UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

for the quarterly period ended September 30, 2010

Commission File Number 001-34257

UNITED FIRE & CASUALTY COMPANY
(Exact name of registrant as specified in its charter)

Iowa (State of Incorporation)	42-0644327 (IRS Employer Identification No.)

118 Second Avenue, S.E., Cedar Rapids, Iowa 52407
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (319) 399-5700

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. YES R NO o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).
YES o NO o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer o Accelerated filer R Non-accelerated filer o Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). YES o NO R

As of October 25, 2010, 26,231,509 shares of common stock were outstanding.

United Fire & Casualty Company and Subsidiaries
Notes to Unaudited Consolidated Financial Statements

NOTE 1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

The terms “United Fire,” “we,” “us,” or “our” refer to United Fire & Casualty Company or United Fire & Casualty Company and its consolidated subsidiaries and its affiliate, as the context requires. In the opinion of the management of United Fire, the accompanying unaudited Consolidated Financial Statements contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The results reported for the interim periods are not necessarily indicative of the results of operations that may be expected for the year. The unaudited Consolidated Financial Statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2009. The review report of Ernst & Young LLP as of and for the three- and nine-month periods ended September 30, 2010, accompanies the unaudited Consolidated Financial Statements included in Part I, Item 1 “Financial Statements.”

We maintain our records in conformity with the accounting practices prescribed or permitted by the insurance departments of the states in which we are domiciled. To the extent that certain of these practices differ from U.S. generally accepted accounting principles (“GAAP”), we have made adjustments to present the accompanying unaudited Consolidated Financial Statements in conformity with GAAP.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The financial statement categories that are most dependent on management estimates and assumptions include investments, deferred policy acquisition costs, and future policy benefits and losses, claims and loss settlement expenses.

In the preparation of the accompanying unaudited Consolidated Financial Statements, we have evaluated all material subsequent events or transactions that occurred after the balance sheet date through the date on which the financial statements were issued for potential recognition or disclosure in our unaudited Consolidated Financial Statements.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash, money market accounts, and non-negotiable certificates of deposit with original maturities of three months or less.

For the three-month periods ended September 30, 2010 and 2009, we made payments for income taxes of $3.6 million and $0.5 million, respectively. For the nine-month periods ended September 30, 2010 and 2009, we made income tax payments of $14.1 million and $2.3 million respectively, and received tax refunds of $13.5 million and $10.3 million, respectively, due to overpayment of prior year tax and operating loss carrybacks.

We made no significant payments of interest for the nine-month periods ended September 30, 2010 and 2009, other than for interest credited to policyholders' accounts.

Income Taxes

We reported a Federal income tax expense of $9.0 million (at an effective tax rate of 19.0 percent) and a Federal income tax benefit of $16.2 million for the nine-month periods ended September 30, 2010 and 2009 respectively. Our effective tax rate is less than the Federal statutory rate of 35.0 percent due principally to the effect of tax-exempt municipal bond interest income and non-taxable dividend income.

We have recognized no liability for unrecognized tax benefits for the nine-month periods ended September 30, 2010 and 2009. In addition, we have not accrued for interest and penalties related to unrecognized tax benefits. However,

Table of Contents

if interest and penalties would need to be accrued related to unrecognized tax benefits, such amounts would be recognized as a component of Federal income tax expense.

We file income tax returns in the U.S. Federal jurisdiction and various state jurisdictions. We are no longer subject to U.S. Federal or state income tax examination for years before 2006. There are ongoing examinations of income tax returns by the Internal Revenue Service of the 2008 tax year and by the State of Illinois of the 2007 and 2008 tax years.

Legal Proceedings

We have been named as a defendant in various lawsuits, including actions seeking certification from the court to proceed as a class action suit and actions filed by individual policyholders, relating to disputes arising from damages that occurred as a result of Hurricane Katrina in 2005. As of September 30, 2010, there were approximately 105 individual policyholder cases pending and seven class action cases pending. These cases have been filed in Louisiana state courts and Federal district courts and involve, among other claims, disputes as to the amount of reimbursable claims in particular cases, as well as the scope of insurance coverage under homeowners and commercial property policies due to flooding, civil authority actions, loss of use and business interruption. Certain of these cases also claim a breach of duty of good faith or violations of Louisiana insurance claims-handling laws or regulations and involve claims for punitive or exemplary damages. Other cases claim that under Louisiana's so-called “Valued Policy Law,” the insurers must pay the total insured value of a home that is totally destroyed if any portion of such damage was caused by a covered peril, even if the principal cause of the loss was an excluded peril. Other cases challenge the scope or enforceability of the water damage exclusion in the policies.

Several actions pending against various insurers, including us, were consolidated for purposes of pre-trial discovery and motion practice under the caption In re Katrina Canal Breaches Consolidated Litigation, Civil Action No. 05-4182 in the United States District Court, Eastern District of Louisiana. In August 2009, the Federal trial court ruled in that case that certification of policyholder claims as a class would be inappropriate. This ruling has been appealed by the plaintiff policyholders. Federal court rulings in that case are not binding on state courts, which do not have to follow the Federal court ruling on class certification.

Following an April 2008 Louisiana Supreme Court decision finding that flood damage was clearly excluded from coverage, both state and Federal courts have been reviewing pending lawsuits seeking class certification and other pending lawsuits in order to expedite pre-trial discovery and to move the cases towards trial. In the nine-month period ended September 30, 2010, we concluded 110 of the approximately 215 lawsuits that were pending at December 31, 2009.

In July 2008, Lafayette Insurance Company participated in a hearing in St Bernard Parish, Louisiana after which the court entered an order certifying a class defined as all Lafayette Insurance Company personal lines policyholders within an eight parish area in and around New Orleans who sustained wind damage as a result of Hurricane Katrina and whose claims were at least partially denied or allegedly misadjusted. We appealed this order as we feel it was not supported by the evidence. On October 14, 2009, we were notified that our appeal to the Louisiana Fourth Circuit Court of Appeals was denied. We sought review of this decision by the Louisiana Supreme Court and in September 2010, we argued the appeal to the Court. The case is currently in the briefing stage and we expect a decision before year-end. We have reserved each case included in this class action based on the estimated exposure attributable to our policy. However, if we do not obtain relief in our appeal, we will review and adjust our estimate of recorded reserves if we believe such adjustment is necessary.

We intend to continue to defend the cases related to losses incurred as a consequence of Hurricane Katrina. We have established our loss and loss settlement expense reserves on the assumption that the application of the Valued Policy

Law will not result in our having to pay damages for perils not otherwise covered. We believe that, in the aggregate, these reserves are adequate. However, our evaluation of these claims and the adequacy of recorded reserves may change if we encounter adverse developments in the further defense of these claims.

We consider all of our other litigation pending as of September 30, 2010 to be ordinary, routine, and incidental to

Table of Contents

our business.

Securities Lending

We participate in a securities lending program administered by The Northern Trust Company ("Northern Trust"). The program generates investment income and we receive discounts from Northern Trust on unrelated investment fees. Pursuant to the lending agreement, Northern Trust as our agent, loans certain of our fixed maturity securities to other institutions for short periods of time. Borrowers of these securities must deposit collateral, generally in the form of cash, with Northern Trust that is equal to at least 102% of the market value of the loaned securities, plus accrued interest. Northern Trust marks the loaned securities to market daily at an aggregate level per borrower. As the market value of the loaned securities fluctuates, the borrower either deposits additional collateral or Northern Trust refunds collateral to the borrower in order to maintain the collateral level at 102%. We retain the right to terminate the loan at any time, whereupon the borrower must return the loaned securities to Northern Trust. If the borrower defaults and does not return the securities, Northern Trust will use the deposited collateral to purchase equivalent securities for us. If Northern Trust is unable to purchase equivalent securities, we would receive the deposited collateral in place of the borrowed securities.

Under the accounting guidance for secured borrowing transactions, the collateral deposited by the borrower and our obligation to return that collateral to the borrower is reported in the accompanying Consolidated Balance Sheets as an asset ("securities lending collateral") and a corresponding liability ("securities lending payable") at September 30, 2010. There were no securities on loan under the program at December 31, 2009. At September 30, 2010, we had securities totaling $76.0 million on loan under the program. At September 30, 2010, collateral received and managed by our agent having a fair value of $77.8 million had been reinvested in short-term, highly liquid investments.

Recently Issued Accounting Standards

Adopted Accounting Standards

Fair Value Measurements

In January 2010, the FASB issued revised accounting guidance that clarifies and provides additional disclosure requirements related to recurring and non-recurring fair value measurements. The guidance requires separate disclosures for the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements, along with an explanation for the transfers. Additionally, a separate disclosure is required for purchases, sales, issuances and settlements on a gross basis for Level 3 fair value measurements. The guidance also provides additional clarification for both the level of disaggregation reported for each class of assets or liabilities and disclosures of inputs and valuation techniques used to measure fair value for both recurring and non-recurring fair value measurements for assets and liabilities categorized as Level 2 or Level 3.

The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010. Refer to Note 3 for the information required to be disclosed upon our adoption of the guidance effective January 1, 2010. We are currently evaluating the impact the adoption of the guidance effective January 1, 2011 will have on the disclosures made in our Consolidated Financial Statements.

Table of Contents

Pending Accounting Standards

Financial Services - Insurance

In October 2010, the FASB issued updated guidance to address the diversity in practice for the accounting for costs associated with acquiring or renewing insurance contracts. This guidance modifies the definition of acquisition costs to specify that a cost must be directly related to the successful acquisition of a new or renewal insurance contract in order to be deferred. If application of this guidance would result in the capitalization of acquisition costs that had not previously been capitalized by a reporting entity, the entity may elect not to capitalize those costs. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2011. We are currently evaluating the impact the adoption of the guidance effective January 1, 2012, will have on our Consolidate Financial Statements.

Table of Contents

Maturities

The amortized cost and fair value of held-to-maturity, available-for-sale and trading securities at September 30, 2010, by contractual maturity, are shown in the following table. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Mortgage-backed securities and collateralized mortgage obligations may be subject to prepayment risk and are therefore not categorized by contractual maturity.

(In Thousands)	Held-To-Maturity		Available-For-Sale		Trading	
September 30, 2010	Amortized Cost	Fair Value	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due in one year or less	$450	$454	$223,914	$229,173	$2,825	$2,959
Due after one year through five years	6,068	6,109	1,136,404	1,213,833	1,903	1,982

	$7,081	$7,181	$2,199,862	$2,346,069	$12,494	$13,167

Realized Investment Gains and Losses

We determine the cost of investments sold by the specific identification method. A summary of realized investment gains (losses) resulting from investment sales, calls and impairment charges is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(In Thousands)	2010	2009	2010	2009
Realized investment gains (losses)				
Fixed maturities	$897	$233	$1,759	$(5,268)
Equity securities	121	662	5,030	(11,320)
Trading securities	665	698	(19)	1,537
Mortgage loans	(361)	—	(361)	—
Other long-term investments	—	332	(15)	332
Short-term investments	—	—	—	3
Total realized investment gains (losses)	$1,322	$1,925	$6,394	$(14,716)

For the three- and nine-month periods ended September 30, 2010 and 2009, the proceeds and gross realized gains and losses on the sale of available-for-sale securities were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(In Thousands)	2010	2009	2010	2009
Proceeds from sales	$—	$3,061	$3,402	$11,420
Gross realized gains	—	1,007	1,915	1,007
Gross realized losses	—	346	—	772

There were no sales of held-to-maturity securities during the three-month or nine-month periods ended September 30, 2010 and 2009.

Our investment portfolio includes trading securities with embedded derivatives. These securities, which are primarily convertible redeemable preferred debt securities, are recorded at fair value. Income or loss, including the change in the fair value of these trading securities, is recognized currently in earnings as a component of realized

Table of Contents

investment gains and losses. Our portfolio of trading securities had a fair value of $13.2 million and $12.6 million at September 30, 2010 and December 31, 2009 respectively.

The realized gains (losses) attributable to the change in fair value during the reporting period of trading securities held at September 30, 2010 and 2009 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(In Thousands)	2010	2009	2010	2009
Trading				
Realized gains	$681	$579	$—	$1,394
Realized losses	—	—	215	—

Off-Balance Sheet Arrangements

Pursuant to an agreement with one of our limited liability partnership holdings, we are contractually committed to make capital contributions up to $15.0 million, upon request by the partnership, through December 31, 2017. As of September 30, 2010, our remaining potential contractual obligation was $11.9 million.

Unrealized Appreciation and Depreciation

A summary of changes in net unrealized investment appreciation is as follows:

	Nine Months Ended September 30,	
(In Thousands)	2010	2009
Change in net unrealized investment appreciation		
Available-for-sale fixed maturities and equity securities	$67,113	$158,671
Deferred policy acquisition costs	(19,133)	(64,806)
Income tax effect	(16,793)	(32,997)
Total change in net unrealized appreciation, net of tax	$31,187	$60,868

We continually monitor the difference between our cost basis and the estimated fair value of our investments. Our accounting policy for impairment recognition requires other-than-temporary-impairment ("OTTI") charges to be recorded when we determine that it is more likely than not that we will be unable to collect all amounts due according to the contractual terms of the fixed maturity security or that the anticipated recovery in fair value of the equity security will not occur in a reasonable amount of time. Impairment charges on investments are recorded based on the fair value of the investments at the measurement date. Factors considered in evaluating whether a decline in value is other-than-temporary include: the length of time and the extent to which fair value has been less than cost; the financial condition and near-term prospects of the issuer; our intention to hold the investment; and the likelihood that we will be required to sell the investment.

The tables on the following pages summarize our fixed maturity and equity securities that were in an unrealized loss position at September 30, 2010 and December 31, 2009. The securities are presented by the length of time they have been continuously in an unrealized loss position. It is possible that we could recognize OTTI charges in future periods on securities held at September 30, 2010, if future events or information cause us to determine that a decline in fair value is other-than-temporary.

We believe the unrealized depreciation in value of our fixed maturity portfolio is primarily attributable to changes in market interest rates and not the credit quality of the issuer. We have no intent to sell and it is more likely than not that we will not be required to sell the securities until such time that the fair value recovers or the securities mature.

We have evaluated the unrealized losses reported for all of our equity securities at September 30, 2010, and have concluded that the duration and severity of these losses do not warrant the recognition of an OTTI charge at September 30, 2010. Our largest unrealized loss greater than 12 months on an individual equity security at

Table of Contents

September 30, 2010 was $0.2 million. We have no intention to sell any of these securities prior to a recovery in value, but will continue to monitor the fair value reported for these securities as part of our overall process to evaluate investments for OTTI recognition.

NOTE 3. FAIR VALUE OF FINANCIAL INSTRUMENTS

We estimate the fair value of our financial instruments based on relevant market information or by discounting estimated future cash flows at estimated current market discount rates appropriate to the specific asset or liability.

In most cases, we use quoted market prices to determine the fair value of fixed maturities, equity securities, trading securities and short-term investments. When quoted market prices do not exist, we base fair values on pricing or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement of the financial instrument. Such inputs may reflect management's own assumptions about the assumptions a market participant would use in pricing the financial instrument.

We base the estimated fair value of mortgage loans on discounted cash flows, utilizing the market rate of interest for similar loans in effect at the valuation date.

The estimated fair value of policy loans is equivalent to carrying value. We do not make policy loans for amounts in excess of the cash surrender value of the related policy. In all instances, the policy loans are fully collateralized by the related liability for future policy benefits for traditional insurance policies or by the policyholders' account balance for interest-sensitive policies.

Our other long-term investments consist primarily of holdings in limited liability partnership funds that are valued by the various fund managers and are recorded on the equity method of accounting. In management's opinion, these values represent fair value.

For cash and cash equivalents and accrued investment income, carrying value is a reasonable estimate of fair value due to its short-term nature.

We calculate the fair value of the liabilities for all annuity products based upon the estimated value of the business, using current market rates and forecast assumptions and risk-adjusted discount rates, when relevant observable market data does not exist.

A summary of the carrying value and estimated fair value of our financial instruments at September 30, 2010 and December 31, 2009 is as follows:

Table of Contents

	September 30, 2010		December 31, 2009

Annuity (benefit payments)	87,219	84,379	85,336	77,025

FASB guidance on fair value measurements includes the application of a fair value hierarchy that requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Our financial instruments are categorized into a three-level hierarchy, which is based upon the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

Financial instruments recorded at fair value are categorized in the fair value hierarchy as follows:

Level 1: Valuations are based on unadjusted quoted prices in active markets for identical financial instruments that we have the ability to access.

Level 2: Valuations are based on quoted prices for similar financial instruments, other than quoted prices included in Level 1, in markets that are not active or on inputs that are observable either directly or indirectly for the full term of the financial instrument.

Level 3: Valuations are based on pricing or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement of the financial instrument. Such inputs may reflect management's own assumptions about the assumptions a market participant would use in pricing the financial instrument.

Transfers between levels, if any, are recorded as of the beginning of the reporting period.

To determine the fair value of the majority of our investments, we utilize prices obtained from independent, nationally recognized pricing services. We obtain one price for each security. When the pricing services cannot provide a determination of fair value for a specific security, we obtain non-binding price quotes from broker-dealers with whom we have had several years experience and who have demonstrated knowledge of the subject security. We request and utilize one broker quote per security.

We validate the prices obtained from pricing services and brokers prior to their use for reporting purposes by evaluating their reasonableness on a monthly basis. Our validation process includes a review for unusual

Table of Contents

fluctuations. In our opinion, the pricing obtained at September 30, 2010, was reasonable.

In order to determine the proper classification in the fair value hierarchy for each security where the price is obtained from an independent pricing service, we obtain and evaluate the vendors' pricing procedures and inputs used to price the security, which include unadjusted quoted market prices for identical securities, such as a New York Stock Exchange closing price and quoted prices for identical securities in markets that are not active. For fixed maturity securities, an evaluation of interest rates and yield curves observable at commonly quoted intervals, volatility, prepayment speeds, credit risks, and default rates may also be performed. We have determined that these processes and inputs result in fair values and classifications consistent with the applicable FASB guidance on fair value measurements.

We review our fair value hierarchy categorizations on a quarterly basis at which time the classification of certain financial instruments may change if the input observations have changed.

The following tables present the categorization for our financial instruments measured at fair value on a recurring basis in our Consolidated Balance Sheets at September 30, 2010 and December 31, 2009:

Table of Contents

The fair value of securities that are categorized as Level 1 is based on quoted market prices that are readily and regularly available.

The fair value of securities that are categorized as Level 2 is determined by management after reviewing market prices obtained from independent pricing services and brokers. Such estimated fair values do not necessarily represent the values for which these securities could have been sold at the reporting date. Our independent pricing services and brokers obtain prices from reputable pricing vendors in the marketplace. They continually monitor and review the external pricing sources, while actively participating to resolve any pricing issues that may arise.

For the nine-month period ended September 30, 2010, the change in our securities categorized as Level 1 and Level 2, since December 31, 2009, is the result of investment purchases made during the period, which is reflected in the amount of funds held in our money markets at September 30, 2010 as compared to December 31, 2009, as these funds were utilized to purchase fixed maturity securities. Also contributing to the change was an increase in the unrealized appreciation on available-for-sale securities since December 31, 2009. There were no significant transfers of securities in or out of Level 1 or Level 2 during the period.

Securities that may be categorized as Level 3 include holdings in certain private placement fixed maturity and equity securities and certain other securities that were determined to be other-than-temporarily impaired in a prior period and for which an active market does not currently exist.

The fair value of our Level 3 private placement securities is determined by management relying on pricing received from our independent pricing services and brokers consistent with the estimated fair value for Level 2 securities.

The fair value of our Level 3 impaired securities was determined primarily based upon management's assumptions regarding the timing and amount of future cash inflows. If a security has been written down or the issuer is in bankruptcy, management relies in part on outside opinions from rating agencies, our lien position on the security, general economic conditions and management's expertise to determine fair value. We have the ability and the positive intent to hold securities until such time that we are able to recover all or a portion of our original investment. If a security does not have a market at the balance sheet date, management will estimate the security's fair value based on other securities in the market. Management will continue to monitor securities after the balance sheet date to confirm that their estimated fair value is reasonable.

The following table provides a summary of the changes in fair value of our Level 3 securities for the three-month period ended September 30, 2010:

(In Thousands)	States, municipalities and political subdivisions	Foreign bonds	Public utilities	Corporate bonds	Total
Balance at June 30, 2010	$1,056	$1,394	$35	$25,721	$28,206
Realized gains (1)	—	—	—	—	—
Unrealized gains (1)	—	—	—	107	107
Amortization	—	—	—	—	—
Purchases	—	—	—	7	7
Disposals	—	—	—	(304)	(304)
Transfers in	—	—	—	—	—
Transfers out	—	—	—	—	—
Balance at September 30, 2010	$1,056	$1,394	$35	$25,531	$28,016

(1) Realized gains are recorded as a component of current operations whereas unrealized gains are recorded as a component of comprehensive income.

The amount reported in the previous table as “disposals,” included $0.3 million of corporate bonds where there is an unobservable price at September 30, 2010.

Table of Contents

The following table provides a summary of the changes in fair value of our Level 3 securities for the nine-month period ended September 30, 2010:

(In Thousands)	States, municipalities and political subdivisions	Foreign bonds	Public utilities	Corporate bonds	Short-term investments	Total
Balance at December 31, 2009	$1,110	$1,394	$70	$27,885	$254	$30,713
Realized gains (1)	—	—	—	—	—	—
Unrealized gains (losses) (1)	—	—	(1)	210	—	209
Amortization	—	—	—	—	—	—
Purchases	—	—	—	7	—	7
Disposals	(54)	—	(34)	(2,825)	—	(2,913)
Transfers in	—	—	—	254	—	254
Transfers out	—	—	—	—	(254)	(254)
Balance at September 30, 2010	$1,056	$1,394	$35	$25,531	$—	$28,016

(1) Realized gains are recorded as a component of current operations whereas unrealized gains (losses) are recorded as a component of comprehensive income.

The $2.9 million reported in the previous table as “disposals” included $1.9 million of corporate bonds that were called as a result of debt restructuring by the issuer. Of the $1.9 million, $0.3 million were short-term investments that were transferred to corporate bonds as a result of the restructuring. The remaining $1.0 million in disposals relates to the receipt of principal on private placement bonds, in accordance with the indentures.

NOTE 4. EMPLOYEE BENEFITS

Pension and Postretirement Periodic Benefit Expense

The following tables summarize the components of our net periodic benefit cost recognized in the consolidated statements of income for the pension and postretirement benefit plans.

(In Thousands)	Pension Plan		Postretirement Benefit Plan	
Three Months Ended September 30,	2010	2009	2010	2009

Net Periodic Benefit Cost:				
Service cost	$2,140	$2,060	$1,136	$1,010
Interest cost	3,426	3,163	1,075	917
Expected return on plan assets	(3,394)	(3,002)	—	—
Amortization of unrecognized:				
Prior service cost	8	56	(40)	(41)
Net actuarial loss	1,636	1,808	53	—
Net benefit expense	$3,816	$4,084	$2,224	$1,886

Employer Contributions

We previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2009 that we expected to contribute $3.0 million to the pension plan in 2010. For the nine-month period ended September 30, 2010, we contributed $2.6 million to the pension plan. We anticipate that the total contribution for the 2010 plan year will not vary significantly from the expected contribution.

NOTE 5. STOCK-BASED COMPENSATION

Non-qualified Employee Stock Award Plan

The United Fire & Casualty Company 2008 Stock Plan (the “2008 Stock Plan”) authorizes the issuance of restricted stock awards, stock appreciation rights, incentive stock options, and non-qualified stock options for up to 1,900,000 shares of United Fire common stock to employees, with 823,805 authorized shares available for future issuance at September 30, 2010. The 2008 Stock Plan is administered by the Board of Directors, which determines those employees that will receive awards, when awards will be granted, and the terms and conditions of the awards. The Board of Directors may also take any action it deems necessary and appropriate for the administration of the 2008 Stock Plan. Pursuant to the 2008 Stock Plan, the Board of Directors may, in its sole discretion, grant awards to employees of United Fire or any of its affiliated companies who are in positions of substantial responsibility with United Fire.

Option awards granted pursuant to the 2008 Stock Plan are granted to buy shares of United Fire's common stock at the market value of the stock on the date of grant. All outstanding option awards vest and are exercisable in installments of 20.0 percent of the number of shares covered by the option award each year from the grant date, unless the Board of Directors authorizes the acceleration of vesting. To the extent not exercised, vested option awards accumulate and are exercisable by the awardee, in whole or in part, in any subsequent year included in the option period, but not later than 10 years from the grant date. Restricted stock awards granted pursuant to the 2008 Stock Plan fully vest after five years from the date of issuance, unless accelerated upon the approval of the Board of Directors, at which time United Fire common stock will be issued to the awardee. Restricted stock awards are generally granted free of charge to the eligible employees of United Fire as designated by the Board of Directors.

The activity in the 2008 Stock Plan is displayed in the following table.

Authorized Shares Available for Future Award Grants	Nine Months Ended September 30, 2010	Inception to Date
Beginning balance	919,525	1,900,000

Number of awards granted	(114,070)	(1,139,045)
Number of awards forfeited or expired	18,350	62,850
Ending balance	823,805	823,805
Number of option awards exercised	250	167,292
Number of restricted stock awards vested	—	—

Table of Contents

Non-qualified Non-employee Director Stock Option and Restricted Stock Plan

We have a non-employee director stock option and restricted stock plan that authorizes United Fire to grant restricted stock and non-qualified stock options to purchase 150,000 shares of United Fire's common stock with 37,003 options available for future issuance at September 30, 2010. The Board of Directors has the authority to determine which non-employee directors receive awards, when options and restricted stock shall be granted, the option price, the option expiration date, the date of grant, the vesting schedule of options or whether the options shall be immediately vested, the terms and conditions of options and restricted stock (other than those terms and conditions set forth in the plan) and the number of shares of common stock to be issued pursuant to an option agreement or restricted stock agreement. The Board of Directors may also take any action it deems necessary and appropriate for the administration of the plan.

The activity in our non-employee director stock option and restricted stock plan is displayed in the following table.

Authorized Shares Available for Future Award Grants	Nine Months Ended September 30, 2010	Inception to Date
Beginning balance	70,003	150,000
Number of awards granted	(33,000)	(119,000)
Number of awards forfeited or expired	—	6,003
Ending balance	37,003	37,003
Number of awards exercised	—	—

Stock-Based Compensation Expense

For each of the three-month periods ended September 30, 2010 and 2009, we recognized stock-based compensation expense of $0.4 million. For the nine-month periods ended September 30, 2010 and 2009, we recognized stock-based compensation expense of $1.3 million, and $1.7 million respectively. As of September 30, 2010, we had $3.7 million in stock-based compensation expense that has yet to be recognized through our results of operations. We expect this compensation to be recognized over the remainder of 2010 and subsequent years according to the following table, except with respect to awards that are accelerated by the Board of Directors, in which case we will recognize any remaining compensation expense in the period in which the awards are accelerated.

(In Thousands)	
2010	$438
2011	1,399
2012	989
2013	548
2014	314
2015	33
Total	$3,721

NOTE 6. SEGMENT INFORMATION

We have two reportable business segments in our operations: property and casualty insurance and life insurance. The property and casualty insurance segment has three domestic locations from which it conducts its business. All offices target a similar customer base, market the same products and use the same marketing strategies and are therefore aggregated. The life insurance segment operates from our home office. Because all of our insurance is sold domestically, we have no revenues allocable to foreign operations.

We evaluate the two segments on the basis of both statutory accounting practices prescribed by our states of

Table of Contents

domicile and GAAP. We analyze results based on profitability (i.e., loss ratios), investment results, expenses, and return on equity. The basis we use to determine and analyze segments and to measure segment profit or loss have not changed from that reported in our Annual Report on Form 10-K for the year ended December 31, 2009.

The following tables for the three-month periods ended September 30, 2010 and 2009, have been reconciled to the amounts reported in our unaudited Consolidated Financial Statements to adjust for intersegment eliminations.

NOTE 7. EARNINGS PER COMMON SHARE

Basic earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding during the reporting period. Diluted earnings per share gives effect to all dilutive common shares outstanding during the reporting period. The dilutive shares we consider in our diluted earnings per share calculation relate to our outstanding stock options and restricted stock awards.

We determine the dilutive effect of our outstanding stock options using the “treasury stock” method. Under this method, we assume the exercise of all of the outstanding stock options whose exercise price is less than the weighted-average fair market value of our common stock during the reporting period. This method also assumes that the proceeds from the hypothetical stock option exercises are used to repurchase shares of our common stock at the weighted-average fair market value of the stock during the reporting period. The net of the assumed stock options exercised and assumed common shares repurchased represents the number of dilutive common shares which we add to the denominator of the earnings per share calculation.

The components of basic and diluted earnings (loss) per share were as follows for the three-month periods ended September 30, 2010 and 2009:

Table of Contents

	Three Months Ended September 30,			
(In Thousands Except Per Share Data)	2010		2009	
	Basic	Diluted	Basic	Diluted
Net income (loss)	$3,640	$3,640	$(10,156)	$(10,156)
Weighted-average common shares outstanding	26,279	26,279	26,592	26,592
Add dilutive effect of restricted stock awards	—	19	—	—
Add dilutive effect of stock options	—	26	—	—
Weighted-average common shares for EPS calculation	26,279	26,324	26,592	26,592
Earnings (loss) per common share	$0.14	$0.14	$(0.38)	$(0.38)
Awards excluded from diluted EPS calculation(1)	—	812	—	923

(1) Outstanding awards excluded from the diluted earnings per share calculation because the effect of including them would have been anti-dilutive.

The components of basic and diluted earnings (loss) per share were as follows for the nine-month periods ended September 30, 2010 and 2009:

	Nine Months Ended September 30,			
(In Thousands Except Per Share Data)	2010		2009	
	Basic	Diluted	Basic	Diluted
Net income (loss)	$38,426	$38,426	$(12,220)	$(12,220)
Weighted-average common shares outstanding	26,356	26,356	26,599	26,599
Add dilutive effect of restricted stock awards	—	19	—	—
Weighted-average common shares for EPS calculation	26,356	26,375	26,599	26,599
Earnings (loss) per common share	$1.46	$1.46	$(0.46)	$(0.46)
Awards excluded from diluted EPS calculation(1)	—	812	—	923

(1) Outstanding awards excluded from the diluted earnings per share calculation because the effect of including them would have been anti-dilutive.

NOTE 8. COMPREHENSIVE INCOME

Comprehensive income includes all changes in stockholders' equity during the reporting period except those resulting from investments by stockholders and dividends to stockholders.

The following table sets forth the components of our comprehensive income and the related tax effects for the three-month periods ended September 30, 2010 and 2009.

	Three Months Ended September 30,	
(In Thousands)	2010	2009
Net income (loss)	$3,640	$(10,156)
Other comprehensive income		
Change in net unrealized appreciation on investments	36,352	64,841
Adjustment for net realized gains included in income	(1,322)	(1,925)
Adjustment for costs included in employee benefit expense	588	609
Other comprehensive income, before tax	35,618	63,525
Income tax effect	(12,465)	(22,235)
Other comprehensive income, after tax	23,153	41,290

Comprehensive income	$26,793	$31,134

The following table sets forth the components of our comprehensive income and the related tax effects for the nine-month periods ended September 30, 2010 and 2009.

Table of Contents

	Nine Months Ended September 30,	
(In Thousands)	2010	2009
Net income (loss)	$38,426	$(12,220)

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders of
United Fire & Casualty Company

We have reviewed the consolidated balance sheet of United Fire & Casualty Company as of September 30, 2010, and the related consolidated statements of income for the three-month and nine-month periods ended September 30, 2010 and 2009, the consolidated statements of cash flows for the nine-month periods ended September 30, 2010 and 2009, and the consolidated statement of stockholders' equity for the nine-month period ended September 30, 2010. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of United Fire & Casualty Company as of December 31, 2009, and the related consolidated statements of income, stockholders' equity, and cash flows for the year then ended, not presented herein, and in our report dated March 1, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2009, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about our operations, anticipated performance and other similar matters. The Private Securities Litigation Reform Act of 1995 provides a safe harbor under the Securities Act of 1933 and the Securities Exchange Act of 1934 for forward-looking statements. The forward-looking statements are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and/or projected. Such forward-looking statements are based on current expectations, estimates, forecasts and projections about our company, the industry in which we operate, and beliefs and assumptions made by management. Words such as “expect(s),” “anticipate(s),” “intend(s),” “plan(s),” “believe(s),” “continue(s),” “seek(s),” “estimat “goal(s),” “target(s),” “forecast(s),” “project(s),” “predict(s),” “should,” “could,” “may,” “will continue,” “might,” “hope,” “ca words and terms of similar meaning or expression in connection with a discussion of future operations, financial performance or financial condition, are intended to identify forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed in such forward-looking statements. Information concerning factors that could cause actual results to differ materially from those in the forward-looking statements is contained in Part II Item 1A “Risk Factors” of this document. Among the factors that could cause our actual outcomes and results to differ are:

- The adequacy of our loss and loss settlement reserves established for Hurricane Katrina which are based on management estimates.
- The resolution of regulatory issues and litigation pertaining to and arising out of Hurricane Katrina.
- The frequency and severity of claims, including those related to catastrophe losses, and the impact those claims have on our loss reserve adequacy.
- Developments in the domestic and global financial markets that could affect our investment portfolio and financing plans.
- The valuation of invested assets.
- The calculation and recovery of deferred policy acquisition costs (“DAC”).
- The valuation of pension and other postretirement benefit obligations.
- The absolute and relative performance of our products or services.
- Our relationship with our agents.
- Our relationship with our reinsurers.
- The financial strength rating of our reinsurers.
- The increased costs and risk associated with the security of our data.
- Changes in industry trends and significant industry developments.

- Governmental actions, policies or regulations, including, but not limited to, domestic health care reform, financial services regulatory reform, corporate governance, new laws or regulations or court decisions interpreting existing laws and regulations or policy provisions.

Table of Contents

- NASDAQ policies or regulations relating to corporate governance and the cost to comply.

These are representative of the risks, uncertainties, and assumptions that could cause actual outcomes and results to differ materially from what is expressed in forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date of this report or as of the date they are made. Except as required under the federal securities laws and the rules and regulations of the Securities and Exchange Commission, we do not have any intention or obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.

CRITICAL ACCOUNTING ESTIMATES

Critical accounting estimates are defined as those that are reflective of significant judgments and uncertainties and that potentially may result in materially different results under different assumptions and conditions. Our discussion and analysis of our results of operations and financial condition is based upon our Consolidated Financial Statements, which we have prepared in accordance with GAAP. As we prepare these financial statements, we must make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. We evaluate our estimates on an ongoing basis. We base our estimates on historical experience and on other assumptions that we believe to be reasonable under the circumstances. Actual results could differ from those estimates. Our critical accounting estimates are: the valuation of investments; the valuation of reserves for losses, claims, and loss settlement expenses; the valuation of reserves for future policy benefits; and the calculation of the deferred policy acquisition costs asset. These critical accounting estimates are more fully described in our Management's Discussion and Analysis of Results of Operations and Financial Condition presented in our Annual Report on Form 10-K for the year ended December 31, 2009.

INTRODUCTION

The purpose of the Management's Discussion and Analysis is to provide an understanding of our results of operations and consolidated financial position. Our Management's Discussion and Analysis should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2009. When we provide information on a statutory basis, we label it as such, otherwise, all other data is presented in accordance with GAAP.

This discussion and analysis is presented in these sections:

- Our Business
- Executive Summary
- Consolidated Financial Highlights
- Results of Operations for Property and Casualty Insurance, Life Insurance and Investment Portfolio
- Liquidity and Capital Resources
- Statutory Financial Measures

OUR BUSINESS

Founded in 1946, United Fire & Casualty Company provides insurance protection for individuals and businesses through several regional companies. We are represented by approximately 800 independent property and casualty insurance agencies and more than 975 independent life insurance agencies throughout the country, predominantly in the Midwest, West and South.

Table of Contents

We operate two business segments with a wide range of products:

- property and casualty insurance, which includes commercial insurance, personal insurance, surety bonds and assumed insurance;
- life insurance, which includes deferred and immediate annuities, universal life products and traditional life (primarily single premium whole life insurance) products.

These business segments are managed separately, as they generally do not share the same customer base, and they each have different products, pricing, and expense structures.

For the nine months ended September 30, 2010, property and casualty business accounted for nearly 90.0 percent of our net premiums earned, with approximately 91.0 percent from commercial lines. Life insurance business made up approximately 10.0 percent of our net premiums earned, with over 61.0 percent from traditional life insurance products.

We do not expect the current composition of property and casualty insurance and life insurance to change materially during the remainder of 2010.

For the nine months ended September 30, 2010, more than half of our property and casualty premiums were written in Iowa, Texas, Missouri, Louisiana, and Illinois; and over three-fourths of our life insurance premiums were written in Iowa, Wisconsin, Illinois, Nebraska, and Minnesota.

We evaluate segment profit or loss based upon operating and investment results. Segment profit or loss described in the following sections of the Management's Discussion and Analysis is reported on a pre-tax basis.

Our primary sources of revenue are premiums and investment income. Major categories of expenses include losses and loss settlement expenses, changes in reserves for future policy benefits, operating expenses and interest on policyholders' accounts.

The profitability of our company is influenced by many factors including price competition, economic conditions, interest rates, weather-related events, and other catastrophes, such as natural disasters (e.g., hurricanes and tornadoes) and manmade disasters, state regulations, court decisions, and changes in the law. Management believes that climate change will not have a material impact on our profitability.

To manage these risks and uncertainties, we maintain a conservative approach to our business operations, focusing on writing good business at an adequate price and preferring quality to volume. Our goal is to achieve consistent profitability through disciplined underwriting, superior loss control services, fair and ethical claims handling, exceptional customer service, efficient and effective technology and strong agency relationships.

Table of Contents

The following is a summary of our financial performance for the three-month and nine-month periods ended September 30, 2010.

Consolidated Results of Operations

- Net income was $3.6 million in the third quarter of 2010 compared with net loss of $10.2 million in the third quarter of 2009. The quarter-over-quarter improvement is largely attributable to the improvement in our noncatastrophe claims and a significant reduction in our losses related to Hurricane Katrina claims litigation.
- For the nine months ended September 30, 2010, net income was $38.4 million versus a net loss of $12.2 million in the nine months ended September 30, 2009. The year-over-year improvement is due to the significant reduction in OTTI charges in 2010 and the lower level of losses and loss settlement expenses as a result of our noncatastrophe claims experience and a reduction in our losses related to Hurricane Katrina claims litigation.
- Net premiums written for the property and casualty segment decreased 2.1 percent in the third quarter of 2010 and 3.9 percent in the first nine months of 2010, as compared with the same periods of 2009. The lingering effects of the recession impacted the economy, as well as our current and potential policyholders.
- Deferred annuity deposits decreased 36.7 percent in the third quarter of 2010 and 59.6 percent in the first nine months of 2010, as compared with the same periods of 2009. In the third quarter and first nine months of 2010, deferred annuity sales decreased as some consumers are choosing to surrender their annuities and return their funds to the marketplace, accepting greater risk for potentially greater returns, while other consumers have experienced a reduction in their discretionary income. Deferred annuity deposits are not recorded as a component of net premiums written or net premiums earned; however, they do generate investment income.
- Our combined ratio improved to 109.3 percent in the third quarter of 2010, from 131.0 percent in the third quarter of 2009. For the nine months ended September 30, 2010, our combined ratio was 98.5 percent versus 115.6 percent for the nine months ended September 30, 2009.
- We had $2.2 million in adverse development from Hurricane Katrina claims litigation in the third quarter of 2010, compared with $25.9 million in the third quarter of 2009. We experienced some development of Hurricane Katrina claims litigation due to an increase in settlement demands, based on uncertainty in the law relating to penalties on an award, and an increased obligation for statutory interest. For the nine months ended September 30, 2010, losses and loss settlement expenses related to Hurricane Katrina were $7.6 million, compared to $38.3 million in the first nine months of 2009.

Consolidated Financial Condition

- Net cash inflow related to our annuity business was $5.9 million in the third quarter of 2010 and $4.3 million in the first nine months of 2010 versus a net cash inflow of $26.2 million in the third quarter of 2009 and $82.8 million in the first nine months of 2009. The lower level of net cash inflows is attributable to the decline in annuity deposits.
- In the third quarter of 2010, United Fire repurchased 91,510 shares of our common stock for $1.8 million at an average cost of $19.87 per share. In the first nine months of 2010, we repurchased 304,586 shares of our common stock for $5.5 million at an average cost of $18.08 per share. As of September 30, 2010, the book value per share of our common stock was $27.73, and we were authorized to purchase an additional 211,568 shares of common stock under our share repurchase program which expires in August 2011.
-

Net unrealized investment gains totaled $113.7 million as of September 30, 2010, an increase of $31.2 million or 37.8 percent since December 31, 2009. This increase reflects the appreciation in the

Table of Contents

market value of our fixed maturity securities even as interest rates remain historically low. Also contributing is an increase in the value of our equity securities.

- Our stockholders' equity increased to $727.4 million at September 30, 2010, from $672.7 million at December 31, 2009.
- Book value increased by $2.38 per share to $27.73 per share as of September 30, 2010, from $25.35 per share at December 31, 2009. The change in 2010 is attributable to a significant increase in our net income as well as the rise in our net unrealized investment gains, net of tax.

RESULTS OF OPERATIONS

Income (loss) before income taxes	$(649	)	$(23,663	)	$32,927		$(33,359	)
GAAP Ratios:								
Net loss ratio (without catastrophes)	72.3	%	68.7	%	61.4	%	67.4	%
Hurricane Katrina litigation - effect on net loss ratio	2.1		23.6		2.4		11.7	
Other catastrophes - effect on net loss ratio	4.4		8.6		4.9		6.0	
Net loss ratio	78.8	%	100.9	%	68.7	%	85.1	%
Expense ratio (2) (3)	30.5		30.1		29.8		30.5	
Combined ratio	109.3	%	131.0	%	98.5	%	115.6	%

(1) The Statutory Financial Measures section of this report defines data prepared in accordance with statutory accounting practices which is a comprehensive basis of accounting other than U.S. GAAP.
(2) Includes policyholder dividends.
(3) We have excluded disaster charges and other related expenses, net of recoveries, from the GAAP expense ratio. These charges resulted from flood damage at our home office and hurricane damage at our Gulf Coast regional office in 2008. There were no charges in the third quarter of 2010 compared with $(793,475) in the third quarter of 2009. In

the first nine months of 2010, charges totaled $(16,376) compared to $(1,339,158) in the first nine months of 2009.

- Net premiums written declined in both the third quarter of 2010 and the first nine months of 2010, compared to the same periods of the prior year. The lingering effects of the recession are still being felt throughout the economy and by our current and potential commercial policyholders. The soft pricing

Table of Contents

environment in the insurance industry also continues to impact our business, with our premium level at its lowest point in five years. During the third quarter of 2010, we slightly reduced our commercial lines renewal pricing levels in order to retain quality accounts, while new business pricing remained unchanged, allowing us to still compete on and write quality accounts. However, we have been successful in achieving slight increases in our personal lines rates. During the third quarter and the first nine months of 2010, we retained approximately 80 percent of both our personal and commercial lines book of business, in line with our retention goals.

- Losses and loss settlement expenses decreased 24.5 percent in the third quarter of 2010 and 22.9 percent in the first nine months of 2010, as compared with the same periods in 2009. This is due to an improvement year-to-date in our noncatastrophe claims experience and a reduction in our losses related to Hurricane Katrina claims litigation:

- Noncatastrophe claims experience - our claims frequency decreased slightly in the first nine months of 2010, as compared with the same prior-year period, even after adjusting for exposure levels. Declining frequencies is a trend in the industry that we believe will not continue indefinitely. We also experienced a slight decrease in claims severity in the first nine months of 2010, as compared with the same period of 2009.

- Hurricane Katrina - we had $2.2 million in adverse development from Hurricane Katrina claims litigation in the third quarter of 2010, compared with $25.9 million in the third quarter of 2009. In the first nine months of 2010, losses and loss settlement expenses related to Hurricane Katrina were $7.6 million versus $38.3 million in the first nine months of 2009.

- Other underwriting expenses decreased 7.0 percent in the third quarter of 2010 and 11.9 percent in the first nine months of 2010, as compared with the same periods in 2009. The decrease in net premiums written and the improvement in our losses and loss settlement expenses resulted in a reduction in the amortization of our deferred acquisition costs asset.

- GAAP combined ratio improved by 21.7 percentage points in the third quarter of 2010 and 17.1 percentage points in the first nine months of 2010, as compared with the same prior-year periods. This is due primarily to the change in the loss ratio because of the aforementioned decrease in our losses and loss settlement expenses.

For a detailed discussion of our consolidated investment results, refer to the “Investment Portfolio” section of this item.

The following tables display our premiums earned, losses and loss settlement expenses and loss ratio by line of business for the three-month periods ended September 30, 2010 and 2009.

Table of Contents

Total	$106,174	$83,610	78.8 %	$109,749	$110,738	100.9 %

(1) “Other liability” is business insurance covering bodily injury and property damage arising from general business operations, accidents on the insured's premises, and products manufactured or sold.
(2) “Fire and allied lines” includes fire, allied lines, commercial multiple peril, and inland marine.
(3) “Fire and allied lines” includes fire, allied lines, homeowners, and inland marine.

Table of Contents

The following tables display our premiums earned, losses and loss settlement expenses and loss ratio by line of business for the nine-month periods ended September 30, 2010 and 2009.

Nine Months Ended September 30,								
	2010				2009			
(In Thousands) Unaudited	Premiums Earned	Losses and Loss Settlement Expenses Incurred	Loss Ratio		Premiums Earned	Losses and Loss Settlement Expenses Incurred	Loss Ratio	
Commercial lines								
Other liability	$85,056	$58,644	68.9	%	$90,973	$72,658	79.9	%
Fire and allied lines	73,754	60,967	82.7		77,068	96,371	125.0	
Automobile	69,732	49,320	70.7		73,523	52,234	71.0	
Workers' compensation	34,305	19,899	58.0		39,359	30,188	76.7	
Fidelity and surety	13,969	2,757	19.7		15,597	735	4.7	
Miscellaneous	597	76	12.7		642	165	25.7	
Total commercial lines	$277,413	$191,663	69.1	%	$297,162	$252,351	84.9	%
Personal lines								
Fire and allied lines	$18,317	$11,023	60.2	%	$16,431	$14,741	89.7	%
Automobile	10,818	9,265	85.6		9,594	8,804	91.8	
Miscellaneous	324	(219)	(67.6)		266	304	114.3	
Total personal lines	$29,459	$20,069	68.1	%	$26,291	$23,849	90.7	%
Reinsurance assumed	$6,677	$3,759	56.3	%	$4,968	$3,211	64.6	%
Total	$313,549	$215,491	68.7	%	$328,421	$279,411	85.1	%

- Other liability - The loss ratio deteriorated 14.3 percentage points to 94.2 percent in the three months ended September 30, 2010, from 79.9 percent in the three months ended September 30, 2009. For the nine months ended September 30, 2010 the loss ratio improved 11.0 percentage points to 68.9 percent, from 79.9 percent in the nine months ended September 30, 2009. The deterioration in our loss ratio for the quarter was due to several large losses; some of the losses occurred in 2010, while some of the losses resulted from developments on losses from prior years. The improvement in our year-to-date loss ratio is due to a slight decrease in severity and frequency as well as a reduction in our noncatastrophe claims experience.

- Fire and allied lines (Commercial) - The loss ratio improved 96.6 percentage points to 87.1 percent in the three months ended September 30, 2010, from 183.7 percent in the three months ended September 30, 2009. For the nine months ended September 30, 2010, the loss ratio improved 42.3 percentage points to 82.7 percent from 125.0 percent in the nine months ended September 30, 2009. In 2009, we incurred significant losses related to Hurricane Katrina claims litigation in both the quarter and year-to-date.

- Workers' compensation - The loss ratio deteriorated 2.5 percentage points to 70.8 percent in the three months ended September 30, 2010, from 68.3 percent in the three months ended September 30, 2009. For the nine months ended September 30, 2010, the loss ratio improved 18.7 percentage points to 58.0 percent from 76.7 percent in the nine months ended September 30, 2009. The improvement in this line is due to the normal fluctuations that generally occur in the workers' compensation line of business.

Other underwriting expenses	2,962	2,429	8,828	6,959
Interest on policyholders' accounts	10,923	10,630	32,371	30,799
Total Benefits, Losses and Expenses	$29,313	$26,312	$84,679	$73,295
Income Before Income Taxes	$3,244	$5,074	$14,530	$4,901

As part of our long-term strategy for profitability, we are emphasizing the marketing of our traditional life insurance products, primarily single premium whole life, to our independent life insurance agents to achieve a more balanced product mix. Sales growth of our single premium whole life product is the primary reason for the following increases:

- Net premiums earned increased 17.9 percent in the third quarter of 2010 and 22.0 percent in the first nine months of 2010, as compared with the same periods of 2009.

- Increase in liability for future policy benefits increased 18.3 percent in the third quarter of 2010 and 36.6 percent in the first nine months of 2010, as compared with the same periods of 2009.

Our life insurance segment also experienced the following:

- Losses and loss settlement expenses increased 28.7 percent in the third quarter of 2010 and 20.6 percent in the first nine months of 2010, as compared with the same prior-year periods, reflecting a rise in both annuity benefits and life insurance death benefits.

- Other underwriting expenses increased 21.9 percent in the third quarter of 2010 and 26.9 percent in the first nine months of 2010, compared to the same periods in 2009, due primarily to an increase in agent commissions that resulted from the increase in premiums written for our single premium whole life and universal life products.

- Interest on policyholders' accounts increased during the first nine months of 2010 as compared to the same period of 2009, because of the significant deferred annuity balance at December 31, 2009, which led to the increased amount of interest paid in 2010.

Table of Contents

- Deferred annuity deposits decreased 36.7 percent in the third quarter of 2010 and 59.6 percent in the first nine months of 2010, as compared with the same periods of 2009. In the third quarter and first nine months of 2010, deferred annuity sales have decreased, as some consumers are choosing to surrender their annuities and return their funds to the marketplace, accepting greater risk for potentially greater returns, while yet other consumers have experienced a reduction in their discretionary income. Deferred annuity deposits are not recorded as a component of net premiums written or net premiums earned; however, they do generate investment income.
- Net cash inflow related to our annuity business was $5.9 million in the third quarter of 2010 and $4.3 million in the first nine months of 2010 versus a net cash inflow of $26.2 million in the third quarter of 2009 and $82.8 million in the first nine months of 2009. The lower level of net cash inflows is attributable to the decline in annuity deposits.

Investment Portfolio

Our invested assets totaled $2,532.8 million at September 30, 2010, compared with $2,351.8 million at December 31, 2009. At September 30, 2010, 92.9 percent of the value of our investment portfolio was fixed maturity securities and 5.3 percent was equity securities. Because the primary purpose of our investment portfolio is to fund future claims payments, we follow a conservative investment philosophy and invest in a diversified portfolio of high quality, intermediate-term taxable corporate bonds, taxable U.S. government bonds and tax-exempt U.S. municipal bonds.

Composition

We develop our investment strategies based on a number of factors, including estimated duration of reserve liabilities, short- and long-term liquidity needs, projected tax obligation, general economic conditions, expected rates of inflation and regulatory requirements. We administer our investment portfolio based on investment guidelines approved by management and the investment committee of our Board of Directors that comply with applicable statutory regulations.

The composition of our investment portfolio at September 30, 2010, is presented at carrying value in the following table:

	Property & Casualty Insurance Segment			Life Insurance Segment			Total		
(Dollars in Thousands)		Percent of Total			Percent of Total			Percent of Total	
Fixed maturities [1]	$820,240	84.7	%	$1,532,910	98.0	%	$2,353,150	92.9	%
Equity securities	119,309	12.3		15,110	1.0		134,419	5.3

Policy loans	—	—		7,947	0.6		7,947	0.3	
Other long-term investments	13,344	1.5		2,536	0.2		15,880	0.7	
Short-term investments	5,083	0.6		2,276	0.2		7,359	0.3	
Total	$915,055	100.0	%	$1,436,786	100.0	%	$2,351,841	100.0	%

At September 30, 2010, we classified $2,346.1 million, or 99.7 percent, of our fixed maturities portfolio as available-for-sale, compared with $2,158.4 million, or 99.6 percent, at December 31, 2009. We classified our remaining fixed maturity securities as held-to-maturity securities (which are reported at amortized cost) or trading securities. We recorded trading securities, primarily convertible redeemable preferred debt securities, at fair value, with any changes in fair value recognized in earnings. As of September 30, 2010 and December 31, 2009, we did not have direct exposure to investments in subprime mortgages, derivative securities, or other credit enhancement vehicles.

Credit Quality

The following table displays a breakdown for all of our fixed maturity securities by credit rating at September 30, 2010 and December 31, 2009. Information contained in the table is generally based upon the issue credit ratings provided by Moody's. If credit ratings from Moody's were unavailable, we obtained them from Standard & Poor's.

(In Thousands)	September 30, 2010			December 31, 2009		
Rating	Carrying Value	% of Total		Carrying Value	% of Total	
AAA	$296,348	12.5	%	$207,199	9.5	%
AA	478,139	20.2		397,380	18.2	
A	511,209	21.6		562,795	25.8	
Baa/BBB	958,354	40.5		869,465	39.9	
Other/Not Rated	122,267	5.2		143,770	6.6	
	$2,366,317	100.0	%	$2,180,609	100.0	%

The credit ratings of our fixed maturity securities portfolio at September 30, 2010, have not changed significantly since December 31, 2009, however, the increase in our AAA fixed maturity securities is reflective of the investment purchases we have made during 2010.

Duration

Our investment portfolio is composed primarily of fixed maturity securities whose fair values are susceptible to market risk, specifically interest rate changes. Duration is a measurement we use to quantify our inherent interest rate risk and analyze our ability to match our invested assets to our claim liabilities. If our invested assets and claims liabilities have similar durations, then any change in interest rates will have an equal and opposite effect on our investments and claim liabilities. Mismatches in the duration of assets and liabilities can cause significant fluctuations in our results of operations. The primary purpose for matching invested assets and claim liabilities is

41

liquidity. With appropriate matching, our investments will mature when cash is needed, preventing the need to liquidate other assets prematurely.

Group

The maximum weighted average duration of our fixed maturity available-for-sale, held-to-maturity, and trading security portfolios, including convertible bonds, was 5.3 years at September 30, 2010, compared with 6.0 years at December 31, 2009.

Property and Casualty Insurance Segment

For our property and casualty insurance segment, the maximum weighted average duration of our fixed maturity available-for-sale, held-to-maturity, and trading security portfolios, including convertible bonds, was 6.7 years at September 30, 2010, compared with 7.3 years at December 31, 2009.

Life Insurance Segment

For our life insurance segment, the maximum weighted average duration of our fixed maturity available-for-sale, held-to-maturity, and trading security portfolios, was 3.7 years at September 30, 2010, compared with 4.3 years at December 31, 2009.

Investment Results

Our net investment income decreased 2.5 percent in the third quarter of 2010 and increased 6.3 percent in the first nine months of 2010, as compared with the same periods of 2009. The growth in annuity sales in 2009 contributed to the increase in our current investment portfolio and our year-to-date net investment income, in spite of historically low interest rates.

Realized investment gains were $1.3 million in the third quarter of 2010 and $6.4 million in the first nine months of 2010, compared with realized investment gains of $1.9 million in the third quarter of 2009 and realized investment losses of $14.7 million in the first nine months of 2009. The increase in our realized gains is attributable to a significant reduction in other-than-temporary impairment charges, which totaled $0.5 million in the first nine months of 2010 compared to $18.1 million in the same period of 2009. We incurred substantial other-than-temporary impairment charges in 2009 as a result of the financial crisis experienced by the economy in 2008 and into 2009.

We continually monitor the difference between our cost basis and the estimated fair value of our investments. Our accounting policy for impairment recognition requires OTTI charges to be recorded when we determine that it is more likely than not that we will be unable to collect all amounts due according to the contractual terms of the fixed maturity security or that the anticipated recovery in fair value of the equity security will not occur in a reasonable amount of time. Impairment charges on investments are recorded based on the fair value of the investments at the measurement date. Factors considered in evaluating whether a decline in value is other-than-temporary include: the length of time and the extent to which fair value has been less than cost; the financial condition and near-term prospects of the issuer; our intention to hold the investment; and the likelihood that we will be required to sell the investment.

Changes in unrealized gains on available-for-sale securities do not affect net income and earnings per share but do impact comprehensive income, stockholders' equity and book value per share. We believe that any unrealized losses on our available-for-sale securities at September 30, 2010, are temporary based upon our current analysis of the issuers of the securities that we hold and current market events. It is possible that we could recognize OTTI charges in future periods on securities that we own at September 30, 2010, if future events and information cause us to determine that a decline in value is other-than-temporary. However, we endeavor to invest in high quality assets to provide protection from future credit quality issues and corresponding impairment write-downs.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Liquidity measures our ability to generate sufficient cash flows to meet our short- and long-term cash obligations. Our cash inflows are primarily a result of premiums, annuity deposits, reinsurance recoveries, sales or maturities of investments, and investment income. Historically, we have generated substantial cash inflows from operations because cash from premium payments is usually received in advance of cash payments made to settle losses. When investing the cash generated from operations, we invest in securities with maturities that correlate to the anticipated timing of payments for losses and loss settlement expenses of the underlying insurance policies. The majority of our assets are invested in available-for-sale fixed maturity securities.

Our cash outflows are a result of losses and loss settlement expenses, commissions, premium taxes, income taxes, operating expenses, dividends, annuity withdrawals, and investment purchases. Cash outflows may be variable because of the uncertainty regarding settlement dates for losses. In addition, the timing and amount of individual catastrophe losses are inherently unpredictable and could increase our liquidity requirements.

The following table displays a summary of cash sources and uses in 2010 and 2009.

Cash Flow Summary	Nine Months Ended September 30,			
(In Thousands)	2010		2009	
Cash provided provided by (used in)				
Operating activities	$56,341		$51,815	
Investing activities	(189,618	)	(168,237	)
Financing activities	90,237		183,164	
Net (decrease) increase in cash and cash equivalents	$(43,040	)	$66,742	

Net cash flows provided by operating activities totaled $56.3 million and $51.8 million for the nine-month periods ended September 30, 2010 and 2009, respectively. Our operating cash flows increased in the nine-month period ended September 30, 2010, as compared with the nine-month period ended September 30, 2009, due to the lower level of claims payments and loss settlement expenses paid in the first nine months of 2010, as compared with the same period of 2009. In addition, $28.2 million in funds that previously had been held on deposit with the State of Louisiana for an appeal related to Hurricane Katrina litigation was released to the claimant in the third quarter of 2009.

Net cash flows used in investing activities totaled $189.6 million and $168.2 million for the nine-month periods ended September 30, 2010 and 2009, respectively. In the nine-month period ended September 30, 2010, we had cash inflows from sales of investments, scheduled and unscheduled investment maturities, redemptions and prepayments that totaled $334.2 million compared with $289.6 million for the nine-month period ended September 30, 2009. Our cash outflows for investment purchases totaled $444.5 million for the nine-month period ended September 30, 2010, compared with $360.9 million for the nine-month period ended September 30, 2009, as in 2010 we continued to purchase a higher level of fixed maturity securities rather than other investment vehicles such as short-term investments, which continue to be less profitable due to the lower market interest rates.

Net cash flows provided by financing activities totaled $90.2 million and $183.2 million for the nine-month periods ended September 30, 2010 and 2009, respectively. In the nine-month period ended September 30, 2010, net cash inflows from our life insurance segment's annuity and universal life deposits totaled $29.7 million, compared with $106.6 million for the same period of 2009. Additionally, in the nine-month period ended September 30, 2010, our common stock repurchases totaled $5.5 million, compared with $.5 million in the nine-month period ended September 30, 2009.

If our operating and investing cash flows are not sufficient to support our operations, we may also borrow up to $50.0 million on a bank line of credit. Under the terms of our credit agreement, interest on outstanding notes is

Table of Contents

payable at the lender's prevailing prime rate, minus 1.0 percent. We did not use our line of credit during the first nine months of 2010.

Stockholders' Equity

Stockholders' equity increased 8.1 percent to $727.4 million at September 30, 2010, from $672.7 million at December 31, 2009. The increase in our stockholders' equity was largely attributable to net income of $38.4 million and net unrealized investment appreciation of $31.2 million, net of tax. This was partially offset by stockholder dividends of $11.8 million and stock repurchases of $5.5 million. At September 30, 2010, book value per share was $27.73 compared with $25.35 at December 31, 2009.

Off-Balance Sheet Arrangements

Pursuant to an agreement with one of our limited liability partnership holdings, we are contractually committed to make capital contributions up to $15.0 million, upon request by the partnership, through December 31, 2017. As of September 30, 2010, our remaining potential contractual obligation was $11.9 million.

STATUTORY FINANCIAL MEASURES

United Fire and its subsidiaries are required to file financial statements based on statutory accounting principles in each of the states where our insurance companies are domiciled or licensed to conduct business. Management analyzes financial data and statements that are prepared in accordance with statutory accounting principles as well as U.S. GAAP.

The following definitions of key statutory financial measures are provided for our readers' convenience. Regulation G promulgated by the Securities and Exchange Commission does not require reconciliation to U.S. GAAP of data prepared under a system of regulation of a government or governmental authority or self-regulatory organization that is applicable to the registrant.

Premiums written is a measure of our overall business volume. Net premiums written comprises direct and assumed premiums written less ceded premiums written. Direct premiums written is the amount of premiums charged for policies issued during the period. Assumed premiums written is consideration or payment we receive in exchange for insurance we provide to other insurance companies. We report these premiums as revenue as they are earned over the underlying policy period. Ceded premiums written is the portion of direct premiums written that we cede to our reinsurers under our reinsurance contracts. Premiums written is an important measure of business production for the period under review.

	Three Months Ended September 30,		Nine Months Ended September 30,	
(In Thousands)	2010	2009	2010	2009
Net premiums written	$112,912	$118,800	$361,097	$367,325
Net change in unearned premium	6,329	1,959	(10,552)	(8,870)
Net change in prepaid reinsurance premium	(83)	—	3	296
Net premiums earned	$119,158	$120,759	$350,548	$358,751

Combined ratio is a commonly used statutory financial measure of underwriting performance. A combined ratio below 100 percent generally indicates a profitable book of business. The combined ratio is the sum of two separately calculated ratios, the loss and loss settlement expense ratio (referred to as the “net loss ratio”), and the underwriting expense ratio (the “expense ratio”).

When prepared in accordance with U.S. GAAP, the net loss ratio is calculated by dividing the sum of losses and loss settlement expenses by net premiums earned. The expense ratio is calculated by dividing non-deferred underwriting expenses and amortization of DAC by net premiums earned.

Table of Contents

When prepared in accordance with statutory accounting principles, the net loss ratio is calculated by dividing the sum of losses and loss settlement expenses by net premium earned, and the expense ratio is calculated by dividing underwriting expenses by net premiums written.

Underwriting income (loss) is the gain or loss by an insurance company from the business of insurance. Underwriting income is equal to net premiums earned less incurred losses and loss settlement expenses, amortization of deferred policy acquisition costs, and other underwriting expenses. We use this financial measure in evaluating the results of our operations and to analyze the profitability of our property and casualty segment separately from our investment results.

NON-GAAP FINANCIAL MEASURES

We believe that disclosure of certain Non-GAAP financial measures enhances investor understanding of our financial performance. The following Non-GAAP financial measure is utilized in this filing:

Catastrophe losses utilize the designations of the Insurance Services Office (ISO) and are reported with loss and loss settlement expense amounts net of reinsurance recoverables, unless specified otherwise. According to the ISO, a catastrophe loss is a single unpredictable incident or series of closely related incidents that result in $25.0 million or more in industry-wide direct insured losses to property and that affect a significant number of insureds and insurers. We also include as catastrophes those events we believe are, or will be, material to our operations either in amount or in number of claims made. Management at times may determine for comparison purposes that it is more meaningful to exclude extraordinary catastrophe losses and resulting litigation, such as Hurricane Katrina. The frequency and severity of catastrophic losses we experience in any year affect our results of operations and financial position. In analyzing the underwriting performance of our property and casualty insurance segment, we evaluate performance both including and excluding catastrophe losses. Portions of our catastrophe losses may be recoverable under our catastrophe reinsurance agreements. We include a discussion of the impact of catastrophes because we believe it is meaningful for investors to understand the variability in periodic earnings.

	Three Months Ended September 30,		Nine Months Ended September 30,	
(In Thousands)	2010	2009	2010	2009
ISO catastrophes	$6,240	$35,147	$22,164	$56,295
Less Hurricane Katrina loss development	(2,225)	(25,873)	(7,576)	(38,315)
ISO catastrophes without Hurricane Katrina	$4,015	$9,274	$14,588	$17,980
Non-ISO catastrophes	690	214	843	1,616
Total catastrophes	$4,705	$9,488	$15,431	$19,596

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have exposure to market risk arising from potential losses in our investment portfolio due to adverse changes in interest rates and market prices. However, we have the ability to hold fixed maturity investments to maturity. Our investment guidelines define the overall framework for managing our market and other investment risks including accountability and controls. In addition, each of our subsidiaries has specific investment policies that delineate the investment limits and strategies that are appropriate given each entity's liquidity, surplus, product, and regulatory requirements. We respond to market risk by managing the character of investment purchases.

We do not utilize financial instrument hedges or derivative financial instruments to manage risks, nor do we enter into any swap, forward or option contracts, but attempt to mitigate our exposure through active portfolio management. In addition, we place the majority of our investments in high-quality, liquid securities and limit the amount of credit exposure to any one issuer. At September 30, 2010, we did not hold investments in sub-prime

Table of Contents

mortgages, derivative securities, credit default swaps, or other credit-enhancement exposures.

While our primary market risk exposure is change in interest rates, we do have exposure to changes in equity prices and limited exposure to foreign currency exchange rates.

There have been no material changes in our market risk or market risk factors from that reported in our Annual Report on Form 10-K for the year ended December 31, 2009.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, the chief executive officer and chief financial officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were designed and functioning effectively to provide reasonable assurance that the information required to be disclosed by us in reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. We believe that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control Over Financial Reporting

Our management, including our chief executive officer and chief financial officer, has evaluated our internal control over financial reporting to determine whether any changes occurred during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on this evaluation, no such change in our internal control over financial reporting occurred during the fiscal quarter to which this report relates.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For a detailed discussion of legal proceedings of the Company, refer to Note 1-Legal Proceedings in the Notes to Unaudited Consolidated Financial Statements of this Form 10-Q.

ITEM 1A. RISK FACTORS

Our business is subject to a number of risks, including those identified in Part I, Item 1A of our 2009 Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 1, 2010, that could have a material effect on our business, results of operations, financial condition, and/or liquidity and that could cause our operating results to vary significantly from period to period. The risks described in the above mentioned document are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial could also have a material effect on our business, results of operations, financial condition and/or liquidity.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Under our Share Repurchase Program, first announced in August 2007, we may purchase common stock from time to time on the open market or through privately negotiated transactions. The amount and timing of any purchases will be at our discretion and will depend upon a number of factors, including the share price, economic and general market conditions, and corporate and regulatory requirements. We will generally consider repurchasing company

Table of Contents

stock on the open market if (i) the trading price on NASDAQ drops below 130 percent of its book value, (ii) sufficient excess capital is available to purchase the stock, and (iii) we are optimistic about future market trends and the performance of our company. Our Share Repurchase Program may be modified or discontinued at any time. It is currently set to expire in August 2011.

The following table provides information with respect to purchases of shares of common stock made by or on our behalf or by any "affiliated purchaser," as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, during the three-month period ended September 30, 2010.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as a Part of Publicly Announced Plans or Programs	Maximum Number of Shares that may be Purchased Under the Plans or Programs
7/1/2010 - 7/31/2010	—	$—	—	303,078
8/1/2010 - 8/31/2010	91,510	19.87	91,510	211,568
