(a) Sale of NFO.

On May 14, 2003, The Interpublic Group of Companies, Inc. (the "Company") entered into a definitive agreement for the sale of NFO WorldGroup, Inc. ("NFO") to Taylor Nelson Sofres ("TNS") in return for \$400 million in cash and 11,688,218 ordinary shares of TNS (which, as of June 16, 2003 had an aggregate market value of approximately \$33.6 million). The Company has agreed, subject to specified conditions, to hold half of the TNS shares until at least

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 8-K

December 2003 and the remainder until at least March 2004. TNS will pay the Company an additional \$10 million in cash approximately one year following the closing of this divestiture contingent on the market price per TNS ordinary share continuing to exceed 146 pence (equivalent to approximately \$2.50 at current exchange rates) during a specified averaging period one year from closing. The portion of the consideration consisting of ordinary shares of TNS will be admitted for trading on the London Stock Exchange. The conditions to the consummation of this divestiture include approval by a special meeting of the shareholders of TNS, disbursement of acquisition financing to TNS and receipt of regulatory clearances in the United States and abroad. The Company expects to consummate the transaction in the summer of 2003. As a result of this divestiture, the Company expects to realize a pre-tax gain of approximately \$100 million. If this transaction were not to close as a result of either the failure of the shareholders of TNS to approve the transaction or the failure of TNS to obtain acquisition financing, then TNS would generally be required to pay a \$4.25 million termination fee to the Company. The descriptions of this divestiture transaction in this document are qualified in their entirety by reference to the Share Purchase Agreement, dated as of May 14, 2003, which is attached hereto as Exhibit 2.1.

Based on circumstances surrounding the decision to divest NFO, it has been determined that the assets and liabilities of NFO should be classified in the Company's March 31, 2003 balance sheet as assets and liabilities held for sale in accordance with SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". As a result of the agreement referred to above, the results of NFO will be treated as discontinued operations in the second quarter of 2003. For 2002, the revenues and net income of NFO were \$466.1 million and \$31.5 million, respectively. For the first quarter of 2003, the revenues and net income of NFO were \$117.3 million and \$2.6 million, respectively.

Included in assets held for sale as of March 31, 2003 are accounts receivable of \$81.4 million, prepaid expenses and other current assets of \$52.7 million, net fixed assets of \$46.9 million, intangible assets of \$214.1 million and other assets of \$19.5 million. Included in liabilities held for sale as of March 31, 2003 are accounts payable of \$21.7 million, accrued expenses of \$73.8 million, and other liabilities of \$25.6 million.

(b) Legal Proceedings Update.

As previously disclosed, a consolidated federal securities purported class action and two state securities purported class actions arising out of the recent restatements of the Company's financial statements are among several lawsuits currently pending against the Company. Also as previously disclosed, on April 15, 2003, on plaintiffs' motion, the latter two suits were remanded to Illinois state court by the United States District Court for the Northern District of Illinois, to which they had previously been removed. Furthermore, on May 29, 2003, the United States District Court for the Southern District of New York denied the Company's motion to dismiss the complaint in the consolidated federal securities purported class action. The Company intends to defend these actions vigorously. However, as with all litigation, these proceedings contain elements of uncertainty and the final resolution of these actions could have a material impact on the Company's financial position, cash flows or results of operations.

Item 7. Financial Statements and Exhibits.

(b) Pro Forma Financial Information.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 8-K

The following unaudited pro forma financial information assumes the divestiture of NFO to TNS in accordance with the definitive agreements signed May 14, 2003 by the Company and TNS. The following unaudited pro forma balance sheet as of March 31, 2003 is based on the historical financial statements of the Company as of March 31, 2003 after giving effect to the divestiture transaction as if it had occurred on March 31, 2003. The following unaudited pro forma statements of income for the three months ended March 31, 2003 and the fiscal years ended December 31, 2002, 2001 and 2000 are based on the historical financial statements of the Company for such periods after giving effect to the divestiture transaction as if it had occurred on January 1, 2000. You should read the information presented below in conjunction with the financial statements and the notes to the financial statements of the Company included in the Company's annual report on Form 10-K for the year ended December 31, 2002 and the Company's quarterly report on Form 10-Q for the quarter ended March 31, 2003. The unaudited pro forma information below helps to illustrate the financial characteristics of the divestiture under one set of assumptions, but does not attempt to predict or suggest future results. Moreover, the unaudited pro forma information does not attempt to show what the financial condition or results of operations of the Company would have been if the divestiture transaction had occurred at March 31, 2003 or at the commencement of the periods indicated below.

Unaudited pro forma condensed consolidated statements of operations for the periods ended December 31, 2002, 2001 and 2000 and March 31, 2003 are as follows:

Notes to Unaudited Pro Forma Condensed Financial Information

1. Basis of Presentation

The accompanying financial statements have been presented to show the impact of classifying the results of NFO as a discontinued operation. For purposes of presentation, the statements of operations of NFO have been adjusted to remove various intercompany charges, including those for interest, and the balance sheet has been adjusted as discussed in Note 3 below.

2. Transaction

As noted above, the expected proceeds to be received include cash of \$400 million, 11,688,218 shares in TNS (which, as of June 16, 2003 had an aggregate market value of approximately \$33.6 million) and an additional \$10 million in cash approximately one year after the closing of the transaction contingent on the market price per TNS ordinary share continuing to exceed 146 pence (equivalent to approximately \$2.50 at current exchange rates) during a specified averaging period one year from closing. Based on consideration to be received (excluding the contingent consideration), and after taking into account transaction costs and expenses, the Company expects to realize a pre-tax gain of approximately \$100 million on completion of the transaction. The transaction is expected to close during the summer of 2003.

The Company estimates that transaction costs (including fees payable to the Company's financial advisors and bonuses payable to certain members of NFO management) will approximate \$17 million.

3. Balance Sheet Adjustments

The balance sheet presented as historical reflects the balance sheet filed by the Company in its Form 10-Q for the three months ended March 31, 2003. Adjustments have been made as follows:

- (i) To adjust balance sheet accounts (principally related to taxes) to reflect balances that would relate to NFO on a "stand alone" basis;
- (ii) To eliminate cash and debt balances that will be retained by TNS; and
- (iii) To eliminate all assets and liabilities of NFO that are "held for sale."

(c) Exhibits.
