Notes to Condensed Consolidated Financial Statements

(1) Basis of Presentation

GP Strategies Corporation is a global performance improvement solutions provider of training, e-Learning solutions, management consulting and engineering services. References in this report to “GP Strategies,” the “Company,” “we” and “our” are to GP Strategies Corporation and its subsidiaries, collectively.

The accompanying condensed consolidated balance sheet as of June 30, 2015 and the condensed consolidated statements of operations, comprehensive income and cash flows for the six months ended June 30, 2015 and 2014 have not been audited, but have been prepared in conformity with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2014, as presented in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2014. In the opinion of management, this interim information includes all material adjustments, which are of a normal and recurring nature, necessary for a fair presentation. The results for the 2015 interim period are not necessarily indicative of results to be expected for the entire year. Certain prior year amounts have been reclassified to conform to current year presentation.

The condensed consolidated financial statements include the operations of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated.

(2) Accounting Standard Issued

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, Revenue from Contracts with Customers, which provides a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most current revenue recognition guidance. The standard’s core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-9 was originally effective for annual reporting periods, and interim periods within that period, beginning after December 15, 2016 and early adoption was not permitted. On July 9, 2015, the FASB voted to defer the effective date by one year to December 15, 2017 for interim and annual reporting periods beginning after that date and permitted early adoption of the standard, but not before the original effective date of December 15, 2016. Companies may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-9. We are still in the process of evaluating the impact of adoption of this ASU on our consolidated financial statements.

(3) Significant Customers & Concentration of Credit Risk

We have a market concentration of revenue in both the automotive sector and financial services & insurance sector. Revenue from the automotive industry accounted for approximately 18% and 14% of our consolidated revenue for the six months ended June 30, 2015 and 2014, respectively. In addition, we have a concentration of revenue from a single automotive customer, which accounted for approximately 11% of our consolidated revenue for the six months ended June 30, 2015. As of June 30, 2015, accounts receivable from a single automotive customer totaled \$11.7 million, or 12%, of our consolidated accounts receivable balance.

Revenue from the financial services & insurance industry accounted for approximately 22% and 15% of our consolidated revenue for the six months ended June 30, 2015 and 2014, respectively. Beginning in 2015, we have a concentration of revenue from a single financial services customer, which accounted for approximately 14% of our consolidated revenue for the six months ended June 30, 2015. As of June 30, 2015, billed and unbilled accounts receivable from a single financial services customer totaled \$34.7 million, or 25%, of our consolidated accounts receivable and costs and estimated earnings in excess of billings on uncompleted contracts balances.

No other single customer accounted for more than 10% of our consolidated revenue for the six months ended June 30, 2015 and 2014 or consolidated accounts receivable balance as of June 30, 2015.

(4) Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution of common stock equivalent shares that could occur if securities or other contracts to issue common stock were exercised or converted into common stock.

Our dilutive common stock equivalent shares consist of stock options and restricted stock units computed under the treasury stock method, using the average market price during the period. The following table presents instruments which were not dilutive and were excluded from the computation of diluted EPS in each period, as well as the dilutive common stock equivalent shares which were included in the computation of diluted EPS:

	Three Months Ended June 30,		Six Months Ended June 30,

(5) Acquisitions

Contingent Consideration

Accounting Standards Codification (“ASC”) Topic 805 requires that contingent consideration be recognized at fair value on the acquisition date and be re-measured each reporting period with subsequent adjustments recognized in the consolidated statement of operations. We estimate the fair value of contingent consideration liabilities based on financial projections of the acquired companies and estimated probabilities of achievement and discount the liabilities to present value using a weighted-average cost of capital. Contingent consideration is valued using significant inputs that are not observable in the market which are defined as Level 3 inputs pursuant to fair value measurement accounting. We believe our estimates and assumptions are reasonable; however, there is significant judgment involved. At each reporting date, the contingent consideration obligation is revalued to estimated fair value, and changes in fair value subsequent to the acquisitions are reflected in income or expense in the consolidated statements of operations, and could cause a material impact to, and volatility in, our operating results. Changes in the fair value of contingent consideration obligations may result from changes in discount periods, changes in the timing and amount of revenue and/or earnings estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria.

Below is a summary of the potential contingent consideration we may be required to pay in connection with completed acquisitions as of June 30, 2015 (dollars in thousands):

Acquisition:	Original range of potential undiscounted payments	As of June 30, 2015		
		Maximum contingent consideration due in		
Effective Companies	\$0 - \$5,163	2015	2016	Total
		—	2,581	2,581

Below is a summary of the changes in the recorded amount of contingent consideration liabilities from December 31, 2014 to June 30, 2015 (dollars in thousands):

	Liability as of December 31,	Additions	Change in Fair Value of Contingent Consideration	Foreign Currency Translation	Liability as of June 30, 2015
Acquisition:	2014	(Payments)			
Effective Companies	\$5,083	\$(2,609) \$258	\$(422) \$2,310

As of June 30, 2015 and December 31, 2014, contingent consideration considered a current liability and included in accounts payable totaled \$2.3 million and \$2.7 million, respectively. As of June 30, 2015 and December 31, 2014, we also had accrued contingent consideration totaling \$0 and \$2.4 million, respectively, related to acquisitions which are included in other long-term liabilities on the consolidated balance sheet and represent the portion of contingent consideration estimated to be payable greater than twelve months from the balance sheet date.

(7) Stock-Based Compensation

We recognize compensation expense for stock-based compensation awards issued to employees that are expected to vest. Compensation cost is based on the fair value of awards as of the grant date.

The following table summarizes the pre-tax stock-based compensation expense included in reported net income (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014

Board of Directors stock grants	116	78	227	159
Total stock-based compensation expense	\$818	\$501	\$1,430	\$1,007

Pursuant to our 2011 Stock Incentive Plan (the “2011 Plan”), we may grant awards of non-qualified stock options, incentive stock options, restricted stock, stock units, performance shares, performance units and other incentives payable in cash or in shares of our common stock to officers, employees or members of the Board of Directors. As of June 30, 2015, we had non-qualified stock options and restricted stock units outstanding under these plans as discussed below.

Non-Qualified Stock Options

Summarized information for the Company’s non-qualified stock options is as follows:

Stock Options	Number of options	Weighted average exercise price	Weighted average remaining contractual term	Aggregate intrinsic value

Restricted Stock Units

In addition to stock options, we issue restricted stock units to key employees and members of the Board of Directors based on meeting certain service goals. The stock units vest to the recipients at various dates, up to five years, based on fulfilling service requirements. We recognize the value of the market price of the underlying stock on the date of grant as compensation expense over the requisite service period. Upon vesting, the stock units are settled in shares of our common stock. Summarized share information for our restricted stock units is as follows:

	Six Months Ended June 30, 2015 (In shares)	Weighted average grant date fair value (In dollars)
Outstanding and unvested, beginning of period	263,084	\$25.00
Granted	82,120	36.71
Vested	(4,276) 17.05
Forfeited	(508) 25.30
Outstanding and unvested, end of period	340,420	\$27.92

On March 30, 2015, the Compensation Committee approved an incentive program providing for the issuance to certain executives of the Company a combination of performance-based and time-based restricted stock units under the 2011 Plan. Under the program, a target level of equity compensation is set for each officer. The total equity compensation is divided into performance-based and time-based restricted stock units. Under the program, the Compensation Committee sets the performance-based goals within the first 90 days of each year.

On March 30, 2015, the Compensation Committee granted 52,476 performance-based restricted stock units ("PSU's") to certain officers of the Company. Vesting of the PSU's is contingent upon the employee's continued employment and the Company's achievement of certain performance goals during a three-year performance period. The performance goals are established by the Compensation Committee and for the 2015-2017 performance period are based on financial targets, including an average annual return on invested capital ("ROIC") and average annual growth in earnings before interest, taxes, depreciation and amortization (adjusted to exclude the effect of acquisitions, dispositions, and certain other nonrecurring or extraordinary items) ("Adjusted EBITDA"). We recognize compensation expense, net of estimated forfeitures, for PSU's on a straight-line basis over the performance period based on the probable outcome of achievement of the financial targets. At the end of each reporting period, we estimate the number of PSU's expected to vest, based on the probability and extent to which the performance goals will be met, and take into account these estimates when calculating the expense for the period. If the number of shares expected to be earned changes during the performance period, we will make a cumulative adjustment to compensation expense based on the revised number of shares expected to be earned.

Also on March 30, 2015 in conjunction with the grant of PSU's, the Compensation Committee granted a total of 29,644 time-based restricted stock units to the same officers of the Company. Vesting of the time-based restricted stock units is subject to the employee's continued employment through December 31, 2017.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(8) Debt

On September 2, 2014, we entered into a Fourth Amended and Restated Financing and Security Agreement (the “Credit Agreement”). The Credit Agreement provides for a revolving credit facility up to a maximum principal amount of \$65 million and for a term loan in the principal amount of \$40 million maturing on October 31, 2017 (the “Maturity Date”), and is secured by substantially all of our assets.

The maximum interest rate on the Credit Agreement is the daily one-month LIBOR market index rate plus 2.50%. Based on our financial performance, the interest rate can be reduced to a minimum rate of the daily one-month LIBOR market index rate plus 1.25%, with the rate being determined based on our maximum leverage ratio for the preceding four quarters. Each unpaid advance on the revolving loan will bear interest until the Maturity Date. The term loan is payable in monthly installments equal to \$1.1 million plus applicable interest, beginning on November 1, 2014 and ending on the Maturity Date. We may prepay the term loan or the revolving loan, in whole or in part, at any time without premium or penalty, subject to certain conditions. Amounts repaid or prepaid on the term loan may not be reborrowed.

The Credit Agreement contains customary affirmative and negative covenants, including covenants that limit or restrict our and our subsidiaries’ (subject to certain exceptions) ability to, among other things, grant liens, make investments, incur indebtedness, merge or consolidate, dispose of assets or make acquisitions. We are also required to maintain compliance with a minimum fixed charge coverage ratio and a maximum leverage ratio. We were in compliance with all of the financial covenants under the Credit Agreement as of June 30, 2015. As of June 30, 2015, our total long-term debt outstanding under the term loan was \$31.1 million. In addition, there were \$28.8 million of borrowings outstanding and \$35.2 million of available borrowings under the Credit Agreement. For the six months ended June 30, 2015, the weighted average interest rate on our borrowings was 2.1%.

(9) Income Taxes

Income tax expense was \$5.3 million, or an effective income tax rate of 37.6%, for the six months ended June 30, 2015 compared to \$8.5 million, or an effective income tax rate of 40.5%, for the six months ended June 30, 2014. The decrease in the effective income tax rate during the first half of 2015 is due to a larger portion of our income being derived from foreign jurisdictions which are taxed at lower rates. Income tax expense for the quarterly periods is based on an estimated annual effective tax rate which includes the U.S. federal, state and local, and non-U.S. statutory rates, permanent differences, and other items that may have an impact on income tax expense.

An uncertain tax position taken or expected to be taken in a tax return is recognized in the financial statements when it is more likely than not (i.e., a likelihood of more than fifty percent) that the position would be sustained upon examination by tax authorities that have full knowledge of all relevant information. A recognized tax position is then measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Interest and penalties related to income taxes are accounted for as income tax expense. As of June 30, 2015, we had no uncertain tax positions reflected on our consolidated balance sheet. The Company files income tax returns in U.S. federal, state and local jurisdictions, and various non-U.S. jurisdictions, and is subject to audit by tax authorities in those jurisdictions. Tax years 2011 through 2014 remain open to examination by these tax jurisdictions, and earlier years remain open to examination in certain of these jurisdictions which have longer statutes of limitations.

(11) Business Segments

As of June 30, 2015, we operated through four reportable business segments: (i) Learning Solutions, (ii) Professional & Technical Services, (iii) Sandy Training & Marketing, and (iv) Performance Readiness Solutions. Each of our reportable segments represents an operating segment under U.S. GAAP. We are organized by operating groups primarily based upon the markets served by each group and/or the services performed. Each operating group consists of business units which are focused on providing specific products and services to certain classes of customers or within targeted markets. Marketing and communications, accounting, finance, legal, human resources, information systems and other administrative services are organized at the corporate level. Business development and sales resources are aligned with operating groups to support existing customer accounts and new customer development.

Effective January 1, 2015, we realigned our operating groups, centralizing our service offerings to better respond to our customers' global needs, and to improve our internal efficiencies to leverage common technologies and practices across the company. This resulted in changes to our organizational structure to transfer the management responsibility of certain business units between segments, which changed the composition of certain of our operating segments. The changes primarily consisted of: (i) the Energy Services group became part of the Professional & Technical Services segment; (ii) certain business units providing leadership development offerings were transferred from the Learning Solutions segment to the Performance Readiness Solutions segment, (iii) a business unit which predominantly provides content development services to U.S. government and commercial clients transferred from the Professional & Technical Services segment to the Performance Readiness Solutions segment; and (iv) two business units providing engineering and technical services in Europe were transferred from the Learning Solutions segment to the Professional & Technical Services segment. We have reclassified the segment financial information herein for the prior year to reflect these changes and conform to the current year's presentation.

Further information regarding our business segments is discussed below.

Learning Solutions. The Learning Solutions segment delivers training, curriculum design and development, eLearning services, system hosting, training business process outsourcing and consulting services globally. This segment serves large companies in the electronics and semiconductors, healthcare, software, financial services and other industries, as well as government agencies. This segment also provides apprenticeship and vocational skills training for the United Kingdom government. The ability to deliver a wide range of training services on a global basis allows this segment to take over the entire learning function for the client, including their training personnel.

Professional & Technical Services. The Professional & Technical Services segment provides training, consulting, engineering and technical services, including lean consulting, emergency preparedness, safety and regulatory compliance, chemical demilitarization and environmental services primarily to large companies in the manufacturing, steel, pharmaceutical, energy and petrochemical industries; federal and state government agencies; and large government contractors. Our proprietary EtaPRO™ Performance and Condition Monitoring System provides a suite of real-time software solutions for power generation facilities and is installed on power-generating units across the world. In addition to providing custom training solutions, this segment provides web-based training through our GPiLEARN™ portal, which offers a variety of courses to power plant personnel in the U.S. and other countries. This segment also provides services to users of alternative fuels, including designing and constructing liquefied natural gas (LNG), liquid to compressed natural gas (LCNG) and hydrogen fueling stations, as well as supplying equipment.

Sandy Training & Marketing. The Sandy Training & Marketing segment provides custom product sales training and has been a leader in serving manufacturing customers in the U.S. automotive industry for over 30 years. Sandy provides custom product sales training designed to better educate customer salesforces with respect to new vehicle features and designs, in effect rapidly increasing the salesforce knowledge base and enabling them to address detailed customer queries. Furthermore, Sandy helps our clients assess their customer relationship marketing strategy and connect with their customers on a one-to-one basis, including through custom publications. This segment also provides technical training services to automotive manufacturers as well as customers in other industries.

Performance Readiness Solutions. This segment provides performance consulting and technology consulting services, including platform adoption, end-user training, change management, knowledge management, customer product training outsourcing, training content development and sales enablement solutions. This segment also offers organizational performance solutions, including leadership development training and employee engagement tools and services. Industries served include manufacturing, aerospace, healthcare, life sciences, consumer products, financial, telecommunications, services and higher education, as well as government agencies.

We do not allocate the following items to the segments: other income (expense), interest expense, gain (loss) on change in fair value of contingent consideration and income tax expense. Inter-segment revenue is eliminated in consolidation and is not significant.

The following table sets forth the revenue and operating results attributable to each reportable segment and includes a reconciliation of segment revenue to consolidated revenue and operating results to consolidated income before income tax expense (in thousands):

Operating Highlights

Three Months ended June 30, 2015 Compared to the Three Months ended June 30, 2014

Our revenue decreased \$9.3 million or 6.9% and our gross profit decreased \$4.7 million or 18.9% during the second quarter of 2015 compared to the second quarter of 2014. The net decline is largely attributable to a \$13.2 million revenue decrease due to the completion of alternative fuels projects in 2014 and a \$3.3 million revenue decrease due to unfavorable changes in foreign currency exchange rates during the second quarter, partially offset by an increase in global training services. The changes in revenue and gross profit are discussed in further detail below by segment. Operating income, the components of which are discussed below, decreased \$5.8 million or 41.9% to \$8.0 million for the second quarter of 2015 compared to \$13.8 million for the second quarter of 2014. The net decrease in operating income was primarily due to a \$4.7 million decrease in gross profit, a \$0.5 million increase in SG&A expenses, and a \$0.5 million decrease in the change in fair value of contingent consideration. For the three months ended June 30, 2015, we had income before income tax expense of \$7.4 million compared to \$13.8 million for the three months ended June 30, 2014. Net income was \$4.7 million, or \$0.27 per diluted share, for the three months ended June 30, 2015, compared to net income of \$8.1 million, or \$0.42 per diluted share, for the three months ended June 30, 2014. Diluted weighted average shares outstanding were 17.4 million for the three months ended June 30, 2015 compared to 19.4 million for the three months ended June 30, 2014. The decrease in shares outstanding is primarily due to the completion of the modified "Dutch auction" tender offer in October 2014 in which we repurchased 2.1 million shares of our outstanding common stock.

Revenue

(Dollars in thousands)

	Three months ended	
	June 30, 2015	2014
Learning Solutions	\$50,755	\$50,201
Professional & Technical Services	30,066	41,957
Sandy Training & Marketing	25,199	20,223
Performance Readiness Solutions	19,645	22,537
	\$125,665	\$134,918

Learning Solutions revenue increased \$0.6 million or 1.1% during the second quarter of 2015 compared to the second quarter of 2014. The increase in revenue is due to the following:

- A \$2.4 million net increase in e-Learning content development and training business process outsourcing (BPO) services primarily attributable to a global outsourcing contract with a financial services client; and

▲ \$0.7 million increase in UK government funded skills training services.

These revenue increases were offset by a \$2.5 million decrease in revenue due to unfavorable changes in foreign currency exchange rates.

Professional & Technical Services revenue decreased \$11.9 million or 28.3% during the second quarter of 2015 compared to the second quarter of 2014. The net decrease in revenue is due to the following:

16

▲ \$13.2 million decrease due to the completion of LNG projects by our alternative fuels business in 2014;
 ▲ \$0.8 million net decrease in revenue from U.S. government clients due to project completions in 2014; and
 ▲ \$0.6 million decrease in revenue due to unfavorable changes in foreign currency exchange rates.

These decreases were partially offset by a \$1.6 million net increase in our Energy business primarily due to a non-recurring revenue adjustment in 2014, a \$0.7 million net increase in training and technical services for oil and gas clients, and a \$0.4 million net increase in training and technical services for various clients.

Sandy Training & Marketing revenue increased \$5.0 million or 24.6% during the second quarter of 2015 compared to the second quarter of 2014. The net increase is primarily due to an increase in magazine publications revenue due to a new publication contract with an automotive customer which began in the second quarter of 2015.

Performance Readiness Solutions revenue decreased \$2.9 million or 12.8% during the second quarter of 2015 compared to the second quarter of 2014. The net decrease is primarily due to a decline in its ERP implementation business due to project completions and a decline in training and consulting services for certain of its existing customers during the second quarter of 2015. In addition, unfavorable changes in foreign currency exchange rates resulted in a \$0.2 million decrease in revenue during the second quarter of 2015 compared to the second quarter of 2014. If we continue to experience significant declines in this segment in future periods, we could incur goodwill impairment charges in the future.

Gross Profit

(Dollars in thousands)

	Three months ended		2014		
	June 30, 2015	% Revenue		% Revenue	
Learning Solutions	\$8,387	16.5	% \$7,461	14.9	%
Professional & Technical Services	5,829	19.4	% 10,775	25.7	%
Sandy Training & Marketing	3,427	13.6	% 3,298	16.3	%
Performance Readiness Solutions	2,433	12.4	% 3,233	14.3	%
	\$20,076	16.0	% \$24,767	18.4	%

Learning Solutions gross profit of \$8.4 million or 16.5% of revenue for the second quarter of 2015 increased by \$0.9 million or 12.4% when compared to gross profit of \$7.5 million or 14.9% of revenue for the second quarter of 2014. The increase in gross profit is due to the revenue increases noted above, a reduction in implementation costs incurred on a global outsourcing contract with a financial services client and an increase in gross profit and margin on UK government funded skills training services. These increases were offset by a \$0.4 million decrease in gross profit due to unfavorable changes in foreign currency exchange rates.

Professional & Technical Services gross profit of \$5.8 million or 19.4% of revenue for the second quarter of 2015 decreased by \$4.9 million or 45.9% when compared to gross profit of \$10.8 million or 25.7% of revenue for the second quarter of 2014. The decrease in gross profit and margin is primarily due to the LNG revenue decreases.

Sandy Training & Marketing gross profit of \$3.4 million or 13.6% of revenue for the second quarter of 2015 increased by \$0.1 million or 3.9% when compared to gross profit of \$3.3 million or 16.3% of revenue for the second quarter of 2014 due to the revenue increase noted above. Gross profit as a percentage of revenue decreased during the second quarter of 2015 due to an increase in lower margin publication revenue compared to the second quarter of 2014. We anticipate that the gross margins in this segment will continue to be lower in future quarters compared to prior periods due to an increase in lower margin publications revenue that is expected to continue for the remainder of this year.

Performance Readiness Solutions gross profit of \$2.4 million or 12.4% of revenue for the second quarter of 2015 decreased by \$0.8 million or 24.7% when compared to gross profit of \$3.2 million or 14.3% of revenue for the second quarter of 2014. The decrease in gross profit is primarily due to a decrease in revenue on higher margin projects which

concluded compared to the other revenue streams in this segment. We anticipate that the year-over-year decline in gross profit will continue in the third quarter of 2015 when compared to the third quarter of 2014 due to certain non-recurring revenue and gross profit increases in the third quarter of 2014. If we continue to experience significant declines in this segment in future periods, we could incur goodwill impairment charges in the future.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$0.5 million or 4.8% from \$11.5 million for the second quarter of 2014 to \$12.0 million for the second quarter of 2015. The increase in SG&A expenses is due to a \$0.4 million increase in labor and benefits expense due to international expansion during 2014 and a \$0.5 million net increase in IT infrastructure and various other expenses, partially offset by a \$0.4 million decrease in amortization expense during the three months ended June 30, 2015 compared to the same period in 2014.

Change in Fair Value of Contingent Consideration

We recognized a net loss on the change in fair value of contingent consideration related to acquisitions of \$0.1 million for the three months ended June 30, 2015 compared to a net gain of \$0.5 million for the same period in 2014. Changes in the fair value of contingent consideration obligations result from changes in discount periods, changes in the timing and amount of revenue and/or earnings estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. See Note 5 to the Condensed Consolidated Financial Statements for further details regarding the potential contingent consideration payments and the changes in fair value of the related liabilities during the three months ended June 30, 2015.

Interest Expense

Interest expense increased \$0.2 million from \$0.1 million for the second quarter of 2014 to \$0.3 million for the second quarter of 2015 due to an increase in borrowings under our Credit Agreement to fund the modified "Dutch auction" tender offer that was completed in October 2014.

Other Income (Expense)

Other expense was \$0.3 million for the second quarter of 2015 compared to other income of \$0.1 million for the second quarter of 2014 and consisted primarily of income from a joint venture offset by foreign currency losses in both years. During the three months ended June 30, 2015, we had a \$0.4 million increase in foreign currency losses compared to the corresponding period in 2014.

Income Tax Expense

Income tax expense was \$2.7 million for the second quarter of 2015 compared to \$5.7 million for the second quarter of 2014. The effective income tax rate was 36.3% and 41.1% for the three months ended June 30, 2015 and 2014, respectively. The decrease in the effective income tax rate during the second quarter of 2015 is primarily due to an increase in income in jurisdictions with lower tax rates. Income tax expense for the quarterly periods is based on an estimated annual effective tax rate which includes the U.S. federal, state and local, and non-U.S. statutory rates, permanent differences, and other items that may have an impact on income tax expense.

Six Months ended June 30, 2015 Compared to the Six Months ended June 30, 2014

Our revenue decreased \$11.9 million or 4.7% and our gross profit decreased \$3.9 million or 9.1% during the six months ended June 30, 2015 compared to six months ended June 30, 2014. The net decline is largely attributable to a \$22.9 million revenue decrease due to the completion of alternative fuels projects in 2014 and a \$5.7 million revenue decrease due to unfavorable changes in foreign currency exchange rates, partially offset by an increase in global training services. The changes in revenue and gross profit are discussed in further detail below by segment. Operating income, the components of which are discussed in detail below, decreased \$5.6 million or 26.7% to \$15.3 million for the first half of 2015 compared to \$20.9 million for the same period in 2014. The net decrease in operating income was primarily due to a \$3.9 million decrease in gross profit, a \$0.6 million increase in SG&A expenses primarily due

to increased costs associated with global expansion, and a \$1.1 million decrease in the change in fair value of contingent consideration. For the six months ended June 30, 2015, we had income before income tax expense of \$14.1 million compared to \$20.9 million for the six months ended June 30, 2014. Net income was \$8.8 million, or \$0.51 per diluted share, for the six months ended June 30, 2015, compared to net income of \$12.4 million, or \$0.64 per diluted share, for the six months ended June 30, 2014. Diluted weighted average shares outstanding were 17.3 million for the six months ended June 30, 2015 compared to 19.4 million for the six months ended June 30, 2014. The decrease in shares outstanding is primarily due to the completion of the modified "Dutch auction" tender offer in October 2014 in which we repurchased 2.1 million shares of our outstanding common stock.

Learning Solutions revenue increased \$8.6 million or 9.2% during the six months ended June 30, 2015 compared to the same period in 2014. The increase in revenue is due to the following:

- ▲ \$1.9 million increase attributable to the Effective Companies acquisition completed in April 2014;
- ▲ \$9.4 million net increase in e-Learning content development and training business process outsourcing (BPO) services primarily attributable to a global outsourcing contract with a financial services client; and
- ▲ \$1.6 million increase in UK government funded skills training services.

These revenue increases were offset by a \$4.3 million decrease in revenue due to unfavorable changes in exchange rates.

Professional & Technical Services revenue decreased \$22.3 million or 27.1% during the six months ended June 30, 2015 compared to the same period in 2014. The increase in revenue is due to the following:

- ▲ \$22.9 million decrease due to the completion of LNG projects by our alternative fuels business in 2014;
- ▲ \$2.5 million net decrease in revenue from U.S. government clients due to project completions in 2014; and
- ▲ \$1.2 million decrease in revenue due to unfavorable changes in exchange rates.

These decreases were partially offset by a \$1.4 million increase in our Energy business due to a non-recurring revenue adjustment in 2014, a \$1.3 million net increase in training and engineering services and software sales primarily to Energy clients, a \$1.2 million net increase in training and technical services for oil and gas clients, and a \$0.4 million net increase in training and technical services for various clients.

Sandy Training & Marketing revenue increased \$5.4 million or 15.8% during the six months ended June 30, 2015 compared to the same period in 2014. The net increase is primarily due to an increase in magazine publications revenue due to a new publication contract with an automotive customer which began in the second quarter of 2015, as well as an increase in training services for automotive customers.

Performance Readiness Solutions revenue decreased \$3.7 million or 8.8% during the six months ended June 30, 2015 compared to the same period in 2014. The net decrease is primarily due to a decline in its ERP implementation business due to project completions and a decline in training and consulting services for certain of its existing customers during the second quarter of 2015. In addition, unfavorable changes in foreign currency exchange rates resulted in a \$0.2 million decrease in revenue during the six months ended June 30, 2015 compared to the same period in 2014. Learning Solutions gross profit of \$16.7 million or 16.3% of revenue for the six months ended June 30, 2015 increased by \$2.9 million or 21.0% when compared to gross profit of \$13.8 million or 14.7% of revenue for the same period in 2014. The increase in gross profit is due to the revenue increases noted above, a reduction in implementation costs incurred on a global outsourcing contract with a financial services client and an increase in gross profit and margin on UK government funded skills training services. These increases were offset by a \$0.7 million decrease in gross profit due to unfavorable changes in foreign currency exchange rates.

Professional & Technical Services gross profit of \$12.2 million or 20.4% of revenue for the six months ended June 30, 2015 decreased by \$6.5 million or 34.6% when compared to gross profit of \$18.7 million or 22.8% of revenue for the same period in 2014. The decrease in gross profit and margin is primarily due to the LNG revenue decreases.

Sandy Training and Marketing gross profit of \$5.4 million or 13.5% of revenue for the six months ended June 30, 2015 increased by \$0.2 million or 3.7% when compared to gross profit of \$5.2 million or 15.1% of revenue for the same period in 2014 due to the revenue increase noted above. Gross profit as a percentage of revenue decreased during the six months ended June 30, 2015 due to an increase in lower margin publication revenue compared to the same period in 2014. We anticipate that the gross margins in this segment will continue to be lower in future quarters compared to prior periods due to an increase in lower margin publications revenue that is expected to continue for the remainder of this year.

Performance Readiness Solutions gross profit of \$4.8 million or 12.6% of revenue for the six months ended June 30, 2015 decreased by \$0.5 million or 10.0% when compared to gross profit of \$5.4 million or 12.7% of revenue for the same period in 2014. The decrease in gross profit is primarily due to a decrease in revenue on higher margin projects which concluded compared to the other revenue streams in this segment. We anticipate that the year-over-year decline in gross profit will continue in the third quarter of 2015 when compared to the third quarter of 2014 due to certain non-recurring revenue and gross profit increases in the third quarter of 2014. If we continue to experience significant declines in this segment in future periods, we could incur goodwill impairment charges in the future.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$0.6 million or 2.4% from \$23.1 million for the six months ended June 30, 2014 to \$23.6 million for the same period in 2015. The increase is primarily due to a \$1.2 million increase in labor and benefits expense due to international expansion during 2014 and a \$0.6 million net increase in IT infrastructure and various other expenses. These increases were offset by a \$0.7 million decrease in amortization expense and a \$0.5 million decrease in legal expenses during the first half of 2015 compared to the same period in 2014.

Change in Fair Value of Contingent Consideration

We recognized a net loss on the change in fair value of contingent consideration related to acquisitions of \$0.3 million for the six months ended June 30, 2015 compared to a net gain of \$0.9 million for the same period in 2014. Changes in the fair value of contingent consideration obligations result from changes in discount periods, changes in the timing and amount of revenue and/or earnings estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. See Note 5 to the Condensed Consolidated Financial Statements for further details regarding the potential contingent consideration payments and the changes in fair value of the related liabilities during the six months ended June 30, 2015.

Interest Expense

Interest expense increased \$0.4 million from \$0.3 million for the six months ended June 30, 2014 to \$0.7 million for the six months ended June 30, 2015 due to an increase in borrowings under our Credit Agreement to fund the modified "Dutch auction" tender offer that was completed in October 2014.

Other Income (Expense)

Other expense was \$0.5 million for the six months ended June 30, 2015 compared to other income of \$0.3 million for the same period in 2014 and consisted primarily of income from a joint venture offset by foreign currency losses in both years. During the six months ended June 30, 2015, we had a \$0.8 million increase in foreign currency losses compared the corresponding period in 2014.

Income Tax Expense

Income tax expense was \$5.3 million for the six months ended June 30, 2015 compared to \$8.5 million for the same period in 2014. The effective income tax rate was 37.6% and 40.5% for the six months ended June 30, 2015 and 2014, respectively. The decrease in the effective income tax rate during the first half of 2015 is primarily due to an increase in income in jurisdictions with lower tax rates. Income tax expense for the quarterly periods is based on an estimated annual effective tax rate which includes the U.S. federal, state and local, and non-U.S. statutory rates, permanent differences, and other items that may have an impact on income tax expense.

Liquidity and Capital Resources

Working Capital

For the six months ended June 30, 2015, our working capital was \$48.4 million at June 30, 2015 compared to \$43.5 million at December 31, 2014. As of June 30, 2015 we had \$28.8 million of short-term borrowings and \$31.1 million of long-term debt outstanding. We believe that cash generated from operations and borrowings available under our Credit Agreement (\$35.2 million of available borrowings as of June 30, 2015) will be sufficient to fund our working capital and other requirements for at least the next twelve months.

As of June 30, 2015, the amount of cash and cash equivalents held outside of the U.S. by foreign subsidiaries was \$12.3 million. At the present time, we do not anticipate repatriating these balances to fund domestic operations. We would be required to accrue for and pay taxes in the U.S. in the event we repatriated these funds.

Acquisition-Related Payments

We may be required to pay the following additional contingent consideration in connection with completed acquisitions (dollars in thousands):

	As of June 30, 2015			Recorded Liability as of June 30, 2015
	Maximum potential contingent consideration due in 2015	2016	Total	
Acquisition: Effective Companies	\$—	\$2,581	\$2,581	\$2,310

Significant Customers & Concentration of Credit Risk

We have a market concentration of revenue in both the automotive sector and financial services & insurance sector. Revenue from the automotive industry accounted for approximately 18% and 14% of our consolidated revenue for the six months ended June 30, 2015 and 2014, respectively. In addition, we have a concentration of revenue from a single automotive customer, which accounted for approximately 11% of our consolidated revenue for the six months ended June 30, 2015. As of June 30, 2015, accounts receivable from a single automotive customer totaled \$11.7 million, or 12%, of our consolidated accounts receivable balance. Revenue from the financial services & insurance industry accounted for approximately 22% and 15% of our consolidated revenue for the six months ended June 30, 2015 and 2014, respectively. Beginning in 2015, we have a concentration of revenue from a single financial services customer, which accounted for approximately 14% of our consolidated revenue for the six months ended June 30, 2015. As of June 30, 2015, billed and unbilled accounts receivable from a single financial services customer totaled \$34.7 million, or 25%, of our consolidated accounts receivable and costs and estimated earnings in excess of billings on uncompleted contracts balances. No other single customer accounted for more than 10% of our consolidated revenue for the six months ended June 30, 2015 and 2014 or consolidated accounts receivable balance as of June 30, 2015.

Cash Flows

Edgar Filing: GP STRATEGIES CORP - Form 10-Q

Six Months ended June 30, 2015 Compared to the Six Months ended June 30, 2014

Our cash balance decreased \$2.2 million from \$14.5 million as of December 31, 2014 to \$12.3 million as of June 30, 2015. The decrease in cash and cash equivalents during the six months ended June 30, 2015 resulted from cash provided by operating activities of \$3.1 million, cash used in investing activities of \$1.5 million, cash used in financing activities of \$3.7 million and a \$0.1 million negative effect of exchange rate changes on cash and cash equivalents.

Cash provided by operating activities was \$3.1 million for the six months ended June 30, 2015 compared to cash used in operating activities of \$1.9 million for the same period in 2014. The increase in cash is primarily due to a net favorable increase in the change in working capital balances, offset by a decrease in net income during the first half of 2015 compared to the same period in 2014.

Cash used in investing activities was \$1.5 million for the six months ended June 30, 2015 compared to \$10.1 million for the same period in 2014. The decrease in cash used is due to the completion of the Effective Companies acquisition in April 2014 in which we used \$8.7 million of cash.

Cash used in financing activities was \$3.7 million for the six months ended June 30, 2015 compared to cash provided by financing activities of \$12.6 million for the same period in 2014. The increase in cash used in financing activities is primarily due to \$6.7 million of long-term debt repayments and a \$9.4 million reduction in proceeds from short-term borrowings in the first half of 2015 compared to the same period in 2014.

Debt

On September 2, 2014, we entered into a Fourth Amended and Restated Financing and Security Agreement (the “Credit Agreement”). The Credit Agreement provides for a revolving credit facility up to a maximum principal amount of \$65 million and for a term loan in the principal amount of \$40 million maturing on October 31, 2017 (the “Maturity Date”), and is secured by substantially all of our assets.

The maximum interest rate on the Credit Agreement is the daily one-month LIBOR market index rate plus 2.50%. Based on our financial performance, the interest rate can be reduced to a minimum rate of the daily one-month LIBOR market index rate plus 1.25%, with the rate being determined based on our maximum leverage ratio for the preceding four quarters. Each unpaid advance on the revolving loan will bear interest until the Maturity Date. The term loan is payable in monthly installments equal to \$1.1 million plus applicable interest, beginning on November 1, 2014 and ending on the Maturity Date. We may prepay the term loan or the revolving loan, in whole or in part, at any time without premium or penalty, subject to certain conditions. Amounts repaid or prepaid on the term loan may not be reborrowed.

The Credit Agreement contains customary affirmative and negative covenants, including covenants that limit or restrict our and our subsidiaries’ (subject to certain exceptions) ability to, among other things, grant liens, make investments, incur indebtedness, merge or consolidate, dispose of assets, make acquisitions. We are also required to maintain compliance with a minimum fixed charge coverage ratio of 2.0 to 1.0 and a maximum leverage ratio of 2.25 to 1.0. As of June 30, 2015, our fixed coverage charge ratio was 2.9 to 1.0 and our leverage ratio was 1.2 to 1.0, all of which were in compliance with the Credit Agreement.

As of June 30, 2015, our total long-term debt outstanding under the term loan was \$31.1 million. In addition, there were \$28.8 million of borrowings outstanding and \$35.2 million of available borrowings under the Credit Agreement. For the six months ended June 30, 2015, the weighted average interest rate on our borrowings was 2.1%.

Off-Balance Sheet Commitments

As of June 30, 2015, we did not have any off-balance sheet commitments except for operating leases and letters of credit entered into in the normal course of business.

Accounting Standard Issued

We discuss recently issued accounting standards in Note 2 to the accompanying consolidated financial statements.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward looking statements. Forward-looking statements are not statements of historical facts, but rather reflect our current expectations concerning future events and results. We use words such as “expects,” “intends,” “believes,” “may,” “will,” “should,” “could,” “anticipates,” “estimates,” “plans” and similar to indicate forward-looking statements, but their absence does not mean a statement is not forward-looking. Because these forward-looking statements are based upon management’s expectations and assumptions and are subject to risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements, including, but not limited to, those factors set forth in Item 1A - Risk Factors of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2014 and those other risks and uncertainties detailed in our periodic reports and registration statements filed with the Securities and Exchange Commission. We caution that these risk factors may not be exhaustive. We operate in a continually changing business environment, and new risk factors emerge from time to time. We cannot predict these new risk factors, nor can we assess the effect, if any, of the new risk factors on our business or the extent to which any factor or combination of factors may cause actual results to differ from those expressed or implied by these forward-looking statements.

If any one or more of these expectations and assumptions proves incorrect, actual results will likely differ materially from those contemplated by the forward-looking statements. Even if all of the foregoing assumptions and expectations prove correct, actual results may still differ materially from those expressed in the forward-looking statements as a result of factors we may not anticipate or that may be beyond our control. While we cannot assess the future impact that any of these differences could have on our business, financial condition, results of operations and cash flows or the market price of shares of our common stock, the differences could be significant. We do not undertake to update any forward-looking statements made by us, whether as a result of new information, future events or otherwise. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this report.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company has no material changes to the disclosure on this matter made in its Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain a comprehensive set of disclosure controls and procedures (as defined in Rules 13a-15(e) and under the Securities Exchange Act of 1934 (“Exchange Act”)) designed to provide reasonable assurance that information required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported accurately and within the time periods specified in the SEC’s rules and forms. Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures are effective in providing reasonable assurance of the achievement of the objectives described above.

Internal Control Over Financial Reporting

During the quarter ended June 30, 2015, there was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d—15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

The Company has no material changes to the disclosure on this matter made in its Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about the Company's share repurchase activity for the three months ended June 30, 2015:

Month	Issuer Purchases of Equity Securities			Total number of shares purchased as part of publicly announced program	Approximate dollar value of shares that may yet be purchased under the program (1)
	Total number of shares purchased	Average price paid per share			
April 1 - 30, 2015	291	(2) \$35.56		—	\$14,636,000
May 1 - 31, 2015	24,121	(2) \$32.27		22,800	\$13,899,000
June 1 - 30, 2015	—	\$—		—	\$13,899,000

(1) We have a share repurchase program under which we may repurchase shares of our common stock from time to time in the open market subject to prevailing business and market conditions and other factors. There is no expiration date for the repurchase program. In February 2015, the Company's Board of Directors authorized an increase to the share repurchase program of \$15 million, replacing the existing authorization.

(2) Includes shares surrendered by employees to satisfy minimum tax withholding obligations on restricted stock units which vested and shares surrendered to exercise stock options and satisfy the related minimum tax withholding obligations during the second quarter of 2015.
