Quarter's Revenues Near NIS 100M With 43% Rise in Operating Profit

012-Golden Lines Acquisition on Track, Application for Regulatory Approval Now in Process

PETACH TIKVA, Israel, August 15 /PRNewswire-FirstCall/ -- Internet Gold, (Nasdaq: IGLD and TASE: IGLD) today reported its financial results for the second quarter and six months ended June 30, 2006.

#### Highlights

- Record revenues and profits: Q2 sales reach a record of NIS 97.2 million, up 29% year-over-year; operating income reaches a record of NIS 11.4 million, up 43% year-over-year
- Pending acquisition of 012-Golden Lines: after the quarter, the Company signed an agreement to buy a controlling interest in 012-Golden Lines, and is currently seeking the required regulatory approvals to merge it with its communications activity.
- Major events after the quarter: during the past two difficult months, Israel has been involved in a war which has significantly affected its economy. Demand for communications services in general have increased and the Company has realized higher revenues from its Internet access and international telephony activities. On the media side, advertising budgets for all media have been reduced. While Internet advertising has been impacted less than television and other channels, the Company expects its smile.media subsidiary may experience a decrease in revenues in the third quarter.

#### Financial Results

Revenues for the second quarter of 2006 reached a record of NIS 97.2 million (US\$ 21.9 million), an increase of 29% compared with NIS 75.3 million in the second quarter of 2005, and 3% compared with the first quarter of 2006.

Operating income for the quarter reached a record of NIS 11.4 million (US\$ 2.6 million), an increase of 43% compared to NIS 7.9 million in the second quarter of 2005 and 18% compared to the first quarter of 2006.

Net income for the quarter reached NIS 6.6 million (US \$1.5 million), or NIS 0.36 (US\$ 0.08) per share, an increase of 43% compared to NIS 4.7 million, or NIS 0.25 per share, for the second quarter of 2005. Net income for the first quarter of 2006 was NIS 6.6 million, or NIS 0.36 per share.

#### Comments of Management

Commenting on the results, Eli Holtzman, Internet Gold's CEO, said, "Our record

## Edgar Filing: INTERNET GOLD GOLDEN LINES LTD - Form 6-K

results for the second quarter reflect rising revenues from all our business segments together with the significant contribution of our streamlined operating model. Our revenue growth is being driven primarily by smile.communications, whose telephony, business service and Internet access businesses all continue to extend their market share. In parallel, our smile.media business continues to grow in line with our expectations.

"We were very pleased to have recently announced an agreement to acquire 012-Golden Lines. When approved by the regulatory authorities, the acquisition will transform us next year into a company with more than 1.2 billion shekels in annual revenues. This will position us to face the challenges in the Israeli telecom markets and to successfully achieve our future expansion and growth plans. It will also give us an immediate entry into the high-potential data communications and domestic telephony markets, while improving our profitability through significant efficiencies of scale. After the regulatory process is completed, we will begin working out the details of the merger plan."
