PAR TECHNOLOGY CORPORATION

-REPORTS FIRST QUARTER RESULTS-

-----  
NEW HARTFORD, NY, PAR TECHNOLOGY CORPORATION (NYSE:PTC)

New Hartford, NY--April 29, 2008--PAR Technology Corporation (NYSE:PTC) today announced results from operations for the first quarter ended March 31, 2008.

PAR reported first quarter revenues of \$52.1 million, a 9% increase over the \$47.8 million reported in the same period a year ago. A net loss for the first quarter of \$744,000 was reported compared with a net loss of \$1.3 million in the first quarter of 2007. The Company reported diluted loss per share of \$0.05 for the first quarter of 2008, compared to diluted loss per share of \$0.09 for the first quarter of last year.

John W. Sammon, PAR Chairman and CEO commented, "As anticipated, our revenues in the first quarter of 2008 were impacted by the continued third party software delays surrounding our largest hospitality customer. Additionally, overall revenue in North America was particularly challenging for us in the first quarter due to traditional seasonality issues and the typical decision delays leading up to McDonald's international convention which was held earlier this month. While our first quarter hospitality results were not unexpected, we were pleased with the strong performance of our Government I/T business in the first quarter."

Sammon commented further, "In our hospitality technology business, we continue to invest in our growth strategy involving advanced software products and channel expansion both domestically and internationally. With success of these investments, we expect to broaden our customer base and improve profitability. We continue to enjoy excellent customer relationships as reflected this quarter in McDonald's awarding us their Technology Supplier of the Year."

Sammon concluded by stating, "We have a strong foundation business with the largest and most prestigious accounts in the growing hospitality sector and the infrastructure to deliver our hospitality solutions worldwide. Our government business is solid with consistent year to year performance. We are currently investing to position our company for future growth and profitability and with an anticipated improvement in our McDonald's business, we are confident of a return to profitability this year."

Statements in this release or by the Company's spokespersons from time to time may contain forward-looking statements. Any statements in this document that do not describe historical facts are forward-looking statements. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that all forward-looking statements involve risks and uncertainties, including without limitation, delays in new product introduction, risks in technology development and commercialization, risks in product development and market acceptance of and demand for the Company's products, risks of downturns in economic conditions generally, and in the quick service sector of the hospitality technology market specifically, risks of intellectual property rights associated with competition and competitive pricing pressures, risks associated with foreign sales and high customer concentration, and other risks detailed in the Company's filings with the Securities and Exchange Commission.

## ABOUT PAR TECHNOLOGY

PAR Technology Corporation creates and markets products that help hospitality operators around the world to better manage money, materials, people and the guest experience. PAR has provided hardware, software and services to the
