for the impairment or disposal of long-lived assets. This guidance requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

As of December 31, 2011, due to changes in the real estate market in Denver, Colorado, we conducted an evaluation into the fair value impairment of our property, plant and equipment with particular attention to our land and office, warehouse and manufacturing buildings (the Facilities). The Facilities have an original cost of \$17,485,800 and a depreciated book value at December 31, 2011 of approximately \$10,068,900. We evaluated the value of the Facilities using both an income capitalization approach and a market value approach. This evaluation returned a range of fair value estimates between approximately \$10.1 million to \$10.6 million. Based upon this evaluation, we found there to be no impairment in the carrying values of our long-lived assets at December 31, 2011.

However, at September 30, 2012, due to recent developments in the commercial real estate market in which our Facilities are located, we found there to be an impairment of approximately \$286,900 in the carrying values of our long-lived assets. We determined the impairment amount after concluding that the low end of the range of fair value estimates at September 30, 2012 should be \$9.5 million and the depreciated book value of the Facilities at September 30, 2012 was approximately \$9,786,900. The valuation of our Facilities, however, can be affected by future events, including changes in the economy and the commercial real estate market in which our Facilities are located.

The impact of the impairment appears on our Consolidated Statements of Operations as an expense of \$286,900 under Loss on impairment of long-lived assets and reduces by \$286,900 our Property, plant and equipment, net on our Consolidated Balance Sheets.

Table of Contents

(k) *Income Taxes*

We follow FASB authoritative guidance for the accounting for income taxes which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective income tax bases. A valuation allowance is provided when it is more likely than not that some portion or all of a deferred tax asset will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the period in which related temporary differences become deductible. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Taxes are reported based on tax positions that meet a more-likely-than-not standard and that are measured at the amount that is more-likely-than-not to be realized. Differences between financial and tax reporting which do not meet this threshold are required to be recorded as unrecognized tax benefits. We classify penalty and interest expense related to income tax liabilities as an income tax expense. There are no significant interest and penalties recognized in the statement of operations or accrued on the balance sheet.

(l) *Revenue Recognition*

Our revenue recognition policy is significant because the amount and timing of revenue is a key component of our results of operations. We follow guidance issued by FASB, which requires that certain criteria be met in order to recognize revenue. If these criteria are not met, then the associated revenue is deferred until it is met. In our case, the criteria generally are met when we have an arrangement to sell a product, we have delivered the product in accordance with that arrangement, the sales price of the product is determinable and we believe that we will be paid for the sale.

We establish reserves for customer returns of our products and customer allowances. We estimate these reserves based upon, among other things, an assessment of historical trends, information from customers and anticipated returns related to current sales activity. These reserves are established in the period of sale and reduce our revenue in that period.

Our reserve for customer allowances includes primarily reserves for trade promotions to support price features, displays and other merchandising of our products to our customers. The actual level of returns and customer allowances are influenced by several factors, including the promotional efforts of our customers, changes in mix of our customers, changes in the mix of the products we sell and the maturity of the product. We may change our estimates based on actual results and consideration of other factors that cause returns and allowances. In the event that actual results differ from our estimates, the results of future periods may be impacted.

We also establish reserves for coupons, rebates and certain other promotional programs for consumers. We estimate these reserves based upon, among other things, an assessment of historical trends and current sales activity. These reserves are recorded as a reduction of revenue at the later of the date at which the revenue is recognized or the date at which the sale incentive is offered.

At September 30, 2012 and December 31, 2011 approximately \$279,700 and \$497,000, respectively, had been reserved for as a reduction of accounts receivable, and approximately \$0.00 and \$85,000, respectively, had been reserved as current liabilities. Trade promotions to our customers and incentives such as coupons to the consumer are deducted from gross sales and totaled \$1,248,700 and \$855,700 for the nine months ended September 30, 2012 and 2011, respectively.

We have also established an allowance for doubtful accounts. We estimate this allowance based upon, among other things, an assessment of the credit risk of specific customers and historical trends. We believe our allowance for doubtful accounts is adequate to absorb any losses which may arise. In the event that actual losses differ from our estimates, the results of future periods may be impacted.

Table of Contents**(m) Advertising Costs**

Advertising costs are expensed as incurred.

(n) Stock-based Compensation

During the nine months ended September 30, 2012, we granted 100,000 options for shares of our common stock to an executive officer at a price of \$0.24 per share. The options which vest ratably over 48 months, or upon a change in control, and which expire after five years, were granted at 120% of the market value as of the date of grant. During the first nine months of 2011, we granted 30,000 options for shares of our common stock to a non-employee director at \$0.37 per share. Please see Note 2 to our Consolidated Financial Statements (Unaudited) for information regarding the 598,200 fewer stock options outstanding at September 30, 2012 than at September 30, 2011.

The weighted average fair market value of the options granted in the first nine months of 2012 was estimated on the date of grant, using a Black-Scholes option pricing model with the following assumptions:

	September 30, 2012	September 30, 2011
Expected life of options (using the simplified method)	4.5 years	4.5 years
Average risk-free interest rate	0.9%	0.9%
Average expected volatility of stock	144%	98%
Expected dividend rate	None	None

Compensation cost related to stock options recognized in operating results (included in general and administrative expenses) under authoritative guidance issued by the FASB was \$40,500 and \$58,100 in the nine months ended September 30, 2012 and 2011, respectively. Approximately \$88,500 of total unrecognized compensation costs related to non-vested stock options is expected to be recognized over the next 48 months. In accordance with this same authoritative guidance, there was no tax benefit from recording the non-cash expense as it relates to the options granted to employees, as these were qualified stock options which are not normally tax deductible. With respect to the non-cash expense associated with the options granted to the non-employee directors, no tax benefit was recognized due to the existence of as yet unutilized net operating losses. At such time as these operating losses have been utilized and a tax benefit is realized from the issuance of non-qualified stock options, a corresponding tax benefit may be recognized.

(o) Operating Costs and Expenses Classification

Cost of sales includes costs associated with manufacturing and distribution including labor, materials, freight-in, purchasing and receiving, quality control, internal transfer costs, repairs, maintenance and other indirect costs, as well as warehousing and distribution costs. We classify shipping and handling costs comprised primarily of freight-out and nominal outside warehousing costs as selling expenses. Other selling expenses consist primarily of wages and benefits for sales and sales support personnel, travel, brokerage commissions and promotional costs, as well as certain other indirect costs. Shipping and handling costs totaled \$1,083,700 and \$1,085,800 for the nine months ended September 30, 2012 and 2011, respectively.

Table of Contents

General and administrative expenses consist primarily of wages and benefits associated with management and administrative support departments, business insurance costs, professional fees, office facility related expenses, and other general support costs.

Note 2. Earnings per Share

We present basic and diluted earnings or loss per share in accordance with authoritative guidance which establishes standards for computing and presenting basic and diluted earnings per share. Per share data is determined by using the weighted average number of common shares outstanding. Common equivalent shares are considered only for diluted earnings per share, unless considered anti-dilutive. Common equivalent shares, determined using the treasury stock method, result from stock options with exercise prices that are below the average market price of the common stock.

The potentially dilutive securities are comprised of outstanding stock options of 1,365,350 and 1,963,550 at September 30, 2012 and 2011, respectively, a decrease of 598,200 or 30.5%. This decrease is due primarily to stock options expiring as well as a more limited number of stock options being exercised. At September 30, 2012, potentially dilutive securities were excluded from the computation of weighted average shares outstanding due to their anti-dilutive effect.

The following is a reconciliation of the weighted average number of common shares outstanding for the three and nine months ended September 30, 2012 and 2011:

	2012	
	Three Months	Nine Months
Common shares outstanding, beginning of the period	10,937,000	10,907,000
Weighted average common shares issued	0	27,253
Weighted average number of common shares outstanding	10,937,000	10,934,253
Dilutive effect of common share equivalents	0	0
Diluted weighted average number of common shares outstanding	10,937,000	10,934,253

	2011	
	Three Months	Nine Months
Common shares outstanding, beginning of the period	10,898,500	10,898,500
Weighted average common shares issued	0	0
Weighted average number of common shares outstanding	10,898,500	10,898,500
Dilutive effect of common share equivalents	0	1,309,250
Diluted weighted average number of common shares outstanding	10,898,500	12,207,750

We have authorized 20,000,000 shares of preferred stock issuable in one or more series, none of which are issued or outstanding as of September 30, 2012.

Note 3. Segment Information.

We operate in two different segments: household products and skin and hair care products. Our products are sold nationally and internationally (primarily Canada), directly through our sales force and indirectly through independent brokers, to mass merchandisers, drugstores, supermarkets, hardware stores and other retail outlets and to wholesale distributors. We have chosen to organize our business around these segments based on differences in the products sold.

Table of Contents

Accounting policies for our segments are the same as those described in Note 1. We evaluate segment performance based on segment income or loss before income taxes.

The following provides information on our segments for the three and nine months ended September 30:

	Three Months Ended September 30,			
	2012		2011	
	Household Products	Skin and Hair Care Products	Household Products	Skin and Hair Care Products
Net sales to external customers	\$ 1,141,200	\$ 2,726,500	\$ 1,399,500	\$ 2,671,900
(Loss) income before income taxes	\$ (347,400)	\$ 123,200	\$ (182,900)	\$ 173,200
Identifiable assets	\$ 2,782,900	\$ 4,159,200	\$ 2,631,200	\$ 4,475,300

	Nine Months Ended September 30,			
	2012		2011	
	Household Products	Skin and Hair Care Products	Household Products	Skin and Hair Care Products
Net sales to external customers	\$ 3,690,900	\$ 7,932,700	\$ 4,497,500	\$ 7,439,100
(Loss) income before income taxes	\$ (1,094,600)	\$ 469,800	\$ (393,600)	\$ 560,700
Identifiable assets	\$ 2,782,900	\$ 4,159,200	\$ 2,631,200	\$ 4,475,300

The following is a reconciliation of segment information to consolidated information for the three and nine months ended September 30:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Net sales to external customers	\$ 3,867,700	\$ 4,071,400	\$ 11,623,600	\$ 11,936,600
(Loss) income before income taxes	\$ (224,200)	\$ (9,700)	\$ (624,800)	\$ 167,100
Consolidated (loss) income before income taxes	\$ (224,200)	\$ (9,700)	\$ (624,800)	\$ 167,100
Identifiable assets	\$ 6,942,100	\$ 7,106,500	\$ 6,942,100	\$ 7,106,500
Corporate assets	7,034,600	8,057,600	7,034,600	8,057,600
Consolidated total assets	\$ 13,976,700	\$ 15,164,100	\$ 13,976,700	\$ 15,164,100

Corporate assets noted above are comprised primarily of our cash and investments, and property and equipment not directly associated with the manufacturing, warehousing, shipping and receiving activities.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.****Results of Operations**

Our consolidated net sales for the first nine months of 2012 were \$11,623,600 versus \$11,936,600 for the first nine months of 2011, a decrease of \$313,000 or 2.6%. We saw a 10.4% increase in net sales of our own line of skin care products and a 4.2% increase in net sales of the skin and hair care products that we distribute for other companies. These increases were offset in part by a 17.9% decrease in sales of our household products. The reasons for the decrease in the sales of our household products are described below.

Our consolidated net sales for the third quarter of 2012 were \$3,867,700 versus \$4,071,400 for the third quarter of 2011, a decrease of \$203,700 or 5.0%. We saw a 2.1% increase in net sales of the skin and hair care products that we distribute for other companies and a 2.0% increase in net sales of our own line of skin care products. There was an 18.5% decrease in sales of our household products. The reasons for the decrease in the sales of our household products are described below.

Our net loss for the first nine months of 2012 was \$911,700 versus net income of \$167,100 in the first nine months of 2011. Our net loss for the third quarter of 2012 was \$511,100 versus a net loss of \$9,700 in the third quarter of 2011. The increased loss for the first nine months and third quarter of 2012 compared to the same periods in 2011 resulted primarily from: (1) an impairment to the carrying value of our Facilities as detailed above; (2) increases in trade promotions to our customers; (3) increases in costs of sales as detailed below; and (4) increases in operating expenses as detailed below.

Summary of Results as a Percentage of Net Sales

	Year Ended December 31, 2011	Nine Months Ended September 30, 2012	September 30, 2011
Net sales			
Household products	38.0%	31.8%	37.7%
Skin and hair care products	62.0%	68.2%	62.3%
Total net sales	100.0%	100.0%	100.0%
Cost of sales	54.8%	56.6%	52.8%
Gross profit	45.2%	43.4%	47.2%
Other revenue	1.0%	0.8%	1.0%
Operating expenses	46.2%	44.2%	48.2%
Interest expense	1.5%	1.7%	1.5%
	50.3%	52.1%	46.8%
(Loss) income before taxes	(4.1)%	(7.9)%	1.4%

Our gross margins may not be comparable to those of other companies because some companies include all of the costs related to their distribution network in cost of sales. In contrast, other companies, like us, exclude a portion of these costs (i.e., freight out to customers) from gross margin. Instead, we include them as part of selling expenses. See Note 1(o), Operating Costs and Expenses Classification, to our Consolidated Financial Statements (Unaudited) in Item 1.

Table of Contents**Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011****Comparative Net Sales**

	Nine Months Ended September 30,		Percentage Increase (Decrease)
	2012	2011	
Scott's Liquid Gold® and other household products	\$ 3,464,200	\$ 4,155,200	(16.6)%
Touch of Scent®	226,700	342,300	(33.8)%
Total household products	3,690,900	4,497,500	(17.9)%
Alpha Hydrox®, Diabetic cream and shampoo and other skin care products	3,241,700	2,936,600	10.4%
Montagne Jeunesse and Batiste dry shampoo	4,691,000	4,502,500	4.2%
Total skin and hair care products	7,932,700	7,439,100	6.6%
Total net sales	\$ 11,623,600	\$ 11,936,600	(2.3)%

During the first nine months of 2012, net sales of skin and hair care products accounted for 68.2% of consolidated net sales compared to 62.3% for the same period in 2011. The net sales of these products for that period were \$7,932,700 in 2012 compared to \$7,439,100 for the same period in 2011, an increase of \$493,600 or 6.6%.

The net sales of our Alpha Hydrox® and other manufactured skin care products were \$3,241,700 in the first nine months of 2012 versus \$2,936,600 for the same period in 2011, an increase of \$305,100 or 10.4%. This increase is primarily attributable to increased distribution to new and existing customers and the improved placement of our products at existing customers.

The net sales of Montagne Jeunesse and Batiste dry shampoo were \$4,691,000 in the first nine months of 2012 versus \$4,502,500 for the same period in 2011, an increase of \$188,500 or 4.2%. This increase is primarily attributable to increased distribution to new and existing customers and the improved placement of our products at existing customers.

Sales of household products for the first nine months of 2012 accounted for 31.8% of net sales compared to 37.7% for the same period in 2011. During the first nine months of 2012, the sales of our household products were \$3,690,900 as compared to \$4,497,500 for the same period in 2011, a decrease of \$806,600 or 17.9%. This decrease reflects primarily decreased distribution in our Clean Screen and Little Clean Screen products. We believe the decline in sales of Clean Screen is the result of new competitors in the segment including competitors with significant name brand recognition. Sales of our Touch of Scent® air fresheners were down by \$115,600 or 33.8%.

Due to the decline in sales and distribution of Mold Control 500, this product will be discontinued after 2012. We attribute this decline to the following three primary factors: (1) generally lower actual consumer demand than anticipated; (2) the product is effective, but expensive; and (3) the product involves a delivery system considered by many not to be consumer friendly.

We paid our customers a total of \$1,248,700 in the first nine months of 2012 versus \$855,700 for the same period in 2011, an increase of \$393,000 or 45.9% for trade promotions to support price features, displays and other merchandising of our products. We made a strategic decision this year to invest in our products earlier in the year to, among other things, build on the momentum from our spending at the end of last year. Moreover, we believed it was important to invest in our products with certain customers earlier in the year ahead of meetings this summer regarding planograms for next year. Our goal was to obtain additional distribution with our existing customers and better product placement in the stores with these customers. We have seen early benefits of our decision.

Table of Contents

From time to time, our customers return products to us. For our household products, we permit returns only for a limited time. With regard to our skin and hair care products, returns are more frequent under an unwritten industry standard that permits returns for a variety of reasons. In the event a skin and hair care customer requests a return of a product, we will consider the request, and may grant such request in order to maintain or enhance our relationship with the customer, even in the absence of an enforceable right of the customer to do so. Typically, customers that return products to us take a credit on our invoice equal to the original sale price plus a handling charge ranging from 8-10% of the original sales price. Our product returns (as a percentage of net sales) were 1.5% percent for the first nine months of 2012 compared to 0.7% for the same period in 2011. The increase reflects primarily returns due to reducing the fill amount and changing the graphics on our cans of Scott's Liquid Gold® Wood Cleaner and Preservative to reduce costs.

On a consolidated basis, cost of sales was \$6,574,600 during the first nine months of 2012 compared to \$6,302,100 for the same period in 2011, an increase of \$272,500 or about 4.3%, on a net sales decrease of 2.6%. As a percentage of consolidated net sales, cost of sales was 56.6% in the first nine months of 2012 versus 52.8% for the same period in 2011.

The cost of sales for our skin and hair care products increased to 53.3% in the first nine months of 2012 as compared to 50.6% for the same period in 2011. The costs of sales for our household products increased to 63.6% in the first nine months of 2012 as compared to 56.6% for the same period in 2011. These increases reflect primarily more spending on trade promotions in the first nine months of 2012 as compared to the same period in 2011 and increases in our costs for certain raw materials.

Operating Expenses, Interest Expense and Other Income

	Nine Months Ended September 30,		Percentage Increase
	2012	2011	(Decrease)
Operating Expenses			
Advertising	\$ 255,500	\$ 330,700	(22.7)%
Selling	3,256,100	3,261,300	(0.2)%
General and administrative	2,063,800	1,813,700	13.8%
Impairment of long-lived assets	286,900	0	100.0%
Total operating expenses	\$ 5,862,300	\$ 5,405,700	8.5%
Rental and Other Income	\$ 96,700	\$ 121,700	(20.5)%
Interest Expense	\$ 195,100	\$ 183,400	6.4%

Our operating expenses increased by \$456,600 or 8.5% in the first nine months of 2012 when compared to the same period in 2011. These expenses consist primarily of advertising, selling, general and administrative expenses and an impairment of long-lived assets and are discussed below.

Advertising expenses for the first nine months of 2012 were \$255,500 compared to \$330,700 for the same period in 2011, a decrease of \$75,200 or 22.7%, primarily related to a reduction in spending on printed collateral materials for our customers and consumers.

Selling expenses for the first nine months of 2012 were \$3,256,100 compared to \$3,261,300 for the same period in 2011, a decrease of \$5,200 or 0.2%.

Table of Contents

General and administrative expenses for the first nine months of 2012 were \$2,063,800 compared to \$1,813,700 for the same period of 2011, an increase of \$250,100 or 13.8%. This increase is attributable to the following two primary factors: (1) recent changes in personnel within our finance and accounting group; and (2) an increase in expenses for audit fees and legal fees.

The impairment of our long-lived assets for the first nine months of 2012 was \$286,900 compared to \$0 for the same period of 2011. The increase is due to an impairment to the carrying value of our Facilities as discussed above.

Rental and other income for the first nine months of 2012 of \$96,700 included \$94,900 of net rental receipts and \$1,800 in interest earned on our cash reserves. This compares to total rental and other income for the first nine months of 2011 of \$121,700 which included \$115,000 of net rental receipts and \$3,900 in interest earned on our cash reserves. The decrease in rental income is a result of a tenant stopping payments at the end of December 2011 when the tenant vacated, due to financial difficulties, one-half of a floor of our office building they were leasing from us.

Interest expense for the first nine months of 2012 was \$195,100 and included \$64,700 in administrative fees incurred relative to the sale of accounts receivable invoices to Summit. Interest expense for the first nine months of 2011 was \$183,400 and included \$51,900 in collateral management and/or administrative fees paid to Summit. The increase is due to higher borrowings under our line of credit with Summit to fund increased gross sales activity in the first nine months of 2012 compared to the same period in 2011.

Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011**Comparative Net Sales**

	Three Months Ended September 30,		Percentage Increase (Decrease)
	2012	2011	
Scott's Liquid Gold® and other household products	\$ 1,050,400	\$ 1,283,600	(18.2)%
Touch of Scent®	90,800	115,900	(21.7)%
Total household products	1,141,200	1,399,500	(18.5)%
Alpha Hydrox®, Diabetic cream and shampoo and other skin care products	1,066,900	1,046,000	2.0%
Montagne Jeunesse and Batiste dry shampoo	1,659,600	1,625,900	2.1%
Total skin and hair care products	2,726,500	2,671,900	2.0%
Total net sales	\$ 3,867,700	\$ 4,071,400	(5.0)%

The net sales of our skin and hair care products were \$2,726,500 in the third quarter of 2012 compared to \$2,671,900 for the same period in 2011, an increase of \$54,600 or 2.0%. The net sales of our Alpha Hydrox® and other manufactured skin care products were \$1,066,900 in the third quarter of 2012 versus \$1,046,000 for the same period in 2011, an increase of \$20,900 or 2.0%. This increase is primarily attributable to increased distribution to new and existing customers and the improved placement of our products at existing customers.

Table of Contents

The net sales of Montagne Jeunesse and Batiste dry shampoo were \$1,659,600 in the third quarter of 2012 versus \$1,625,900 for the same period in 2011, an increase of \$33,700 or 2.1%. This increase is primarily attributable to increased distribution to new and existing customers and the improved placement of our products at existing customers.

During the third quarter of 2012, the sales of our household products were \$1,141,200 as compared to \$1,399,500 for the same period in 2011, a decrease of \$258,300 or 18.5%. This decrease reflects primarily decreased distribution in our Clean Screen and Little Clean Screen products. We believe the decline in sales of Clean Screen is the result of new competitors in the segment including competitors with significant name brand recognition. Sales of our Touch of Scent[®] air fresheners were down by \$25,100 or 21.0%.

Due to the decline in sales and distribution of Mold Control 500, this product will be discontinued after 2012. We attribute this decline to the following three primary factors: (1) generally lower actual consumer demand than anticipated; (2) the product is effective, but expensive; and (3) the product involves a delivery system considered by many not to be consumer friendly.

We paid our customers a total of \$357,800 in the third quarter of 2012 versus \$299,500 for the same period in 2011, an increase of \$58,300 or 19.5% for trade promotions to support price features, displays and other merchandising of our products. We found the increase necessary to achieve increased distribution of our skin and hair care products to new and existing customers and the improved placement of our products at existing customers.

On a consolidated basis, cost of sales was \$2,287,500 during the third quarter of 2012 compared to \$2,275,300 for the same period in 2011, an increase of \$12,200 or 0.5%, on a net sales decrease of 18.5%. As a percentage of consolidated net sales, cost of sales was 59.1% in the third quarter of 2012 versus 55.9% for the same period in 2011.

The cost of sales for our skin and hair care products increased to 58.4% in the third quarter of 2012 as compared to 53.5% for the same period in 2011. The costs of sales for our household products increased to 61.0% in the third quarter of 2012 as compared to 60.5% for the same period in 2011. These increases reflect primarily more spending on trade promotions in the third quarter of 2012 as compared to the same period in 2011 and increases in our costs for certain raw materials.

Table of Contents**Operating Expenses, Interest Expense and Other Income**

	Three Months Ended September 30,		Percentage Increase
	2012	2011	(Decrease)
Operating Expenses			
Advertising	\$ 60,100	\$ 82,300	(27.0)%
Selling	1,001,300	1,103,000	(9.2)%
General and administrative	707,900	601,000	17.8%
Impairment of long-lived assets	286,900	0	100.0%
Total operating expenses	\$ 2,056,200	\$ 1,786,300	(15.1)%
Rental and Other Income	\$ 32,100	\$ 39,700	(19.1)%
Interest Expense	\$ 67,200	\$ 59,200	13.5%

Our operating expenses increased by \$269,900 or 15.1% in the third quarter of 2012 when compared to the same period in 2011. These expenses consist primarily of advertising, selling, general and administrative expenses and an impairment to our long-lived assets and are discussed below.

Advertising expenses for the third quarter of 2012 were \$60,100 compared to \$82,300 for the same period in 2011, a decrease of \$22,200 or 27.0%, primarily related to a reduction in spending on printed collateral materials for our customers and consumers.

Selling expenses for the third quarter of 2012 were \$1,001,300 compared to \$1,103,000 for the same period in 2011, a decrease of \$101,700 or 9.2%. The decrease was a result of deploying our funds for trade promotions, rather than for selling expenses.

General and administrative expenses for the third quarter of 2012 were \$707,900 compared to \$601,000 for the same period of 2011, an increase of \$106,900 or 17.8%. This increase is attributable to the following two primary factors: (1) recent changes in personnel within our finance and accounting group; and (2) an increase in expenses for audit fees and legal fees.

The impairment of our long-lived assets for the third quarter of 2012 was \$286,900 compared to \$0 for the same period of 2011. The increase is due to an impairment to the carrying value of our Facilities as discussed above.

Rental and other income for the third quarter of 2012 of \$32,100 included \$31,700 of net rental receipts and \$400 in interest earned on our cash reserves. This compares to total rental and other income for the third quarter in 2011 of \$39,700 which included \$38,400 of net rental receipts and \$1,300 in interest earned on our cash reserves. The decrease in rental income is a result of a tenant stopping payments at the end of December 2011 when the tenant vacated, due to financial difficulties, one-half of a floor of our office building they were leasing from us.

Interest expense for the third quarter of 2012 was \$67,200 and included \$21,100 in administrative fees incurred relative to the sale of accounts receivable invoices to Summit. Interest expense for the third quarter of 2011 was \$59,200 and included \$17,300 in collateral management and/or administrative fees paid to Summit. The increase is due to higher borrowings under our line of credit with Summit to fund increased gross sales activity in the third quarter of 2012 compared to the same period in 2011.

Table of Contents**Liquidity and Capital Resources***Citywide Loan*

On June 28, 2006, we entered into a loan with a fifteen year amortization with Citywide Banks (the "Bank") for \$5,156,600 secured by the land, building and fixtures at our Denver, Colorado facilities. Interest on the bank loan is at the prime rate as published in The Wall Street Journal, adjusted annually each June. At September 30, 2012, this rate was 3.25%. The loan requires 180 monthly payments of approximately \$38,200 each. We believe, based upon both an income capitalization approach and a market value approach, that the real property assets securing the loan significantly exceed the principal amount outstanding under the loan agreement. Nevertheless, the loan agreement contains a number of covenants, including the requirement for us to maintain a current ratio through November 30, 2012 of at least 0.9:1.0 and thereafter of at least 1.0:1.0, and a ratio of consolidated long-term debt to consolidated net worth of not more than 1.0:1.0. These ratios are to be calculated in accordance with generally accepted accounting principles in the United States. We may not declare any dividends that would result in a violation of either of these covenants.

With regard to our current ratio, our loan agreement with the Bank was temporarily modified on August 10, 2012, to change our current ratio during the period from April 1, 2012 through November 30, 2012 to 0.9:1.0 from 1.0:1.0. We agreed to pay to the Bank a one-time modification fee of \$17,500. The modification was necessary because our current ratio decreased to below 1.0:1.0 during the second quarter of 2012. The modification enables us to remain in compliance with the terms of the loan agreement with respect to the ratio through such later date and avoid being deemed in default under the loan agreement through such date for failing to comply with the original current ratio requirement. As a result of the modification, we are in full compliance with all of the provisions of the loan agreement as of the date hereof, and, by virtue of the modification and our continued compliance expectations, we continue to classify our indebtedness as long-term in our consolidated financial statements.

Notwithstanding the foregoing, if we are unable to regain and maintain compliance with the required ratio by the expiration date of the modification, we would need to seek another modification or waiver from the Bank in order to maintain compliance with the loan agreement. If a modification or waiver were not then available on terms acceptable to us or at all, the Bank could declare a default under the loan agreement and take advantage of its available remedies thereunder, including increasing the applicable interest rate and accelerating the repayment of the loan. A default under this loan agreement would also result in a default under our financing arrangement with Summit, enabling it to accelerate our obligation to repay it under that arrangement. If our interest rates were to increase or our repayment obligations were to be accelerated under either the loan agreement with the Bank or the Summit arrangement, and if we were unable to refinance our indebtedness or replace it with other third party lenders at that time, our liquidity would be materially adversely affected.

Affirmative covenants in the loan agreement with the Bank include, among other things, compliance in all material respects with applicable laws and regulations and compliance with our agreements with other parties that materially affect our financial condition. Negative covenants in the loan agreement include, among other things, that without the consent of the Bank, we do not: (1) sell, lease or grant a security interest in our assets; (2) engage in any business activity substantially different than those in which we are presently engaged; (3) sell assets out of the ordinary course of business; or (4) purchase another entity or an interest in another entity.

Financing Agreements

Please see Note 1(f) to our Consolidated Financial Statements (Unaudited) for information on our financing agreements with Summit and Wells Fargo.

Table of Contents

Liquidity

At September 30, 2012, we had \$738,200 in cash and approximately \$284,000 of our credit line with Summit was available for future borrowing. Our net cash provided by operating activities in the first nine months of 2012 increased by \$14,300 to \$423,600 as compared to the first nine months of 2011. For the nine months ended September 30, 2012, the primary components of working capital that significantly affected operating cash flows are the following: (1) trade receivables net of proceeds on obligations collateralized by those receivables and inventory were \$220,900 less at September 30, 2012 than at December 31, 2011 due primarily to higher borrowings under our line of credit with Summit to fund increased sales activity during September 2012 than December 2011; (2) inventory at September 30, 2012 was \$109,900 less than at December 31, 2011 due primarily to timing differences in the receipt of our inventory; and (3) an operating loss for the first nine months of 2012 of \$911,700 due primarily to (a) an impairment to the carrying value of our Facilities as detailed above; (b) increases in trade promotions to our customers as detailed above; (c) increases in costs of sales as detailed above; and (d) increases in operating expenses as detailed above.

We anticipate that our existing cash and our cash flow from operations, together with our current borrowing arrangements with Summit and Wells Fargo, will be sufficient to meet our cash requirements for the next 12 months. We do not have any significant capital expenditures planned for 2012.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not Applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

As of September 30, 2012, we conducted an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of September 30, 2012.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting during the nine months ended September 30, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1A. RISK FACTORS.

In addition to the other information set forth in this Report, you should carefully consider the factors discussed in Item 1A, *Risk Factors* in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, and subsequent quarterly reports on Form 10-Q which could materially affect our business, financial condition or future results.
