Invests primarily in Australian  
and Asian debt securities.

Annual Report  
October 31, 2002

Letter to Shareholders

December 13, 2002

Dear Shareholder,

We present this Annual Report which covers the activities of Aberdeen Asia-Pacific Income Fund, Inc. (the "Fund") for the year ended October 31, 2002. Included in this report is a review of the Australian and selected Asian economies and investment markets, together with an overview of the Fund's investments prepared by Aberdeen Asset Managers (C.I.) Limited (the "Investment Manager").

Net Asset Value Performance: 8.2% Per Annum Return Since Inception  
The Fund's net asset value ("NAV") return was 19.7% for the twelve months ended October 31, 2002 and 8.2% per annum since inception, assuming reinvestment of distributions.

Share Price Performance

The Fund's share price rose 5.7% over the year, from \$4.02 on October 31, 2001 to \$4.25 on October 31, 2002. The Fund's share price on October 31, 2002 represented a discount of 16.0% to the NAV per share of \$5.06. This represents a widening of the discount to NAV of 13.5% on October 31, 2001.

Asia: 42.8% of Total Assets invested in Asian Debt Securities

As of October 31, 2002, the Fund held 42.8% of its total assets in Asian debt securities. Of the Fund's total assets, 26.4% were held in Asian Yankee bonds, bringing the Fund's total U.S. dollar exposure to 29.1%.

Credit Quality: 71.1% of Total Assets Rated or Deemed Equivalent to A or Better

The Fund's total investments have maintained a high credit quality. As of October 31, 2002, 71.1% of the portfolio was invested in securities where either the issue or the issuer was rated A or better, or judged by the Investment Manager to be of equivalent quality.

Distributions

Distributions to common shareholders for the 12 months ended October 31, 2002

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

totalled 45 cents per share. Based on the share price of \$4.25 on October 31, 2002, the cash distribution rate over the 12 months then ended was 10.6%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit. On December 11, 2002 the Board of Directors declared a monthly distribution of 3.5 cents per share payable on January 10, 2003 to all shareholders of record as of December 31, 2002. The Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital. It is the Board's intention

2 Aberdeen Asia-Pacific Income Fund, Inc.

that the monthly distribution of 3.5 cents per share be maintained for 12 months, having begun with the February 2002 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in March 2003.

### Buy-Back program

On March 19, 2001 the Fund announced the approval of a share buy-back program. Purchases of shares under this program commenced on June 6, 2001 and, as of the date of this report, 2,723,300 shares have been repurchased and cancelled.

### Proposed Rights Offering to Common Shareholders

On October 8, 2002, the Fund filed a registration statement with the Securities and Exchange Commission in connection with a proposed transferable right offering to common shareholders. The purpose of the offering is to enable the Fund to increase its investments in Asian debt securities and to increase the Fund's net investment income. On November 19, 2002, the Fund issued a press release indicating that the Rights Offering Committee of the Board of Directors had made a determination that market conditions were not then favorable for the commencement of the offering, and that the commencement of the offering should be delayed until such time as market conditions may provide the Fund with an opportunity to enhance returns to shareholders. The Board of Directors will continue to review market conditions and all possible actions, which may include a rights offering, to enhance shareholder returns consistent with the Fund's primary investment objective.

For information about the Fund, including weekly updates of share price, NAV and details of distributions, please contact Aberdeen Asset Management Investor Relations, by:

Sincerely,

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

Martin Gilbert  
Chairman

All amounts are U.S. dollars unless otherwise stated.

Aberdeen Asia-Pacific Income Fund, Inc. 3

Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund is required to indicate the source of each distribution to shareholders. This estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

The distributions for the fiscal year ended October 31, 2002 were composed of 40% net investment income and 60% return of paid-in capital.

The amount attributed as a return of capital reflects, in part, the realization of currency losses in the Fund's Australian bond portfolio as a result of positioning the Fund's investments more toward Asia. Fund assets are marked to market; therefore the realization of such currency losses does not impact the Fund's net asset value. However these losses do offset distributable income, therefore increasing the return of capital component of the distribution.

The Investment Manager anticipates further increases in the level of investment in Asian fixed income securities, which may result in the realization of additional currency losses. The Investment Manager believes that the Fund will benefit from the increased exposure to Asia. Likewise, the Investment Manager anticipates that the higher yields currently available in that region, as compared with yields currently available in Australia, may better position the Fund to reduce and potentially eliminate the return of capital component of the Fund's monthly distributions. There can be no assurance, however, that the Investment Manager's expectations will be met.

In January 2003, a Form 1099 DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment.

4 Aberdeen Asia-Pacific Income Fund, Inc.

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

### Dividend Reinvestment and Cash Purchase Plan

We invite you to participate in the Fund's Dividend Reinvestment and Cash Purchase Plan ("the Plan") which allows you to automatically re-invest your distributions in shares of the Fund's common stock at favorable commission rates. Distributions made under the Plan are taxed to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per month. Under this arrangement, EquiServe Trust Company N.A. (the "Plan Agent") will purchase shares for you on the stock exchange or otherwise on the open market on or about the 15th of each month, unless shares of the Fund are trading at a premium, in which case the Fund will issue additional shares.

As a Participant in the Plan, you will have the convenience of:

Automatic reinvestment - the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs - shares purchased on your behalf under the Plan will be at reduced brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience - the Plan Agent will hold your shares in non-certificated form and will provide a detailed record of your holdings at the end of each distribution period.

To request a brochure containing information on the Plan, together with an authorization form, please contact the Plan Agent, EquiServe Trust Company N.A., P.O. Box 43011, Providence, RI 02940-3011 or toll free on 1-800-451-6788.

Aberdeen Asia-Pacific Income Fund, Inc. 5

### Report of the Investment Manager

#### Share Price Performance

On October 31, 2002 the Fund's share price was \$4.25, which represented a discount of 16.0% to the NAV of \$5.06. At the date of this report, the share price was \$4.40 representing a discount of 15.1% to the NAV of \$5.18.

NAV vs Share Price April 1986 through October 2002  
(LINE GRAPH)

#### Distributions

The Board reduced the Fund's monthly distribution from 4.5 cents per share to 3.5 cents per share beginning with the distribution payable on February 8, 2002. The Investment Manager continues its efforts to reallocate the portfolio toward higher yielding Asian fixed income securities, and also anticipates further improvement in the value of non-U.S. dollar currencies. Together, these factors may enhance the Fund's net investment income and its ability to realize capital gains. However, there can be no assurance that the

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

Investment Manager's expectations will be met.

### Auction Market Preferred Stock (AMPS)

The Fund's \$600 million of AMPS continued to be well bid at the weekly auctions. The average dividend rate paid was 1.95% over the quarter ended October 31, 2002, compared with an interest rate of 1.73% for 30-day U.S.

6 Aberdeen Asia-Pacific Income Fund, Inc.

### Report of the Investment Manager (continued)

commercial paper over the same period. These rates remained broadly unchanged over the period as the U.S. Federal Reserve has kept interest rates on hold. The rates paid to preferred shareholders have decreased since October 31, 2002 to a level of 1.50% as of the date of this report.

Over the past year, the impact of AMPS on the Fund has been positive, as the Australian dollar strengthened against the U.S. dollar. Most key Asian currencies followed a similar trend, with the Korean won, Thai baht, Singapore dollar and Indonesian rupiah all rising over the twelve months. In addition, the fact that U.S. interest rates have remained at historic lows has meant that the differential between AMPS funding rates and the yields at which the Fund invests remains positive. Overall, the outlook over the medium-term for investment markets and the portfolio in respect of these factors is considered by the Investment Manager to be favorable and AMPS are therefore seen as having the potential to enhance total shareholder returns in the medium term.

On September 16, 2002, the Fund entered into a 2 year interest rate swap agreement in order to hedge one third of the Fund's outstanding issues of AMPS. Under the original terms of the agreement, the Fund received a floating rate of interest (one month USD-LIBOR BBA rate) based on a notional amount of US\$200,000,000 and paid interest at a fixed rate of 2.46%. The fixed rate was re-priced to 2.10% on October 1, 2002.

Aberdeen Asia-Pacific Income Fund, Inc. 7

### Market Review and Outlook

#### AUSTRALIA

##### Economy

The Australian economy is currently in its eleventh year of expansion. Recent economic data indicated that the economy's annual growth rate was 3.8% in the second quarter of 2002. This result was underpinned by strong consumer demand, with retail sales 8% higher than the second quarter of 2001, and a strong housing sector, with building approvals recently pulling back from 8 year highs.

In the labor market, employment growth is currently running at an annual rate of 2% and the unemployment level has dropped to a 12-month low of 6.2%. Business conditions improved throughout 2002 to reach their highest levels since late 1999, reflecting better profitability and employment and trading conditions at 2-year highs. Business confidence has also strengthened in the face of weaker equity markets and threats of war.

Following two 0.25% tightenings earlier in 2002, the Reserve Bank of Australia (RBA) has opted to leave interest rates unchanged since June 2002, with their decisions likely to have been influenced by uncertainty about the strength of the global recovery, the threat of military action in Iraq and volatility in global equity markets. This has maintained Australian interest rates at historically low levels and an accommodative stance of monetary policy, although the RBA still retains a bias to raise interest rates further.

##### Fixed Income

The benchmark 10-year bond yield rose to 5.57% from 5.23% over the year ended October 31, 2002. Bank bill yields rose over the year, closing at 4.88%.

##### Currency

The Australian dollar surged through the first half of 2002 before losing ground in July, with investors heading for the relative safety of the Euro and the U.S. dollar, as the equity market fallout prompted renewed fears of a global recession. The Investment Manager's long-held view that the Australian dollar would appreciate towards 56 cents was achieved, and exceeded, in recent months as an ebbing of support for the U.S. dollar benefited peripheral currencies. The widening of the differential between Australian and U.S. interest rates continued throughout 2002, reaching levels not seen since the mid 1990s. The Investment Manager believes that this should remain a key source of support to the currency in the near term --

Aberdeen Asia-Pacific Income Fund, Inc. 11

### Market Review and Outlook (continued)

particularly given the likelihood that an easing in U.S. interest rates will see the differential widen further - as will the relative strength of domestic fundamentals. The Investment Manager retains the view that a target of 60 cents is achievable over the next 12 months.

The Australian dollar closed the period at US \$0.55 on October 31, 2002.

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

### ASIA

#### Economies

During the last quarter consumer demand was strong throughout Asia despite a fragile global economy. This reflected the easier fiscal and monetary policy settings prevailing in these economies. Inflationary pressures were generally low, with economic growth in a recovery phase and excess capacity evident in a number of industries. The Investment Manager expects that most non-pegged currencies in the Asian region will strengthen against the U.S. dollar, providing a natural tightening bias for many economies and that the Asian central banks will allow this to occur to an extent. However, the Investment Manager also believes that substantial currency appreciation is likely to be resisted by direct intervention or, in some cases, interest rate cuts. Asian economies have seen a sharp improvement in their export performance since late 2001. The Investment Manager anticipates that exports will probably continue to be a significant contributor to Asian growth.

#### Domestic Bond and Currency Markets

Continued high levels of liquidity and ongoing concern over a weakening outlook for the global backdrop saw domestic bonds rally over the quarter. The Fund's total Asian currency exposure was increased during the year ended October 31, 2002 to 14.4%.

#### Asian Yankee (US\$ denominated) Bond Market

Asian Yankee bonds posted gains over the year, with yields falling sharply as a result of rallying US Treasuries.

12 Aberdeen Asia-Pacific Income Fund, Inc.

#### Summary of Key Market Rates

24 Aberdeen Asia-Pacific Income Fund, Inc. See Notes to Financial Statements.

Notes to Financial Statements

Aberdeen Asia-Pacific Income Fund, Inc. (the 'Fund') was incorporated in Maryland on March 14, 1986 as a closed-end, non-diversified management investment company. The Fund's investment objective is to seek current income. The Fund may also achieve incidental capital appreciation. The Fund will seek to achieve its investment objective through investment in Australian and Asian debt securities. In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Asia-Pacific Income Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in Asian debt securities, Australian debt securities and New Zealand debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders. There can be no assurance that the Fund will achieve its objectives. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation:

The financial statements of the Fund are prepared in accordance with accounting

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

principles generally accepted in the United States of America, using the United States dollar as both the functional and reporting currency.

### Security Valuation:

The Fund's Board of Directors has adopted Pricing and Valuation Procedures (the 'Procedures') to be used in determining the value of the assets held by the Fund. In accordance with the Procedures, investments are stated at value. Investments for which market quotations are readily available are valued at the last trade price on the date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and asked price on the date of determination as obtained from a pricing source. Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost. Securities for which market quotations are not readily

Aberdeen Asia-Pacific Income Fund, Inc. 25

### Notes to Financial Statements (continued)

available are valued at fair value in good faith using methods set forth in the Procedures.

### Repurchase Agreements:

In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian takes possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

### Foreign Currency Translation:

Australian dollar ('A\$'), New Zealand dollar ('NZD') and Asian currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities--at the exchange rates at the end of the reporting periods;
- (ii) purchases and sales of investment securities, income and expenses--at the rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at October 31, 2002. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting periods.

Net realized and unrealized foreign exchange gains include realized foreign exchange gains and losses from sales and maturities of portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid and changes in unrealized foreign exchange gains and losses in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated net realized and unrealized foreign

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

exchange gains shown in the

26 Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

composition of net assets at October 31, 2002 represent foreign exchange gains for book purposes that have not yet been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

The exchange rate at October 31, 2002 was US\$.55 to A\$1.00 for the Australian dollar.

Securities Transactions and Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains and losses from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are recorded on the accrual basis. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

Changes in Accounting Principles:

As required, effective November 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premiums on debt securities for financial statement reporting purposes. This change has no impact on the net asset value of the Fund. Prior to November 1, 2001, the Fund did not amortize premiums on debt securities. Upon initial adoption, the Fund was required to adjust the cost of its fixed-income securities by the cumulative amounts of amortization that would have been recognized had the amortization been in effect from the purchase date of each holding. Adopting this accounting principle does not affect the Fund's net asset value, but changes the classification of certain amounts between interest income and realized and unrealized gain (loss) in the Statement of Operations. The current adjustments for the year ended October 31, 2002 resulted in a decrease to net investment income of \$14,105,126, an increase of net realized capital gains of \$28,161,311 and a decrease of unrealized appreciation of \$14,056,185. The cumulative adjustment upon adoption through October 31, 2001 resulted in a decrease in accumulated net investment income of \$53,372,190 and a decrease to net unrealized depreciation on investments of \$53,372,190. Because the Fund determines its required distributions under Federal income tax laws, adoption of

Aberdeen Asia-Pacific Income Fund, Inc. 27

Notes to Financial Statements (continued)

this principle does not affect the amount or composition of distributions paid to shareholders.

Forward Currency Contracts:

A forward currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The Fund enters into

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

forward currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings or on specific receivables and payables denominated in a foreign currency. The contracts are valued daily at current forward exchange rates and any unrealized gain or loss is included in net unrealized appreciation or depreciation on investments. Gain or loss is realized on the settlement date of the contract equal to the difference between the settlement value of the original and renegotiated forward contracts. This gain or loss, if any, is included in net realized gain (loss) on foreign currency transactions. Risks may arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

### Financial Futures Contracts:

A financial futures contract is an agreement to purchase (long) or sell (short) an agreed amount of securities or commodities at a set price for delivery on a future date. Upon entering into a financial futures contract, the Fund is required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount. This amount is known as the 'initial margin.' Subsequent payments, known as 'variation margin,' are made or received by the Fund periodically, depending on the periodic fluctuations in the value of the underlying security or commodity. Such variation margin is recorded for financial statement purposes on a daily basis as unrealized gain or loss. When the contract expires or is closed, the gain or loss is realized and is presented in the statement of operations as net realized gain (loss) on financial futures contracts.

The Fund invests in financial futures contracts in order to hedge existing portfolio securities, or securities the Fund intends to purchase, against fluctuations in value. Under a variety of circumstances, the Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts and the underlying assets.

### Securities Lending:

The Fund's investment policies permit the Fund to lend to banks and

28 Aberdeen Asia-Pacific Income Fund, Inc.

### Notes to Financial Statements (continued)

broker-dealers, portfolio securities with an aggregate market value of up to 15% of the Fund's total assets when it deems advisable. Pursuant to a securities lending agreement ('Agreement') between the Fund and State Street Bank and Trust Company ('State Street'), any loans made under the Agreement must be secured by collateral (consisting of any combination of cash, U.S. Government securities, irrevocable letters of credit or other high-quality debt securities) in an amount at least equal (on a daily marked-to-market basis) to the current market value of the securities loaned. An amendment to the Agreement provides that the cash collateral may be invested in State Street Navigator Securities Lending Trust, an affiliate of State Street, and proceeds from this investment are divided 70% as to the Fund and 30% as to State Street.

The Agreement also provides that the Fund may terminate the loans at any time and obtain the return of the securities, and that the Fund will continue to receive any interest or dividends obtained on any of the loaned securities and will continue to have voting rights with respect to the securities.

In the event the Fund lends its portfolio securities, the Fund may be exposed to counterparty risk, which may result in the delay in recovery of the loaned

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

securities or possible loss of right in the collateral should the borrower become insolvent. However, under the amendment to the Agreement, State Street will indemnify the Fund in the case of borrower default.

### Interest Rate and Currency Swap:

The Fund may engage in certain swap transactions in order to obtain a desired return at a lower cost than if the Fund had invested directly in the asset that yielded the desired return.

An interest rate and currency swap is an agreement between two parties which involves exchanging principal and fixed rate interest payments (one currency for principal and fixed rate interest payments in another currency in the case of interest rate and currency swap) for a specified period of time. Interest rate and currency swaps involve the accrual and exchange of interest payments between the parties.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by 'marking-to-market' to reflect the market value of the swap. When the swap is terminated, the Fund will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract.

Aberdeen Asia-Pacific Income Fund, Inc. 29

### Notes to Financial Statements (continued)

The Fund is exposed to credit loss in the event of non-performance by the other party to the interest rate and currency swap. However, the Fund does not anticipate non-performance by any counterparty.

### Dividends and Distributions:

It is the Fund's current policy to pay dividends from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions if necessary, on a monthly basis. The Fund will also declare and pay distributions at least annually from net realized gains on investment transactions and net realized foreign exchange gains, if any. Dividends and distributions to common shareholders are recorded on the ex-dividend date. Dividends and distributions to preferred shareholders are accrued on a weekly basis and are determined as described in Note 6.

Income distributions and capital and currency gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments for foreign currencies, loss deferrals and recognition of market discount and premium.

### Taxes:

For federal income and excise tax purposes, the Fund's transactions are accounted for using the Australian dollar as the functional currency. Accordingly, only realized currency gains and losses resulting from the repatriation of Australian dollars into United States dollars or transactions in New Zealand dollars or Asian country currencies are recognized for tax purposes.

No provision has been made for United States income taxes because it is the Fund's policy to continue to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders. The chart below summarizes the withholding tax rates in effect on interest income at the period end.

Withholding

Cash Flow Information:

The Fund invests in securities and makes distributions to common shareholders from net investment income and net realized gains from investment and currency transactions, and to the extent necessary, from return of paid-in capital. These distributions are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows. Cash includes domestic and foreign currency.

Note 2. Agreements

Aberdeen Asset Managers (C.I.) Limited (the 'Investment Manager') serves as investment manager to the Fund and Aberdeen Asset Management Limited (the 'Investment Adviser') serves as investment adviser to the Fund pursuant to a management agreement and an advisory agreement, respectively. The Investment Manager and the Investment Adviser are wholly-owned subsidiaries of Aberdeen Asset Management PLC.

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement provides the Investment Manager with a fee, computed weekly and payable monthly, at the following annual rates: 0.65% of the Fund's average weekly total net assets of common and preferred shareholders up to \$200 million, 0.60% of such assets between \$200 million and \$500 million, 0.55% of such assets between \$500 million and \$900 million, 0.50% of such assets between \$900 million and \$1,750 million and 0.45% of such assets in excess of \$1,750 million.

The Investment Manager pays fees to the Investment Adviser for its services rendered. The Investment Manager informed the Fund that it paid \$4,360,224 to the Investment Adviser during the year ended October 31, 2002.

Aberdeen Asia-Pacific Income Fund, Inc. 31

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

### Notes to Financial Statements (continued)

Prudential Investments LLC (the 'Administrator') serves as administrator to the Fund pursuant to an agreement. The administration agreement provides the Administrator with a fee at the annual rate of 0.15% of the Fund's average weekly total net assets of common and preferred shareholders up to \$900 million, 0.10% of such assets between \$900 million and \$1,750 million and 0.07% of such assets in excess of \$1,750 million. During the year, the Administrator remitted \$240,000 to the Investment Manager for certain compliance related administrative services provided.

Under terms of an Investor Relations Services Agreement, Aberdeen Fund Managers, Inc. ('Aberdeen'), an affiliate of the Fund's Investment Manager and Investment Advisor, serves as the Fund's investor relations services provider. This agreement provides Aberdeen with a monthly retainer fee of \$10,000 plus out-of-pocket expenses. During the year ended October 31, 2002, the Fund incurred fees of approximately \$120,000 for the services of Aberdeen. As of October 31, 2002, \$10,000 of this amount was due to Aberdeen. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

### Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the year ended October 31, 2002 aggregated \$708,129,654 and \$600,141,036, respectively.

The Fund entered into two interest rate and foreign currency swaps on February 16, 1999. Under the terms of the first swap, the Fund receives interest at a rate of 11.50% based on a notional amount of KRW5,124,367,250 and pays interest at a rate of 3.70% based on a notional amount of JPY500,000,000. Under the terms of the second swap, the Fund receives interest at a rate of 13.05% based on a notional amount of THB290,920,192 and pays interest at a rate of 3.35% based on a notional amount of JPY900,000,000. Net receipts or payments of such amounts are exchanged semi-annually. At October 31, 2002 the unrealized appreciation on currency swaps was \$1,652,167. The swaps are scheduled to terminate on April 26, 2006.

The Fund entered into an interest rate swap agreement on September 1, 2000. Under the terms of the agreement, the Fund receives a floating rate of interest based on a notional value of SGD 4,000,000 and pays interest at a fixed rate of 4.835%

32 Aberdeen Asia-Pacific Income Fund, Inc.

### Notes to Financial Statements (continued)

based on a notional value of SGD 4,000,000. Net receipts of payments of such amounts are exchanged semi-annually. At October 31, 2002 the unrealized depreciation on this interest rate swap was \$352,949. The swap is scheduled to terminate on September 6, 2010.

The Fund entered into an interest rate swap agreement on September 16, 2002. Under the terms of the agreement, the Fund receives a floating rate of interest based on a notional value of \$200,000,000 and pays interest at a fixed rate of 2.10% subject to periodic resets. At October 31, 2002 the floating rate in effect was 1.82%. The net receipts of payments of such amounts are exchanged every 28 calendar days beginning after October 1, 2002. At October 31, 2002 the unrealized depreciation on this interest rate swap was \$576,061. The swap is scheduled to terminate on September 18, 2004.

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

Net interest income of \$782,159 on interest rate and currency swaps earned during the year is included in interest income in the Statement of Operations.

At October 31, 2002 the Fund had outstanding forward currency contracts to buy and sell foreign currency against United States dollars as follows:

Foreign Currency Sale Contract	Value at Settlement Date Receivable	Current Value	Depreciation
Thailand Baht			
settlement date 11/29/02	\$ 7,788,049	\$ 7,838,484	\$ 50,435

Note 4. Distributions and Tax Information

Distributions to shareholders, which are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principals, are recorded on the ex-dividend date. In order to present undistributed net investment income (loss) and accumulated net realized gains (losses) on the Statement of Assets and Liabilities in a way that more closely represent their tax character, certain adjustments have been made to paid-in capital in excess of par, undistributed net investment income (loss) and accumulated net realized gains (loss) on investments.

For the year ended October 31, 2002, the adjustments were to decrease accumulated net investment loss by \$27,208,126, decrease accumulated net realized gain on investments by \$29,758,103, decrease accumulated net realized and unrealized foreign exchange losses by \$77,920,781 and decrease paid-in capital in excess of par by \$75,370,804. Net investment income, net realized losses and net assets were not affected by this change.

For the year ended October 31, 2002, the tax character of total dividends paid to common shareholders as reflected in the Statement of Changes in Net Assets, are

34 Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

\$41,276,180 of ordinary income and \$75,370,804 of return of capital distributions.

The United States federal income tax basis of the Fund's investments and the net unrealized appreciation as of October 31, 2002 were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Appreciation
-----	-----	-----	-----
\$1,857,348,511	\$64,762,638	\$25,712,854	\$39,049,784

The difference between book basis and tax basis was primarily attributable to deferred losses on wash sales, differing tax treatment for foreign currencies, loss deferrals and recognition of discount and of premium amortization.

Note 5. Common Stock

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

There are 400 million shares of common stock authorized. At October 31, 2002, there were 264,654,000 common shares issued and outstanding.

On October 8, 2002, the Fund filed a registration statement with the Securities and Exchange Commission in connection with a proposed transferable rights offering to common shareholders. The purpose of the offering is to enable the Fund to increase its investments in Asian debt securities and increase the Fund's net investment income. For the year ended October 31, 2002, the Fund incurred \$100,000 of expenses in connection with the proposed rights offering. These expenses are being deferred and will reduce the future proceeds from the offering. If the Fund does not consummate the rights offering, the deferred expenses will be recognized.

On March 1, 2001, the Board of Directors approved a stock repurchase program. The stock repurchase program allows the Fund to repurchase up to 10% of its outstanding common stock in the open market during any 12 month period if and when the discount to net asset value is at least 10%. The weighted average discount rate for the year ended October 31, 2002 was 13.33%. The number of shares repurchased and cancelled under this program for the years ended October 31, 2002 and October 31, 2001 were 2,127,600 and 595,700, respectively.

Aberdeen Asia-Pacific Income Fund, Inc. 35

Notes to Financial Statements (continued)

### Note 6. Preferred Stock

The Preferred Stock shareholders have rights as determined by the Board of Directors. The 24,000 shares of Auction Market Preferred Stock ('Preferred Stock') outstanding consist of nine series as follows: Series A--3,000 shares, Series B--3,000 shares, Series C--2,000 shares, Series D--4,000 shares, Series E--2,000 shares, Series F--2,000 shares, Series G--3,000 shares, Series H--2,500 shares and Series I--2,500 shares.

Dividends on each series of Preferred Stock are cumulative at a rate established at the initial public offering and are typically reset every 28 days for Series A through D and every seven days for Series E through I based on the results of an auction. Dividend rates ranged from 1.7% to 2.7% during the year ended October 31, 2002. Under the Investment Company Act of 1940, the Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Stock would be less than 200%.

The Preferred Stock is redeemable at the option of the Fund, in whole or in part, on any dividend payment date at liquidation value plus any accumulated but unpaid dividends. The Preferred Stock is also subject to mandatory redemption at liquidation value plus any accumulated but unpaid dividends if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Articles of Incorporation are not satisfied.

The holders of Preferred Stock have voting rights equal to the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class. However, holders of Preferred Stock are also entitled to elect two of the Fund's directors.

A recent Securities and Exchange Commission staff announcement, Emerging Issues Task Force Discussion ('EITF D'-98), Classification and Measurement of Redeemable Securities, was issued providing new guidance related to the presentation of Preferred Shares in the financial statements. To conform with

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

this guidance, the Fund has reclassified its Preferred Stock outside of net assets in the Statement of Assets and Liabilities and restated its Statement of Changes in Net Assets to reflect only net assets applicable to common shareholders.

36 Aberdeen Asia-Pacific Income Fund, Inc.

### Notes to Financial Statements (continued)

#### Note 7. Subsequent Events

On November 18, 2002 and December 11, 2002, the Board of Directors declared a monthly distribution of 3.5 cents per share payable on December 6, 2002 and January 10, 2003 to all shareholders of record as of November 29, 2002 and December 31, 2002 (ex-dividend dates November 26, 2002 and December 27, 2002, respectively).

Subsequent to October 31, 2002, dividends and distributions declared and paid on Preferred Stock totaled approximately \$1,338,895 for the nine outstanding preferred share series in the aggregate through December 13, 2002.

Aberdeen Asia-Pacific Income Fund, Inc. 37

\* Calculated based upon average shares outstanding during the year.

D Total investment return is calculated assuming a purchase of common stock on the first day and a sale on the last day of each year reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions.

DD Includes expenses of both preferred and common stock.

# Ratios calculated on the basis of income, expenses and preferred share dividends applicable to both the common and preferred shares relative to the average net assets of common shareholders. Expense ratios relative to the average net assets of common and preferred shareholders are 1.03%, 1.03%, .98%, .95% and .95%, respectively. Ratios to average net assets of net investment income before preferred stock dividends are 8.18%, 10.76%, 10.52%, 9.79% and 10.72%, respectively. Ratios to average net assets of preferred stock dividends are .97%, 2.28%, 2.30%, 1.45% and 2.21%, respectively.

## Less than \$0.005 per share.

### Effective November 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premiums on debt securities. The effect of this change for the year ended October 31, 2002 was to decrease net investment income per share by \$0.05 and increase net realized and unrealized gain (loss) per share by \$0.05 and decrease the ratio of net investment income from 8.31% to 7.21%. Per share amounts and ratios for the years ended prior to October 31, 2002 have not been restated to reflect this change in presentation.

Report of Independent Accountants

To the Shareholders and Board of Directors of  
Aberdeen Asia-Pacific Income Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations, of cash flows and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Aberdeen Asia-Pacific Income Fund, Inc. (the 'Fund') at October 31, 2002, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as 'financial statements') are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at October 31, 2002 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

40 Aberdeen Asia-Pacific Income Fund, Inc.

### Federal Tax Information (Unaudited)

As required by Internal Revenue Code regulations, we are to advise you within 60 days of the Fund's fiscal year end (October 31, 2002) as to the tax status of dividends, distributions and foreign tax credits paid by the Fund during the fiscal year. During fiscal year 2002, the Fund paid dividends and distributions to common shareholders of \$.16 and \$.28 of net investment income and return of capital, respectively. During fiscal year 2002, the Fund paid amounts for dividends and distributions to preferred shareholders from net investment income and capital gains as shown in the table below. These dividends do not qualify for the 70% dividends received deduction for corporations.

The Fund has elected to give the benefit of foreign tax credits to its shareholders in the amount designated below on a per share basis. Accordingly, shareholders who must report their gross income dividends and distributions in a federal income tax return will be entitled to a foreign tax credit, or an itemized deduction, in computing their U.S. income tax liability. It is generally more advantageous to claim a credit rather than to take a deduction. The following table allocates the dividends and distributions paid by their sources:

	Gross Amount	Foreign Taxes Paid	Net Dividends and Distributions Paid

Federal Tax Information (Unaudited) (continued)

Although the Fund has made the election required to make this foreign tax credit or deduction available to you, the amount of allowable tax credit is subject to Section 904 of the Internal Revenue Code. Shareholders are advised to consult their own tax advisors with respect to the tax consequences of their investment in the Fund.

In January 2003 shareholders will receive Form 1099-DIV, or substitute 1099-DIV, which will reflect the amount of dividends and distributions and foreign taxes to be used by calendar year taxpayers on their 2002 federal income tax returns.

Aberdeen Asia-Pacific Income Fund, Inc. 45

Other Information (Unaudited)

Dividend Reinvestment and Cash Purchase Plan.--Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares pursuant to the Fund's Dividend Reinvestment and Cash Purchase Plan (the 'Plan'). Generally, shareholders who do not participate in the Plan will receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent. Shareholders who wish to participate in the Plan should contact the Fund at (800) 451-6788.

EquiServe Trust Company N.A. (the 'Plan Agent') serves as agent for the shareholders in administering the Plan. Dividends and capital gains distributions payable to Plan participants will be promptly invested. If the Fund declares an income dividend or capital gains distribution payable in stock to shareholders who are not Plan participants, then Plan participants will receive that dividend or distribution in newly issued shares on identical terms and conditions.

In every other case Plan participants will receive shares on the following basis: If the market price of the Fund's common stock plus any brokerage commission is equal to or exceeds net asset value, Plan participants will receive newly issued shares valued at the greater of net asset value or 95% of current market price. If, on the other hand, the net asset value plus any brokerage commission exceeds the market price, the Plan Agent will buy shares in the open market. If the market price plus any applicable brokerage commission exceeds net asset value before the Plan Agent has completed its purchases, the Fund will issue new shares to complete the program. All reinvestments are in

## Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-30D

full and fractional shares carried to three decimal places.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends and distributions.

46 Aberdeen Asia-Pacific Income Fund, Inc.

### Other Information (Unaudited) (continued)

The Plan also allows participants to make optional cash investments of at least \$100 in Fund shares as frequently as monthly through the Plan Agent on the open market. Participants must pay a service fee of \$0.75 for each investment and a pro rata share of the brokerage commissions.

The Fund reserves the right to amend or terminate the Plan either in full or partially upon 90 days' written or telephone notice to shareholders of the Fund.

Participants in the Plan may withdraw some or all of their shares from the Plan upon written notice to the Plan Agent and will receive certificates for whole Shares and cash for fractional Shares. In the alternative, by giving proper notice to the Plan Agent, participants may receive cash in lieu of shares in an amount which is reduced by brokerage commissions in connection with the sale of shares and a \$2.50 service fee.

All correspondence concerning the Plan should be directed to the Plan Agent, EquiServe Trust Company N.A., P.O. Box 43011, Providence, RI 02940-3011.
