Part I Financial Information
Item 1. Condensed Consolidated Financial Statements
ConAgra Foods, Inc. and Subsidiaries

Introductory Note

The purpose of this Form 10-Q/A is to restate quarterly condensed consolidated financial statements for the thirteen weeks ended August 27, 2000 and August 29, 1999 for ConAgra Foods, Inc. ("ConAgra" or the "Company"). The Company issued a press release on May 23, 2001, which it filed as an exhibit to a Form 8-K dated the same date, relating to its intention to restate certain of its financial statements. The Company's Form 8-K dated May 23, 2001 has background information on the restatements. The Company has filed a Form 10-K/A for its fiscal year ended May 28, 2000 which includes restated financial statements for the years covered by that report. In addition, this Form 10-Q/A has also been restated for the changes in accounting policy described below.

The matters relating to the Company's United Agri Products, Inc. subsidiary ("UAP") referenced in the restated Form 10-K/A have a financial statement impact for the periods covered by this 10-Q/A associated with revenue recognition for deferred delivery sales and vendor rebates as follows:

Deferred Delivery Sales and Vendor Rebates For the thirteen weeks ended August 29, 1999, increase revenue by \$115 million, increase expenses by \$70 million and increase income before income taxes by \$45 million. For the thirteen weeks ended August 27, 2000, increase revenue by \$227 million, increase expenses by \$198 million and increase income before income taxes by \$29 million.

The principal effect of this change on the accompanying condensed consolidated financial statements is presented in Note 9 to the Company's condensed consolidated financial statements. Certain reclassifications have been made to amounts previously reported in the Company's Form 10-Q for the quarter ended August 27, 2000 to conform with recently issued accounting literature. See Note 9.

In the fourth quarter of fiscal 2001, in connection with the Company's assessment of the guidance in Staff Accounting Bulletin (SAB) No. 101, *Revenue Recognition in Financial Statements*, and its consideration of recent FASB Emerging Issues Task Force (EITF) issues, the Company changed its methods of accounting for revenue recognition relating to the shipping terms for certain of its product sales, recognition of sales incentives granted to retailers and recognition of consumer sales incentives as discussed in Note 8 to the Company's condensed consolidated financial statements.

For purposes of this Form 10-Q/A, and in accordance with Rule 12b-15 under the Securities and Exchange Act of 1934, as amended, the Company has amended and restated in its entirety each item of the Company's Form 10-Q for the quarterly period ended August 27, 2000, which has been affected by the restatement. This Form 10-Q/A does not reflect events occurring after the filing of the original Form 10-Q, or modify or update those disclosures in any way, except as required to reflect the effects of this restatement and the cumulative effects of changes in accounting adopted in the fourth quarter of fiscal 2001.

This Form 10-Q/A report contains certain forward-looking statements, including such statements in the documents incorporated herein by reference, within the meaning of the Private Securities Litigation Reform Act of 1995. The statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Future economic circumstances, industry conditions, Company performance and financial results, availability and prices of raw materials, product pricing, competitive environment and related market conditions, operating efficiencies, access to capital, actions of governments and regulatory factors affecting the Company's businesses are examples of factors, among others, that could cause results to differ materially from those described in the forward-looking statements.

Notes to Condensed Consolidated Financial Statements

**For the Thirteen Weeks ended August 27, 2000
(columnar dollars in millions except per share amounts)**

1. Accounting Policies

The unaudited interim financial information included herein reflects normal recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the results of operations, financial position, and cash flows for the periods presented. These condensed

Edgar Filing: CONAGRA FOODS INC /DE/ - Form 10-Q/A

consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in the ConAgra Foods, Inc. (the "Company") fiscal 2000 annual report on Form 10-K/A.

The results of operations for any interim period are not necessarily indicative of the results to be expected for other interim periods or the full year.

Certain prior year amounts have been reclassified in order to conform with current year classifications.

Changes in Accounting Policy In the fourth quarter of fiscal 2001, in connection with the Company's assessment of the guidance in Staff Accounting Bulletin (SAB) No. 101, *Revenue Recognition in Financial Statements*, and its consideration of recent FASB Emerging Issues Task Force (EITF) issues, the Company changed its methods of accounting for revenue recognition relating to the shipping terms for certain of its product sales, recognition of sales incentives granted to retailers and recognition of consumer sales incentives.

The Company's method of accounting for revenue recognition, relating to the shipping terms for certain of its product sales, was changed from recognition when title to finished product passes upon shipment to customers, to recognition of revenue for these sales when title and risk of loss are transferred to customers upon delivery. Previously, the Company had recognized revenue in accordance with its interpretation of Statement of Financial Accounting Concepts No. 5, *Revenue and Recognition in Measurement in Financial Statements of Business Enterprises*.

As indicated in Note 9, deferred delivery transactions at the Company's subsidiary, United Agri Products, Inc. ("UAP"), were determined not to comply with accounting requirements for revenue recognition and have been recorded in the period in which transfer of title and risk of loss occur and goods are delivered to the customer.

The Company's method of accounting for sales incentives provided to retailers was changed from recognition of expense over the period of expected future benefit to recognition of the costs at the later of the date the related sale is recorded or the sales incentive is offered to the retailer.

The Company's method of accounting for coupons and related consumer sales incentives was changed from recognition of expense over the expected redemption period of the sales incentive to recognition of the costs as a reduction in net sales at the later of the date the related sale is recorded or the sales incentive is offered. The effect of the changes in accounting for revenue recognition, recognition of sales incentives granted to retailers and recognition of consumer sales incentives is described in Note 8.

In accordance with the guidance provided in EITF 00-25, *Accounting for Consideration from a Vendor to a Retailer in Connection with the Purchase or Promotion of the Vendor's Products*, beginning in the first quarter of fiscal 2002, the Company will classify the costs associated with sales incentives provided to retailers as a reduction in net sales. These costs are currently included in selling, general

7

and administrative expenses. This reclassification will have no impact on reported income before income taxes and cumulative effect of changes in accounting, net income, or income per share amounts.

2. Acquisitions

On August 24, 2000, the Company acquired all of the outstanding shares of common stock and stock options of International Home Foods ("IHF") in a transaction accounted for as a purchase business combination. As part of the acquisition, the Company issued approximately 41 million shares of Company common stock and assumed options to acquire approximately 5 million post-acquisition shares of Company common stock with an aggregate fair value of approximately \$850 million. In addition, the Company paid approximately \$875 million in cash to the IHF shareholders and assumed approximately \$1.1 billion of debt. IHF's results of operations did not impact the Company's results during the first quarter of fiscal 2001 as the acquisition was completed at the conclusion of the quarter.

The Company preliminarily allocated the excess of the purchase price over the net assets acquired to goodwill. The purchase price allocation will be completed upon finalization of asset and liability valuations. In connection with this acquisition, the Company expects to consolidate certain plants and will include the associated costs as part of the purchase price allocation. Goodwill arising from the transaction will be amortized on a straight-line basis over a period of 40 years.

On September 15, 2000, the Company issued \$600 million of 7.5% senior notes, due September 15, 2005, \$750 million of 7.875% senior notes, due September 15, 2010 and \$300 million of 8.25% senior notes, due September 15, 2030. The net proceeds were used to reduce outstanding borrowings under short-term credit facilities with maturities less than six months and bearing interest at a rate between 6.7% and

Edgar Filing: CONAGRA FOODS INC /DE/ - Form 10-Q/A

6.8% per annum. In addition, the Company assumed \$385 million of IHF 10.375% senior secured notes due in 2006 and redeemed the notes on October 6, 2000.

The Company's unaudited pro forma results of operations for the thirteen weeks ended August 27, 2000 and August 29, 1999, assuming the acquisition of IHF occurred as of the beginning of the periods presented are as follows:

	Thirteen weeks ended	
	August 27, 2000	August 29, 1999
Net sales	\$ 7,514.8	\$ 7,223.6
Net income	131.0	138.5
Income per share diluted	.25	.27

3. Operation Overdrive

During the fourth quarter of fiscal 2000, the Company completed a restructuring plan in connection with its previously announced initiative, "Operation Overdrive." The restructuring plan was aimed at eliminating overcapacity, streamlining operations and improving future profitability through margin improvement and expense reductions. The pre-tax charge of the plan totaled \$1,062.2 million with \$621.4 million and \$440.8 million recognized in fiscal 2000 and 1999, respectively.

8

Included in the Company's first quarter of fiscal 2000 are restructuring plan charges of \$47.1 million, as follows:

	Packaged Foods	Refrigerated Foods	Agricultural Products	Total
Accelerated depreciation	\$ 27.4	\$ 7.6	\$	\$ 35.0
Inventory markdowns		.1	8.5	8.6
Restructuring/Impairment	1.4	.4	1.7	3.5
Total	\$ 28.8	\$ 8.1	\$ 10.2	\$ 47.1

The \$47.1 million charge (\$29.2 million net of tax) recognized in the first quarter of fiscal 2000 consisted of the following: \$31.0 million included in cost of goods sold resulting from accelerated depreciation on certain assets; \$8.6 million included in cost of goods sold for inventory markdowns; \$4.0 million included in selling, general and administrative expenses resulting from accelerated depreciation on certain assets; and \$3.5 million included in restructuring/impairment charges resulting primarily from contractual termination and employee related costs.

Certain assets to be disposed of that were not immediately removed from operations were depreciated on an accelerated basis over their remaining useful lives. Inventory markdowns represented losses to write down the carrying value of non-strategic inventory resulting from the closure of facilities and discontinuation of certain products.

Approximately 8,450 employees received notification of their termination as a result of the restructuring plan, primarily in manufacturing and operating facilities. In addition, other exit costs (consisting of lease termination and other contractual termination costs) occurred as a result of the restructuring plan. Such activity is as follows:

	Severance		Other Exit Costs
	Amount	Headcount	
Fiscal 1999 activity:			
Charges to income	\$ 45.1	3,160	\$ 7.3
Utilized	(6.1)	(260)

Weighted average shares outstanding diluted	480.6	477.7

5. Inventories

The major classes of inventories are as follows:

	August 27, 2000	May 28, 2000	August 29, 1999
Hedged commodities	\$ 1,133.8	\$ 1,305.7	\$ 1,108.0

Other, principally ingredients and supplies	562.7	459.0	635.3
	\$ 4,704.3	\$ 4,056.0	\$ 4,058.2

6. Contingencies

In fiscal 1991, the Company acquired Beatrice Company ("Beatrice"). As a result of the acquisition and the significant pre-acquisition contingencies of the Beatrice businesses and its former subsidiaries, the consolidated post-acquisition financial statements of the Company

reflect significant liabilities associated with the estimated resolution of these contingencies. These include various litigation and environmental proceedings related to businesses divested by Beatrice prior to its acquisition by the Company. The environmental proceedings include litigation and administrative proceedings involving Beatrice's status as a potentially responsible party at 42 Superfund, proposed Superfund or state-equivalent sites. Beatrice has paid or is in the process of paying its liability share at 34 of these sites. Substantial reserves for these matters have been established based on the Company's best estimate of its undiscounted remediation liabilities, which estimates include evaluation of investigatory studies, extent of required cleanup, the known volumetric contribution of Beatrice and other potentially responsible parties and its experience in remediating sites.

The Company is a party to a number of other lawsuits and claims arising out of the operation of its businesses. After taking into account liabilities recorded for all of the foregoing matters, management believes the ultimate resolution of such matters should not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

7. Business Segments

The Company has three segments, which are organized based upon similar economic characteristics and are similar in the nature of products and services offered, the nature of production processes, the type or class of customer and distribution methods. Packaged Foods includes companies that produce shelf-stable and frozen foods. This segment markets food products in retail and foodservice channels. Refrigerated Foods includes companies that produce and market branded processed meats, beef, pork, chicken and turkey. This segment markets food products in retail and foodservice channels. Agricultural Products includes companies involved in distribution of agricultural inputs and procurement, processing, trading and distribution of commodity food ingredients and agricultural commodities.

Intersegment sales have been recorded at amounts approximating market. Operating profit for each segment is based on net sales less all identifiable operating expenses and includes the related equity in earnings of companies included on the basis of the equity method of accounting. General corporate expense, goodwill amortization, interest expense and income taxes have been excluded from segment operations.

Thirteen weeks ended August 29, 1999 includes before-tax restructuring and restructuring-related charges of \$47.1 million. The charges were included in operating profit as follows: \$28.8 million in Packaged Foods; \$8.1 million in Refrigerated Foods; and \$10.2 million in Agricultural Products.

As a result of the Company's acquisition of IHF, the Packaged Foods segment's total assets have increased by approximately \$3.1 billion, or 67%, as compared to fiscal year end May 28, 2000.

12

8. Changes in Accounting Policy

As indicated in Note 1, in the fourth quarter of fiscal 2001, the Company changed its methods of accounting for revenue recognition relating to the shipping terms for certain of its product sales, recognition of sales incentives granted to retailers and recognition of consumer sales incentives effective the beginning of fiscal 2001.

The individual components of the cumulative effect of changes in accounting, net of tax, as of the beginning of fiscal 2001 are as follows:

Revenue recognition shipping terms	\$ 15.6
Retailer sales incentives	17.5
Consumer sales incentives	10.8
	<u> </u>
	\$ 43.9
	<u> </u>

The \$43.9 million cumulative effect of the changes in accounting for prior years (after reduction for income taxes of \$26.9 million) is included as a reduction in income for the thirteen weeks ended August 27, 2000. Other than such cumulative effect, the effect of the change on income before cumulative effect of changes in accounting for the thirteen week period ended August 27, 2000 was not material.

The following pro forma amounts reflect the effect of retroactive application of the changes in methods of accounting for revenue recognition relating to the shipping terms for certain of its product sales, recognition of sales incentives granted to retailers and recognition of consumer sales incentives in fiscal 2000 had the new method been in effect, and related income taxes are shown below:

9. Restatement and Reclassifications

Subsequent to the issuance of the Company's 2000 consolidated financial statements and the filing of its 2000 Annual Report on Form 10-K with the SEC, the Company's management determined that accounting and conduct matters at its United Agri Products, Inc. subsidiary ("UAP") principally related to revenue recognition for deferred delivery sales and vendor rebates, advance vendor rebates, and bad debt reserves would require restatement of such financial statements. As a result, the fiscal 2000 and 2001 first quarter condensed consolidated financial statements and related disclosures have been restated for the following matter:

Revenue Recognition for Deferred Delivery Sales Certain UAP deferred delivery transactions that were determined not to comply with accounting requirements for revenue recognition have been recorded in the period in which the products were delivered to the customers. In addition, instances of fictitious UAP deferred delivery transactions have been reversed. As a result of the above, associated vendor rebates have been adjusted. Furthermore, the Company has adopted a consistent quarterly estimating process for the recognition of UAP vendor rebates.

13

The effect of the restatement and the cumulative effect of changes in accounting is shown in the table below:

	Thirteen weeks ended	
	August 27, 2000	August 29, 1999
Net income as previously reported	\$ 146.1	\$ 101.8

As a result of the foregoing factors, the Company's fiscal 2000 and 2001 condensed consolidated financial statements have been restated from the amounts previously reported. The principal effects of these items on the accompanying financial statements are set forth below:

The "As Previously Reported" amounts reflect certain reclassifications, which have been made to the amounts previously reported in the Company's Form 10-Q for the thirteen weeks ended August 27, 2000, to conform with recently issued accounting literature. The principal effects of

14

these include reclassification of shipping and handling costs from a reduction in net sales to cost of goods sold and reclassification of consumer sales incentives from selling, general and administrative expenses to a reduction of net sales. The effects of the reclassifications for the thirteen weeks ended August 27, 2000 and August 29, 1999 were to increase net sales by \$49.2 million and \$86.1 million, increase cost of goods sold by \$245.9 million and \$271.4 million and decrease selling, general and administrative expenses by \$196.7 million and \$185.3 million, respectively. These reclassifications had no impact on previously reported income before income taxes and cumulative effect of changes in accounting, net income or income per share amounts.

ConAgra, Inc. and Subsidiaries

Part I Financial Information

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Following is management's discussion and analysis of certain significant factors which have affected the Company's financial condition and operating results for the periods included in the accompanying condensed consolidated financial statements. Results for the thirteen-week period ended August 27, 2000 are not necessarily indicative of results that may be attained in the future.

Restatement

Subsequent to the issuance of the Company's 2000 consolidated financial statements and the filing of its 2000 Annual Report on Form 10-K with the Securities and Exchange Commission (the "SEC"), the Company's management determined that accounting and conduct matters at its

Edgar Filing: CONAGRA FOODS INC /DE/ - Form 10-Q/A

United Agri Products, Inc. subsidiary ("UAP") principally related to revenue recognition for deferred delivery sales and vendor rebates, advance vendor rebates, and bad debt reserves would require restatement of such financial statements. The restatement also corrects an error relating to consolidation of intracompany profit on sales within UAP during fiscal 1998. As a result, the fiscal 2000 and 2001 first quarter condensed consolidated financial statements and related disclosures have been restated from the amounts previously reported for deferred delivery sales and vendor rebates. See Note 9. Fiscal 2000 and 2001 first quarter condensed consolidated financial statements were not impacted by the restatement resulting from advance vendor rebates and bad debt reserves.

In addition, in the fourth quarter of fiscal 2001, the Company changed its methods of accounting as of the beginning of fiscal 2001 for revenue recognition relating to shipping terms for certain of its product sales, sales incentives granted to retailers and consumer sales incentives. As a result, the fiscal 2001 first quarter condensed consolidated financial statements and related disclosures have been restated from the amounts previously reported. See Note 8. Furthermore, certain reclassifications have been made to amounts previously reported in the Company's Form 10-Q for the quarter ended August 27, 2000 to conform with recently issued accounting literature. See Note 9.

Financial Condition (as restated)

ConAgra's earnings are generated principally from its capital investment, which consists of working capital (current assets less current liabilities) plus all noncurrent assets. Capital investment is financed with stockholders' equity, long-term debt and other noncurrent liabilities.

On August 24, 2000, the Company acquired all of the outstanding International Home Foods ("IHF") common stock and assumed options exercisable post-acquisition for shares of Company common stock for total consideration of approximately \$1.7 billion plus the assumption of approximately \$1.1 billion in debt. Primarily as a result of this acquisition, capital investment increased approximately \$2.5 billion as compared to May 28, 2000, consisting of a \$43.9 million working capital decrease and a \$2.6 billion increase in noncurrent assets. In addition, senior long-term debt increased approximately \$1.6 billion as compared to May 28, 2000, primarily as a result of the IHF acquisition.

On September 15, 2000, the Company issued \$600 million of 7.5% senior notes, due September 15, 2005, \$750 million of 7.875% senior notes, due September 15, 2010 and \$300 million of 8.25% senior notes, due September 15, 2030. The net proceeds were used to reduce outstanding borrowings under short-term credit facilities with maturities less than six months and bearing interest at a rate between 6.7% and 6.8% per annum. In addition, the Company assumed \$385 million of IHF 10.375% senior secured notes due in 2006 and redeemed the notes on October 6, 2000.

16

The Company's long-term debt objective is that senior long-term debt will not normally exceed 30% of total long-term debt plus equity. Long-term subordinated debt is treated as equity due to its preferred stock characteristics. The Company's policy has been that it would temporarily exceed this self-imposed limit for a major strategic acquisition that is intended to create value for shareholders over the long term. In management's view, the fiscal 2001 acquisition of IHF represents such an opportunity.

Operating Results (as restated)

A summary of the period to period increases (decreases) in the principal components of operations, both before and after restructuring and other restructuring-related charges ("restructuring charges") recognized in the first quarter of fiscal 2000, is shown below (dollars in millions, except per share amounts).

	Thirteen weeks ended August 27, 2000 and August 29, 1999

In comparison to fiscal 2000 first quarter, the Company's fiscal 2001 first quarter diluted income per share was \$.25, a decrease of \$.02, or 7.4 percent; operating profit was \$437.9 million, an increase of \$53.7 million, or 14.0 percent; and net income was \$120.2 million, a decrease of \$10.2 million, or 7.8 percent. Excluding restructuring charges recognized in the first quarter of fiscal 2000, the Company's fiscal 2001 first quarter diluted income per share decreased \$.08, or 24.2 percent; operating profit increased \$6.6 million, or 1.5 percent; and net income decreased \$39.4 million, or 24.7 percent. The first quarter of fiscal 2001 did not include restructuring charges.

17

In the Company's Packaged Foods segment, sales decreased \$22.0 million, or 1.3 percent, as compared to first quarter fiscal 2000. Operating profit increased \$32.4 million, or 19.1 percent, as compared to the same period in fiscal 2000. The operating profit increase was achieved, in part, due to strong results in the Company's french fry and specialty meats businesses as well as restructuring charges recognized in the first quarter of fiscal 2000 which did not recur in the first quarter of fiscal 2001. The segment's recently acquired IHF operations did not impact the segment's results during the first quarter of fiscal 2001 as the acquisition was completed at the conclusion of the quarter. Excluding restructuring charges recognized in the first quarter of fiscal 2000, operating profit increased \$3.6 million or 1.8 percent over the same period in fiscal 2000.

In the Company's Refrigerated Foods segment, sales increased \$216.3 million, or 6.7 percent compared to the same period in fiscal 2000. Operating profit was flat versus the same period in fiscal 2000. Both sales and operating profits for the segment's beef and branded processed meat operations increased, however, oversupply in the poultry industry resulted in operating profit declines for the segment in total. Excluding restructuring charges recognized in the first quarter of fiscal 2000, operating profit decreased 6.9 percent, or \$8.1 million, as compared to fiscal 2000 first quarter.

In the Company's Agricultural Products segment, sales increased \$87.4 million, or 4.7 percent as compared to the same period in fiscal 2000, primarily due to increased sales at the segment's United Agri Products business unit. Operating profit increased \$21.3 million, or 20.3 percent over the same period in fiscal 2000, primarily as a result of strong results in the segment's United Agri Products business unit as well as restructuring charges recognized in the first quarter of fiscal 2000 which did not recur in the first quarter of fiscal 2001. Excluding restructuring charges recognized in the first quarter of fiscal 2000, operating profit increased 9.6 percent, or \$11.1 million, versus first quarter fiscal 2000.
