Item 1. Business.

First Farmers and Merchants Corporation (the "Corporation") was incorporated on March 31, 1982 as a Tennessee corporation. As of December 31, 2003, the only subsidiary of the Corporation was First Farmers and Merchants National Bank (the "Bank"). The Bank is a national banking association which was organized in 1954 as a successor to a state bank organized in 1909. Its principal office is at 816 South Garden Street, Columbia, Maury County, Tennessee. Other offices in Maury County are Mt. Pleasant, Spring Hill, and additional offices in Columbia at High Street, Hatcher Lane, Northside, and Campbell Plaza. Offices in Lawrence County include Locust Avenue and Crockett in Lawrenceburg, Leoma, and Loretto. Offices in Marshall County include Lewisburg, Ellington, Downtown Lewisburg, Lewisburg West, and Chapel Hill. The Ellington and Downtown offices were acquired in the second quarter of 2001. Offices in Hickman County include Centerville and East Hickman. In Dickson County, there is an office in White Bluff. Two offices, Martin House and West College, in Pulaski, Giles County were acquired in the first quarter of 2002. The Bank provides only automatic teller machine services in the Northfield Complex at the Saturn location near Spring Hill, in Columbia at the Tennessee Farm Bureau, Columbia State Community College, and Maury Regional Hospital, and in Marshall County at Marshall Plaza and Higgs Road. The financial condition of the Corporation should be evaluated in terms of the Bank's operations within its service area.

The operations of the Bank are significantly affected by prevailing economic conditions, competition and the monetary, fiscal, and regulatory policies of governmental agencies. Lending activities are influenced by the general credit needs of small business in the Bank's service area, competition among lenders, the level of interest rates, and the availability of funds. The loan portfolio of the Bank is comprised of commercial, commercial and residential real estate, and retail installment loans. Such loans are primarily originated within the Bank's service area in southern Middle-Tennessee. Deposits are the primary source of funds for the Bank. Such deposits consist of checking accounts, regular savings deposits, NOW accounts, Money Market Accounts, and market rate Certificates of Deposit. Deposits are attracted from individuals and businesses in the Bank's service area. In addition, the Bank obtains deposits from state and local entities and, to a lesser extent, U. S. Government entities and other depository institutions. Deposit flows and costs of funds are influenced by prevailing market rates of interest, primarily on competing investments, account maturities, and the levels of personal income and savings in the Bank's service area.

The Bank's net income is dependent primarily on its net interest income, which is the difference between the interest income earned on its loans, investment assets, and other interest-earning assets and the interest paid on deposits and other interest-bearing liabilities. To a lesser extent, the Bank's net income also is affected by its noninterest income derived principally from service fees as well as the level of noninterest expenses such as salaries and employee benefits.

For more information regarding the business of the Corporation and the Bank, please refer to the Management's Discussion and Analysis of Financial Condition and Results of Operation which is a part of the Annual Report to Shareholders', incorporated by reference herein (the "Annual Report").
