Copies of the code of business conduct and ethics and our corporate governance guidelines are posted on the Corporate Governance section of our website, which is located at www.agtc.com. If we make any substantive amendments to, or grant any waivers from, the code of business conduct and ethics for any officer or director, we will disclose the nature of such amendment or waiver on our website.

Section 16(a) Beneficial Ownership Reporting Compliance

These directors, executive officers and ten-percent stockholders are also required to furnish us with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such forms received by us, and on written representations from certain reporting persons, we believe that during fiscal year 2017 our directors, executive officers and ten-percent stockholders complied with all applicable Section 16(a) filing requirements, except that Mr. Potter filed a late Form 4 with respect to open market purchases of our common stock on September 16, 2016 and September 20, 2016.

ITEM 11. EXECUTIVE COMPENSATION

Executive Summary

The compensation of our executive officers is determined by the compensation committee of our Board of Directors, and discussed by the committee throughout the year. Our formal annual compensation review process generally takes place during the first quarter of each fiscal year, after the results of the previous fiscal year are known. Annual variable compensation and discretionary cash bonuses for the completed fiscal year, if any, and long-term equity-based incentive compensation, if any, are awarded by the committee on a discretionary basis, generally during the first fiscal quarter, after a review of the previous fiscal year's results.

Our compensation committee is comprised entirely of non-employee Directors, each of whom our Board of Directors has determined is independent within the meaning of the rules of The NASDAQ Stock Market. The members of the

Table of Contents

compensation committee have substantial managerial experience and wide contacts in the biotechnology and biopharmaceutical industries and in the broader healthcare industry, upon which they rely in making their determinations. The committee also takes into account publicly available information concerning the compensation practices of other companies in the biotechnology industry. This information is used by the committee informally and primarily for purposes of comparison to ascertain whether our compensation practices for our executive officers are broadly competitive.

Our Chief Executive Officer makes recommendations with regard to the compensation of our executive officers other than herself, which are reviewed by the compensation committee. Executive officers do not participate in the process of establishing their own annual compensation.

The committee does not have a formal benchmarking policy or a practice of establishing the amount of any element of our executive officers' compensation by reference to a fixed range of percentages or percentiles of the compensation of any peer or comparison group. As a result, the determinations made by the members of our compensation committee are guided to a significant degree by their collective judgment and experience. During fiscal year 2017, the committee retained a compensation consultant, Aon Consulting's Radford Surveys + Consulting, or Radford, to assist the committee in assessing the form and amount of compensation paid to our executives.

Our compensation committee has reviewed our compensation programs and believes that our compensation programs have not encouraged or rewarded excessive or inappropriate risk taking.

Table of Contents**Narrative Disclosure to Summary Compensation Table**

We review compensation annually for all of our employees, including our executives. In setting executive base salaries and bonuses and granting equity incentive awards, we consider compensation for comparable positions in the market, the historical compensation levels of our executives, individual performance as compared to our expectations and objectives, our desire to motivate our employees to achieve short- and long-term results that are in the best interests of our stockholders, and a long-term commitment to our company. We do not target a specific competitive position or a specific mix of compensation among base salary, bonus or long-term incentives.

Our compensation committee reviews and discusses management's proposed compensation with the chief executive officer for all executives other than our chief executive officer. Based on those discussions and its discretion, the compensation committee then determines the compensation and benefits of our executive officers.

In fiscal year 2017, our compensation committee engaged Radford to assist us with the identification of an appropriate peer group of companies for purposes of benchmarking the competitiveness of our executive compensation. Our compensation committee will evaluate the need for revisions to our executive compensation program to ensure that our program is competitive with the companies with which we compete for executive talent and that it is appropriate for a public company.

Employment Agreements, Severance and Change in Control Arrangements

Agreements with Ms. Washer and Dr. Chulay

On September 26, 2014, we entered into an employment agreement with Ms. Washer. Under the terms of her employment agreement, if we terminate Ms. Washer's employment without cause or if she terminates her employment with us for good reason prior to a change of control or during the 12-month period following a change of control, in each case as those terms are defined in her employment agreement, she will be entitled to receive severance benefits, payable in a single lump sum, as follows:

An amount equal to the sum of (a) her then current annual base salary and (b) the product of her target bonus in effect immediately prior to the date of termination multiplied by a fraction equal to the quotient of (i) the number of days elapsed as of the termination date during the year in which the termination occurs divided by (ii) 365.

She will also be entitled to continue to participate in our benefits plans for a period of up to 12 months following the effective date of the termination of her employment on substantially the same terms as were in effect immediately prior to her termination.

In addition, if Ms. Washer's employment is terminated by us without cause or by Ms. Washer during the 12 months following a change of control for good reason, all unvested equity awards previously granted to her will become fully vested as of the date of the termination of her employment.

In the event Ms. Washer terminates her employment for good reason other than during the 12-month period following a change of control, each unvested equity award previously granted to her will immediately vest with respect to 50% of the shares that are unvested as of the effective date of the termination of her employment.

To the extent that the vesting of any unvested awards held by Ms. Washer at the time of the termination of her employment is contingent upon the attainment of any corporate or market performance condition that has not been satisfied as of that date, the condition will be deemed to have been satisfied as of the date of termination

at the 100% level, in the case of a termination by us without cause or by Ms. Washer during the 12 months following a change of control for good reason, or

the 50% level, in the case of a termination by Ms. Washer for good reason other than during the 12 months following a change of control for good reason.

On September 26, 2014, we also entered into an employment agreement with Dr. Chulay. Under the terms of his employment agreement, if we terminate Dr. Chulay's employment without cause or if Dr. Chulay terminates his employment for with us for good reason during the 12-month period following a change of control, in each case as those terms are defined in his employment agreement, he will be entitled to receive severance benefits, payable in a single lump sum, as follows:

An amount equal to the sum of (a) 75% of his then current annual base salary and (b) the product of his target bonus in effect immediately prior to the date of termination multiplied by a fraction equal to the quotient of (i) the number of days elapsed as of the termination date during the year in which the termination occurs divided by (ii) 365.

He will also be entitled to continue to participate in our benefits plans for a period of up to nine months following the effective date of such a termination of his employment on substantially the same terms as were in effect immediately prior to his termination.

In addition, if Dr. Chulay's employment is terminated during the 12 months following a change of control by us without cause or by Dr. Chulay for good reason, all unvested equity awards previously granted to Dr. Chulay will become fully vested as of the date of such a termination of his employment.

In the event we terminate Dr. Chulay's employment without cause at any time other than during the 12-month period following a change of control, each unvested equity award previously granted to Dr. Chulay will immediately vest with respect to 50% of the shares that are unvested as of the effective date of the termination of his employment.

To the extent that the vesting of any unvested awards held by Dr. Chulay at the time of the termination of his employment is contingent upon the attainment of any corporate or market performance condition that has not been satisfied as of that date, the condition will be deemed to have been satisfied as of the date of termination

Agreements with Dr. Shearman and Mr. Potter

We entered into offer letters with each of Dr. Shearman and Mr. Potter in connection with their employment by us. Pursuant to the terms of the offer letters, under certain circumstances, we may be required to make severance payments to Dr. Shearman and Mr. Potter following a termination of their respective employment by us. If, at any time following the date that is six months following the start of his respective employment with us, either of Dr. Shearman's or Mr. Potter's employment by us is terminated (i) by us without cause or (ii) by either of Dr. Shearman or Mr. Potter, as applicable, following a sale of all or substantially all of our stock or assets, whether by merger, acquisition or otherwise, in which he is not offered a position with the successor entity with substantially equivalent responsibilities and with total compensation, benefits and severance rights at least equivalent to those he received from us immediately prior to such event, which we refer to as a change of control termination, the affected individual will receive:

in the case of Dr. Shearman,

an amount equal to six-months of his then-current base salary and earned bonus, if the termination occurs prior to the first anniversary of the commencement of his employment, or

an amount equal to nine-months of his then-current base salary and earned bonus, if the termination occurs on or after the first anniversary of the commencement of his employment; and

if the termination is a change of control termination, all of Dr. Shearman's outstanding unvested options will immediately vest and become exercisable; or

in the case of Mr. Potter, an amount equal to six-months of his then-current base salary.

Agreement with Mr. Bullock

We also entered into an offer letter with Mr. Bullock in connection with his employment as our Chief Financial Officer. However, Mr. Bullock retired as our Chief Financial Officer effective as of August 7, 2017 pursuant to the terms of a separation agreement. The terms of the separation agreement are described in more detail in a current report on Form 8-K filed with the Commission on August 2, 2017. Though no longer applicable, prior to his retirement, pursuant to the terms of his offer letter, under certain circumstances we would have been required to make severance payments to Mr. Bullock following a termination of his employment by us. If, at any time following the date that was six months following the start of his employment with us, Mr. Bullock was terminated (i) by us without cause or (ii) by him following a sale of all or substantially all of our stock or assets, whether by merger, acquisition or otherwise, in which he was not offered a position with the successor entity with substantially equivalent responsibilities and with total compensation, benefits and severance rights at least equivalent to those he received from us immediately prior to such event, which we refer to as a change of control termination, he would have been entitled to receive:

an amount equal to six-months of his then-current base salary and earned bonus, if the termination occurred prior to the first anniversary of the commencement of his employment, or

Table of Contents

an amount equal to nine-months of his then-current base salary and earned bonus, if the termination occurred on or after the first anniversary of the commencement of his employment, or

an amount equal to twelve months of base salary and bonus, if the termination was a result of a change in control of AGTC and Mr. Bullock was not offered the position of chief financial officer of the acquiring company.

Additionally, in the event there was a change of control of AGTC and Mr. Bullock was not offered the position of chief financial officer of the acquiring company, then all of his then-outstanding options would have vested in full upon the change of control and remained exercisable until the earlier of the second anniversary of the change of control and their scheduled expiration.

The following table provides information regarding the estimated amounts payable to our named executive officers upon the occurrence of the triggering events described, in each case assuming that the trigger event occurred on June 30, 2017 (including for Mr. Bullock, notwithstanding his retirement on August 7, 2017 as described above), the last day of our most recently completed fiscal year, assuming that their employment agreements had been in effect as of that date. The amounts shown as payable upon the triggering events described do not include amounts earned by the individual and accrued before the occurrence of the triggering event but payable after the triggering event, such as accrued and unpaid salary or the value of accrued but unused paid-time-off.

We have adopted a written related-person transactions policy that sets forth our policies and procedures regarding the identification, review, consideration, approval and oversight of related-person transactions. For purposes of our policy only, a related-person transaction is a past, present or future transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we and any related person are participants involving an amount that exceeds \$120,000.

Transactions involving compensation for services provided to us by an employee, consultant or director are not considered related-person transactions under this policy. A related person, as determined since the beginning of our last fiscal year, is any executive officer, director or a holder of more than five percent of our common stock, including any of their immediate family members and any entity owned or controlled by such persons.

The policy imposes an affirmative duty upon each director and executive officer to identify any transaction involving them, their affiliates or immediate family members that may be considered a related party transaction before such person engages in the transaction. Under the policy, where a transaction has been identified as a related-person transaction, management must present information regarding the proposed related-person transaction to our audit committee (or, where review by our audit committee would be inappropriate, to another independent body of our board of directors) for review. The presentation must include a description of, among other things, the material facts, the direct and indirect interests of the related persons, the benefits of the transaction to us and whether any alternative transactions are available.

Our audit committee is responsible for reviewing and approving in advance any related-person transactions. In determining whether to approve a related-person transaction, the audit committee will take into account, among other factors it deems appropriate, whether the related-person transaction is on terms no less favorable than terms generally available to an unaffiliated third-person under the same or similar circumstances and the extent of the related person's interest in the transaction.

Agreements with Our Stockholders

Biogen Collaboration and License Agreement

On July 1, 2015, we entered into a Collaboration and License Agreement, which we refer to as the collaboration agreement, with Biogen MA Inc., a wholly owned subsidiary of Biogen Inc. (Biogen), pursuant to which we and Biogen agreed to collaborate to develop, seek regulatory approval for and commercialize gene therapy products to treat X-linked juvenile retinoschisis (XLRS), X-linked retinitis pigmentosa (XLRP) and discovery programs targeting three indications based on our adeno-associated virus vector technologies. The collaboration agreement became effective in August 2015.

Under the collaboration agreement, we will be eligible to receive upfront payments, option exercise fees and milestone payments aggregating over \$1 billion, including an upfront license fee of \$94.0 million which we received on August 19, 2015 and a portion of which was allocated to fund our costs incurred in connection with budgeted research and development activities for the XLRS and XLRP programs as well as the discovery programs. During fiscal year 2017, we also earned and received a \$5.0 million milestone payment from Biogen for the XLRS program and we recorded other revenue of \$1,052,000, primarily comprised of reimbursable costs for post-funding development activities that we conducted pursuant to the terms of this collaboration agreement with Biogen. In the

event that Biogen exercises its option to obtain an exclusive commercial license for one or more discovery products that are designated as clinical candidates, we are eligible to receive an option exercise fee for each drug candidate. In addition, we are eligible to receive development milestone payments upon the achievement of specified regulatory, clinical development and commercialization milestones of up to \$472.5 million collectively for the two lead programs and, together with option exercise fees, up to \$592.5 million across the discovery programs. Biogen also has the right to substitute up to two discovery programs, with a limited ability to reinstate such substituted programs within six months. In the event Biogen elects to reinstate such substituted programs, we are eligible to receive additional option exercise fees and potential development, regulatory and sales milestone payments.

Budgeted development expenses for the programs are funded by Biogen through an allocation of the upfront license fee described below, subject to cost sharing for budget overruns and additional clinical trials that may be required prior to a pivotal trial for each of the XLRS and XLRP programs. During our development of the XLRS and XLRP products, Biogen retains the right to step in and take over the remaining development activities under specified circumstances. When Biogen

assumes development responsibility, budgeted development expenses are paid by Biogen, subject to cost sharing for additional development activities. For each of the XLRS and XLRP programs, we have an option to share in development costs and resulting profits as well as an option to co-promote the second product approved in the United States. The collaboration agreement also provides for discovery programs targeting three indications whereby we will conduct discovery, research and development activities for those additional drug candidates through the stage of clinical candidate designation, after which, Biogen may exercise an option to continue to develop, seek regulatory approval for and commercialize the designated clinical candidate.

Under the collaboration agreement, we granted Biogen an exclusive, royalty-bearing license, with the right to grant sublicenses, to use adeno-associated virus vector technology and other technology controlled by us for the purpose of researching, developing, manufacturing and commercializing licensed products developed under the agreement. We also granted Biogen a non-exclusive, worldwide, royalty-free, fully paid license, with the right to grant sublicenses, of our interest in other intellectual property developed pursuant to the collaboration agreement. Biogen agreed to pay royalties for each licensed product at tiered rates ranging from high single digit to mid-teen percentages of annual net sales of the XLRS or XLRP products and rates ranging from mid-single digit to low-teen percentages of annual net sales for the discovery products.
