### **UNITED CONTINENTAL HOLDINGS, INC. AND UNITED AIRLINES, INC.**

#### **COMBINED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

United Continental Holdings, Inc. (together with its consolidated subsidiaries, UAL or the Company) is a holding company and its principal, wholly-owned subsidiary is United Airlines, Inc. (together with its consolidated subsidiaries, United). This Quarterly Report on Form 10-Q is a combined report of UAL and United, including their respective consolidated financial statements. As UAL consolidates United for financial statement purposes, disclosures that relate to activities of United also apply to UAL, unless otherwise noted. United's operating revenues and operating expenses comprise nearly 100% of UAL's revenues and operating expenses. In addition, United comprises approximately the entire balance of UAL's assets, liabilities and operating cash flows. When appropriate, UAL and United are named specifically for their individual contractual obligations and related disclosures and any significant differences between the operations and results of UAL and United are separately disclosed and explained. We sometimes use the words we, our, us, and the Company in this report for disclosures that relate to all of UAL and United.

The UAL and United unaudited condensed consolidated financial statements shown here have been prepared as required by the U.S. Securities and Exchange Commission (the SEC). Some information and footnote disclosures normally included in financial statements that comply with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted as permitted by the SEC. The financial statements include all adjustments, including normal recurring adjustments and other adjustments, which are considered necessary for a fair presentation of the Company's financial position and results of operations. The UAL and United financial statements should be read together with the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016. The Company's quarterly financial data is subject to seasonal fluctuations and historically its second and third quarter financial results, which reflect higher travel demand, are better than its first and fourth quarter financial results.

#### **NOTE 1 - RECENTLY ISSUED ACCOUNTING STANDARDS**

The Financial Accounting Standards Board (FASB) amended the FASB Accounting Standards Codification and created a new Topic 606, *Revenue from Contracts with Customers*. This amendment prescribes that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendment supersedes the revenue recognition requirements in Topic 605, *Revenue Recognition*, and most industry-specific guidance throughout the Industry Topics of the Accounting Standards Codification. The Company will use the full-retrospective approach in adopting this standard on January 1, 2018. Under the new standard, certain airline ancillary fees directly related to passenger revenue tickets, such as airline change fees and baggage fees, are likely to no longer be considered distinct performance obligations separate from the passenger travel component. In addition, the airline change fees which were previously recognized when received will likely be recognized when transportation is provided. The Company is evaluating other possible impacts from the new standard on its consolidated financial statements.

In February 2016, the FASB amended the FASB Accounting Standards Codification and created a new Topic 842, *Leases* (Topic 842). The guidance requires lessees to recognize a right-of-use asset and a lease liability for all leases (with the exception of short-term leases) at the commencement date and recognize expenses on their income statements similar to the current Topic 840, *Leases*. It is effective for fiscal years and interim periods beginning after December 15, 2018, and early adoption is permitted. Lessees and lessors are required to adopt Topic 842 using a modified retrospective approach for all leases existing at or commencing after the date of initial application with an option to use certain practical expedients. The Company is evaluating the impact the adoption of this standard will have on its consolidated financial statements and believes this standard will have a significant impact on its consolidated balance sheets.

In January 2016, the FASB issued Accounting Standards Update No. 2016-01, *Financial Instruments - Overall* (Subtopic 825-10) (ASU 2016-01). This standard makes several changes, including the elimination of the available-for-sale classification of equity investments, and requires equity investments with readily determinable fair values to be measured at fair value with changes in fair value recognized in net income. It is effective for interim and annual periods beginning after December 15, 2017. Based on its portfolio of investments as of March 31, 2017, the Company does not expect the adoption of ASU 2016-01 to have a material impact on its consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, *Improvements to Employee Share-Based Payment Accounting* (ASU 2016-09). The update requires excess tax benefits and tax deficiencies, which arise due to differences between the measure of compensation expense and the amount deductible for tax purposes, to be recorded directly through earnings as a component of income tax expense. Previously, these differences were generally recorded in additional paid-in capital and thus had no impact on net income. The change in treatment of excess tax benefits and tax deficiencies also impacts the computation of diluted

earnings per share, and the cash flows associated with those items are classified as operating activities on the condensed statements of consolidated cash flows. Additionally, ASU 2016-09 permits entities to make an accounting policy election for the impact of forfeitures on the recognition of expense for share-based payment awards. Forfeitures can be estimated, as allowed under previous standards, or recognized when they occur. The amendments in this update became effective in the first quarter of 2017. The Company adopted this standard on January 1, 2017 and the standard did not have a material impact on its consolidated financial statements.

In March 2017, the FASB issued Accounting Standards Update No. 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost* (ASU 2017-07). The update requires employers to present the service cost component of the net periodic benefit cost in the same income statement line item as other employee compensation costs arising from services rendered during the period. The other components of net benefit cost, including interest cost, expected return on plan assets, amortization of prior service cost/credit and actuarial gain/loss, and settlement and curtailment effects, are to be presented outside of any subtotal of operating income. Employers will have to disclose the line(s) used to present the other components of net periodic benefit cost, if the components are not presented separately in the income statement. ASU 2017-07 is effective for fiscal years and interim periods beginning after December 15, 2017, and early adoption is permitted. The Company does not expect the adoption of ASU 2017-07 to have a material impact on its consolidated financial statements.

**NOTE 4 - INCOME TAXES**

The Company's effective tax rate for the three months ended March 31, 2017 and 2016 was 33.8% and 36.6%, respectively, which represented a blend of federal, state and foreign taxes and included the impact of certain nondeductible items. The effective tax rate for the three months ended March 31, 2017 reflects the impact of discrete events including the recognition of excess tax benefits related to employee stock compensation as a result of the adoption of ASU 2016-09, as well as a change in the mix of domestic and foreign earnings.

**Table of Contents****NOTE 5 - EMPLOYEE BENEFIT PLANS**

**Defined Benefit Pension and Other Postretirement Benefit Plans.** The Company's net periodic benefit cost includes the following components (in millions):

	<b>Pension Benefits</b>		<b>Other Postretirement Benefits</b>	
	<b>Three Months Ended March 31,</b>		<b>Three Months Ended March 31,</b>	
	<b>2017</b>	<b>2016</b>	<b>2017</b>	<b>2016</b>

During the three months ended March 31, 2017, the Company contributed \$80 million to its U.S. domestic tax-qualified defined benefit pension plans.

**Share-Based Compensation.** During the three months ended March 31, 2017, UAL granted share-based compensation awards pursuant to the United Continental Holdings, Inc. 2008 Incentive Compensation Plan. These share-based compensation awards include approximately 1.4 million restricted stock units (RSUs). A majority of the RSUs vest pro-rata, on February 28th of each year, over a three year period from the date of grant. These time-vested RSUs are generally stock-settled for domestic employees and cash-settled for international employees. The cash payments are based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. The remainder of the RSUs are performance-based and vest based on the Company's relative improvement in pre-tax margin for the three years ending December 31, 2019. If this performance condition is achieved, cash payments will be made after the end of the performance period based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. The Company accounts for the performance-based RSUs as liability awards.

The table below presents information related to share-based compensation (in millions):

	<b>Three Months Ended March 31,</b>	
	<b>2017</b>	<b>2016</b>
Share-based compensation expense	\$ 23	\$ 10
Unrecognized share-based compensation	<b>March 31, 2017</b> \$ 127	<b>December 31, 2016</b> \$ 65

**Profit Sharing Plans.** Substantially all employees participate in profit sharing based on a percentage of pre-tax earnings, excluding special items, profit sharing expense and share-based compensation. Profit sharing percentages range from 5% to 20% depending on the work group, and in some cases profit sharing percentages vary above and below certain pre-tax margin thresholds. Eligible U.S. co-workers in each participating work group receive a profit sharing payout using a formula based on the ratio of each qualified co-worker's annual eligible earnings to the eligible earnings of all qualified co-workers in all domestic work groups. Eligible non-U.S. co-workers receive profit sharing based on the calculation under the U.S. profit sharing plan for management and administrative employees. Profit sharing expense is recorded as a component of Salaries and related costs in the Company's statements of consolidated operations.

**Available-for-sale investment maturities** - The short-term investments shown in the table above are classified as available-for-sale. As of March 31, 2017, asset-backed securities have remaining maturities of less than one year to approximately 19 years, corporate debt securities have remaining maturities of less than one year to approximately five years and CDARS have maturities of less than one year. U.S. government and other securities have maturities of less than one year to approximately three years. The EETC securities mature in 2019.

**Restricted Cash** - Restricted cash primarily includes cash collateral associated with workers' compensation obligations and collateral for letters of credit.

Investments presented in the table above have the same fair value as their carrying value. The table below presents the carrying values and estimated fair values of financial instruments not presented in the tables above (in millions):

	Carrying Amount	Fair Value of Debt by Fair Value Hierarchy Level								
		March 31, 2017				December 31, 2016

**Table of Contents**

Fair value of the financial instruments included in the tables above was determined as follows:

<b>Description</b>	<b>Fair Value Methodology</b>
<i>Cash and cash equivalents</i>	The carrying amounts approximate fair value because of the short-term maturity of these assets.
<i>Short-term investments and</i>	Fair value is based on (a) the trading prices of the investment or similar instruments, (b) an income approach, which uses valuation techniques to convert future amounts into a single present amount based on current market expectations about those future amounts when observable trading prices are not available, or (c) broker quotes obtained by third-party valuation services.
<i>Restricted cash</i>	
<i>Debt</i>	Fair values were based on either market prices or the discounted amount of future cash flows using our current incremental rate of borrowing for similar liabilities.
<i>Other investments measured at NAV</i>	In accordance with the relevant accounting standards, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position. The investments measured using NAV are shares of mutual funds that invest in fixed-income instruments including bonds, debt securities, and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities. The Company can redeem its shares at any time at NAV subject to a three-day settlement period.

**NOTE 7 - HEDGING ACTIVITIES*****Fuel Derivatives***

As of March 31, 2017, the Company did not have any fuel hedging contracts outstanding to hedge its fuel consumption. The last of the Company's fuel hedge derivatives designated for cash flow hedge accounting expired in December 2016. The Company's current strategy is to not enter into transactions to hedge its fuel consumption, although the Company regularly reviews its strategy based on market conditions and other factors.

The following table presents the impact of derivative instruments and their location within the Company's unaudited statements of consolidated operations (in millions):

**Derivatives designated as cash flow hedges**

**Table of Contents****NOTE 8 - COMMITMENTS AND CONTINGENCIES**

**Commitments.** As of March 31, 2017, United had firm commitments and options to purchase aircraft from The Boeing Company ( Boeing ), Airbus S.A.S. ( Airbus ), and Embraer S.A. ( Embraer ) presented in the table below:

<b>Aircraft Type</b>	<b>Number of Firm Commitments (a)</b>
Airbus A350	35
Boeing 737NG/737 MAX	165
Boeing 777-300ER	6
Boeing 787	19
Embraer E175	24

(a) United also has options and purchase rights for additional aircraft.

The aircraft listed in the table above are scheduled for delivery through 2027. To the extent the Company and the aircraft manufacturers with whom the Company has existing orders for new aircraft agree to modify the contracts governing those orders, the amount and timing of the Company's future capital commitments could change. For the remainder of 2017, United expects to take delivery of four Boeing 737NG aircraft, one Boeing 787-9 aircraft, six Boeing 777-300ER aircraft, and 24 Embraer E175. Additionally, the Company also currently expects to take delivery of five used Airbus A319s in 2017. During the three months ended March 31, 2017, the Company also purchased 12 Boeing 737NG aircraft which were previously leased by United.

The table below summarizes United's commitments as of March 31, 2017, which primarily relate to the acquisition of aircraft and related spare engines, aircraft improvements and include other capital purchase commitments. Any new firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

As of March 31, 2017, United had \$555 million in financing available through EETC transactions for the financing of all of its aircraft deliveries scheduled for the first half of 2017. See Note 9 of this report for additional information on aircraft financing. The Company has also secured backstop financing commitments from certain of its aircraft manufacturers for a limited number of its future aircraft deliveries, subject to certain customary conditions. Financing may be necessary to satisfy the Company's capital commitments for its firm order aircraft and other related capital expenditures.

**Regional CPAs.** In February 2017, United entered into a five-year capacity purchase agreement ( CPA ) with Air Wisconsin Airlines for regional service under the United Express brand commencing no later than February 2018. Air Wisconsin will operate no less than 50 and up to 65 CRJ 200s.

The table below summarizes the Company's future payments through the end of the terms of our CPAs, excluding variable pass-through costs such as fuel and landing fees, among others.

**Guarantees.** As of March 31, 2017, United is the guarantor of approximately \$1.9 billion in aggregate principal amount of tax-exempt special facilities revenue bonds and interest thereon. These bonds, issued by various airport municipalities, are payable solely from rentals paid under long-term agreements with the respective governing bodies. The leasing arrangements associated with \$1.4 billion of these obligations are accounted for as operating leases with the associated expense recorded on a straight-line basis resulting in ratable accrual of the lease obligation over the expected lease term. The leasing arrangements associated with approximately \$421 million of these obligations are accounted for as capital leases. All of these bonds are due between 2017 and 2038.

In the Company's financing transactions that include loans, the Company typically agrees to reimburse lenders for any reduced returns with respect to the loans due to any change in capital requirements and, in the case of loans in which the interest rate is based on the London Interbank Offered Rate (LIBOR), for certain other increased costs that the lenders incur in carrying these loans as a result of any change in law, subject, in most cases, to obligations of the lenders to take certain limited steps to mitigate the requirement for, or the amount of, such increased costs. At March 31, 2017, the Company had \$3.0 billion of floating rate debt and \$83 million of fixed rate debt, with remaining terms of up to 12 years, that are subject to these increased cost provisions. In several financing transactions involving loans or leases from non-U.S. entities, with remaining terms of up to 12 years and an aggregate balance of \$3.0 billion, the Company bears the risk of any change in tax laws that would subject loan or lease payments thereunder to non-U.S. entities to withholding taxes, subject to customary exclusions.

As of March 31, 2017, United is the guarantor of \$166 million of aircraft mortgage debt issued by one of United's regional carriers. The aircraft mortgage debt is subject to similar increased cost provisions as described above for the Company's debt and the Company would potentially be responsible for those costs under the guarantees.

**Labor Negotiations.** As of March 31, 2017, United had approximately 88,400 active employees, of whom approximately 80% were represented by various U.S. labor organizations.

**NOTE 9 - DEBT**

As of March 31, 2017, a substantial portion of the Company's assets, principally aircraft, route authorities, airport slots and loyalty program intangible assets, was pledged under various loan and other agreements. As of March 31, 2017, UAL and United were in compliance with their debt covenants.

**2017 Credit and Guaranty Agreement.** On March 29, 2017, United and UAL, as borrower and guarantor, respectively, entered into an Amended and Restated Credit and Guaranty Agreement (the 2017 Credit Agreement). The 2017 Credit Agreement consists of a \$1.5 billion term loan due April 1, 2024, which (i) was used to retire the entire principal balance of the term loans under the credit and guaranty agreement, dated March 27, 2013 (as amended, the 2013 Credit Agreement), and (ii) increased the term loan balance by approximately \$440 million, and a \$2.0 billion revolving credit facility available for drawing until April 1, 2022, which increased the available capacity under the revolving credit facility of the 2013 Credit Agreement. As of March 31, 2017, United had its entire capacity of \$2.0 billion available under the revolving credit facility. The obligations of United under the 2017 Credit Agreement are secured by liens on certain international route authorities, certain take-off and landing rights and related assets of United.

Borrowings under the 2017 Credit Agreement bear interest at a variable rate equal to LIBOR, subject to a 0% floor, plus a margin of 2.25% per annum, or another rate based on certain market interest rates, plus a margin of 1.25% per annum. The principal amount of the term loan must be repaid in consecutive quarterly installments of 0.25% of the original principal amount thereof, commencing on June 30, 2017, with any unpaid balance due on April 1, 2024. United may prepay all or a portion of the loan from time to time, at par plus accrued and unpaid interest. United pays a commitment fee equal to 0.75% per annum on the undrawn amount available under the revolving credit facility.

**Table of Contents**

The 2017 Credit Agreement includes covenants that, among other things, require the Company to maintain at least \$2.0 billion of unrestricted liquidity and a minimum ratio of appraised value of collateral to the outstanding obligations under the Credit Agreement of 1.60 to 1.0. The 2017 Credit Agreement contains events of default customary for this type of financing, including a cross default and cross acceleration provision to certain other material indebtedness of the Company. Under the provisions of the 2017 Credit Agreement, UAL's ability to make investments and to pay dividends on, or repurchase, UAL's common stock is restricted.

**EETCs.** In September 2016 and June 2016, United created EETC pass-through trusts, each of which issued pass-through certificates. The proceeds of the issuance of the pass-through certificates are used to purchase equipment notes issued by United and secured by its aircraft. The Company records the debt obligation upon issuance of the equipment notes rather than upon the initial issuance of the pass-through certificates. The pass-through certificates represent fractional undivided interests in the respective pass-through trusts and are not obligations of United. The payment obligations under the equipment notes are those of United. Proceeds received from the sale of pass-through certificates are initially held by a depository in escrow for the benefit of the certificate holders until United issues equipment notes to the trust, which purchases such notes with a portion of the escrowed funds. These escrowed funds are not guaranteed by United and are not reported as debt on our consolidated balance sheet because the proceeds held by the depository are not United's assets. Certain details of the pass-through trusts with proceeds received from issuance of debt in 2017 are as follows (in millions, except stated interest rate):

EETC Date	Class	Principal	Final expected distribution date	Stated interest rate	Total debt recorded as of March 31, 2017	Proceeds received from issuance of debt during 2017	Remaining proceeds from issuance of debt to be received in future periods
September 2016	AA	\$ 637	October 2028	2.875%	\$ 253	\$ 173	\$ 384
September 2016	A	283	October 2028	3.10%	112	76	171

		\$ 1,973			\$ 1,418	\$ 710	\$ 555

**5% Senior Notes due 2024.** In January 2017, United issued \$300 million aggregate principal amount of 5% Senior Notes due February 1, 2024 (the "5% Senior Notes due 2024"). These notes are fully and unconditionally guaranteed and recorded by United on its balance sheet as debt. The indenture for the 5% Senior Notes due 2024 requires UAL to offer to repurchase the notes for cash at a purchase price equal to 101% of the principal amount of notes repurchased plus accrued and unpaid interest if certain changes of control of UAL occur.

The table below presents the Company's contractual principal payments at March 31, 2017 under then-outstanding long-term debt agreements in each of the next five calendar years (in millions):

This liability was measured and recorded at its fair value when the Company ceased its right to use such facilities leased to it pursuant to the lease. The Company recorded a net charge of \$74 million (\$47 million net of taxes) related to the amended lease.

During the three months ended March 31, 2017 and 2016, the Company recorded gains and losses on sale of assets and other special charges of \$14 million (\$9 million net of taxes) and \$8 million (\$5 million net of taxes) respectively.

#### **Outlook**

## Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

The Company expects full-year 2017 consolidated capacity to increase between 2.5% and 3.5% year-over-year. Domestic capacity is expected to increase between 3.5% and 4.5% year-over-year and international capacity is expected to increase between 1.0% and 2.0% year-over-year.

## Table of Contents

As outlined at our November 2016 Investor Day presentation, the Company expects to drive significant incremental value by 2020 relative to 2015. United anticipates capturing this value through a variety of initiatives including a re-fleeting and upgauge program, additional customer choice through segmentation, improvements to the revenue management systems, ongoing sensible cost management, realizing our full network potential through improved schedule quality and enhancements to the MileagePlus program. In addition, the Company will continue to focus on improving reliability while increasing the efficiency of the operation.

The price of jet fuel remains volatile. Based on projected fuel consumption in 2017, a one dollar change in the price of a barrel of crude oil would change the Company's annual fuel expense by approximately \$95 million.

Salaries and related costs increased \$171 million, or 6.9%, in the first quarter of 2017 as compared to the year-ago period primarily due to higher pay rates and benefit expenses driven by new and extended collective bargaining agreements, and a 3.3% increase in average full-time equivalent employees, partially offset by a decrease in profit sharing expense and other employee incentive programs expense.

**Table of Contents**

Aircraft fuel expense increased \$342 million, or 28.1%, year-over-year primarily due to a 24.8% increase in the average price per gallon of aircraft fuel in the first quarter of 2017 compared to the year-ago period. The table below presents the significant changes in aircraft fuel cost per gallon in the three month period ended March 31, 2017 as compared to the year-ago period:

Depreciation and amortization increased \$39 million, or 8.1%, in the first quarter of 2017 as compared to the year-ago period, primarily due to additions of new aircraft, aircraft improvements, accelerated depreciation of assets related to certain fleet types and increases in information technology assets.

Aircraft maintenance materials and outside repairs increased \$52 million, or 12.9%, in the first quarter of 2017 as compared to the year-ago period, primarily due to an increase in airframe maintenance visits.

Other operating expenses increased \$93 million, or 7.5%, in the first quarter of 2017 as compared to the year-ago period primarily due to increases in food and other amenities associated with the Company's customer experience initiatives and increases in other purchased services and technology initiatives' contractor costs.

### **LIQUIDITY AND CAPITAL RESOURCES**

#### ***Current Liquidity***

As of March 31, 2017 and at December 31, 2016, the Company had \$4.4 billion in unrestricted cash, cash equivalents and short-term investments. At March 31, 2017, the Company also had \$129 million of restricted cash and cash equivalents, which is primarily collateral for letters of credit and estimated future workers' compensation claims. As of March 31, 2017, the Company had its entire commitment capacity of \$2 billion under the revolving credit facility of the Company's Amended and Restated Credit and Guaranty Agreement, dated as of March 29, 2017 (the "2017 Credit Agreement") available for borrowings.

## Table of Contents

As is the case with many of our principal competitors, we have a high proportion of debt compared to capital and a deficit in working capital. We have a significant amount of fixed obligations, including debt, aircraft leases and financings, leases of airport property and other facilities, and pension funding obligations. At March 31, 2017, the Company had approximately \$12.8 billion of debt and capital lease obligations, including \$829 million that will become due in the next 12 months. In addition, we have substantial noncancelable commitments for capital expenditures, including the acquisition of new aircraft and related spare engines. As of March 31, 2017, our current liabilities exceeded our current assets by approximately \$5 billion. However, approximately \$7 billion of our current liabilities are related to our advance ticket sales and frequent flyer deferred revenue, both of which largely represent revenue to be recognized for travel in the near future and not actual cash outlays. The deficit in working capital does not have an adverse impact to our cash flows, liquidity or operations.

As of March 31, 2017, United had firm commitments and options to purchase aircraft from The Boeing Company ( Boeing ), Airbus S.A.S. ( Airbus ) and Embraer S.A. ( Embraer ) presented in the table below:

Aircraft Type	Number of Firm Commitments (a)
Airbus A350	35
Boeing 737NG/737 MAX	165
Boeing 777-300ER	6
Boeing 787	19
Embraer E175	24

(a) United also has options and purchase rights for additional aircraft.

The aircraft listed in the table above are scheduled for delivery through 2027. To the extent the Company and the aircraft manufacturers with whom the Company has existing orders for new aircraft agree to modify the contracts governing those orders, the amount and timing of the Company's future capital commitments could change. For the remainder of 2017, United expects to take delivery of four Boeing 737NG aircraft, one Boeing 787-9 aircraft, six Boeing 777-300ER aircraft, and 24 Embraer E175. Additionally, the Company also currently expects to take delivery of five used A319s in 2017. During the three months ended March 31, 2017, the Company also purchased 12 Boeing 737NG aircraft which were previously leased by United.

As of March 31, 2017, UAL and United have total capital commitments primarily related to the acquisition of aircraft and related spare engines, aircraft improvements and include other capital purchase commitments for approximately \$23.2 billion, of which approximately \$2.9 billion, \$2.8 billion, \$3.5 billion, \$3.1 billion, \$2.2 billion and \$8.7 billion are due in the last nine months of 2017 and for the full year for 2018, 2019, 2020, 2021 and thereafter, respectively. Any new firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

As of March 31, 2017, United has \$0.6 billion in financing available through enhanced equipment trust certificates ( EETC ) transactions for the financing of all of its aircraft deliveries scheduled for the first half of 2017. See Note 9 to the financial statements included in Part I, Item 1 of this report for additional information on aircraft financing. The Company has also secured backstop financing commitments from certain of its aircraft manufacturers for a limited number of its future aircraft deliveries, subject to certain customary conditions. Financing may be necessary to satisfy the Company's capital commitments for its firm order aircraft and other related capital expenditures.

As of March 31, 2017, a substantial portion of the Company's assets, principally aircraft, route authorities, airport slots and loyalty program intangible assets, was pledged under various loan and other agreements. We must sustain our profitability and/or access the capital markets to meet our significant long-term debt and capital lease obligations and future commitments for capital expenditures, including the acquisition of aircraft and related spare engines.

**Credit Ratings.** As of the filing date of this report, UAL and United had the following corporate credit ratings:

	S&P	Moody's	Fitch
UAL	BB-	Ba2	BB
United	BB-	*	BB

\* The credit agency does not issue corporate credit ratings for subsidiary entities.

## **Table of Contents**

These credit ratings are below investment grade levels. Downgrades from these rating levels, among other things, could restrict the availability or increase the cost of future financing for the Company.

### ***Sources and Uses of Cash***

**Operating Activities.** Cash flow provided by operations was \$0.5 billion for the three months ended March 31, 2017 compared to \$1.2 billion in the same period in 2016. Operating income for the first three months of 2017 decreased approximately \$0.4 billion versus the year-ago period. Changes in working capital items included an approximately \$0.2 billion decrease in advanced purchase of miles due to increased utilization of pre-purchased miles.

**Investing Activities.** Capital expenditures were \$0.7 billion and \$0.8 billion in the three months ended March 31, 2017 and 2016, respectively. Capital expenditures for the three months ended March 31, 2017 were primarily attributable to the purchase of aircraft, facility and fleet-related costs.

**Financing Activities.** During the three months ended March 31, 2017, the Company made debt and capital lease payments of \$0.3 billion.

On March 29, 2017, United and UAL, as borrower and guarantor, respectively, entered into the 2017 Credit Agreement. The 2017 Credit Agreement consists of a \$1.5 billion term loan due April 1, 2024, which (i) was used to retire the entire principal balance of the term loans under the credit and guaranty agreement, dated March 27, 2013 (as amended, the 2013 Credit Agreement), and (ii) increased the term loan balance by approximately \$440 million, and a \$2.0 billion revolving credit facility available for drawing until April 1, 2022, which increased the available capacity under the revolving credit facility of the 2013 Credit Agreement. As of March 31, 2017, United had its entire capacity of \$2.0 billion available under the revolving credit facility. The obligations of United under the 2017 Credit Agreement are secured by liens on certain international route authorities, certain take-off and landing rights and related assets of United.

Borrowings under the 2017 Credit Agreement bear interest at a variable rate equal to the London Interbank Offered Rate (LIBOR), subject to a 0% floor, plus a margin of 2.25% per annum, or another rate based on certain market interest rates, plus a margin of 1.25% per annum. The principal amount of the term loan must be repaid in consecutive quarterly installments of 0.25% of the original principal amount thereof, commencing on June 30, 2017, with any unpaid balance due on April 1, 2024. United may prepay all or a portion of the loan from time to time, at par plus accrued and unpaid interest. United pays a commitment fee equal to 0.75% per annum on the undrawn amount available under the revolving credit facility.

The 2017 Credit Agreement includes covenants that, among other things, require the Company to maintain at least \$2.0 billion of unrestricted liquidity and a minimum ratio of appraised value of collateral to the outstanding obligations under the Credit Agreement of 1.60 to 1.0. The 2017 Credit Agreement contains events of default customary for this type of financing, including a cross default and cross acceleration provision to certain other material indebtedness of the Company. Under the provisions of the 2017 Credit Agreement, UAL's ability to make investments and to pay dividends on, or repurchase, UAL's common stock is restricted.

In the three months ended March 31, 2017, United received and recorded \$710 million of proceeds as debt from the two EETC pass-through trusts established in 2016. United expects to receive all proceeds from the pass-through trusts by the end of the second quarter of 2017. See Note 9 to the financial statements included in Part I, Item 1 of this report for additional information.

In the three months ended March 31, 2017, United received and recorded \$300 million proceeds of the 5% Senior Notes.

**Share Repurchase Programs.** In the three months ended March 31, 2017, UAL repurchased approximately 5 million shares of UAL common stock in open market transactions, for \$0.3 billion. As of March 31, 2017, the Company had approximately \$1.5 billion remaining to purchase shares under its existing share repurchase authority.

UAL may repurchase shares through the open market, privately negotiated transactions, block trades or accelerated share repurchase transactions from time to time in accordance with applicable securities laws. UAL will repurchase shares of UAL common stock subject to prevailing market conditions, and may discontinue such repurchases at any time. See Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds of this report for additional information.

**Commitments, Contingencies and Liquidity Matters.** As described in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 (2016 Annual Report), the Company's liquidity may be adversely impacted by a variety of factors, including, but not limited to, pension funding obligations, reserve requirements associated with credit card processing agreements, guarantees, commitments and contingencies.
