

ENERGIZER HOLDINGS INC
Form 10-K
November 23, 2010

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended September 30, 2010

Commission File No. 001-15401

ENERGIZER HOLDINGS, INC.

Incorporated in Missouri IRS Employer Identification No. 43-1863181
533 Maryville University Drive, St. Louis, Missouri 63141
Registrant's telephone number, including area code: 314-985-2000
Securities registered pursuant to Section 12(b) of the Act:

| Title of each class | Name of each exchange on which registered |
|---|---|
| Energizer Holdings, Inc. | New York Stock Exchange, Inc. |
| Common Stock, par value \$.01 per share | |

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes: No:

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act.

Yes: No:

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes: No:

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes: No:

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting Company" in Rule 12b-2 of the Exchange Act.

| | | | |
|--------------------------|-------------------------------------|----------------------------|--------------------------|
| Large accelerated filer: | <input checked="" type="checkbox"/> | Accelerated filer: | <input type="checkbox"/> |
| Non-accelerated filer: | <input type="checkbox"/> | Smaller reporting company: | <input type="checkbox"/> |

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2) of the Exchange Act).

Yes: o No: x

The aggregate market value of the voting common equity held by nonaffiliates of the registrant as of the close of business on March 31, 2010, the last day of the registrant's most recently completed second quarter: \$4,338,799,632.

(For purpose of this calculation only, without determining whether the following are affiliates of the registrant, the registrant has assumed that (i) its directors and executive officers are affiliates, and (ii) no party who has filed a Schedule 13D or 13G is an affiliate. Registrant does not have a class of non-voting equity securities.)

Number of shares of Energizer Holdings, Inc. Common Stock ("ENR Stock"), \$.01 par value, outstanding as of close of business on November 19, 2010: 70,583,751.

DOCUMENTS INCORPORATED BY REFERENCE

1. Portions of Energizer Holdings, Inc. 2010 Annual Report (Parts I and II of Form 10-K).
2. Portions of Energizer Holdings, Inc. Notice of Annual Meeting and Proxy Statement ("Proxy Statement") for our Annual Meeting of Shareholders which will be held January 18, 2011. The Proxy Statement will be filed within 120 days of the end of the fiscal year ended September 30, 2010. (Part III of Form 10-K).

Forward-Looking Statements

This document contains both historical and forward-looking statements. Forward-looking statements are not based on historical facts but instead reflect our expectations, estimates or projections concerning future results or events, including, without limitation; our expectations as to anticipated pre-tax restructuring charges and future cost savings; the impact of further decline in the battery category; our competitive position and market share presence in both Household Products and Personal Care categories; capital expenditures and other investments during fiscal 2011; advertising and promotional spending; the impact of foreign currency movements (excluding Venezuela); raw material and commodity costs; the impact of contractual purchase obligations; and the possibility of material environmental costs in excess of accruals.

These statements generally can be identified by the use of forward-looking words or phrases such as “believe,” “expect,” “anticipate,” “may,” “could,” “intend,” “belief,” “estimate,” “plan,” “likely,” “will,” “should” or other similar words or phrases. These statements are not guarantees of performance and are inherently subject to known and unknown risks, uncertainties and assumptions that are difficult to predict and could cause our actual results, performance or achievements to differ materially from those expressed in or indicated by those statements. We cannot assure you that any of our expectations, estimates or projections will be achieved.

The forward-looking statements included in this document are only made as of the date of this document and we disclaim any obligation to publicly update any forward-looking statement to reflect subsequent events or circumstances.

Numerous factors could cause our actual results and events to differ materially from those expressed or implied by forward-looking statements, including, without limitation:

- the preliminary nature of the estimates related to the restructuring initiatives, and the possibility they may change as management develops and finalizes its plans;
 - Energizer’s ability to timely implement the strategic initiatives in a manner that will positively impact our financial condition and results of operation;
 - the impact of the strategic initiatives on Energizer’s relationships with its employees, its major customers and vendors;
 - our ability to develop new products, improve operations and realize cost savings;
 - our ability to continue planned advertising and other promotional spending and the impact thereon of lower than anticipated cash flows, or by alternative investment opportunities;
 - our ability to execute its business strategy, achieve profitability, or maintain relationships with existing customers in our competitive businesses;
 - our ability to predict consumer consumption trends with respect to the overall battery category although it is likely that they will continue to be significantly negatively impacted by declines in the proliferation or consumption of primary battery-powered devices;
 - competitive promotional, pricing or product innovation activity, retailer inventory reductions or product placement decisions, and the loss of significant retailer customers;
-

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

- our ability to anticipate the impact of raw material and other commodity costs, and the difficulty in predicting with any accuracy whether raw material, energy and other input costs, or unit volumes, will stabilize, since such costs are impacted by multiple economic, political and other factors outside of the Company's control, and volumes are impacted by consumption and category trends that are difficult to assess;
- changes in the funding obligations for our pension plan;
- the extent of product liability claims and others claims against us;
- events that may disrupt our manufacturing facilities or supply channels;
- the effect of regulation on our business in the U.S. and abroad;
- the impact of changes in foreign, cultural, political and financial market conditions on our international operations;
- our ability to adequately protect our intellectual property rights;
- our ability to continue to make strategic acquisitions and achieve the desired financial results;
- the impact on our effective tax rate for the year of legislative or regulatory changes by federal, state and local, and foreign taxing authorities, as well as the profitability or losses of Energizer's various subsidiary operations in both high-tax and low-tax countries;
- our ability to estimate the impact of foreign currency exchange rates and offsetting hedges on Energizer's profitability for the year with any degree of certainty; and,
- the impact of prolonged recessionary conditions in key global markets where Energizer competes on local currency movements, which could impact current spot rates.

The risk factors set forth in our Annual Report on Form 10-K, in the section entitled "Risk Factors," could affect future results, causing our results to differ materially from those expressed in our forward-looking statements.

In addition, other risks and uncertainties not presently known to us or that we consider immaterial could affect the accuracy of any such forward-looking statements.

The list of factors above is illustrative, but by no means exhaustive. All forward-looking statements should be evaluated with the understanding of their inherent uncertainty. Additional risks and uncertainties include those detailed from time to time in Energizer's publicly filed documents.

PART I

Item 1. Business.

General

Energizer Holdings, Inc., incorporated in Missouri in 1999, is one of the world's largest manufacturers and marketers of primary batteries, portable lighting and personal care products in the wet shave, skin care, feminine care and infant care categories. On April 1, 2000, all of the outstanding shares of common stock of Energizer were distributed in a tax-free spin-off to shareholders of Ralston Purina Company.

Energizer is the successor to over 100 years of expertise in the battery and portable lighting products industry. Its brand names Energizer and Eveready have worldwide recognition for quality and dependability, and are marketed and sold in more than 165 countries.

On March 28, 2003, we completed the acquisition of the Schick-Wilkinson Sword (SWS) business from Pfizer, Inc. SWS is the second largest manufacturer and marketer of men's and women's wet shave products in the world. Its portfolio of products include Quattro for Women, Intuition, Lady Protector and Silk Effects Plus women's shaving systems and Hydro, Quattro and Protector men's shaving systems, as well as the Quattro, Xtreme 3, and Slim Twin/Exacta disposables. SWS has over 75 years of history in the shaving products industry with a reputation for high quality and innovation in shaving technology. SWS products are sold in more than 140 countries.

On June 5, 2009, we completed the acquisition of the Edge and Skintimate shave preparation brands from S.C. Johnson & Son, Inc. (SCJ). This added U.S. market leading shave preparation brands to our existing wet shave product portfolio.

On November 23, 2010, we completed the acquisition of American Safety Razor, LLC, a Delaware limited liability company ("ASR"), as we acquired substantially all of the assets of ASR, including the assets of its U.S. subsidiaries and the stock of its non-U.S. subsidiaries, and assumed substantially all of the liabilities of ASR and its U.S. subsidiaries, for a cash purchase price of \$301 million. ASR, founded in 1875, is the leading global manufacturer of private label / value wet shaving razors and blades, and industrial and specialty blades.

At the beginning of fiscal 2008, we completed the acquisition of all of the outstanding stock of Playtex Products, Inc. (Playtex), a leading manufacturer and marketer of well-recognized branded consumer products in North America. Its portfolio of products include Playtex feminine care products, Playtex infant care products, Diaper Genie diaper disposal systems, Wet Ones pre-moistened wipes, Banana Boat and Hawaiian Tropic sun care products, and Playtex household gloves.

Our subsidiaries operate a number of manufacturing and packaging facilities in 14 countries on five continents, as listed in Item 2 below, and as of September 30, 2010, employ over 4,500 colleagues in the United States and approximately 11,000 in foreign jurisdictions. These totals do not include the recently acquired ASR business which operates 9 manufacturing and packaging facilities in 6 countries and employs approximately 1,200 employees as of September 30, 2010.

On May 20, 2009, the Company completed a public offering of shares of common stock under which it sold 10,925,000 shares at a price to the public of \$49.00 per share. The Company used the net proceeds of the offering to acquire the shave preparation business of S.C. Johnson & Son, Inc. and for general corporate purposes, including the repayment of indebtedness.

When we use the terms "Energizer," the "Company," "we," "us" or "our" in this Annual Report on Form 10-K, we mean Energizer Holdings, Inc. and its subsidiaries on a consolidated basis, unless we state or the context implies otherwise.

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

We use Energizer, Schick, Wilkinson Sword, Playtex and the Energizer, Schick, Wilkinson Sword and Playtex logos as our trademarks or those of our subsidiaries. Product names and company programs appearing throughout in italics are trademarks of Energizer Holdings, Inc. or its subsidiaries. This Annual Report on Form 10-K also may refer to brand names, trademarks, service marks and trade names of other companies and organizations, and these brand names, trademarks, service marks and trade names are the property of their respective owners.

Unless we indicate otherwise, we base the information concerning our industry contained or incorporated by reference herein on our general knowledge of and expectations concerning the industry. Our market position, market share and industry market size is based on our estimates using our internal data and estimates, based on data from various industry analyses, our internal research and adjustments and assumptions that we believe to be reasonable. We have not independently verified data from industry analyses and cannot guarantee their accuracy or completeness. In addition, we believe that data regarding the industry, market size and our market position and market share within such industry provide general guidance but are inherently imprecise. Further, our estimates and assumptions involve risks and uncertainties and are subject to change based on various factors, including those discussed in the “Risk factors” section of this Annual Report on Form 10-K. These and other factors could cause results to differ materially from those expressed in the estimates and assumptions.

Retail sales for purposes of market size, market position and market share information are based on retail sales in U.S. dollars.

Principal Products

Energizer operates in two segments: Household Products and Personal Care. For information about net sales, earnings before income taxes, depreciation and amortization, total assets and capital expenditures of each of our segments, and geographic segment information, including net sales to customers and long-lived assets, refer to Note 17 of the Notes to Consolidated Financial Statements.

Household Products

Energizer’s Household Products division manufactures and markets one of the most extensive product portfolios in household batteries, specialty batteries and portable lighting products. We offer batteries using carbon zinc, alkaline, rechargeable and lithium technologies. These products are marketed and sold into the price, premium and performance segments. This allows us to penetrate the broad range of the market and meet most consumer needs. We distribute our portfolio of household and specialty batteries and portable lighting products through a global distribution network, which also provides a platform for the distribution of our personal care products. Since Energizer’s invention of the first D cell battery in 1893, we have been committed to developing and marketing innovative new products for the portable power and portable lighting products market.

Energizer’s long history of innovation includes the first to market the Alkaline battery, the first mercury-free Alkaline battery, the first mercury-free Hearing Aid battery and the “World’s Longest Lasting AA and AAA Battery in High-Tech Devices” – Ultimate Lithium. Energizer recently introduced a new Qi-compliant inductive charger for certain smart phones and other devices with Qi enabled built-in rechargeable batteries, increasing the convenience to consumers of recharging batteries without wires and connectors. In addition, our portable lighting products business introduced a number of new products in recent years designed to meet a wide range of consumer, industrial and military needs. In particular, we have converted most of our products to lower energy consuming LED lighting and eliminated incandescent bulbs from most of our product offerings.

The battery category is highly competitive as brands compete for consumer acceptance and retail shelf space. Pricing actions in response to rising material costs have raised retail prices over time. However, pricing actions are not always available to fully offset material cost increases, especially in highly competitive markets.

While we continually engage in ongoing reviews of all of our categories, in an effort to provide greater clarity regarding the ongoing dynamics in the battery category, we completed a more in-depth analysis in fiscal 2010. While short-term measurements of category performance may fluctuate, this analysis indicated that an increasing number of devices are using built-in rechargeable battery systems, particularly in developed markets. We believe this continues to create a negative impact on the demand for primary batteries. This trend, coupled with aggressive competitive activity in the U.S. and other markets, could put additional pressure on segment results going forward.

Energizer is well positioned to meet the needs of customer and consumer demands for household and specialty batteries and portable lighting products, leveraging category expertise, retail understanding and its broad portfolio of products to give Energizer a strong presence across the retail channels. We believe we have a leading market share presence in most of the major markets in which we compete.

Personal Care

The Personal Care division includes wet shave products sold under the Schick and Wilkinson Sword, Edge and Skintimate brand names, skin care products sold under the Banana Boat, Hawaiian Tropic, Wet Ones and Playtex brand names, and Feminine Care and Infant Care products sold under the Playtex and Diaper Genie brand names.

We manufacture and distribute Schick and Wilkinson Sword razor systems, composed of razor handles and refillable blades, and disposable shave products for men and women. We market our wet shave products in more than 140 countries worldwide. Our primary markets are the U.S., Canada, Japan and the larger countries of Western Europe, and we estimate our overall share of the wet shave category for these major markets at approximately 20% for 2010, 2009 and 2008. We currently maintain the #2 global market share position in wet shaving. Category blade unit consumption has been relatively flat for a number of years. However, product innovations and corresponding increased per unit prices have accounted for category growth. The category is extremely competitive with competitors vying for consumer loyalty and retail shelf space.

With the acquisition of the Edge and Skintimate shave preparation brands in fiscal 2009, we added U.S. market leading shave preparation products to our wet shave portfolio.

SWS has gained recognition for its innovation and development of new products designed to improve the shaving experience, including the introduction of the Intuition women's system in 2003, a unique system incorporating a three-bladed razor surrounded by a skin conditioning solid which lathers, shaves and provides extra moisture in one step. In 2003, SWS introduced the Quattro men's shaving system, the first four blade razor system for men. In 2010, SWS introduced Schick Hydro, a new men's shaving system, which incorporates new technologies including innovative skin protectors that act to smooth skin between blade tips and an advanced hydrating gel reservoir that lubricates throughout the shaving process. Schick Hydro is available in three and five blade models. Additionally, the Company launched a new line of Schick Hydro shave gels, which coupled with the Schick Hydro razor, delivers a complete skin comfort system that goes beyond hair removal to care for men's skin.

With the acquisition of Playtex, we added a diversified portfolio of well-recognized branded consumer products.

In skin care, we market sun care products under the Banana Boat and Hawaiian Tropic brands. We believe these brands, on a combined basis, hold a leading market share in the U.S. sun care category. The sun care category in the U.S. is segmented by product type such as general protection, tanning and babies; as well as by method of application such as lotions and sprays. Playtex competes across this full spectrum of sun care products. We also offer Wet Ones, the leader in the U.S. portable hands wipes category, and Playtex household gloves, the branded household glove leader in the U.S.

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

In feminine care, we believe Playtex is the second largest selling tampon brand overall in the U.S. We offer plastic applicator tampons under the Playtex Gentle Glide and Playtex Sport brands, and Playtex Personal Cleansing Cloths, a pre-moistened wipe for feminine hygiene.

In infant care, we market a broad range of products including bottles, cups, and a full line of mealtime products including plates, utensils and placemats under the Playtex brand name. We also offer a line of pacifiers, including the Ortho-Pro and Binky pacifiers. We believe our Playtex Diaper Genie brand of diaper disposal systems leads the U.S. diaper pail category. The Diaper Genie brand consists of the diaper pail unit and refill liners. The refill liners individually seals diapers in an odor-proof plastic film.

On November 23, 2010, Energizer acquired ASR, the leading global manufacturer of private label/value wet shaving razors and blades, and industrial and specialty blades. In wet shave, ASR manufacturers, distributes and sells a complete line of private label/value wet shaving disposable razors, shaving systems and replacement blades. These wet shave products are sold primarily under a retailer's store name or under value brand names such as Personna, Matrix, Magnum, Mystique, Solara and GEM. Industrial and specialty blades are sold primarily through retail paint chains, hardware stores and home improvement centers under the Personna and American Line brand names.

Sources and Availability of Raw Materials

The principal raw materials used by Energizer - electrolytic manganese dioxide, zinc, silver, nickel, acetylene black, graphite, steel cans, nylon, brass wire, separator paper, and potassium hydroxide, for batteries, and steel, zinc, various plastic resins, synthetic rubber resins, soap based lubricants and various packaging materials, for wet shave products, and certain naturally derived fibers, resin-based plastics and certain chemicals for the Playtex product lines, - are sourced on a regional or global basis. Although the prices of zinc, nickel, electrolytic manganese dioxide, and resins, in particular, have fluctuated over time, Energizer believes that adequate supplies of the raw materials required for its operations are available at the present time. Energizer, of course, cannot predict the future availability or prices of such materials. These raw materials are generally available from a number of different sources, and the prices of those raw materials are susceptible to currency fluctuations and price fluctuations due to transportation, government regulations, price controls, economic climate, or other unforeseen circumstances. In the past, Energizer has not experienced any significant interruption in availability of raw materials.

We believe we have extensive experience in purchasing raw materials in the commodity markets. From time to time, management has taken positions in various ingredients to assure supply and to protect margins on anticipated sales volume.

Sales and Distribution

Energizer's products are marketed primarily through a direct sales force, but also through exclusive and non-exclusive distributors and wholesalers. In the U.S. and Canada, Household Products and Personal Care each has a dedicated commercial organization reflecting the scale and importance of these businesses. Outside the U.S. and Canada, the commercial teams market our full portfolio of product offerings. Energizer distributes its products to consumers through numerous retail locations worldwide, including mass merchandisers and warehouse clubs, food, drug and convenience stores, electronics specialty stores and department stores, hardware and automotive centers and military stores.

Although a large percentage of Energizer's sales are attributable to a relatively small number of retail customers, in fiscal 2010, only Wal-Mart Stores, Inc. and its subsidiaries, as a group, accounted for more than ten percent of Energizer's annual sales. For fiscal year 2010, this customer accounted for, in the aggregate, approximately 20.1% of Energizer's sales. Because of the short period between order and shipment date (generally less than one month) for most of our orders, the dollar amount of current backlog is not material and is not considered to be a reliable indicator of future sales volume.

Patents, Technology and Trademarks

Energizer owns a number of U.S., Canadian and foreign trademarks, which Energizer considers of substantial importance and which are used individually or in conjunction with other Energizer trademarks. These include Eveready, Energizer, Energizer Max, Energizer UltraPlus, Energizer Ultimate, Schick, Wilkinson Sword, Intuition, Hydro, Quattro, Xtreme 3, Protector, Lady Protector, Silk Effects, ST Slim Twin, Exacta, Edge, Skintimate, Banana Boat, Hawaiian Tropic, Avotriplex, Sunsure, Sunsure Protectin & design, Binky, Diaper Genie, Drop-Ins, The First Sipster, Gentle Glide, Get on the Boat, Habiscus Floral design, HandSaver, Insulator, Insulator Sport, NaturaLatch, Natural Shape, Love Every Moment & design, Most Like Mother, Ortho Pro, Sipster, Sport, VentAire, Vентаire Advanced Crystal Clear, and Wet Ones, the Energizer Bunny and the Energizer Man character. As a result of the Playtex acquisition, Energizer also owns royalty-free licenses in perpetuity to the Playtex and Living trademarks in the United States, Canada and many foreign jurisdictions related to certain feminine hygiene, baby care, gloves and other products, but excluding certain apparel related products.

Energizer's ability to compete effectively in the battery and portable lighting, wet shave, skin care, feminine care and infant care industries depends, in part, on its ability to maintain the proprietary nature of its technology and manufacturing processes through a combination of patent and trade secret protection, non-disclosure agreements, licensing, and cross-licensing agreements. Energizer owns or licenses from third parties a considerable number of patents, patent applications and other technology which Energizer believes are significant to its business. These relate primarily to battery product and lighting device improvements, additional battery product features, shaving product improvements and additional features, plastic applicators for tampons, baby bottles and nipples, disposable liners and plastic holders for the nurser systems, children's drinking cups, pacifiers, sunscreen formulations, diaper disposal systems, and breast pump products and improvements, and manufacturing processes.

As of September 30, 2010, Energizer owned (directly or beneficially) approximately 1,100 unexpired United States patents which have a range of expiration dates from June 2011 to June, 2027, and had approximately 300 United States patent applications pending. It routinely prepares additional patent applications for filing in the United States. Energizer also actively pursues foreign patent protection in a number of foreign countries. As of September 30, 2010, Energizer owned (directly or beneficially) approximately 2700 foreign patents and had approximately 1,200 patent applications pending in foreign countries. The above totals do not include ASR patents.

Since publications of discoveries in the scientific or patent literature tends to lag behind actual discoveries by several months, Energizer cannot be certain that it or its subsidiaries were the first creator of inventions covered by pending patent applications or the first to file patent applications on such inventions.

Seasonality

Sales and operating profit for Household Products tends to be seasonal, with increased purchases of batteries by consumers during the December holiday season, and increases in retailer inventories during autumn. In addition, natural disasters such as hurricanes can create conditions that drive increased needs for portable power and spike battery and flashlight sales. The wet shave business does not exhibit significant seasonal variability.

Customer orders for sun care products are highly seasonal, which has historically resulted in higher sun care sales to retailers during the late winter through mid-summer months.

Competition

The Household Products and Personal Care businesses are highly competitive, both in the United States and on a global basis, as large manufacturers with global operations compete for consumer acceptance and, increasingly, limited retail shelf space. Competition is based upon brand perceptions, product performance, customer service and price.

Unit growth in the battery category had been positive for many years, but unit volume declined on a year-over-year basis over the last few years as overall category consumption declined, in part, due to the device trends, which increasingly utilize battery-on-board. Our principal battery competitors in the U.S. are Duracell International, Inc., a subsidiary of Procter & Gamble Company, and Spectrum Brands, Inc. We believe private-label sales by large retailers had some impact on the market in some parts of the world. Duracell and Panasonic are significant competitors in South and Central America, Asia and Europe, and local and regional battery manufacturers in Asia and Europe also compete for battery sales.

The global shaving products business, comprised of wet shave blades and razors, electric shavers, lotions and creams, is a growing consumer product segment worldwide. The wet shave segment of that business, the segment in which we participate, is further segmented between razor systems and disposable products. Geographically, North America, Western Europe and Japan represent relatively developed and stable markets with demographic trends that result in a stable, predictable number of shaving consumers. These markets are expected to rely primarily on new premium priced product introductions for growth as category blade unit consumption has been relatively flat for a number of years. As a result of demographic trends, however, there is a growth trend predicted for the wet shave segment in Latin American, Asian and Eastern European countries. Our principal competitors in the wet shave business worldwide are Procter & Gamble Company, which is the leading company in the global wet shave segment, and Bic Group, which competes primarily in the disposable segment.

The markets for skin care, feminine care and infant care products are also highly competitive, characterized by the frequent introduction of new products, accompanied by major advertising and promotional programs. Our competitors in these product lines consist of a large number of domestic and foreign companies, including Procter & Gamble Company and Kimberly-Clark Corp. in feminine care, Schering-Plough and Johnson & Johnson in skin care, and a variety of competitors in the fragmented infant care market. In feminine care, we believe private label sales by large retailers in the U.S. have been growing.

We believe we have a significant market position in most geographic markets in which our businesses compete.

Governmental Regulation and Environmental Matters

Energizer's operations are subject to various federal, state, foreign and local laws and regulations intended to protect the public health and the environment. These regulations relate primarily to worker safety, air and water quality, underground fuel storage tanks and waste handling and disposal.

The Company has received notices from the U.S. Environmental Protection Agency, state agencies, and/or private parties seeking contribution, that it has been identified as a "potentially responsible party" (PRP) under the Comprehensive Environmental Response, Compensation and Liability Act, and may be required to share in the cost of cleanup with respect to eight federal "Superfund" sites. It may also be required to share in the cost of cleanup with respect to two state-designated sites, and certain international locations. Liability under the applicable federal and state statutes which mandate cleanup is strict, meaning that liability may attach regardless of lack of fault, and joint and several, meaning that a liable party may be responsible for all of the costs incurred in investigating and cleaning up contamination at a site. However, liability in such matters is typically shared by all of the financially viable responsible parties, through negotiated agreements. Negotiations with the U.S. Environmental Protection Agency, the state agencies that are involved on the state-designated sites, and other PRPs are at various stages with respect to the sites. Negotiations involve determinations of the actual responsibility of the Company and the other PRPs at the site, appropriate investigatory and/or remedial actions, and allocation of the costs of such activities among the PRPs and other site users.

The amount of the Company's ultimate liability in connection with those sites may depend on many factors, including the volume and toxicity of material contributed to the site, the number of other PRPs and their financial viability, and the remediation methods and technology to be used.

In addition, the Company undertook certain programs to reduce or eliminate the environmental contamination at the rechargeable battery facility in Gainesville, Florida, which was divested in November 1999. Responsibility for those programs was assumed by the buyer at the time of the divestiture. In 2001, the buyer, as well as its operating subsidiary which owned and operated the Gainesville facility, filed petitions in bankruptcy. In the event that the buyer and its affiliates become unable to continue the programs to reduce or eliminate contamination, the Company could be required to bear financial responsibility for such programs as well as for other known and unknown environmental conditions at the site. Under the terms of the Reorganization Agreement between the Company and Ralston Purina Company, however, which has been assumed by an affiliate of The Nestle Corporation, Ralston's successor is obligated to indemnify the Company for 50% of any such liabilities in excess of \$3 million.

Under the terms of the Stock and Asset Purchase Agreement between Pfizer, Inc. and the Company, relating to the acquisition of the SWS business, environmental liabilities related to pre-closing operations of that business, or associated with properties acquired, are generally retained by Pfizer, subject to time limitations varying from 2 years to 10 years following closing with respect to various classes or types of liabilities, minimum thresholds for indemnification by Pfizer, and maximum limitations on Pfizer's liability, which thresholds and limitations also vary with respect to various classes or types of liabilities.

Many European countries, as well as the European Union, have been very active in adopting and enforcing environmental regulations. In many developing countries in which the Company operates, there has not been significant governmental regulation relating to the environment, occupational safety, employment practices or other business matters routinely regulated in the United States. As such economies develop, it is possible that new regulations may increase the risk and expense of doing business in such countries.

Accruals for environmental remediation are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated, based on current law and existing technologies. These accruals are adjusted periodically as assessments take place and remediation efforts progress, or as additional technical or legal information becomes available.

It is difficult to quantify with certainty the potential financial impact of actions regarding expenditures for environmental matters, particularly remediation, and future capital expenditures for environmental control equipment. Nevertheless, based upon the information currently available, the Company believes that its ultimate liability arising from such environmental matters, taking into account established accruals of \$10.2 million for estimated liabilities at September 30, 2010, should not be material to the business or financial condition of the Company. Total environmental capital expenditures and operating expenses are not expected to have a material effect on our total capital and operating expenditures, consolidated earnings or competitive position. However, current environmental spending estimates could be modified as a result of changes in our plans, changes in legal requirements, including any requirements related to global climate change, or other factors.

Certain of Energizer's products are subject to regulation under the Federal Food, Drug and Cosmetic Act and are regulated by the U.S. Food and Drug Administration ("FDA").

The FDA is currently considering a monograph that would set testing requirements and labeling standards for sunscreen products. It is anticipated that the FDA may take action on this matter in the near future. If implemented, the monograph would likely result in new testing requirements and revised labeling for the Banana Boat and Hawaiian Tropic product lines, as well as competitors' products, within a certain limited period of time after issuance. Energizer is not able to estimate the costs of complying with these changes at this time.

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

Available Information

Energizer regularly files periodic reports with the Securities and Exchange Commission (“SEC”), including annual reports on Form 10-K and quarterly reports on Form 10-Q, as well as, from time to time, current reports on Form 8-K, and amendments to those reports. The SEC maintains an Internet site containing these reports, and proxy and information statements, at <http://www.sec.gov>. These filings are also available free of charge on Energizer’s website, at www.energizer.com, as soon as reasonably practicable after their electronic filing with the SEC. Information on Energizer’s website does not constitute part of this Form 10-K.

Other Matters

Additional descriptions of the business of Energizer in response to Item 1, and the summary of selected financial data appearing under “ENERGIZER HOLDINGS, INC. - MANAGEMENT’S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION and appearing under “ENERGIZER HOLDINGS, INC. – NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – Note 17 – Segment Information,” are included in Exhibit 13 attached hereto and incorporated herein by reference. This information will also appear in the Energizer Holdings, Inc. 2010 Annual Report.

Item 1A. Risk Factors.

The following risks and uncertainties could materially adversely affect our business, results of operations, consolidated financial condition and cash flows. Energizer may amend or supplement the risk factors described below from time to time by other reports it files with the SEC in the future.

Energizer faces risks associated with global economic conditions.

In general, Energizer’s financial results can be significantly affected by negative economic conditions, inflationary or deflationary pressures, high labor or material and commodity costs, and unforeseen changes in consumer demand or buying patterns. These general risks were heightened recently as economic conditions globally deteriorated significantly and the recovery in most developed markets remains sluggish. Such economic conditions could have potentially significant impacts on employment levels and consumer demand in many countries where Energizer operates, with a direct impact on our sales, profitability and our ability to generate sufficient internal cash flows or access credit at reasonable rates in order to meet future operating expenses, fund capital expenditures or repay debt as it becomes due.

The recent economic conditions caused a number of our retailer customers to reduce their inventories and more critically analyze their inventory management and product offerings, including possibly shifting purchasing patterns to lower-cost options such as private label. Similar retailer customer activity could negatively impact Energizer’s operating results. In addition, declining financial performance by certain of our retailer customers could impact their ability to pay us on a timely basis, or at all. Increasing retailer customer concentration on a global scale could result in reduced sales outlets for our products, greater negotiating pressures on Energizer, and global pricing requirements across markets.

Future unfavorable economic conditions may impact Energizer’s earnings performance and our opportunities to reduce discretionary spending may be limited. Any reductions in discretionary spending may have a greater than anticipated negative impact on future sales or brand equity.

Energizer's failure to generate sufficient cash to meet our liquidity needs may affect our ability to service our indebtedness and grow our business.

Energizer's current debt level remains at almost \$2.3 billion. Over the next twelve months, we have almost \$300 million of scheduled debt maturities. Our current debt structure, consisting of unsecured notes, revolving credit facilities and a term loan with leading financial institutions, all of which are subject to certain debt ratio covenants, and a receivables securitization facility, subjects us to certain risks, including concerns over the volatility of the credit markets. Future declines in our operating cash flows or earnings performance, foreign currency movements, or other unanticipated events, could negatively impact our ability to reduce outstanding debt as planned, and could hinder our ability to remain in compliance with our debt covenants. In addition, Energizer is subject to interest rate risk for \$178.4 million of indebtedness, as adjusted to reflect the impact of existing interest rate hedging contracts, and would be subject to increased interest payments if LIBOR, which is currently at relatively low levels, increases. In the event of default under our credit facilities, it is likely that we would be required to seek amendments or waivers under the credit agreements and the private placement note agreements, or to refinance the debt, in whole or in part. Our ability to secure such amendments or waivers, or to refinance the debt, would depend on conditions in the credit markets and our financial condition at the time. There is no assurance that we could obtain such amendments or waivers or effect such refinancing. If amendments, waivers or refinancing were to occur, there can be no assurance that we would be able to do so on terms and conditions similar to our current debt structure. Based on the current credit markets, a refinancing at this time may be unfavorable as compared to our current debt package.

Other adverse consequences could include:

- a significant portion of Energizer's cash from operations could be dedicated to the payment of interest and principal on our debt, which could reduce the funds available for operations;
- the level of our debt could leave Energizer vulnerable in a period of significant economic downturn;
- Energizer may not be financially able to withstand significant and sustained competitive pressures; and
- our inability to renew our revolving credit facility scheduled to mature in May 2011.

Energizer's indebtedness contains various covenants which limit management's discretion in the operation of the business and the failure to comply with such covenants could have a material adverse effect on the business, financial condition and results of operations.

Our credit agreements and the agreements governing our private placement notes contain various restrictive covenants and financial ratio requirements. These requirements could:

- increase our vulnerability to general adverse economic and industry conditions;
- require us to dedicate a substantial portion of our cash to debt repayment, thereby reducing funds available to fund working capital, capital expenditures, acquisitions and investments and other general corporate purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the markets in which we operate;
- place us at a competitive disadvantage as compared to our competitors that have greater financial flexibility; and
- limit, among other things, our ability to borrow additional funds.

Any failure to comply with the restrictions of these agreements may result in an event of default. An event of default may allow the lenders, if the agreements so provide, to accelerate the related debt as well as any other debt to which a cross-acceleration or cross-default provision applies. In addition, the credit agreement lenders may be able to terminate any commitments they had made to supply us with further funds.

Economic conditions and disruption in the credit markets could impede Energizer's ability to successfully access capital markets and ensure adequate liquidity.

Credit market disruptions could increase our cost of borrowing or affect our ability to access one or more financial markets. If we are not able to access debt capital markets at competitive rates or terms and conditions, our ability to implement our business plan and strategy will be negatively affected. In addition, Energizer's receivables securitization facility is subject to annual renewal by participating financial institutions, and the failure to renew this facility at sufficient funding levels in future years could require us to increase borrowings through debt facilities, which are subject to our debt ratio covenants, increasing the potential for non-compliance with those covenants.

If Energizer cannot continue to develop new products in a timely manner, and at favorable margins, it may not be able to compete effectively.

The battery, portable lighting products, wet shave, skin care, feminine care and infant care industries have been notable for the pace of innovations in product life, product design and applied technology. Energizer and our competitors have made, and continue to make, investments in research and development with the goal of further innovation. The successful development and introduction of new products and line extensions face the uncertainty of retail and consumer acceptance and reaction from competitors, as well as the possibility of cannibalization of sales of our existing products. In addition, our ability to create new products and line extensions and to sustain existing products is affected by whether we can:

- develop and fund research and technological innovations,
- receive and maintain necessary intellectual property protections,
- obtain governmental approvals and registrations,
- comply with governmental regulations, and
- anticipate consumer needs and preferences successfully.

The failure to develop and launch successful new products could hinder the growth of our businesses and any delay in the development or launch of a new product could also compromise our competitive position. If competitors introduce new or enhanced products that significantly outperform Energizer's, or if they develop or apply manufacturing technology which permits them to manufacture at a significantly lower cost relative to ours, we may be unable to compete successfully in the market segments affected by these changes.

Competition in Energizer's industries may hinder our ability to execute our business strategy, achieve profitability, or maintain relationships with existing customers.

The industries in which Energizer operates, including battery, portable lighting products, wet shave, skin care, feminine care and infant care, are highly competitive, both in the United States and on a global basis, as a limited number of large manufacturers compete for consumer acceptance and limited retail shelf space.

As product placement, facings and shelf-space are at the sole discretion of our retailer customers, and often impacted by competitive activity, the visibility and availability of our full portfolio of products can be limited. Our retailer customers have increasingly sought to obtain pricing concessions or better trade terms, and because of the highly competitive environment in which we operate as well as increasing retailer concentration, their efforts can be successful, resulting in either reduction of our margins, or our relative disadvantage to lower cost competitors. Competitors may also be able to obtain exclusive distribution at particular retailers, or favorable in-store placement, resulting in a negative impact on our sales.

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

Competition is based upon brand perceptions, product performance and innovation, customer service and price. Energizer's ability to compete effectively may be affected by a number of factors:

- Energizer's primary competitor in batteries, wet shave and feminine care products, The Procter & Gamble Company, has substantially greater financial, marketing and other resources and greater market share in certain segments than Energizer does, as well as significant scale and negotiating leverage with retailers;
- Energizer's competitors may have lower production, sales and distribution costs, and higher profit margins, than Energizer, which may enable them to compete more aggressively in offering retail discounts and other promotional incentives;
- loss of key retailer customers to competitors may erode Energizer's market share; and
- the level and nature of advertising and promotional spending by Energizer could impact consumer demand, retailer decisions regarding our product offerings, limit our access to shelf space, and hinder our ability to expand distribution to new retailer customers.

In addition, private label brands sold by retail chains, which are typically sold at lower prices, are an increasing source of competition.

Our ability to compete in the industries in which we operate is directly dependent upon the continuing reputation and success of our brands, particularly the Energizer, Schick, Wilkinson Sword, Edge, Skintimate, Playtex, Diaper Genie, Wet Ones, Banana Boat and Hawaiian Tropic brands. The success of these brands can suffer if our marketing plans or new product offerings do not have the desired impact on our brand's image or ability to attract consumers. Further our operating results could be adversely affected if one of our leading brands suffers damage to its reputation due to real or perceived quality issues.

Category growth and performance of the product categories in which we compete may be impacted by changes in technology and device trends, which could directly impair Energizer's operating results and growth prospects.

We believe an increasing number of devices are using built-in rechargeable battery systems, particularly in developed markets. We believe this continues to create a negative impact on the demand for primary batteries. This trend, coupled with volatile commodity markets and aggressive competitive activity in the U.S. and other markets, could put additional pressure on segment results going forward. Development and commercialization of new battery or personal care technologies not available to Energizer could also negatively impact our results and prospects.

Changes in foreign, cultural, political and financial market conditions could impair Energizer's international operations and financial performance.

Energizer's businesses are currently conducted on a worldwide basis, with almost half of our sales in fiscal 2010 arising from foreign countries, and a significant portion of our production capacity located overseas. Consequently, Energizer is subject to a number of significant risks associated with our subsidiaries doing business in foreign countries, including:

- the effect of foreign income and withholding taxes and other restrictions on the flow of capital between countries;
 - the U.S. tax treatment of foreign source income and losses;
 - social legislation in certain countries, which can significantly impact the expenses associated with business rationalizations;
 - the possibility of expropriation, confiscatory taxation or price controls;
-

- adverse changes in local investment or exchange control regulations;
- hyperinflationary conditions in certain economies;
- political or economic instability, government nationalization of business or industries, government corruption, and civil unrest;
- legal and regulatory constraints;
- tariffs and other trade barriers; and
- difficulty in enforcing contractual and intellectual property rights.

Currency fluctuations may significantly increase Energizer's expenses and affect the results of operations as well as the carrying value of international assets on the balance sheet, especially where the currency is subject to intense political and other outside pressure.

Almost 50% of Energizer's sales in fiscal 2010 were denominated in local currencies but reported in U.S. dollars, and the strengthening of the U.S. dollar relative to such currencies can negatively impact our reported sales and operating profits. Additionally, while sales are made in local currency, a high percentage of product costs for our foreign operations are denominated in U.S. dollars. The recent economic crises revealed that exchange rates can be highly volatile. Changes in currency exchange rates may also affect the relative prices at which Energizer and our foreign competitors sell products in the same market and the relative prices at which Energizer purchases materials and services in foreign markets. There can be no assurance that the U.S. dollar foreign exchange rates will be stable in the future or that fluctuations in such rates will not have a material adverse effect on our business, results of operations or financial condition.

Changes in raw material costs or disruptions in the supply of raw materials could erode Energizer's profit margins and negatively impact manufacturing output and operating results.

Pricing and availability of raw materials for use in our businesses can be volatile due to numerous factors beyond our control, including general, domestic and international economic conditions, labor costs, production levels, competition, consumer demand, import duties and tariffs and currency exchange rates. This volatility can significantly affect the availability and cost of raw materials for us, and may, therefore, have a material adverse effect on our business, results of operations and financial condition. In the past, substantial increases in the cost of a number of raw materials have been partially offset by price increases. However, there is no certainty that Energizer will be able to offset future increases in raw material prices, especially given the competitive environment. In addition, the supply of certain raw materials can be significantly disrupted by labor activity, political conflict, and disruptions to sourcing or transportation activities, which could impact our manufacturing output.

Energizer has a material amount of goodwill, trademarks and other intangible assets, as well as other long-lived assets, which, if they became impaired would result in a reduction in net income.

Current accounting standards require that intangible assets with indefinite lives be periodically evaluated for impairment. Declines in our profitability and/or estimated cash flows related to specific intangible assets, as well as potential changes in market valuations for similar assets and market discount rates may negatively impact the fair value of these intangible assets and other long-lived assets, which could result in an impairment charge. These charges may have an adverse impact on our operating results and financial position.

Loss of any of our principal customers could significantly decrease our sales and profitability.

Wal-Mart, together with its subsidiaries, is our largest customer, accounting for approximately 20.1% of net sales in fiscal 2010. Generally, sales to Wal-Mart and our other top customers are made pursuant to purchase orders and we do not have supply agreements or guarantees of minimum purchases from them. As a result, these customers may cancel their purchase orders or reschedule or decrease their level of purchases from us at any time. The loss or a substantial decrease in the volume of purchases by Wal-Mart or any of our other top customers would harm our sales and profitability.

Energizer's businesses are subject to regulation in the U.S. and abroad.

The manufacture, packaging, labeling, storage, distribution, advertising and sale of our products are subject to extensive regulation in the U.S. and abroad. This regulation includes, but is not limited to, the following:

- in the U.S., a number of our products and their manufacture are subject to regulation and review and/or approval by the Food and Drug Administration as well as by the Consumer Product Safety Commission and the Environmental Protection Agency;
- in the U.S., claims and advertising with respect to our products are regulated by the Federal Trade Commission;
- our operations are subject to taxation by federal, state, local and foreign taxing authorities;
- in foreign countries where we manufacture or sell our products, we are subject to similar regulation, and in the U.S. by state and local authorities; and
- our selling practices are regulated by competition authorities in the U.S. and abroad.

A finding that we are in violation of, or not in compliance with, applicable laws or regulations could subject us to civil remedies, including fines, damages, injunctions or product recalls, or criminal sanctions, which could be material. Even if a claim is unsuccessful, is not merited or is not fully pursued, the negative publicity surrounding such assertions regarding our products or processes could jeopardize our reputation and brand image. Damage to our reputation or loss of consumer confidence in our products for any of these reasons could have a material adverse effect on our businesses, as well as require resources to rebuild our reputation.

We must comply with various environmental laws and regulations in the jurisdictions in which we operate, including those relating to the handling and disposal of solid and hazardous wastes and the remediation of contamination associated with the use and disposal of hazardous substances. A release of such substances due to accident or an intentional act could result in substantial liability to governmental authorities or to third parties. We have incurred, and will continue to incur, capital and operating expenses and other costs in complying with environmental laws and regulations, including remediation costs relating to our current and former properties and third party waste disposal sites. It is possible that we could become subject to additional environmental liabilities in the future that could cause a material adverse effect on our results of operations or financial condition.

While we believe we have obtained the necessary regulatory approvals to manufacture and sell our currently marketed products, new or more restrictive regulations or more restrictive interpretations of existing regulations could have an adverse impact on our businesses.

The Food and Drug Administration is considering a monograph which would establish testing and labeling requirements for sunscreen products.

The Food and Drug Administration (FDA) is expected to release a final rule on the sunscreen monograph, which may include changes on such elements as usage, active ingredients, testing and product labeling. While we are unable to estimate the costs of compliance with any new changes in the regulations at this time, the increased cost to comply with the regulations could be significant to Energizer.

Energizer's manufacturing facilities or supply channels may be subject to disruption from events beyond our control.

We currently operate a number of manufacturing and packaging facilities worldwide for our Household Products and Personal Care businesses. Operations at such facilities may be subject to disruption for a variety of reasons, including:

- availability of raw materials;
- work stoppages or other labor disputes;
- industrial accidents or other occupational health and safety issues;
- disruptions in logistics;
- loss or impairment of key manufacturing sites;
- raw material and product quality or safety issues;
- licensing requirements and other regulatory issues; and
- acts of war, terrorism, pandemics, fire, earthquake, flooding or other natural disasters.

There is a possibility that third party manufacturers, which produce a significant portion of certain of our products, could discontinue production with little or no advance notice, or experience financial problems or problems with product quality or timeliness of product delivery, resulting in manufacturing delays or disruptions, regulatory sanctions, product liability claims or consumer complaints.

Although we have contingency plans in place, and our multiple facilities and third-party suppliers can provide alternative sources of product supply in the event of manufacturing disruptions, if a major disruption were to occur, it could result in delays in shipments of products to customers or suspension of operations.

Energizer's business involves the potential for product liability and other claims against us, which could affect our results of operations and financial condition.

We face exposure to product liability claims in the event that one of our products is alleged to have resulted in property damage, bodily injury or other adverse effects. Although we maintain product liability insurance in amounts that we believe are reasonable, we cannot assure you that we will be able to maintain such insurance on acceptable terms, if at all, in the future or that product liability claims will not exceed the amount of insurance coverage. Additionally, we do not maintain product recall insurance. As a result, product recalls or product liability claims could have a material adverse effect on our business, results of operations and financial condition.

In addition, we face potential exposure to unusual or significant litigation arising out of alleged defects in our products or otherwise. We spend substantial resources ensuring compliance with governmental and other applicable standards. However, compliance with these standards does not necessarily prevent individual or class action lawsuits, which can entail significant cost and risk. We do not maintain insurance against many types of claims involving alleged defects in our products that do not involve personal injury or property damage. As a result, these types of claims could have a material adverse effect on our business, results of operations and financial condition.

The level of returns on pension plan assets and the actuarial assumptions used for valuation purposes could affect Energizer's earnings and cash flows, and changes in government regulations could impact expenses and funding requirements of such plans.

The funding obligations for Energizer's pension and postretirement plans are impacted by the performance of the financial markets, particularly the equity and debt markets, and interest rates. Funding obligations are determined under government regulations and are measured each year based on the market value of assets and liabilities based on the interest rate environment on a specific date. If the financial markets do not provide the expected long-term returns on invested assets, we could be required to make significant pension contributions. The equity and debt markets can be very volatile, and therefore our estimate of future contribution requirements can change dramatically in relatively short periods of time. Similarly, changes in interest rates and legislation enacted by governmental authorities can impact the timing and amounts of contribution requirements by adding volatility to the calculation of the pension liability. An adverse change in the funded status of the plans could significantly increase our required contributions in the future and adversely impact our liquidity.

Assumptions used in determining benefit liabilities and the fair value of plan assets for our pension and other postretirement benefit plans are evaluated by Energizer in consultations with outside actuaries. In the event that we determine that changes are warranted in the assumptions used, such as the discount rate and the expected long-term rate of return on assets, our future pension and postretirement benefit expenses could increase or decrease. Due to changing market conditions or changes in the participant population, the assumptions we use may differ from actual results, which could have a significant impact on our pension and postretirement liabilities and related costs and funding requirements.

The resolution of Energizer's tax contingencies may result in additional tax liabilities, and/or tax rates may increase, which could adversely impact our cash flows and results of operations.

Energizer is subject to income tax in the U.S. and numerous jurisdictions outside the U.S. Significant estimation and judgment is required in determining our worldwide provisions for income taxes. In the ordinary course of our business, there are many transactions and calculations in which the ultimate tax determination is uncertain. We are regularly under audit by tax authorities, and although we believe our tax estimates are reasonable, the final outcome of tax audits and related litigation could be materially different than that reflected in our historical income tax provisions and accruals. There can be no assurance that the resolution of any audits or litigation will not have an adverse impact on future operating results.

Our effective tax rate in any year can be significantly impacted by legislative or regulatory changes by taxing authorities, as well as by the profitability or losses of Energizer's various subsidiary operations in both high-tax and low-tax countries.

If Energizer fails to adequately protect its intellectual property rights, competitors may manufacture and market similar products, which could adversely affect our market share and results of operations.

Energizer relies on trademark, trade secret, patent and copyright laws to protect our intellectual property rights. In particular, our trademarks are of material importance to our business and are among our most important assets. In fiscal 2010, substantially all of our total revenues were from products bearing proprietary trademarks and brand names. Accordingly, our future success may depend, in part, upon the goodwill associated with our trademarks and brand names. In addition, Energizer owns or licenses from third parties a considerable number of patents, patent applications and other technology which Energizer believes are significant to our business.

We cannot be sure that these intellectual property rights will be maximized or that they can be successfully asserted. There is a risk that Energizer will not be able to obtain and perfect or maintain our own intellectual property rights or, where appropriate, license intellectual property rights necessary to support new product introductions. We cannot be certain that these rights, if obtained, will not be invalidated, circumvented or challenged in the future, and Energizer could incur significant costs in connection with legal actions to defend our intellectual property rights.

In addition, even if such rights are obtained in the United States, the laws of some of the other countries in which Energizer's products are or may be sold do not protect intellectual property rights to the same extent as the laws of the United States. If other parties infringe our intellectual property rights, they may dilute the value of our brands in the marketplace, which could diminish the value that consumers associate with our brands and harm our sales. The failure to perfect or successfully assert our intellectual property rights could make Energizer less competitive and could have a material adverse effect on our business, operating results and financial condition.

We may not be able to continue to identify and complete strategic acquisitions and effectively integrate acquired companies to achieve desired financial benefits.

We have completed four significant acquisitions since becoming an independent company in 2000. We expect to continue making acquisitions if appropriate opportunities arise. However, we may not be able to identify and successfully negotiate suitable strategic acquisitions, obtain financing for future acquisitions on satisfactory terms or otherwise complete future acquisitions. Furthermore, our existing operations may encounter unforeseen operating difficulties and may require significant financial and managerial resources, which would otherwise be available for the ongoing development or expansion of our existing operations.

Even if we can complete future acquisitions, we face significant challenges in consolidating functions and effectively integrating procedures, personnel, product lines, and operations in a timely and efficient manner. The integration process can be complex and time consuming, may be disruptive to our existing and acquired businesses, and may cause an interruption of, or a loss of momentum in, those businesses. Even if we can successfully complete the integration of acquired businesses into our operations, there is no assurance that anticipated cost savings, synergies, or revenue enhancements will be realized within the expected time frame, or at all.

The integration of Energizer's and ASR's businesses may not be successful or anticipated benefits from the acquisition may not be realized.

The recent acquisition of ASR will require a significant amount of time and attention as well as financial resources to the process of integrating the operations of Energizer's business and ASR's business. We may be unable to integrate the ASR business into our operations in an efficient, timely and effective manner.

All of the risks associated with the integration process could be exacerbated by the fact that we may not have a sufficient number of employees with needed expertise to integrate the two businesses or to operate the combined company's business. Furthermore, ASR offers private label products, a product group in which we have limited experience.

Even if we are able to successfully combine the two business operations, it may not be possible to realize the full benefits of the increased sales volume and other benefits that are currently expected to result from the acquisition, or realize these benefits within the time frame that is currently expected. The benefits of the acquisition may also be offset by operating losses relating to changes in commodity pricing, or in increased competition, or by risks and uncertainties relating to the combined company's private label and branded products. If we fail to realize the benefits we anticipate from the acquisition, our results of operations may be adversely affected.

We face risks arising from the restructuring of our operations.

In November 2010, we announced initiatives to restructure our Household Products business with the intention of improving utilization and realizing cost savings in the future. The process of restructuring could entail, among other activities, moving production between facilities, closing facilities, reducing the level of staff, realigning our business processes and reorganizing our overhead structure.

We continuously evaluate our operations and cost structure relative to general economic conditions, market demands, cost competitiveness and our geographic footprint as it relates to our production requirements. As a result of this ongoing evaluation, we initiated the restructuring discussed above. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Recent Developments” included in Exhibit 13 attached hereto.

If we incur unexpected charges related to the restructuring, or in connection with any potential future restructuring program, our financial condition and results of operations may suffer. Restructuring presents significant potential risks of events occurring that could adversely affect us, including a decrease in employee morale, delays encountered in finalizing the scope of, and implementing, the restructurings, the failure to achieve targeted cost savings and the failure to meet operational targets and customer requirements due to the loss of employees and any work stoppages that might occur. These risks are further complicated by our extensive international operations, which subject us to different legal and regulatory requirements that govern the extent and speed, of our ability to reduce our manufacturing capacity and workforce. In addition, the current global economic conditions may change how governments regulate restructuring as the recent global recession has impacted local economies.

Additional descriptions of risk factors impacting Energizer appearing under “ENERGIZER HOLDINGS, INC. - MANAGEMENT’S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION” are included in Exhibit 13 attached hereto, which will also appear in the Energizer Holdings, Inc. 2010 Annual Report to Shareholders.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties

A list of Energizer's principal plants and facilities as of the date of filing follows (excluding any of ASR's plants and facilities). Management believes that the Company's production facilities are adequate to support the business efficiently and that the properties and equipment have been well maintained. See, however, Item 1A "Risk Factors – We face risks from the restructuring of our operations."

Item 3. Legal Proceedings

The Company and its subsidiaries are parties to a number of legal proceedings in various jurisdictions arising out of the operations of the Company business. Many of these legal matters are in preliminary stages and involve complex issues of law and fact, and may proceed for protracted periods of time. The amount of liability, if any, from these proceedings cannot be determined with certainty. However, based upon present information, the Company believes that its ultimate liability, if any, arising from pending legal proceedings, asserted legal claims and known potential legal claims which are likely to be asserted, should not be material to the Company's financial position, taking into account established accruals for estimated liabilities. These liabilities, however, could be material to results of operations or cash flows for a particular quarter or year.

See also the discussion captioned "Governmental Regulation and Environmental Matters" under Item 1 above.

Item 4. (Removed and Reserved).

Item 4a. Executive Officers Of The Registrant.

A list of the executive officers of Energizer and their business experience follows. Ages shown are as of December 31, 2010. Executive officers are appointed by, and hold office at the discretion of, our Board of Directors, subject to the terms of any employment agreements.

Ward M. Klein- Chief Executive Officer of Energizer since January, 2005. Prior to his current position he served as President and Chief Operating Officer from 2004 to 2005, and as President, International from 2002 to 2004. Mr. Klein joined Ralston Purina Company in 1979. He also served as President and Chief Operating Officer - Asia Pacific and PanAm from 2000 to 2002, as Vice President - Asia Pacific for Energizer from March to September, 2000, as Vice President and Area Chairman, Asia Pacific, Africa and Middle East for battery operations from 1998 to 2000, as Area Chairman, Latin America from 1996-98, as Vice President, General Manager Global Lighting Products, 1994-96 and as Vice President of Marketing, 1992-94. Age: 55.

Joseph W. McClanathan- President and Chief Executive Officer, Energizer Household Products since November, 2007. Prior to his current position and title, he served as President and Chief Executive Officer, Energizer Battery from 2004 to 2007, and President, North America from 2002 to 2004. Mr. McClanathan joined the Eveready Battery division of Union Carbide Corporation in 1974. He served as Vice President, North America of Energizer from 2000 to 2002, as Vice President and Chairman, North America of Eveready Battery Company, Inc. from 1999 to 2000, as Vice President, Chief Technology Officer from 1996 to 1999, and as Vice President, General Manager, Energizer Power Systems division from 1993 to 1996. Age: 58.

David P. Hatfield- President and Chief Executive Officer, Energizer Personal Care since November, 2007. Prior to his current position and title, he served as President and Chief Executive Officer, Schick-Wilkinson Sword from April to November, 2007, as Executive Vice President and Chief Marketing Officer, Energizer Battery from 2004 to 2007, as Vice President, North American and Global Marketing, from 1999 to 2004. Age: 50.

Daniel J. Sescleifer- Executive Vice President and Chief Financial Officer of Energizer since October, 2000. PART II

Item 5. Market for Registrant's Common Stock and Related Stockholder Matters and Issuer Purchases of Equity Securities.

ENR Stock is listed on the New York Stock Exchange. As of September 30, 2010, there were approximately 11,500 shareholders of record of the ENR Stock.

The following table sets forth the range of market prices for ENR Stock for the period from October 1, 2008 to September 30, 2010. No dividends were declared or paid on ENR Stock during that period, and the Company does not currently intend to pay dividends during fiscal year 2011.

Market Price Range

| | FY2010 | | FY2009 | |
|----------------|------------|----------|------------|----------|
| First Quarter | \$ 52.58 - | \$ 66.90 | \$ 30.36 - | \$ 82.90 |
| Second Quarter | \$ 53.88- | \$ 65.74 | \$ 37.57- | \$ 58.43 |
| Third Quarter | \$ 50.24- | \$ 63.37 | \$ 47.90- | \$ 60.61 |
| Fourth Quarter | \$ 49.25- | \$ 72.50 | \$ 51.18- | \$ 69.11 |

There have been no unregistered offerings of registrant's equity securities during the period covered by this Annual Report on Form 10-K.

Issuer Purchases of Equity Securities. The following table reports treasury shares withheld to satisfy employee withholding obligations upon vesting of restricted stock and the execution of net exercises.

ISSUER PURCHASES OF EQUITY SECURITIES

| Period | Total Number of Shares purchased | Average price paid per shares |
|--|----------------------------------|-------------------------------|
| July 1, 2010-July 31, 2010 | 351 | \$ 50.14 |
| August 1, 2010-August 31, 2010 | 1,616 | \$ 63.90 |
| September 1, 2010 – September 30, 2010 | 1,581 | \$ 67.56 |

No other shares of common stock were purchased during the quarter ended September 30, 2010.

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

The following graph compares the cumulative 5-year total return provided to shareholders on Energizer Holdings, Inc.'s common stock relative to the cumulative total returns of the S&P Midcap 400 index and the S&P Household Products index. An investment of \$100 (with reinvestment of all dividends) is assumed to have been made in our common stock and in each of the indexes on 9/30/2005 and its relative performance is tracked through 9/30/2010. These indices are included only for comparative purposes as required by Securities and Exchange Commission rules and do not necessarily reflect management's opinion that such indices are an appropriate measure of the relative performance of the Common Stock. They are not intended to forecast possible future performance of the Common Stock.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among Energizer Holdings, Inc., the S&P Midcap 400 Index
and the S&P Household Products Index

| | 9/05 | 9/06 | 9/07 | 9/08 | 9/09 | 9/10 |
|--------------------------|--------|--------|--------|--------|--------|--------|
| Energizer Holdings, Inc. | 100.00 | 126.97 | 195.50 | 142.06 | 117.00 | 118.57 |
| S&P Midcap 400 | 100.00 | 106.56 | 126.55 | 105.44 | 102.16 | 120.33 |
| S&P Household Products | 100.00 | 108.86 | 125.07 | 127.12 | 113.67 | 122.05 |

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

Item 6. Selected Financial Data.

See “ENERGIZER HOLDINGS, INC. - SUMMARY SELECTED HISTORICAL FINANCIAL INFORMATION” included as part of Exhibit 13 attached hereto and incorporated by reference herein.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

See the information appearing under “ENERGIZER HOLDINGS, INC. - MANAGEMENT’S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION” included as part of Exhibit 13 attached hereto and incorporated by reference herein.

Item 7A. Quantitative and Qualitative Disclosure About Market Risk.

See the information appearing under “ENERGIZER HOLDINGS, INC. - MANAGEMENT’S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION - Market Risk Sensitive Instruments and Positions” included as part of Exhibit 13 attached hereto and incorporated by reference herein.

Item 8. Financial Statements and Supplementary Data.

The consolidated financial statements of Energizer and its subsidiaries, together with the report thereon of PricewaterhouseCoopers LLP, and the supplementary data under “ENERGIZER HOLDINGS, INC. - NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Quarterly Financial Information (Unaudited)” are included as part of Exhibit 13 attached hereto and incorporated by reference herein.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

Not applicable.

Item 9A. Controls and Procedures.

We maintain a comprehensive set of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) designed to ensure that information required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported accurately and within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to Energizer’s management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. As of September 30, 2010, an evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2010, the design and operation of these disclosure controls and procedures were effective to provide reasonable assurance of the achievement of the objectives described above. They have also determined in their evaluation that there was no change in the Company’s internal control over financial reporting during the quarter ended September 30, 2010 that has materially affected or is reasonably likely to materially affect the Company’s internal control over financial reporting.

Management’s Report on Internal Control Over Financial Reporting and the Report of the Independent Registered Public Accounting Firm of the Energizer Holdings, Inc. is included as part of Exhibit 13 attached hereto and incorporated by reference herein.

Item 9B. Other Information

Not applicable.

PART III

Item 10. Directors and Executive Officers of the Registrant.

The information required by this item, appearing under the Section captioned "Executive Officers of the Registrant" in Item 4a, Part I of this Annual Report on Form 10-K, and the information which will be in our Proxy Statement under the captions "Information About Nominees and Other Directors," "Board of Directors Standing Committees," and "Committee Charters, Governance and Codes of Conduct," is hereby incorporated by reference.

The information required by this item with respect to Section 16(a) beneficial ownership reporting compliance is set forth in our 2010 Proxy Statement under the caption "Section 16(a) Beneficial Ownership Reporting Compliance" and is incorporated herein by reference.

The Company has adopted a code of ethics that is applicable to its executive officers and employees, including its Chief Executive Officer, Executive Vice President and Chief Financial Officer, and Controller, and a separate code of ethics applicable to its directors. The Company's codes of ethics have been posted on the Company's website at www.energizer.com under "About Energizer-Codes of Conduct." In the event that an amendment to, or a waiver from, a provision of one of the codes of ethics occurs and it is determined that such amendment or waiver is subject to the disclosure provisions of Item 5.05 of Form 8-K, the Company intends to satisfy such disclosure by posting such information on its website for at least a 12-month period.

Item 11. Executive Compensation.

The information required by this item, which will be in our Proxy Statement under the captions "Director Compensation", "Executive Compensation," "Board of Directors Standing Committees – Compensation Committee Interlocks and Insider Participation" and "Nominating and Executive Compensation Committee Report," is hereby incorporated by reference. The information contained in "Report of the Nominating and Executive Compensation Committee" shall not be deemed to be "filed" with the Securities and Exchange Commission or subject to the liabilities of the Exchange Act, except to the extent that the Company specifically incorporates such information into a document filed under the Securities Act or the Exchange Act.

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-K

Item 12. Security Ownership of Certain Beneficial Owners and Management.

The information required by this item, which will be in our Proxy Statement under the captions "Stock Ownership Information," and "Equity Compensation Plan Information" is hereby incorporated by reference.

Item 13. Certain Relationships and Related Transactions.

The information required by this item, which will be in our Proxy Statement under the captions "Director Independence" and "Certain Relationships and Related Transactions," is hereby incorporated by reference.

Item 14. Principal Accountant Fees and Services.

The information required by this item, which will be in our Proxy Statement under the caption "Item 4. Ratification of Appointment of Independent Auditor," is hereby incorporated by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

A. Documents filed with this report:

1. Financial statements included as Exhibit 13 attached hereto and incorporated by reference herein:
 - Report of Independent Registered Public Accounting Firm.
 - Consolidated Statements of Earnings and Comprehensive Income -- for years ended September 30, 2010, 2009 and 2008.
 - Consolidated Balance Sheets -- at September 30, 2010 and 2009.
 - Consolidated Statements of Cash Flows -- for years ended September 30, 2010, 2009, and 2008.
 - Consolidated Statements of Shareholders' Equity -- at September 30, 2010, 2009 and 2008.
 - Notes to Consolidated Financial Statements.

Financial statements of the Registrant's 50% or less owned companies have been omitted because, in the aggregate, they are not significant.

2. Financial Statement Schedules.

Schedules not included have been omitted because they are not applicable or the required information is shown in the financial statements or notes thereto.

3. Exhibits Required by Item 601 of Regulation S-K. Pursuant to the Instructions to Exhibits, certain instruments defining the rights of holders of long-term debt securities of the Company and its consolidated subsidiaries are not filed because the total amount of securities authorized under any such instrument does not exceed 10 percent of the total assets of the Company and its subsidiaries on a consolidated basis. A copy of such instrument will be furnished to the Securities and Exchange Commission upon request.

2.1 Agreement and Plan of Reorganization (incorporated by reference to Exhibit 2.1 of Energizer's Post-Effective Amendment No. 1 to Form 10, filed April 19, 2000).

***The Asset Purchase Agreement has been included to provide investors and shareholders with information regarding its terms. It is not intended to provide any factual, business or operational information about Energizer or ASR. The Asset Purchase Agreement contains representations and warranties that the parties to the Agreement made solely for the benefit of each other. The assertions embodied in such representations and warranties are qualified by information contained in confidential disclosure schedules that ASR provided to Energizer in connection with execution of the Asset Purchase Agreement. These disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the Asset Purchase Agreement. Moreover, the representations and warranties in the Asset Purchase Agreement (i) are subject to materiality standards which may differ from what may be viewed as material by investors and shareholders, (ii) in certain cases, were used for the purpose of allocating risk among the parties rather than establishing matters as facts and (iii) were only made as of the date of the Asset Purchase Agreement and are modified in important part by the underlying disclosure schedules. Accordingly, investors and shareholders should not rely on such representations and warranties as characterizations of the actual state of facts or circumstances. Moreover, information concerning the subject matter of such representations and warranties may change after the date of the Asset Purchase Agreement, which subsequent information may or may not be fully reflected in Energizer's public disclosures. Pursuant to Item 601(b)(2) of Regulation S-K, schedules have been omitted and will be furnished supplementally to the SEC upon request.
