Board Nominees

Our board of directors consists of three staggered classes of directors, designated as Class I, Class II, and Class III. The two members of Class I, Thomas E. Carlile and Duane C. McDougall, are standing for election as directors at the Annual Meeting, to hold office for three-year terms expiring in 2017. The following table provides summary information about each of these director nominees. During 2013, Messrs. Carlile and McDougall both attended 100% of the board and committee meetings on which they served.

Director Name and Age	Director Since*	Occupation	Indepen-dent	Committee Memberships		Nominating & Corporate Governance	Other Public Company Boards
				Audit	Compen-sation		
Thomas E. Carlile Age - 62	2009	CEO and Director, Boise Cascade Company					IDACORP, Inc. Idaho Power Company
Duane C. McDougall Age - 62	2005	Director and Chairman of the Board, Boise Cascade Company			X (until July 30, 2014)	X (until July 30, 2014)	The Greenbrier Companies Inc. StanCorp Financial Group, Inc.

* Messrs. Carlile and McDougall have been members of the board of directors of Boise Cascade Holdings, L.L.C. since 2009 and 2005, respectively, and became members of our board of directors in connection with our February 2013 initial public offering.

Frequency of Advisory Vote Regarding Executive Compensation

We are asking shareholders to approve, on a nonbinding advisory basis, the frequency with which shareholders will vote to approve, on a nonbinding advisory basis, the overall executive compensation policies and procedures employed by us for our named executive officers. Our board of directors recommends a FOR vote in favor of annual review because we believe it supports stronger corporate governance.

Executive Compensation Advisory Approval

We are asking shareholders to approve, on a nonbinding advisory basis, the overall executive compensation policies and procedures employed by us for our named executive officers. Our board of directors recommends a FOR vote because it believes our compensation policies and practices support our goal of aligning our officers' pay with Company performance and, thus, shareholder interests.

Executive Compensation Elements

We target annual base pay at the 50th percentile of the comparable market compensation data. We believe this enables us to effectively attract and retain the talented and experienced officers to manage and lead the Company.

We provide at-risk pay opportunities linked to achievement of short- and long-term goals that benefit shareholders. These compensation elements are also structured so target payouts are set at the 50th percentile of the market. These short- and long-term incentives comprise a significant portion of each officer's total compensation opportunity, since they are designed to motivate and reward our officers for growing the Company and maximizing shareholder value.

Long-term performance is the most important measure of our success because we manage our operations and business affairs for the long-term benefit of our shareholders. For 2013, our named executive officers received long-term equity incentive compensation opportunities in a combination of performance stock units and stock options.

Our annual incentive compensation opportunities are tied to achievement of financial goals and individual contributions to the Company or individual lines of business. We provide limited perquisites, including only those benefits that are consistent with competitive practice as necessary to attract and retain key executives.

Key Compensation Activities

We developed a new long-term incentive plan that uses equity awards to incent and reward our executives for growing the Company and increasing shareholder value.

We developed our executive compensation recovery (clawback) policy as a part of the Boise Cascade Company 2013 Incentive Compensation Plan (the 2013 Incentive Plan).

We do not provide single-trigger change-in-control agreements or gross-up provisions in our executive officers' severance agreements.

We froze our defined benefit pension plan in 2009. The Supplemental Pension Plan (SUPP) and/or Supplemental Early Retirement Plan (SERP) were also frozen at the same time for officers who had benefits under those plans.

We evaluated the potential risks arising from our compensation policies and practices to ensure these policies and practices were not reasonably likely to have a material adverse effect on the Company.

We reviewed and assessed the performance targets in our short- and long-term incentive plans to ensure they reflect current and anticipated business conditions and are sufficiently challenging.

The compensation committee developed and approved a charter to ensure appropriate oversight of our compensation practices.

2013 Highlights

We successfully completed the initial public offering of our common stock and began trading on the New York Stock Exchange on February 6, 2013.

We grew our sales to \$3.27 billion, up 18% from 2012.

We achieved EBITDA⁽¹⁾ growth of 41%, reporting \$136.4 million for 2013. We also reported operating income of \$98.8 million.

We purchased two plywood operations in North and South Carolina for \$103.0 million in cash in third quarter, adding 470 million square feet to our capacity.

We ended 2013 with liquidity to support continued organic and acquisition growth in 2014.

EBITDA is defined as income (loss) before interest (interest expense and interest income), income tax provision (benefit), and depreciation and amortization and is not required by or presented in accordance with generally accepted accounting principles (GAAP) in the United States. Management uses EBITDA to evaluate ongoing (1) operations and believes it is useful to investors because it enables them to perform meaningful comparisons of past and present operating results. To reconcile this non-GAAP measure with the most directly comparable GAAP measure (net income), please refer to pages 26 and 27 of our 2013 annual report on Form 10-K, Item 6. Selected Financial Data.

The following table sets forth the 2013 compensation for each of our named executive officers, as determined under Securities and Exchange Commission (SEC) rules, and highlights that a significant portion (stock awards, option awards, and non-equity incentive plan compensation) is considered "at risk." The SEC's calculation of Total compensation includes several items driven by accounting and actuarial assumptions, which are not necessarily reflective of compensation actually realized by our named executive officers in 2013. For a complete description of our named executive officers' compensation (years 2011-2013), please refer to the Executive Compensation section in this proxy statement.

Proposal No. 2 - Advisory Vote on the Frequency of the Advisory Vote Regarding Our Executive Compensation Program

We are providing our shareholders with the opportunity to cast a nonbinding advisory vote on the frequency with which shareholders will vote to approve, on a nonbinding advisory basis, the overall executive compensation policies and procedures employed by us for our named executive officers. Shareholders will have the opportunity to cast an advisory vote on whether the advisory vote on executive compensation should occur every 1, 2 or 3 years.

Shareholders may also abstain from voting on the matter.

The proxy card provides shareholders with the opportunity to choose among four options (holding the vote every 1, 2, or 3 years, or abstaining) and, therefore, shareholders will not be voting to approve or disapprove the recommendation of our board of directors.

We are proposing an annual shareholder vote regarding our executive compensation program because we believe it supports stronger corporate governance.

Your vote is important to us. Although this advisory vote is nonbinding, the compensation committee and our board of directors will review the results of the vote and take them into account when considering the frequency of the advisory vote on executive compensation.

Our board of directors unanimously recommends shareholders vote, on a nonbinding advisory basis, FOR the option of an annual vote as the preferred frequency of advisory votes on the executive compensation policies and procedures employed by us for our named executive officers.

Proposal No. 3 - Advisory Approval of Our Executive Compensation Program

We are providing our shareholders with the opportunity to cast a nonbinding advisory vote regarding the compensation of our executive officers. Our compensation philosophy is designed to emphasize a focus on total compensation, with a large portion of our executive officers' pay considered variable, or "at risk," and thus aligned with shareholder interests. We seek to pay for performance so that we can recruit and retain the talented employees necessary to drive financial and operational results. We view our compensation program as a strategic tool that supports the successful execution of our business strategy and reinforces a performance-based culture.

Our executive compensation decisions for 2013 demonstrate our commitment to align executive compensation with Company performance and shareholder interests. Some of our highlights include:

We successfully completed the initial public offering of our common stock and began trading on the New York Stock Exchange on February 6, 2013.

We grew our sales to \$3.27 billion, up 18% from 2012.

We achieved EBITDA⁽¹⁾ growth of 41%, reporting \$136.4 million for 2013. We reported operating income of \$98.8 million.

We purchased two plywood operations in North and South Carolina for \$103.0 million in cash in third quarter 2013, adding 470 million square feet to our capacity.

We ended 2013 with liquidity to support continued organic and acquisition growth in 2014.

The 2013 annual equity awards granted to each of our named executive officers reflect our emphasis on long-term compensation and our philosophy of aligning the interests of our executive officers with the interests of our shareholders.

EBITDA is defined as income (loss) before interest (interest expense and interest income), income tax provision (benefit), and depreciation and amortization and is not required by or presented in accordance with generally accepted accounting principles (GAAP) in the United States. Management uses EBITDA to evaluate ongoing (1) operations and believes it is useful to investors because it enables them to perform meaningful comparisons of past and present operating results. To reconcile this non-GAAP measure with the most directly comparable GAAP measure (net income), please refer to pages 26 and 27 of our 2013 annual report on Form 10-K, Item 6. Selected Financial Data.

Shareholders are urged to read the Compensation Discussion and Analysis section in this proxy statement, which discusses how our compensation policies and procedures implement our compensation philosophy. The compensation committee and our board of directors believe these policies and procedures are effective in implementing our compensation philosophy and in achieving its goals.

Our board of directors has determined the best way to allow shareholders to vote on our executive compensation program is through the following resolution:

RESOLVED, that the compensation paid to the company's named executive officers, as disclosed in the Compensation Discussion and Analysis, compensation tables, and narrative discussion in this proxy statement, is hereby APPROVED.

Your vote is important to us. Although this advisory vote is nonbinding, the compensation committee and our board of directors will review the results of the vote. The compensation committee will consider our shareholders' preferences and take them into account in making future determinations concerning our executive compensation program. Our board of directors unanimously recommends shareholders vote, on a nonbinding advisory basis, FOR the approval of the resolution set forth above approving the overall executive compensation policies and procedures employed by us for our named executive officers.

Proposal No. 4 - Ratification of Independent Accountant

The audit committee of our board of directors is responsible for the engagement of our independent auditor and appointed KPMG LLP (KPMG) in that capacity, effective February 27, 2014.

Although ratification is not required by our Bylaws or otherwise, our board of directors is submitting the selection of KPMG to our shareholders for ratification because we value our shareholders' views on our independent registered public accounting firm and as a matter of good corporate practice. If the appointment of KPMG is not ratified, the audit committee will evaluate the basis for the shareholders' vote when determining whether to continue the firm's

engagement, but may ultimately determine to continue the engagement of the firm or another audit firm without resubmitting the matter to shareholders. Even if the selection of KPMG is ratified, the audit committee may, in its sole discretion, change the appointment at any time during the year if it determines a change would be in the best interests of the Company and our shareholders.

It is expected that one or more representatives of KPMG will be present at our Annual Meeting to answer questions. They will also have the opportunity to make a statement if they desire to do so.

For information on the services KPMG has provided for us, please refer to the following table:

2013	
Audit Fees	\$ 1,689,738
Audit-Related Fees	2,000
Tax Fees	—
All Other Fees	—
Total	\$ 1,691,738

Our board of directors unanimously recommends shareholders vote FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for 2014.

CORPORATE GOVERNANCE

Code of Ethics for Our Board of Directors

We have adopted a Code of Ethics that applies to our directors and all of our employees. We have a toll-free reporting service available that permits employees to confidentially report violations of our Code of Ethics or other issues of significant concern.

If we amend or grant a waiver of one or more of the provisions of our Code of Ethics, we intend to satisfy the requirements under Item 5.05 of Item 8-K regarding the disclosure of amendments to or waivers from provisions of our Code of Ethics by posting the required information on our website.

You may view a copy of our Code of Ethics by visiting our website at www.bc.com and selecting About Boise Cascade, and then Code of Ethics.

Corporate Governance Guidelines

Our board of directors has adopted Corporate Governance Guidelines (the Guidelines) to assist the board in exercising its responsibilities. The Guidelines reflect our board's commitment to monitor the effectiveness of policy and decision making, both at the board and management levels. Our board of directors believes the Guidelines will enhance our ability to achieve our goals and long-term success and will assist us in increasing shareholder value. The Guidelines are in addition to and are not intended to change or interpret any federal or state law or regulation, including the Delaware General Corporation Law, our Certificate of Incorporation or Bylaws, or the rules of the New York Stock Exchange (the "NYSE") or any applicable nominating

or related agreement to which the Company is party. Our board of directors may modify the Guidelines from time to time on the recommendation of the corporate governance and nominating committee and as deemed appropriate by our board of directors.

You may view a complete copy of the Guidelines by visiting our website at www.bc.com and selecting About Boise Cascade, Investor Relations, Corporate Governance, and then Corporate Governance Guidelines.

Director Independence

Our directors believe board independence is important and is key for the board to function properly, allowing it to provide appropriate oversight and maintain managerial accountability.

We list our common stock on the NYSE. The NYSE rules require that a majority of our directors be independent from management as of July 30, 2014 (the anniversary of date on which we ceased being a "controlled company" for purposes of the NYSE listing requirements). For a director to be independent under the NYSE's rules, our board must determine affirmatively that he or she has no material relationship with us. Additionally, he or she cannot violate any of the bright line independence tests set forth in the NYSE listing rules that would prevent our board of directors from determining that he or she was independent. These rules contain heightened independence tests for members of our audit and compensation committees. Our board of directors will broadly consider all relevant facts and circumstances to determine the independence of any director, in accordance with the NYSE listing rules.

To assist in making this determination, our board adopted the NYSE's independence standards. For purposes of these standards, we include Boise Cascade Company and our consolidated subsidiaries.

Our board has determined that Messrs. Fleming, Madigan, McGowan, Menco, Norton, and Soules and Ms. Gowland are independent directors as defined under the NYSE's listing standards. These directors constitute a majority of our board of directors. In making their determination, our board considered the relationships disclosed in the Related-Person/Party Transactions section below.

Our board of directors and its committees can retain, at their sole discretion and at our expense, independent financial, legal, compensation, or other advisors to represent the independent interests of our board of directors or its committees.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our officers, directors and persons who beneficially own more than ten percent of our common stock to file reports of securities ownership and changes in such ownership with the Securities and Exchange Commission ("SEC"). Officers, directors and greater than ten percent beneficial owners also are required by rules promulgated by the SEC to furnish us with copies of all Section 16(a) forms they file.

Based on a review of such reports, we believe that during our last fiscal year, all Section 16(a) filing requirements applicable to our officers, directors and greater than ten percent beneficial owners were complied with.

Related-Person/Party Transactions

Family Relationships

No family relationships exist between any of our directors and executive officers.

Director Nomination Agreement

We entered into a Director Nomination Agreement with BC Holdings on February 11, 2013, that gave BC Holdings the right to designate a number of nominees for election to our board of directors proportionate to its ownership for so long as BC Holdings beneficially owns 10% or more of the total number of shares of our common stock then outstanding. As of March 3, 2014, BC Holdings no longer owns any shares of our common stock. This development, however, does not shorten the term of any incumbent director previously designated by BC Holdings.

In addition, BC Holdings will be entitled to designate the replacement for any of its current board designees whose board service terminates prior to the end of the director's term regardless of BC Holdings' beneficial ownership at such time.

Messrs. Fleming, Madigan, McGowan, Menco, Norton and Soules were appointed as the initial nominees of BC Holdings to our board of directors in accordance with the terms of the Director Nomination Agreement.

Registration Rights Agreement

In connection with our initial public offering, we entered into a registration rights agreement with BC Holdings on February 8, 2013 (the "Registration Rights Agreement"). BC Holdings was entitled to request that we register its shares on a long-form or short-form registration statement on one or more occasions in the future, which registrations may be "shelf registrations." BC Holdings was also entitled to participate in certain registered offerings by the company, subject to the restrictions in the registration rights agreement. We agreed to pay BC Holdings' expenses in connection with BC Holdings' exercise of these rights. The registration rights described in this paragraph apply to (i) shares of our common stock held by BC Holdings as of February 11, 2013, (ii) any of our capital stock (or that of our subsidiaries) issued or issuable with respect to the common stock described in clause (i) with respect to any dividend, distribution, recapitalization, reorganization, or certain other corporate transactions, and (iii) any of our common stock held by Madison Dearborn Capital Partners IV, L.P. (MDCP) and its affiliates (the "Registrable Securities"). These registration rights are also for the benefit of any subsequent holder of Registrable Securities; provided that any particular securities will cease to be Registrable Securities when they have been sold in a registered public offering, sold in compliance with Rule 144 of the Securities Act of 1933 (as amended, the "Securities Act"), or repurchased by us or our subsidiaries. In addition, with our consent and the consent of holders of a majority of Registrable Securities, any Registrable Securities held by a person other than MDCP IV and its affiliates will cease to be Registrable Securities if they can be sold without limitation under Rule 144 of the Securities Act.

Share Repurchase

On July 30, 2013, we repurchased 3,864,062 shares of our common stock from BC Holdings for \$100.0 million. The share repurchase closed concurrently with the closing of an underwritten

public secondary offering in which the underwriters purchased 10,000,000 shares of our common stock from BC Holdings. The per share price we paid for shares in the share repurchase equaled the net per share price paid by the underwriters in the secondary offering. We funded the share repurchase from cash on hand. BC Holdings no longer holds any shares of the Company's common stock. As indirect owners in entities that are equity holders of BC Holdings, funds affiliated with Madison Dearborn and certain of our directors and executive officers received a portion of the proceeds from the concurrent share repurchase when such funds were distributed by BC Holdings to Forest Products Holdings, L.L.C. ("FPH"), its controlling member, and by FPH to its members, including Madison Dearborn. Funds affiliated with Madison Dearborn and Messrs. Carlile, McDougall, Madigan, Bell, Lovlien, Rancourt and Sahlberg are members of FPH. These indirect ownership interests in BC Holdings were acquired or granted during the period from October 2004 to February 2013 when we were a privately held company. Messrs. McGowan, Menco and Souleles also have indirect interests in the funds affiliated with Madison Dearborn that indirectly have an interest in BC Holdings through FPH.

Affiliated-Company Transactions

Ms. Gowland was the senior vice president, general counsel and secretary of Boise Inc. from August 2010 until its acquisition by Packaging Corporation of America ("PCA") in October 2013 and continued as an employee of PCA until March 1, 2014. PCA is a leading manufacturer of a wide variety of packaging and paper products. From February 2008 to July 2010, she served as Boise Inc.'s vice president, general counsel and secretary.

The Company had commercial relationships with Boise Inc. that amounted to approximately \$128 million in 2013. Those relationships involve log and chip purchases and sales of approximately \$112 million and an outsourcing services agreement under which Boise Inc. provides the Company corporate services such as information technology, human resources and accounting for approximately \$16 million. These commercial relationships continue in 2014. The Company's board has determined that, following her termination from PCA, Ms. Gowland became an independent director as defined by Section 303A.02 of the NYSE Listed Company Manual.

Policies and Procedures for Related-Person/Party Transactions

Our policy regarding transactions with related persons requires that a "related person" (as defined in paragraph (a) of Item 404 of Regulation S-K) must promptly disclose to our general counsel any "related person transaction" (defined as any transaction that is reportable by us under Item 404(a) of Regulation S-K in which we are or will be a participant and the amount involved exceeds \$120,000 and in which any related person has or will have a direct or indirect material interest) in which such related person has or will have a direct or indirect material interest and all material facts with respect thereto. The general counsel will promptly communicate such information to our audit committee or another independent body of our board of directors. No related person transaction will be entered into without the approval or ratification of our audit committee or another independent body of our board of directors. It is our policy that directors recuse themselves from any discussion or decision affecting their personal, business or professional interests. Our policy does not specify the standards to be applied by our audit committee or another independent body of our board of directors in determining whether or not to approve or ratify a related person transaction and we accordingly anticipate that these determinations will be made in accordance with Delaware law.

Role of Board of Directors in Our Risk Management Processes

Our board of directors oversees the risk management activities designed and implemented by our management. The board of directors executes its oversight responsibility for risk management both directly and through its committees. The full board of directors also considers specific risk topics, including risks associated with our strategic plan, business operations, and capital structure. In addition, the board of directors receives detailed regular reports from members of our senior management and other personnel that include assessments and potential mitigation of the risks and exposures involved with their respective areas of responsibility.

Our board of directors delegates to the audit committee oversight of our risk management process. Our other board committees also consider and address risk as they perform their respective committee responsibilities. All committees report to the full board of directors as appropriate, including when a matter rises to the level of a material or enterprise-level risk.

Our internal audit department annually develops a risk-based audit plan that is reviewed with the audit committee, along with the results of internal audit reviews and activities. The internal audit department maintains a high level assessment of risks and controls for key operations, functions, processes, applications, and systems within the Company. The audit committee meets a number of times each year with our Director of Internal Audit, our Chief Financial Officer and our Controller.

We also have in place a number of independent assurance activities responsible for assessing whether our risk response activities are in place and working effectively. These assurance activities include, but are not limited to, corporate legal audits, corporate security, environmental audits, and safety audits.

Risk Analysis of Employee Compensation Policies and Practices

We reviewed our compensation policies and practices for our employees and determined these policies and practices were not reasonably likely to have a material adverse effect on the Company. Specifically, we determined that our practices do not induce our employees to take unacceptable levels of business risk for the purpose of increasing their incentive plan awards at the expense of shareholder interests. Some of the considerations in making this determination were:

None of our businesses presents a high risk profile in that a very large percentage of our revenues and income is derived from commodity products;

Our incentive pay structure rewards performance in both the short and long term (i.e., short-term incentives are not paid out at the expense of long-term shareholder value);

Our incentive pay program has both minimum and maximum caps designed to take into account short- and long-term affordability measures;

The compensation committee reserves the right to reduce or eliminate any awards, in its discretion, with respect to our short-term incentive pay program;

We have adopted a clawback for our equity-based Long Term Incentive Plan (LTIP); and

With the implementation of our clawback, our executive compensation program does not encourage our management to take unreasonable risks relating to the business.

Director Selection Process

Our corporate governance and nominating committee is responsible for, among other matters:

- identifying individuals qualified to become members of our board of directors, consistent with criteria approved by our board of directors;

- recommending to our board a slate of director nominees for election or reelection at the annual meeting of shareholders; and

recommending to our board of directors persons to fill board and committee vacancies. Through this process, members of the corporate governance and nominating committee consult with our board chair and accept nominee recommendations from other directors and/or shareholders in accordance with the terms of our Certificate of Incorporation and our Bylaws. The invitation to join our board of directors is extended by our board of directors through our board chair.

Suitability of Candidates

In evaluating the suitability of candidates, our board of directors, corporate governance and nominating committee consider many factors, including a candidate's:

- experience as a senior officer in a public or substantial private company or other comparable experience;

- breadth of knowledge about issues affecting the Company and/or its industry;

- expertise in finance, logistics, manufacturing, law, human resources or marketing or other areas that our board determines are important areas of needed expertise; and

personal attributes that include integrity and sound ethical character, absence of legal or regulatory impediments, absence of conflicts of interest, demonstrated track record of achievement, ability to act in an oversight capacity, appreciation for the issues confronting a public company, adequate time to devote to our board of directors and its committees and willingness to assume broad/fiduciary responsibilities on behalf of all stockholders. The corporate governance and nominating committee is committed to nondiscrimination in its selection practices and makes decisions solely on the basis of skills, qualifications and experience.

Consideration of Diversity in Nomination Process

Our current board has a rich mixture of educational, professional, and experiential diversity. As opportunities to appoint new directors become available in the future, in addition to the factors

set forth above, our board of directors will consider gender, racial, ethnic, and global diversity for director recruitment.

Shareholder Nominations for Directors

The corporate governance and nominating committee has not adopted a written policy regarding shareholder nominations for directors. In accordance with our Bylaws, however, the corporate governance and nominating committee will consider shareholder nominations for directors (please refer to the Shareholder Proposals for Inclusion in Next Year's Proxy Statement section in this proxy statement). We did not receive any shareholder nominations or recommendations for director in connection with the Annual Meeting.

Board and Committee Self-Evaluations

Our directors have adopted a process for, and conduct, annual self-evaluations of our board of directors and its committees. These evaluations assess the overall effectiveness of our board of directors. The chairman of the board reviews the directors' responses and provides the full board with an assessment of the performance of the board and its committees. The purpose of the evaluation is to increase the effectiveness of our board, its committees, and its directors.

Board Education

As further described in our Guidelines, our new directors are provided with a director's orientation manual and given the opportunity to meet with any member of management to orient themselves to the business.

Communications with Our Board of Directors

You may contact our board of directors by writing to the chairman of the corporate governance and nominating committee, in care of general counsel at the address shown below or by emailing them at the email address shown below. All correspondence will be referred to the chair of our board, who is not a member of management. Copies of all complaints or concerns are forwarded to our general counsel and corporate secretary.

BOARD STRUCTURE

Board Leadership Structure

Currently the positions of chairman and chief executive officer are filled separately. Our board of directors believes that this structure is appropriate for the Company at this time. Mr. McDougall's (our board chair) experience as our former chief executive officer and former chief executive officer of another major forest products company provides our board of directors with valuable insight on operational and industry issues. Mr. Carlile, our current chief executive officer,

complements Mr. McDougall's experience and provides an insight into the day-to-day management of the Company. On February 4, 2013, our corporate governance and nominating committee and our board of directors adopted the Guidelines to serve as a flexible framework within which the board conducts business. This framework includes at least two meetings per year with only the independent directors to discuss matters as they deem appropriate with the chairman of the corporate governance and nominating committee presiding.

Executive Sessions

Our board of directors and each of our committees routinely meet in executive sessions outside the presence of management. Mr. McDougall, our board chair, presides over the executive sessions of our board of directors, and each committee chair presides over the executive sessions of each respective committee.

2013 Overall Meeting Attendance Rates

During 2013, our board of directors met four times in person and four times by telephone conference. In addition to meetings of the full board, our board committees met a total of 12 times. As a group, our directors had an overall attendance rate of 100%.

Under the Guidelines, our directors are expected to attend our Annual Meeting to be held on May 8, 2014.

Committees

Our board of directors has established the following three standing committees:

Audit Committee

Compensation Committee

Corporate Governance & Nominating Committee

The composition, duties, and responsibilities of these committees are outlined in written charters adopted by our board of directors. Each committee charter is reviewed annually by its respective committee to ensure ongoing compliance with applicable laws and sound governance practices. Each committee submits any recommended changes to its charter coming out of such review to our board of directors.

You may view copies of our committee charters by visiting our website at www.bc.com and selecting About Boise Cascade, Investor Relations, and then Corporate Governance. You are then able to select any of the committee charters.

Directors Deferred Compensation Plan

We maintain a "nonqualified" deferred compensation plan offered to our nonemployee directors. The plan is an unfunded plan intended to help participants supplement their retirement income while providing them an opportunity to reinvest a portion of their cash compensation in the Company's overall business performance. Under the plan, each director who receives cash compensation for board service may elect to defer all or a portion of his or her cash compensation in a calendar year. Amounts deferred are credited with imputed interest at a rate equal to 130% of Moody's Composite Average of Yields on Corporate Bonds. Participants elect the form and timing of distributions of their deferred compensation balances. Participants may receive payment in cash in a lump sum or in annual installments following their service on our board of directors. The plan was closed for contributions in 2013 but was reopened for participation effective January 1, 2014. None of our directors have elected to defer their cash compensation in 2014 under this plan. We do not anticipate making any changes to this plan in 2014.

STOCK OWNERSHIP

Stock Ownership Guidelines for Our Directors

Our board of directors established Company stock ownership guidelines for our directors which are intended to ensure that our directors acquire and maintain an equity stake in the Company and more closely align their interests with those of our shareholders.

Our director stock ownership guidelines provide that, within five years from becoming a director, each director should acquire and maintain stock ownership in the Company equal to five times his or her annual cash retainer. Because the equity granted to our directors is not actually distributed to them until after they have terminated their service as directors, each director is required to continue holding all of the restricted shares granted to him or her.

Stock Ownership Guidelines for Our Officers

Our corporate governance and nominating committee and our board adopted officer stock ownership guidelines at our February 27, 2014, board meeting. The ownership targets within the guidelines vary by officer level with the chief executive officer's target at three times salary; the presidents', executive vice presidents' and senior vice presidents' target at one-and-one half times salary and vice presidents' target at one times salary. Officers are expected to achieve

their respective target within five years of the later of the board's adoption of the guidelines or of becoming an officer. Security Ownership of Certain Beneficial Owners and Management

2013 Incentive Plan Boise Cascade Company 2013 Incentive Compensation Plan, adopted in connection with the Company's initial public offering.

Our Compensation Objectives and Philosophy

We want to attract, retain and incent the management talent we believe is essential to achieving the Company's strategic objectives which are to grow the Company prudently and to increase long-term shareholder value. As a general rule, we target all forms of compensation at the 50th percentile of comparable market compensation data taking into account each person's performance, contributions to the Company's success, level of experience, and other distinguishing characteristics. In some instances, we have established similar compensation ranges for positions with similar scopes of responsibility and other similar characteristics even if such ranges may differ from comparable positions in other companies.

As a newly public company, 2014 will be the first year that we will have nonbinding advisory shareholder votes on executive compensation. The first vote will be on the frequency of holding an advisory approval of our executive compensation. The second advisory vote will be on whether to approve our executive compensation as set out in this document. Although they are not obligated to do so, the Compensation Committee and the board intend to take these advisory votes into account regarding future compensation decisions.

Use of Market Data to Determine Amount and Allocation of Compensation

The Compensation Committee believes that an important criterion for the determination of the aggregate value of the Company's compensation program and the allocation of the value among the various elements of its compensation plans is market data, where available, on the amounts, allocations, and structures utilized by similarly situated companies for positions of comparable responsibility.

Management and the Compensation Committee have utilized compensation and benefits surveys to ascertain market levels of aggregate compensation and the allocation of that compensation among specific compensation elements for its Named Executive Officers. Aggregate compensation and compensation for each of the major elements (base salary, short-term incentive compensation, and long-term incentive compensation) for the Company's Named Executive Officers has generally been targeted at the 50th percentile of the surveyed companies. However, the specific aggregate compensation (and the allocation among the elements of the total compensation) paid to any of our Named Executive Officers may be below or above the 50th percentile target levels, depending on subjective judgments made by the Compensation Committee based on factors such as the specific Officer's tenure with the Company and in his position, responsibilities that vary from the benchmark position, historical performance in the job, and other distinguishing characteristics.

In 2011, the Compensation Committee retained the services of Frederic W. Cook & Co. ("Frederic Cook"), a compensation consultant, to prepare a comprehensive analysis of the compensation packages for our Named Executive Officers and to compare the specific elements of compensation and the aggregate value with a group of peer companies selected by the consultant. The peer companies selected consisted of Ainsworth Lumber Co.; Associated

Materials Incorporated; Beacon Roofing Supply, Inc.; BlueLinx, Inc.; Builders FirstSource, Inc.; Canfor Corporation; Building, Eagle Materials, Inc.; International Forest Products Corporation; Louisiana-Pacific Corporation; Norbord Ltd.; Nortek, Inc.; Ply Gem Holdings; Simpson Manufacturing Company, Inc.; Universal Forest Products, Inc.; and West Fraser Timber Co. Ltd. Based on revenues; earnings before interest, taxes, depreciation and amortization ("EBITDA"); market capitalization; enterprise value; and one-year and three-year annualized shareholder return data of the Company and the selected peer companies, Frederic Cook concluded that the Company's enterprise value and estimated market capitalization were generally in the median range of the peer group. In 2011, the aggregate compensation paid to each of Messrs. Bell and Lovlien was above the 50th percentile target levels in light of their respective years of experience in the positions in which they served. The aggregate compensation paid to Messrs. Carlile, Sahlberg, and Rancourt was at or beneath such 50th percentile target levels in light of their respective experience levels in the positions in which they served. The Compensation Committee used the results of this study, along with the continuing depressed conditions in our product markets, to guide it in determining not to make any changes in the compensation for such executive officers in 2011.

In 2012, the Compensation Committee used the 2011 Frederic Cook study as the basis for salary increases approved in July 2012 given the Company's improved business performance.

When the Company became a public company in February 2013, the Compensation Committee asked Frederic Cook to recommend a structure for a new, equity-based long-term incentive plan and to recommend appropriate incentive levels under the plan for our Named Executive Officers. Frederic Cook modified the peer Company analysis by adding CanWel Building Materials Group Ltd. and Tembec Inc. and by dropping Ply Gem Holdings. Thus, the peer companies selected consisted of Ainsworth Lumber Co.; Associated Materials Incorporated; Beacon Roofing Supply, Inc.; BlueLinx, Inc.; Builders FirstSource, Inc.; Canfor Corporation; CanWel Building Materials Group Ltd.; Building, Eagle Materials, Inc.; International Forest Products Corporation; Louisiana-Pacific Corporation; Norbord Ltd.; Nortek, Inc.; Simpson Manufacturing Company, Inc.; Tembec Inc., Universal Forest Products, Inc.; and West Fraser Timber Co. Ltd. At its February 2013 meeting, the Compensation Committee adopted Frederic Cook's recommendations which are discussed under the section entitled 2013 Incentive Plan.

Summary of Key Events Affecting our Named Executive Officers in 2013

2013 was a transformational year for the Company due to its February 2013 initial public offering. This offering resulted in changes to certain of the Company's benefit plans, including the adoption of the 2013 Incentive Plan for the Company's employees, consultants and directors, and the reinstatement of the 2004 Deferred Compensation Plan and the directors deferred compensation plan. As discussed above and in light of the Company's transition to a public company, the Compensation Committee retained Frederic Cook to advise it with respect to initial equity grants to be made under the 2013 Incentive Plan and to evaluate possible additional executive compensation changes going forward. Frederic Cook recommended the PSU, restricted stock unit and stock option grants which the Company made in February 2013 under the 2013 Incentive Plan. The Compensation Committee in consultation with Frederic Cook also recommended performance targets and other equity grants to be made under the 2013 Incentive Plan for 2014 and assisted the Compensation Committee in establishing criteria for 2014 STIP awards. Finally, in February 2013, they recommended an increase to Mr. Rancourt's base salary in light of his contributions associated with the Company's initial public

offering and in October 2013, recommended general increases for all of our Named Executive Officers.
Executive Compensation Program Elements

The five elements of the Company's executive compensation program are:

Base salary;

STIP;

Ad Hoc Discretionary bonus awards;

LTIPs (the Cash-Based LTIP and the 2013 Incentive Plan); and

Other compensation and benefit plans.

Role of Management in Setting Executive and Director Compensation

As described below, the Compensation Committee increased the compensation of certain executives in 2013. Management (including Mr. Carlile) did not participate in that decision. The Company's Chief Executive Officer makes recommendations to the Compensation Committee with respect to performance targets for the Company's STIP and LTIP. The Compensation Committee makes all decisions regarding each Named Executive Officer's target, the overall performance targets of the plans, and the potential and actual payouts under each plan. Management does not participate in setting director compensation.

Base Salary

The Company desires to provide a base salary to Officers sufficient to attract and retain talented and experienced individuals who will manage and lead the Company.

Our Compensation Committee has historically reviewed base salaries for our named executive officers on an annual basis and at the time of promotions or other changes in responsibilities. Because of the extreme adverse conditions in the Company's product markets prior to 2012, the Compensation Committee had not approved a general wage increase for the Named Executive Officers for several years until August 2012. The Compensation Committee also approved a February 2013 wage increase for Mr. Rancourt given his work on the Company's initial public offering. The Compensation Committee also approved a general wage increase for the Named Executive Officers in October 2013 based upon the 2011 Frederic Cook study and general wage trends since that time. The base salary for our Named Executive Officers over the last 3 years can be found in the Summary Compensation Table.

STIP

The STIP is designed to recognize and reward the contributions that Named Executive Officers and other participants make to the Company's annual performance. The plan links a portion of the annual cash compensation of each participant to performance measures that are expected to positively affect the Company's annual financial performance. We offer this plan to encourage and reward conduct that will lead to better performance of our businesses as measured by the criteria used for determining award amounts. Each Named Executive Officer's participation in

the plan, along with the criteria for calculation of the payout, is established annually by action of our Compensation Committee and communicated to the participants in an STIP award notice. A determination of the amount payable under the plan based on actual performance is made by the Compensation Committee generally in February of the following year, and resulting payments or awards are made to participants.

2013 STIP Compensation

For 2013, each of our Named Executive Officers participated in the STIP. The plan provided for awards to be calculated as a percentage of base salary, based on the extent to which the financial goals and performance objectives were met during the year, and on the exercise of the Compensation Committee's discretion. The 2013 annual incentive Award targets for our Named Executive Officers were as follows:

Officer	Target Award as a Percentage of Base Salary
Thomas E. Carlile	100%
Wayne M. Rancourt	55%
Stanley R. Bell	55%
Thomas A. Lovlien	55%
John T. Sahlberg	55%

The actual awards may be less than or greater than the target incentive amounts depending on the achievement of pre-determined financial goals and performance objectives and the exercise of the Compensation Committee's discretion. For 2013, the Compensation Committee set a threshold of 25% of the target award as the minimum award to be granted under the program. Any actual results that did not meet the threshold would result in no award. The Compensation Committee also set a maximum of 225% of the target award based on financial goals for 2013 and approved a payout graph with a payout line whereby once the level of performance is determined the award multiplier can be determined. The dollar amount of the threshold, target, and maximum award payable to each of our Named Executive Officers is set out in the table found under "Grants of Plan-Based Awards" in this section of this proxy statement.

The annual financial goals required for each of our Named Executive Officers under our 2013 STIP increased over 2012 and were as follows:

Officer	Financial Criteria ⁽¹⁾ ⁽²⁾	Requirement For Threshold Payment \$ or % (in millions, except PRONWC)	Requirement For Target Payment \$ or %	Requirement For Maximum Payment \$ or %
Thomas E. Carlile	100% Corporate EBITDA	\$40	\$115	\$195
Wayne M. Rancourt	100% Corporate EBITDA	\$40	\$115	\$195
Stanley R. Bell	25% Corporate EBITDA	\$40	\$115	\$195
	37.5% BMD EBITDA	\$20	\$50	\$85
	37.5% BMD PRONWC	6.0	% 18.5	% 30
Thomas A. Lovlien	25% Corporate EBITDA	\$40	\$115	\$195
	75% Wood Products EBITDA	\$40	\$85	\$130
John T. Sahlberg	100% Corporate EBITDA	\$40	\$115	\$195

(1) EBITDA is adjusted in each case for special items, which in 2013 included deducting EBITDA earned in the fourth quarter resulting from the acquisition of the Chester and Moncure plywood plants in September 2013, adjusting for one-time costs related to the acquisition, and adjusting for the transaction costs of the July 2013 and November 2013 secondary offerings by BC Holdings, which were borne by the Company.

Pre-tax Return On Net Working Capital ("PRONWC") is calculated by dividing Building Material Distribution's ("BMD's") net operating income by the average net working capital reported as of each month-end during a 13-month period running from December 2012 through December 2013, adjusted in each case for special items. The Compensation Committee believes that EBITDA adjusted for special items is an appropriate measure because it represents a financial measure that closely approximates the value delivered by management to the Company's (2)shareholders and is a key measure of performance frequently used by the Company's debt holders. The Compensation Committee includes PRONWC as a portion of Mr. Bell's performance criteria because it reflects BMD's control of working capital, which is a critical financial measure in our distribution business. In 2013, the Corporate EBITDA, BMD EBITDA, and Wood Products EBITDA were \$134.1 million, \$49.2 million, and \$102.8 million, respectively, resulting in aggregate payments to each of our Named Executive Officers ranging from 1.05 to 1.45 times target under the STIP for 2013.

At the board meeting in February 2014, both our board of directors and our Compensation Committee confirmed the payment to each of our Named Executive Officers of an STIP award for 2013 that was calculated in accordance with the plan's metrics. The specific amounts approved by the committee for payment to each of the Named Executive Officers pursuant to the 2013 plan are reported in the column titled Non-Equity Incentive Plan Compensation in the Summary Compensation Table.

2014 STIP Compensation

At the board meeting in February 2014, both the board and the Compensation Committee approved details of the Company's 2014 STIP. No changes were made to the plan document or the methods for calculating the financial criteria to be used in determining each Named Executive Officer's Award under the plan.

2013 Ad Hoc Discretionary Bonus Awards

From time to time, the Company may elect to grant a discretionary bonus to one or more of the Officers or to other employees to recognize and reward exemplary performance providing value to the Company beyond what is recognized by the structure of the Company's STIP. These bonus payments are not governed by any formal plan, and no Officer has any contractual entitlement or expectation of any such payment. The amount and timing of the grant of any such bonus to Named Executive Officers are determined by the Compensation Committee at its sole discretion. No ad hoc bonuses were paid to any of our Named Executive Officers as compensation for 2013.

LTIPs (Cash-Based LTIP and 2013 Incentive Plan)

We have two long-term incentive plans included in the compensation information for our Named Executive Officers: the 2010, 2011, and 2012 Cash-Based LTIP and the 2013 Incentive Plan. The Cash-Based LTIP was approved by the Compensation Committee in October of 2009, started in 2010 while we were a privately held company, and ended on December 31, 2012 in anticipation of our becoming a publicly traded company. The Boise Cascade Company board of directors approved the 2013 Incentive Plan in connection with our initial public offering as further discussed under "2013 Incentive Plan" in "Executive Compensation." Each plan was designed to align executive and shareholder or owner interests and to drive long-term business results.

Cash-Based LTIP

Prior to our initial public offering, the Company provided long-term cash incentives to the Named Executive Officers under the cash-based LTIP. In February 2010, 2011, and 2012, our Named Executive Officers had an opportunity to earn a cash award determined on the basis of a target percentage of the Officer's base salary and the Company's annual achievement against corporate EBITDA goals. The award for each Officer ranged from a threshold of 50% of the target award through a maximum of 200% of the target award, depending on corporate EBITDA achieved in each particular year. Although the amount of the award was determined on the basis of the Company's annual financial performance, the resulting award was to be paid in three equal tranches over a three-year period. The Compensation Committee believed that EBITDA was an appropriate measure under this plan because it represented a financial measure that closely approximates the value delivered by management to the owners of the Company and was a key measure of performance frequently used by the Company's debt holders.

In February 2011, 2012, and 2013 the Compensation Committee approved the payment of the 2010, 2011, and 2012 awards, respectively, under the plan. Consequently, in 2013, our Named Executive Officers received the third tranche of the 2010 award, the second tranche of the 2011 award and the first tranche of the 2012 award. Corporate EBITDA was \$96.6 million in 2012, resulting in aggregate payments to each of our Named Executive Officers equal to 141% of target under the Cash-Based LTIP for the year. If, in any plan year, the Company is subject to the provisions of Internal Revenue Code Section 457A, participants who meet the plan's definition of "retirement eligible" receive an accelerated distribution (the Section 457A Accelerated Payment) equal to 40% of the deferred installments of the Award for such plan year. The purpose of the Section 457A Accelerated Payment was to enable such participants to pay taxes which Internal Revenue Code Section 457A imposes on the imputed income of the deferred installments. Plan participants are retirement eligible if they are: 1) age 62 or older and have ten years of service or 2) are age 65 or older. The Company was subject to 457A in 2010,

2011 and 2012 and Section 457A Accelerated Payments were made to qualifying individuals, including Mr. Bell, in 2011, 2012 and 2013 when the awards were paid out. The amount of such payment authorized for Mr. Bell is disclosed in the column titled "Non-Equity Incentive Plan Compensation" in the "Summary Compensation Table" and the explanatory footnote to such column. The Company is no longer subject to 457A of the Internal Revenue Code because it became a C corporation in 2013.

2013 Incentive Plan

In connection with our initial public offering, the Compensation Committee and the board adopted the 2013 Incentive Plan under which we made equity grants to certain of our directors and executive officers in 2013. This section first discusses the 2013 Incentive Plan generally and then discusses the related 2013 equity grants.

The 2013 Incentive Plan provides for grants of stock options, stock appreciation rights, restricted stock, other stock based awards, other cash-based compensation, and performance awards. Directors, officers, and other employees of ours, as well as others performing consulting or advisory services for us, are eligible for grants under the 2013 Incentive Plan. The purpose of the 2013 Incentive Plan is to provide incentives that will attract, retain, and motivate high-performing officers, directors, employees, and consultants by providing them a proprietary interest in our long-term success or compensation based on their performance in fulfilling their responsibilities to our Company.

The 2013 Incentive Plan is administered by our Compensation Committee as designated by our board of directors. Among the Compensation Committee's powers are to (i) determine the form, amount, and other terms and conditions of awards; (ii) construe or interpret any provision of the 2013 Incentive Plan or any award agreement; (iii) amend the terms of outstanding awards; and (iv) adopt such rules, guidelines, and practices for administering the 2013 Incentive Plan as it deems advisable. The Compensation Committee has full authority to administer and interpret the 2013 Incentive Plan, to grant discretionary awards under the 2013 Incentive Plan, to determine the persons to whom awards will be granted, to determine the types of awards to be granted, to determine the terms and conditions of each award, to determine the number of shares of common stock to be covered by each award, to make all other determinations in connection with the 2013 Incentive Plan and the awards thereunder as the Compensation Committee deems necessary or desirable, and to delegate authority under the 2013 Incentive Plan to our executive officers. The aggregate number of shares of Company common stock which may be issued or used for reference purposes under the 2013 Incentive Plan or with respect to which awards may be granted may not exceed 3,100,000 shares.

The 2013 Incentive Plan provides that awards granted under the Plan are subject to any recoupment policy we may have, including the claw-back of "incentive-based compensation" under the Exchange Act or under any applicable rules and regulations promulgated by the SEC. This summary does not include all of the provisions of the 2013 Incentive Plan. For further information about the 2013 Incentive Plan, we refer you to the complete copy of the 2013 Incentive Plan, which we incorporated by reference as an exhibit in "Item 15. Exhibits and Financial Statement Schedules" to our 2013 Form 10-K.

At the February 2013 board meeting, both the Compensation Committee and the board of directors approved equity grants under the 2013 Incentive Plan. The amount and structure of the grants were based on a study conducted by Frederic Cook and the recommendations Frederic

Cook made as a result of the study. Officer participants under the plan received two types of grants: stock options and PSUs.

For the 2013 program, Frederic Cook recommended and the Compensation Committee set a dollar target rather than a percentage-of-salary target to facilitate the calculation of the option and PSU grant. The following targets for the combined grants were set for our Named Executive Officers as follows:

Officer	Dollar Value of Target Award
Thomas E. Carlile	\$ 800,000
Wayne R. Rancourt	\$ 300,000
Stanley R. Bell	\$ 220,000
Thomas A. Lovlien	\$ 220,000
John T. Sahlberg	\$ 200,000

Half of the value of the target award was granted in options determined by a Black-Scholes valuation and resulted in the following option grants, which were made on February 26, 2013:

Officer	Options Granted at \$27.19 per share
Thomas E. Carlile	26,327
Wayne R. Rancourt	9,872
Stanley R. Bell	7,240
Thomas A. Lovlien	7,240
John T. Sahlberg	6,582

The stock options granted under the 2013 Incentive Plan have a ten-year term from the February 26, 2013 grant date, have an exercise price of \$27.19 and vest ratably over three years.

The other half of the target award was made in target PSUs with a grant date fair value of \$26.65, the closing price of our publicly traded stock on February 26, 2013. The following grants were made to our Named Executive Officers on February 26, 2013:

Officer	PSU Target Shares
Thomas E. Carlile	14,711
Wayne R. Rancourt	5,517
Stanley R. Bell	4,046
Thomas A. Lovlien	4,046
John T. Sahlberg	3,678

The PSUs awarded are earned based on a one-year EBITDA performance established in the same manner as for our 2011 and 2012 Cash-Based LTIP plans. If EBITDA is below the threshold noted below, no PSUs are earned. At the threshold, 50% of the PSUs are earned and at the maximum 200% of the PSUs are earned. The Compensation Committee approved an award graph so that at any level between the threshold and maximum, the Compensation

Committee can determine the actual PSUs to be awarded. The actual amount of each award, based on the Company's EBITDA for fiscal year 2013, was determined by our board of directors on February 27, 2014.

The annual financial goals required for each of our Named Executive Officers with respect to their PSU grants under our 2013 Incentive Plan were as follows:

Officer	Financial Criteria	Requirement For Threshold PSUs (in millions)	Requirement For Target PSUs	Requirement For Maximum PSU
Thomas E. Carlile	100% Corporate EBITDA	\$60	\$125	\$200
Wayne M. Rancourt	100% Corporate EBITDA	60	125	200
Stanley R. Bell	100% Corporate EBITDA	60	125	200
Thomas A. Lovlien	100% Corporate EBITDA	60	125	200
John T. Sahlberg	100% Corporate EBITDA	60	125	200

Other Compensation and Benefit Plans

The Company's Named Executive Officers receive additional compensation under various other compensation and benefit plans. These plans and benefits, which are described below, are provided to ensure that we are providing an aggregate compensation and benefits package that is competitive in the marketplace, thereby ensuring that we can attract and retain the management talent needed to achieve the Company's strategic objectives.

Boise Cascade Pension Plan

Effective December 31, 2009, the Compensation Committee froze the pension benefit for all of our salaried employees including our Named Executive Officers. The frozen benefit is now in the Boise Cascade Pension Plan (BCPP). On December 31, 2009, the Compensation Committee also froze our supplemental pension plans in which some or all of our Named Executive Officers participate. Since December 31, 2009, none of our Named Executive Officers have earned any additional pension benefit.

The BCPP entitles each vested employee to receive an annual pension benefit at normal retirement age as determined by a formula involving the average of the highest five consecutive years of the employee's compensation out of the last 10 years of employment through December 31, 2009 ("Average High Five") times an annual factor for each year of service. Under the BCPP, "compensation" is defined as the employee's taxable base salary plus any taxable amounts earned under our annual variable incentive compensation programs. For each year of service prior to December 31, 2003, the annual factor is equal to 1.25% and for each year of service from January 1, 2004 through December 31 of 2009 the annual factor is equal to 1%. The value of the pension benefit is determined by adding the products of: 1) the Average High Five times the number of years of service prior to December 31, 2003 times 1.25 percent and; 2) the Average High Five times the number of years of service between January 1, 2004 and December 31, 2009 times 1 percent. Under this formula, benefits are computed on a straight line annuity basis and are not offset by Social Security or other retirement benefits. An

employee is 100% vested in the pension benefit after five years of unbroken service. As noted previously, the Compensation Committee froze the Company's salaried pension plans effective December 31, 2009 and no further benefits have been earned by salaried employees including our Named Executive Officers since that date.

The Supplemental Pension Plan

While the pension plan was in effect, if an employee earned income in excess of the limits provided under the Internal Revenue Code for qualified plans, or if income was deferred under the Company's deferred compensation plan and not taxed (and, therefore, not counted for purposes of the benefit amount calculation under the qualified BCPP), the additional benefits were accrued and will be paid from the Company's general assets under our unfunded, nonqualified Supplemental Pension Plan (SUPP). Because the benefit definition in the SUPP is derivative of that contained in the BCPP described above, the benefit freeze adopted for the qualified plan at year end 2009 effected a similar freeze in further benefit accruals under the SUPP as of the same date. All of our Named Executive Officers have a benefit under the SUPP.

The Supplemental Early Retirement Plan

Under our unfunded, non-qualified Supplemental Early Retirement Plan (SERP), an Officer is eligible for benefits under the plan if the Officer: (i) was an Officer of OfficeMax immediately prior to the Forest Products Acquisition; (ii) is 55 years old or older (or 58 years old or older for Officers elected on or after June 1, 2004, and before October 29, 2004); (iii) has ten or more years of service; (iv) has served as an Officer for at least five full years; and (v) retires before the age of 65 (or in certain cases age 62). Eligible Officers retiring prior to age 65 receive an early retirement benefit from the SERP which, in combination with their benefit under the BCPP and the SUPP, equals the benefit calculated under the BCPP and the SUPP without reduction due to the Officer's early retirement. Because the benefit definition in the SERP is derivative of that contained in the BCPP described above, the benefit freeze adopted for the pension at year end 2009 effected a similar freeze in further benefit accruals under the SERP. Benefits payable under the SERP are offset in part by benefits payable under a similar plan maintained by OfficeMax. Mr. Lovlien is currently eligible for early retirement under the SERP. Mr. Rancourt will become eligible for benefits under the SERP when he reaches age 58. Mr. Bell retired with unreduced benefits under our BCPP and the SUPP, and accordingly, he does not participate in the SERP. Mr. Carlile is now eligible to retire with full benefits under the BCPP and SUPP and, therefore, does not participate in the SERP.

The Present Value of Pension Benefits

The aggregate, present value of pension defined benefits as of December 31, 2013, for each of our Named Executive Officers under each plan are disclosed in the table found under the heading "Pension Benefits" of this CD&A. Changes in the present value for the pension benefits for each Named Executive Officer are disclosed in footnote 5 to the "Summary Compensation Table."

The Boise Cascade Company Savings Plan

The Company maintains a 401(k) defined-contribution savings plan for all of its U.S. salaried employees, including its Named Executive Officers. Under the plan, eligible employees electing to participate may contribute up to 50% of their pretax income, subject to Internal Revenue Service (IRS) rules limiting an individual's total contributions and the application of IRS tests

designed to ensure that the plan does not discriminate in favor of highly compensated employees.

Since March 1, 2010, the Company has provided a contribution to each salaried employee's 401(k) account for each pay period in an amount equal to 4% of the employee's eligible wages (base salary and short term incentive compensation) for the period. Prior to December 31, 2012, in years in which the Company's EBITDA exceeded targets specified by the Compensation Committee and the board of directors, the Company could make additional discretionary contributions in an amount equal up to 2%, 3%, or 4% of the employee's wages, depending on the affected employee's number of years of service. No discretionary contributions were made for 2011. In 2012, the plan also provided for an additional discretionary contribution of 1% for achieving a second, higher EBITDA target, also determined by the Compensation Committee and the board of directors. The Company made discretionary contributions in January 2013 based on achieving both EBITDA target levels set by the Compensation Committee and the board of directors for 2012. For 2013, the Compensation Committee and the board divided the discretionary contribution percentages evenly between two EBITDA targets (\$100 million and \$150 million). The Company achieved the first target but not the second in 2013. Consequently, in January of 2014, discretionary contributions of 1%, 1.5% or 2% of employee wages were made in accordance with the terms of the plan. In both years, amounts in excess of IRS annual limitations on the amount of income on which Company contributions may be made to qualified defined contribution retirement plans are paid to participants as taxable cash compensation. All of our Named Executive Officers participate in plan.

Amounts deferred under this plan by Named Executive Officers are included in the salary disclosure in the "Summary Compensation Table," and amounts contributed by the Company to the account of a Named Executive Officer under the plan are included in the "All Other Compensation" disclosure in the "Summary Compensation Table."

Nonqualified Deferred Compensation

Our Deferred Compensation Plan is an unfunded, non-qualified defined contribution plan that was reopened for participation effective January 1, 2014. We had previously closed the plan to further participation on December 31, 2009, because at that time the Company was a disqualified entity under Internal Revenue Code Section 457A. Under the deferred compensation plan, participating employees irrevocably elect each year to defer receipt of a portion of their base salary and incentive compensation. A participant's account is credited with imputed interest at a rate equal to 130% of Moody's Composite Average of Yields on Corporate Bonds. Participants may receive payment of their deferred compensation plan balance in a lump sum or in monthly installments over a specified period of years following the termination of their employment with the Company. Each of our Named Executive Officers is a participant in our Deferred Compensation Plan. Amounts deferred under this plan or contributed to the account under the plan by any of our Named Executive Officers are disclosed in the "Summary Compensation Table."

Agreements with Named Executive Officers

The Company does not have employment agreements with any of its Named Executive Officers other than the limited agreements described in this section:

Severance Agreements with Messrs. Carlile, Rancourt, Bell, Lovlien, and Sahlberg

The Company entered into severance agreements with each of the Named Executive Officers in February 2008 to maintain operating continuity in the event of a change of control. The severance agreements are effective for three years, but unless the Company gives notice 60-days prior to the second anniversary or each anniversary thereafter, the term of each severance agreement will be automatically extended for an additional year. Notice was not given prior to the anniversary date in February 2014. Accordingly, the term of such agreements has now been extended to February 22, 2016. Mr. Sahlberg entered into a new severance agreement in August 2012 in connection with his appointment as our Senior Vice President, Human Resources, General Counsel and Secretary in the same month. The Company entered into revised severance agreements with each of its Named Executive Officers in December 2012 solely to bring the agreements into technical compliance with Internal Revenue Code Section 409A.

The severance agreements provide that in the event of a "qualifying termination" (meaning any termination with the exception of a termination (i) by the Company for cause or disability, (ii) by the employee other than for good reason (as described in the severance agreement), or (iii) as a result of the employee's death), an employee will be entitled to receive (a) his or her full base salary through the date of termination, an STIP payment for the year of termination based on the plan's actual payout for the year and prorated to reflect the portion of the year expired, and all other compensation to which he or she is then entitled; (b) a lump sum severance payment equal either to one or two times the sum of the employee's annual base salary plus target STIP for the year in which the termination occurs; and (c) a lump sum amount equal to the value of such employee's unused and accrued time off, less any advanced time off, in accordance with the applicable time-off policy in effect on the termination date. Additionally, the severance agreements provide, in the event of a qualifying termination, for full maintenance of healthcare and insurance benefits for a period of 12 or 18 months following the termination date (subject to payment of required contributions), payment of the premium under the Company's Supplemental Life Plan for 12 or 24 months following the termination date, and if applicable, receipt of the monthly benefit that such employee would have been entitled to receive under the SERP as if such employee had satisfied the age and service requirements under the SERP as of his or her termination date. The higher levels of severance benefits are generally reserved for those officers at the level of senior vice president and higher which includes all of our Named Executive Officers.

The severance agreements provide that in the event of a non-qualifying termination, the employee will be entitled to receive his or her full base salary through the date of termination, plus all other compensation to which he is then entitled. In the event of a failure to perform duties as a result of incapacity due to physical or mental illness or injury, the employee will be entitled to continue to receive the full base salary until such time as employment is terminated due to disability. No severance payments or continuation of healthcare benefits beyond the date of termination are provided for under such circumstances.

In consideration of the severance payments described above, each severance agreement contains confidentiality and non-solicitation provisions, and a general release of all claims against the Company and its affiliates, as a condition of payment of benefits under the severance agreement.

Retention Agreements with Messrs. Bell, Lovlien, and Carlile

In August 2009, the Company entered into Retention Award Agreements with Messrs. Bell and Lovlien to help maintain experienced management during the economic downturn. Each of these agreements provided that the Officer might, by maintaining his employment with Boise Cascade through a specified vesting date, earn a cash award equal to his base salary at the time of vesting of the award. The vesting date specified in the agreements was October 31, 2011, for Mr. Bell and December 31, 2012, for Mr. Lovlien. Mr. Bell's agreement expired on October 31, 2011, and he was paid under the terms of that agreement, as shown in the "Bonus" column in the "Summary Compensation Table." Mr. Lovlien's agreement expired on December 31, 2012, and he was paid under the terms of that agreement, as shown in the "Bonus" column in the "Summary Compensation Table."

In September 2011, Boise Cascade entered into a three-year Retention Award Agreement with Mr. Carlile to create an additional economic incentive for Mr. Carlile to remain our Chief Executive Officer and to help provide for an orderly leadership transition at a later date. The terms of Mr. Carlile's agreement were the same as the October 2009 retention agreements discussed above, except that Mr. Carlile's agreement runs through September 30, 2014, and provides he receive an additional payment at the expiration of the agreement equal to his average STIP payouts over the three years immediately prior to the vesting date of the agreement.

Salaried Employee Life Insurance Plan and Officer's Supplemental Life Plan

The Company maintains two plans under which Company paid life insurance is made available to its Officers. Under its Salaried Employee Life Insurance Plan, the Company provides, at its expense during each salaried employee's period of employment, life insurance in an amount equal to the employee's base salary. Messrs. Rancourt and Sahlberg participate in this plan.

Messrs. Carlile, Bell, and Lovlien participate in our Officers' Supplemental Life Plan, under which a Company paid life insurance benefit during employment is provided in an amount equal to two times the Officer's base salary.

Amounts paid by the Company for the coverage provided to each of our Named Executive Officers is reported in the column titled "All Other Compensation" in the "Summary Compensation Table."

(1) Includes amounts deferred under our savings plan. See "Boise Cascade Company Savings Plan" under "Other Compensation and Benefit Plans" in the "CD&A" in this proxy.

Includes the total value of the nonqualified stock option and PSU awards granted in 2013 under the 2013 Incentive Plan although the grants generally vest ratably over three years. The grant date fair value of each option share is (2) \$14.87 using the Black Scholes Option Valuation Model. The PSUs are valued at \$26.65 grant date fair value times the actual number of PSUs earned based on the Company's 2013 EBITDA performance. With 2013 EBITDA of \$134 million, the PSUs were awarded by the Compensation Committee on February 27, 2014, at 1.12 times target.

(3) Represents the payouts under the related Retention Agreements.

Represents total of (i) payment of awards under our STIP for each year reported on and (ii) payments of awards (4) under our 2012, 2011, and 2010 Cash-Based LTIP. The specific financial goals and performance objectives at corporate and business unit levels of the STIP and the Cash-Based LTIP are described under "STIP" and "Cash-Based LTIP" in the

"CD&A." The amounts reported in this column include amounts deferred under our savings plan. See "Boise Cascade Company Savings Plan" under "Other Compensation and Benefit Plans" in the "CD&A" in this proxy statement for a description of this plan.

Under the terms of the 2012, 2011, and 2010 Cash-Based LTIPs, participants are paid one-third of the award when awards are determined, with the balance of the Award paid in two equal installments by March 15 of the following two years, but only if the Officer remains employed through December 31 of the preceding year. Amounts awarded to Mr. Bell were not subject to the delayed vesting requirement because he met the requirements for retirement-eligible

status under the plan. Consequently, Mr. Bell's total LTIP, paid annually, is reflected in the table above. See the description of the plan under "Cash-Based LTIP" of the "CD&A" in this proxy statement. The total non-equity incentive plan compensation for each Named Executive Officer for 2013, 2012, and 2011 is comprised of the following:

Pension benefits for officers have been frozen since December 31, 2009, and no additional benefits are being earned. The changes reported in this column reflect the changes in actuarial assumptions that increase or decrease the present value of their benefits under all pension plans established by the Company using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements. The 2013 change in (a) pension value is negative because of an increase in the discount rate assumption and because several officers worked past their retirement eligibility under one of the pension plans. Years with decreases in the present value of pension amounts are treated as \$0 so only the nonqualified deferred compensation earnings appear in the Summary Compensation Table.

(b) The amounts reported in this column reflect the above-market portion of the interest earned on deferred compensation for our Named Executive Officers.

For more information concerning the pension plans and deferred compensation plans in which our Named Executive Officers participate, see "Boise Cascade Pension Plan" and "Nonqualified Deferred Compensation" under "Other Compensation and Benefit Plans" in this proxy statement.

(a) See "Boise Cascade Company Savings Plan" under "Other Compensation and Benefit Plans" in "CD&A" in this proxy statement for a description of this plan. Amounts included in the contributions reported in this column that exceeded IRS annual limitations on Company contributions to qualified defined contribution retirement plans were paid to the Named Executive Officer as taxable cash compensation.

(b) See "Salaried Employee Life Insurance Plan and Officer's Supplemental Life Plan" under "Agreements with Named Executive Officers" in this proxy statement for a description of the Company-paid life insurance plans under which these costs were incurred.

(c) Includes financial consulting services, a taxable club membership fee, and spouse-related travel.

(1)

Reflects the potential threshold, target, and maximum incentive awards for the Named Executive Officers possible for 2013 under our STIP as described above in "STIP" in this proxy statement. The Named Executive Officers' actual incentive awards earned in 2013 are disclosed in footnote 4 to the "Non-equity Incentive Plan Compensation" column of the "Summary Compensation Table." All awards earned under this plan were paid in March 2014 calculated on the annual rate of pay in effect at the end of the 2013 calendar year.

(2) Reflects the potential total threshold, target, and maximum incentive awards for the Named Executive Officers possible for 2013 PSUs under the 2013 Incentive Plan. One third of the total PSUs time vested on December 31, 2013, one third will vest on December 31, 2014 and one third will vest on December 31, 2015. For further information on the terms of these incentive awards (which were awarded in 2014), refer to "2013 Incentive Plan" in this proxy statement. The Named Executive Officers' actual PSU awards earned in 2013 under the 2013 Incentive Plan are disclosed in footnote 2 to the "Stock Awards" column of the "Summary Compensation Table."

(3) Reflects nonqualified stock options to purchase our common stock at an exercise price of \$27.19 per share. These options vest as follows: one third vested on February 26, 2014, one third will vest on February 26, 2015 and one third will vest on February 26, 2016. The amounts reported are 100% of the option award amounts and assume our Named Executive Officers remain employed with us until their options vest and become exercisable.

(4) The values listed in this column represent the accounting grant date fair value of the options (at \$14.87) and the target PSUs (at \$26.65) at the time of award.

On February 26, 2013, our board of directors awarded our Named Executive Officers the PSUs listed above which are presented at the actual earned amount of 1.12 times target and include the unvested portion of this award. For purposes of this table, 100% of this award was deemed vested for Messrs. Carlile and Bell as of December 31, 2013, based on having reached a retirement-eligible age. For the other Named Executive officers, one third was deemed vested as of December 31, 2013, resulting in an unvested amount equal to two thirds of the PSUs earned. The remaining two thirds will vest one third on December 31, 2014 and one third on December 31, 2015.

On February 26, 2013, our board of directors awarded our Named Executive Officers the above listed stock options at an exercise price of \$27.19 under the 2013 Incentive Plan. One third of these options vested on February 26, 2014; one third will vest on February 26, 2015, and one third will vest on February 26, 2016. Since no options had vested by December 31, 2013, all of the options granted to our Named Executive Officers appear in this chart.

(3)The closing price for Boise Cascade Company stock on December 31, 2013, was \$29.48 per share.

Options Exercised and Stock Vested

No options vested in 2013 and, consequently, none were exercised. Under the 2013 Incentive Plan award, the number of the 2013 PSUs could have varied from 50% of target (no award below 50% is provided) to 200% of target, depending upon the Company's 2013 EBITDA. One-third of earned PSUs (based on the satisfaction of the performance condition) vested on December 31, 2013; one third will vest on December 31, 2014; and the final third will vest on December 31, 2015. With 2013 EBITDA of \$134 million, the PSUs were awarded by the Compensation Committee on February 27, 2014, at 1.12 times target.

Pension Benefits

Pension benefits for officers are frozen, and no additional benefits are being earned. The following table reflects the present value of accumulated benefits payable to Messrs. Carlile, Rancourt, Bell, Lovlien, and Sahlberg, including the number of years of service credited to each of them under our defined benefit pension plans. No amounts were distributed to any of them during 2013 under the BCPP, the SUPP, or the SERP. Mr. Carlile, Mr. Sahlberg and Mr. Bell do not participate in the SERP. For more information concerning our pension plans, see "Boise Cascade Pension Plan" under "Other Compensation and Benefit Plans" above in this proxy statement.

(1) Number of years credited service for Messrs. Carlile, Rancourt, Bell, Lovlien, and Sahlberg include amounts attributable to employment with OfficeMax prior to the Forest Products Acquisition.

These values were calculated on the same basis and using the same assumptions used in the Company's financial (2) statements except that the assumed retirement age for Messrs. Rancourt and Lovlien were the later of their current age or the earliest age at which they could qualify for retirement under the SERP.

Nonqualified Deferred Compensation

Due to the application of Internal Revenue Code Section 457A to the Company during 2013, no deferrals were made under the plan, and no Company contributions were made to the plan

during the year. As noted previously, with the Company becoming a C corporation in February 2013, the 2004 Deferred Compensation Plan was reopened for contributions effective January 1, 2014. Earnings on preexisting plan balances continued to accrue during 2013 in accordance with the terms of the plan. No withdrawals or distributions were made from the plan by any of our Named Executive Officers during 2013. Aggregate earnings and year-end plan balances for each of our Named Executive Officers are disclosed in the table below:

Name	Aggregate Earnings in Last FY (\$) ⁽¹⁾	Aggregate Balance at FYE (\$)
Thomas E Carlile	\$23,167	\$418,806

(1) The above-market portion of these amounts is included in the 2013 "Change in Pension Value and Nonqualified Deferred Compensation Earnings" column of the "Summary Compensation Table."

For more information concerning our nonqualified deferred compensation plan, see "Nonqualified Deferred Compensation" under "Other Compensation and Benefit Plans" above in this proxy statement.

Potential Payments upon Termination or Change in Control

The following tables reflect an estimate of the compensation the Company would have been required to pay to each of its Named Executive Officers under the compensation plans, contracts, agreements, and arrangements between each such individual and the Company for:

Voluntary termination with good reason;

A change in control without adoption of a replacement plan;

Involuntary termination without cause;

For-cause termination or voluntary termination without good reason;

Termination as a result of sale of a division;

Death or Disability.

The amounts shown assume that such termination or change in control was effective as of December 31, 2013. The actual amounts the Company would have been required to pay on other dates may be determined only at the time of separation from the Company or the change in control and will accordingly vary from those disclosed here, which are based on a hypothetical December 31, 2013, termination. Our paid vacation is earned on a current basis ratably throughout each payroll year. Earned and unused amounts at year-end are forfeited to the extent they exceed a

maximum permitted carry-over of 80 hours. The amounts disclosed here do not include amounts earned by the Named Executive Officer through that time as base

salary, any bonuses approved by the Compensation Committee prior to that date, and payments earned prior to that date as 2013 Awards earned pursuant to our STIP because neither their amount nor the timing of the payment is affected by the fact or the nature of the termination of employment. In addition, the disclosure does not include amounts payable pursuant to the 401(k), deferred compensation, or pension plans, which are disclosed elsewhere in this CD&A. Disclosure of amounts earned during 2013 as base salary, bonuses, and Awards under the 2013 STIP may be found in the "Summary Compensation Table." Pension benefits and deferred compensation arrangements are described in footnote 5 of the "Summary Compensation Table," and under "Nonqualified Deferred Compensation" of this proxy statement, respectively.

The availability of severance payments and continued healthcare and insurance benefits beyond termination of employment is contractually conditioned for each of our Named Executive Officers on their provision to the Company of a release of claims arising from their employment and the termination thereof and their performance of contractual confidentiality, non-solicitation, and non-disparagement obligations contained in their employment or severance agreements with the Company as well as payment of applicable contributions for healthcare and insurance benefits. The payments described in the tables and textual materials that follow are provided for, with respect to Mr. Carlile, by the terms of his Severance Agreement and Retention Award Agreement with the Company; with respect to Messrs. Bell, Lovlien, Rancourt, and Sahlberg, by their Severance Agreements with the Company; and for all such Named Executive Officers, by the terms of the 2013 Incentive Plan. For a description of these contractual arrangements, see "LTIPs (Cash-Based LTIP and 2013 Incentive Plan)" and "Agreements with Named Executive Officers" in CD&A.
