Huaneng Power International, Inc. Huaneng Building, 6 Fuxingmennei Street,

Xicheng District, Beijing, 100031 PRC

An announcement regarding power generation of Huaneng Power International, Inc. (the "Registrant") in 2013, made by the Registrant on January 13, 2014.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

POWER GENERATION WITHIN CHINA INCREASES BY 4.98% IN 2013

This announcement is made pursuant to Rule 13.10B of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") announces its power generation in 2013.

According to the Company's preliminary statistics, as of 31 December 2013, the Company's total power generation by the power plants within China on consolidated basis amounted to 317.481 billion kWh, representing an increase of 4.98% over the same period last year. Total electricity sold by the Company amounted to 300.003 billion kWh, representing an increase of 5.10% over the same period last year. The increase in power generation of the Company was mainly attributable to the following reasons:

- 1. The stable growth of the nationwide and society-wide electricity consumption provided the Company favourable opportunities to increase power generation;
- 2. During the peak season in summer, most regions in China was under continuing high temperature, thus causing the increase of power consumption;
- 3. The Company has enhanced its sales effort to implement the generation plan proactively and to seize the opportunities for power generation, thus achieving an increase in power generation on the same basis.

The power generation and electricity sold by each of the Company's domestic power plants in 2013 are listed below (in billion kWh):
