### **LISTING RULES IMPLICATIONS**

As each of the applicable percentage ratios (other than the profits ratio) of the Annual Caps or the revised Annual Caps which are applicable to the transactions contemplated under the Internet Applications Channel Services Framework Agreement and the Property Leasing Framework Agreement, calculated on an annual basis, is expected to be above 0.1% but less than 5%, such continuing connected transactions will fall under Rule 14A.34 of the Listing Rules and are subject to the reporting, announcement and annual review requirements, but are exempt from the independent shareholders' approval requirement under Chapter 14A of the Listing Rules.

### **INTERNET APPLICATIONS CHANNEL SERVICES FRAMEWORK AGREEMENT**

The channel services mainly include the provision of telecommunications channel and applications support platform, provision of billing and deduction services, coordination of sales promotion and development of customers services, etc. The agreement will become effective from 1 January 2014 and will expire on 31 December 2015. No later than 30 days prior to the expiry of the Internet Applications Channel Services Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the agreement, and the parties shall consult and decide on matters relating to such renewal.

The charges payable for the services under the Internet Applications Channel Services Framework Agreement are calculated on the following basis:

- (1) the government-prescribed prices (if any);
- (2) where there are no government-prescribed prices but there are government-guided prices, the government-guided prices;

- (4) where none of the above is applicable, the prices are to be agreed between the parties based on the reasonable costs incurred in providing the services plus reasonable profit margin (for this purpose, reasonable costs means such costs as confirmed by both parties after negotiations).

Through the Internet Applications Channel Services Framework Agreement, the Company would enhance the use of its existing excellent channel resources to increase the Company's revenue generated from channel services. Meanwhile, the Company and China Telecommunications Corporation will co-operate closely with each other in Internet applications so as to provide more enriched Internet applications to the Company's customers, facilitating better development of the mobile business of the Company, in particular the mobile data business.

For the two years ending 31 December 2014 and 2015, the Annual Caps for the transactions contemplated under the Internet Applications Channel Services Framework Agreement shall be RMB800 million (equivalent to approximately HK\$1,030 million) and RMB1,500 million (equivalent to approximately HK\$1,920 million) respectively. The consideration under the agreement will be satisfied in cash and no payment will be made on a deferred basis. When determining the above Annual Caps under the Internet Applications Channel Services Framework Agreement, the Board has considered: (i) the nature of the transactions contemplated under the agreement; (ii) the rapid development of Internet applications in the future; and (iii) the existing business scale and operations of the Company together with the business plans for the two years ending on 31 December 2014 and 2015.

#### **REVISION OF ANNUAL CAPS UNDER THE PROPERTY LEASING FRAMEWORK AGREEMENT**

Reference is made to the announcement published by the Company dated 22 August 2012 including, among other things, the Property Leasing Framework Agreement between the Company and China Telecommunications Corporation and the continuing connected transactions contemplated thereunder and the applicable Annual Caps.

Pursuant to the Property Leasing Framework Agreement, the Group and China Telecommunications Corporation and/or its associates can lease properties from the other party for use as business premises, offices, equipment storage facilities and sites for network equipment. The rental charges under the Property Leasing Framework Agreement shall be determined according to market rates with reference to the standards set forth by local price authorities. The rental charges are subject to review every three years.

The Company and China Telecommunications Corporation have agreed on 22 August 2012 to renew the Property Leasing Framework Agreement in accordance with its provisions for a further term of three years expiring on 31 December 2015. No later than 30 days prior to the expiry of the Property Leasing Framework Agreement, the Company is entitled to serve a written notice to China Telecommunications Corporation to renew the agreement, and the parties shall consult and decide on matters relating to such renewal.

The Group and China Telecommunications Corporation and/or its associates lease properties held by each other in accordance with market rates to cater for the needs of mutual operational development. This can foster better business development of each other and achieve a win win situation.

For the two years ended 31 December 2011 and 2012, the amounts paid by the Group and China Telecommunications Corporation and/or its associates in relation to the mutual leasing of properties under the Property Leasing Framework Agreement were approximately RMB410 million (equivalent to approximately HK\$530 million) and RMB420 million (equivalent to approximately HK\$540 million) respectively. From 1 January 2013 to 30 June 2013, the amount paid by the Group and China Telecommunications Corporation and/or its associates in relation to the mutual leasing of properties under the Property Leasing Framework Agreement was approximately RMB300 million (equivalent to approximately HK\$380 million). Following the completion of the Company's acquisition of mobile network assets at the end of 2012, together with the rapid development of the Company's business, in particular the mobile services and information services, the demand for mutual leasing of properties by the Company and China Telecommunications Corporation and/or its associates continues to increase. Therefore, the Company has decided to increase the Annual Caps for the two years ending on 31 December 2014 and 2015 under the Property Leasing Framework Agreement from RMB850 million (equivalent to approximately HK\$1,090 million) and RMB900 million (equivalent to approximately HK\$1,150 million) to RMB1,100 million (equivalent to approximately HK\$1,410 million) and RMB1,300 million (equivalent to approximately HK\$1,670 million) respectively. All terms and conditions of the Property Leasing Framework Agreement shall remain unchanged and valid. When determining the above revised Annual Caps under the Property Leasing Framework Agreement, the Board has considered: (i) the historical amounts paid by the Group and China Telecommunications Corporation and/or its associates for the mutual leasing of properties for the year 2012 and for this year to the date hereof; (ii) the existing business scale and operations of the Company together with the business plans for the two years ending on 31 December 2014 and 2015; and (iii) the fluctuation of the market rates of the property rentals.

#### **BOARD OPINION**
