A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Operations

The accompanying financial statements include the consolidated accounts of Post Bancorp, Inc. (the Company) and Colorado Springs National Bank (the Bank). The Bank is a national bank, incorporated in July 1963, which operates in Colorado Springs, Colorado. All of the shares of the Bank are owned by Post Bancorp, Inc., which was organized for the purpose of owning shares and acting as a parent holding company to the Bank. All material intercompany balances and transactions have been eliminated. The Bank is subject to regulation of certain federal and state agencies and undergoes periodic examination by those regulatory agencies.

Other Comprehensive Income

Effective January 1, 1998, the Company adopted Statement of Financial Accounting Standards No. 130 *Reporting Comprehensive Income* (SFAS No. 130). SFAS No. 130 requires that the components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. The Company reports other comprehensive income in the statement of income and other comprehensive income. Accumulated balances of other comprehensive income are reported as a separate component of stockholder's equity. Currently the only component of other comprehensive income is unrealized holding gains (losses) on available-for-sale securities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Material estimates that are particularly susceptible to significant change relate to the determination of the allowance for losses on loans and the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans. In connection with the determination of the allowances for losses on loans and foreclosed real estate, management obtains independent appraisals for significant properties.

While management uses available information to recognize losses on loans and foreclosed real estate, future additions to the allowances may be necessary based on changes in local economic conditions. In addition, regulatory agencies, as an integral part of their examination process, periodically review the Bank's allowances for losses on loans and foreclosed real estate. Such agencies may require the Bank to recognize additions to the allowances based on their judgments about information available to them at the time of their examination. Because of these factors, it is reasonably possible that the allowances for losses on loans and foreclosed real estate may change materially in the near term.

Investment Securities

The Company has classified all investments held as available-for-sale. Accordingly, these securities are recorded at fair value. Unrealized gains or losses are recorded as a component of other comprehensive income.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 8-K/A

Management reviews the securities individually to determine whether there are permanent declines in net realizable values, and reductions in carrying amounts are recorded, if required. The specific security sold is used to compute realized gains or losses. Premiums and discounts are recognized into interest income using the effective interest method over the period to maturity.

9

Loans

Loans are stated at the amount of unpaid principal less an allowance for loan losses. Interest on loans is generally accrued daily based on the principal outstanding. Loans are placed in a non-accrual status when significant doubt exists as to the collectibility of principal and interest.

Most of the Bank's lending activities are with commercial, real estate and individual customers located in the Colorado Springs, Colorado area. The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral considered necessary to secure the loan is based on the amount of the loan and management's credit evaluation of the customer. Collateral may include accounts receivable, inventory, property, plant and equipment, real estate, marketable securities and other income-producing property. The loans are generally expected to be repaid from the income and cash flow of the customer or from the sale of selected assets of the customer.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level believed adequate by management to absorb potential losses in the loan portfolio. The provision is based upon the character of the loan portfolio, past loan loss experience, current economic conditions and other factors which, in management's judgment, should be considered in estimating possible loan losses.

Bank Premises and Equipment

Bank premises and equipment are being depreciated over their estimated useful lives using straight-line and accelerated methods. Bank premises and equipment consist of the following at December 31:

	2000	1999	Estimated Useful Lives
	_____	_____	
Land	\$ 230,000	\$ 230,000	
Bank building and improvements	622,028	622,028	15-20 Years
Furniture and equipment	631,667	600,234	3-8 Years
	_____	_____	
Total premises and equipment	1,483,695	1,452,262	
Less accumulated depreciation	(1,228,093)	(1,201,322)	
	_____	_____	
	\$ 255,602	\$ 250,940	
	_____	_____	

Other Real Estate

At the time of foreclosure or deed in lieu of foreclosure, real estate is recorded at the lower of the Bank's cost or the asset's fair value less costs to sell, which becomes the property's new basis. Any write-downs based on the asset's fair value at date of acquisition are charged to the allowance for loan losses. After foreclosure, these assets are carried at the lower of their new cost basis or fair value less cost to sell. Costs incurred in maintaining foreclosed real estate and subsequent write-downs to reflect declines in the fair value of the property are included in other real estate owned expense.

Advertising

Advertising is expensed as incurred and amounted to \$12,422 and \$1,916 in 2000 and 1999, respectively.

10

Income Taxes

Edgar Filing: TEAM FINANCIAL INC /KS - Form 8-K/A

Post Bancorp, Inc. and the Bank elected to become an S-Corporation effective January 1, 1997. Accordingly, no income tax provision has been recorded in the financial statements, as all items of income and expense generated by the Company are reported on the stockholders' personal income tax returns.

Statement of Cash Flows

For purposes of reporting cash flows, cash and cash equivalents include cash on hand and amounts due from banks. Total interest paid amounted to \$1,394,316 and \$1,195,840 for 2000 and 1999, respectively.

B. INVESTMENT SECURITIES

A comparison of the book and fair values of investment securities is as follows at December 31:

2000	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury Securities	\$ 2,296,922	\$ 350	\$ (2,398)	\$ 2,294,874
U.S. Government Agencies	15,446,149	209,426	(102,891)	15,552,684
Federal Reserve Bank Stock	60,000			60,000
	<u>\$ 17,803,071</u>	<u>\$ 209,776</u>	<u>\$ (105,289)</u>	<u>\$ 17,907,558</u>

1999	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury Securities	\$ 5,324,873	\$ 3,499	\$ (19,752)	\$ 5,308,620
U.S. Government Agencies	12,826,715	5,557	(352,376)	12,479,896
Federal Reserve Bank Stock	60,000			60,000
	<u>\$ 18,211,588</u>	<u>\$ 9,056</u>	<u>\$ (372,128)</u>	<u>\$ 17,848,516</u>

The amortized cost and estimated market value of debt securities at December 31, 2000 by contractual maturity are shown below. For purposes of the maturity table, mortgage-backed securities, which are not due at a single maturity date, have been allocated over maturity groupings based on the weighted average contractual maturities of underlying collateral. The mortgage-backed securities may mature earlier than their weighted-average contractual maturities because of principal prepayments.

	Amortized Cost	Fair Value
Due in one year or less	\$ 2,296,990	\$ 2,294,940
Due from one to five years	3,082,379	3,212,416
Due after ten years	12,363,702	12,340,202
Other	60,000	60,000
	<u>\$ 17,803,071</u>	<u>\$ 17,907,558</u>

The Company sold no investment securities during 2000 and 1999. Accordingly, there were no realized gains or losses on available-for-sale securities.

Investment securities with a book value of \$788,214 and a market value of \$787,807 were pledged to secure public and trust deposits as of December 31, 2000.

C. LOANS

Loans consist of the following at December 31:

	<u>2000</u>	<u>1999</u>
Commercial	\$ 23,988,074	\$ 19,587,265
Installment	3,949,707	3,375,131
Real estate	267,156	281,014
Revolving credit and other	74,008	82,671
Unearned income	(12,253)	(9,626)
	<u>28,266,692</u>	<u>23,316,455</u>
Total loans	28,266,692	23,316,455
Less allowance for loan losses	(138,746)	(139,215)
	<u>\$ 28,127,946</u>	<u>\$ 23,177,240</u>

Loans secured by real estate amounted to approximately \$24,297,000 and \$19,882,000 at December 31, 2000 and 1999, respectively.

Loans to executive officers, directors and their related entities in which they have a 10% or more beneficial ownership interest amounted to \$1,378,306 and \$465,946 at December 31, 2000 and 1999, respectively.

The following is a summary of the transactions in the allowance for loan losses for the years ended December 31, 2000 and 1999:

	<u>2000</u>	<u>1999</u>
Balance, beginning of year	\$ 139,215	\$ 141,650
Provision for possible loan losses		
Net charge-offs:		
Charge-offs	(770)	(7,975)
Less recoveries	301	5,540
	<u>(469)</u>	<u>(2,435)</u>
Balance, end of year	<u>\$ 138,746</u>	<u>\$ 139,215</u>

D. STOCKHOLDERS' EQUITY

The Bank is subject to various regulatory capital requirements administered by federal banking agencies. Under capital adequacy guidelines, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are subject to judgments by the regulators about components, risk weightings, and other factors. Following are the Bank's actual capital amounts and ratios under the guidelines compared to the amounts and ratios required for a bank to be considered well capitalized under the guidelines as of December 31, 2000.

	<u>Bank Actual</u>		<u>Well Capitalized</u>	
	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>
Tier 1 Leverage Capital Ratio	\$ 6,571,068	12.34%	\$ 2,661,500	>5 %
Tier 1 Risk Based Capital Ratio	\$ 6,571,068	25.54%	\$ 1,543,740	>6 %
Total Risk Based Capital Ratio	\$ 6,709,814	26.08%	\$ 2,572,900	>10 %

At December 31, 2000 and 1999, the Bank exceeded its minimum capital requirements. Additionally, banking regulations limit the amount of dividends that may be paid without prior approval of the regulatory agencies.

E. STOCK REDEMPTION

The Company redeemed 6,978 shares of common stock for \$320,988 during the year ended December 31, 2000.

F. PROFIT SHARING PLAN

The Bank has a discretionary profit sharing plan covering most employees, which provides for Bank contributions up to the maximum amount allowed by regulation. No profit sharing contributions were made for the years ended December 31, 2000 and 1999, respectively.

G. DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with Financial Accounting Standards No. 107, *Disclosure About Fair Value of Financial Instruments*, the Company is required to provide disclosures regarding the fair value of financial instruments.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value.

Cash and short-term investments

For cash and short-term instruments, the carrying amount is a reasonable estimate of fair value.

Investment securities

For investment securities, fair values are based on quoted market prices or dealer quotes. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Loans

The fair value of fixed rate loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. For variable rate loans, the carrying amount is a reasonable estimate of fair value. For loans where collection of principal is in doubt, an estimated loss allowance has been deducted from the discounted future cash flow amount. The carrying amount of interest receivable approximates its fair value.

Deposits

For demand deposits, savings accounts and certain money market deposits payable on demand, the carrying amount is a reasonable estimate of fair value. The fair value of fixed-maturity time deposits is estimated by discounting the future cash flows to be paid at rates currently offered for deposits of similar remaining maturities. The carrying value of interest payable approximates its fair value.

Federal funds purchased and other short-term borrowings

For federal funds purchased and other short-term borrowings, the carrying amount is a reasonable estimate of fair value.

Commitments to extend credit and standby letters of credit

Loan commitments and standby letters of credit are generally of a short-term nature and therefore, their carrying amount is a reasonable estimate of their fair value.

The estimated fair value of the Company's financial instruments is as follows at December 31, 2000:

<u>Carrying Amount</u>	<u>Fair Value</u>
----------------------------	-----------------------

Edgar Filing: TEAM FINANCIAL INC /KS - Form 8-K/A

	<u>Carrying Amount</u>	<u>Fair Value</u>
Financial assets		
Cash and short-term investments	\$ 6,298,917	\$ 6,298,917
Investment securities	17,907,558	17,907,588
Loans, net	28,111,966	28,074,664
Financial liabilities		
Deposits	32,386,872	32,426,534
Unrecognized financial instruments		
Commitments to extend credit	5,790,201	5,790,201
Standby letters of credit	417,163	417,163

H. COMMITMENTS

In the normal course of business, the Bank enters into financial instruments with off-balance-sheet risk to meet the financing needs of its customers. These instruments, which include commitments to extend credit and standby letters of credit, involve varying degrees of credit and interest rate risk, which are not reflected in the financial statements. These instruments generally have fixed expiration dates and do not necessarily represent future cash requirements since they often expire without being drawn upon.

The Bank's criteria for issuing such instruments are the same as those for loans made in the normal course of business. The Bank is exposed to credit loss in the event that the collateral is deemed to be of no value and the Bank is required to fund the commitments. The following are those financial instruments whose contract amount represents the maximum credit risk at December 31, 2000 and 1999 respectively:

	<u>Contract Amount</u>	
	<u>2000</u>	<u>1999</u>
Loan commitments	\$ 5,790,201	\$ 6,307,393
Standby letters of credit	\$ 417,163	\$ 139,995

POST BANCORP, INC. AND SUBSIDIARY
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
Six month period ended June 30, 2001

Note 1: Basis of Presentation

The accompanying unaudited consolidated financial statements of Post Bancorp, Inc. and Subsidiary (the "Company") have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial condition and results of operations required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements.

The interim consolidated financial statements include the accounts of Post Bancorp, Inc. and its wholly owned subsidiary. Intercompany balances and transactions have been eliminated. The December 31, 2000 statement of financial condition has been derived from the audited consolidated financial statements as of that date. The results of the interim period ended June 30, 2001 are not necessarily indicative of the results expected for the year ending December 31, 2001.

Note 2: Recent Accounting Pronouncements

In September 2000, FASB issued SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* a replacement of SFAS No. 125. This statement is effective for transfers and servicing of financial assets and extinguishment of liabilities occurring after March 31, 2001. The adoption of the standard will not have a significant impact on the consolidated financial statements.

In July 2001, the FASB issued SFAS No. 141, *Business Combinations*, and SFAS No. 142, *Goodwill and Other Intangible Assets*. SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001 as well as all purchase method business combinations completed after June 30, 2001. SFAS No. 141 also specifies criteria intangible assets acquired in a purchase method business combination must meet to be recognized and reported apart from goodwill, noting that any purchase price allocable to an assembled workforce may not be accounted for separately. SFAS No. 142 will require that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead be tested for impairment at least annually in accordance with the provisions of SFAS No. 142. SFAS No. 142 will also require intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with SFAS No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of*.

The provisions of SFAS No. 141 are required to be adopted immediately and SFAS No. 142 will be effective January 1, 2002. Furthermore, any goodwill and any intangible assets determined to have an indefinite useful life that are acquired in a purchase business combination completed after June 30, 2001, will not be amortized, but will continue to be evaluated for impairment in accordance with the appropriate pre-SFAS No. 142 accounting literature. Goodwill and intangible assets acquired in business combinations completed before July 1, 2001 will continue to be amortized prior to the adoption of SFAS No. 142.

SFAS No. 141 will require upon adoption of SFAS No. 142, the Company evaluate its existing intangible assets and goodwill that were acquired in prior purchase a business combinations, and to make any necessary reclassifications in order to conform with the new criteria in SFAS No. 141 for recognition apart form goodwill. Upon adoption of SFAS No. 142, the Company will be required to

reassess the useful lives and residual values of all intangible assets acquired in purchase business combinations, and make any necessary amortization period adjustments by the end of the first interim period after adoption. In addition, to the extent an intangible assets is identified as

having an indefinite useful life, a test will be required to be made of the intangible asset for impairment in accordance with the provisions of SFAS No. 142 within the first interim period. Any impairment loss will be measured as of the date of adoption and recognized as the cumulative effect of a change in accounting principle in the first interim period.

In connection with the transitional goodwill impairment evaluation, SFAS No. 142 will require an assessment of whether there is an indication that goodwill is impaired as of the date of adoption. This will be accomplished through the identification of reporting units and determination of the carrying value of each reporting unit by assigning the assets and liabilities, including the existing goodwill and intangible assets, to those reporting units as of the date of adoption. The Company will have up to six months from the date of adoption to determine the fair value of each reporting unit and compare it to the reporting unit's carrying amount. To the extent a reporting unit's carrying amount exceeds its fair value, an indication exists that the reporting unit's goodwill may be impaired then the second step of the transitional impairment test must be performed. In the second step, the implied fair value must be compared to the reporting unit's goodwill, determined by allocating the reporting unit's fair value to all of its assets (recognized and unrecognized) and liabilities in a manner similar to a purchase price allocation in accordance with SFAS No. 141, to the carrying amount, both of which would be measured as of the date of adoption. This second step is required to be completed as soon as possible, both no later than the end of the year of adoption. Any transitional impairment loss will be recognized as the cumulative effect of a change in accounting principle in the statement of earnings.

As of the date of adoption SFAS No. 142, the Company does not have unamortized goodwill which will be subject to the transition provisions of SFAS No. 141 and SFAS No. 142.

Note 3: Income Taxes

Post Bancorp, Inc. and Colorado Springs National Bank elected to become an S-Corporation effective January 1, 1997. Accordingly, no income tax provision has been recorded in the financial statements, as all items of income and expense generated by the Company are reported on the stockholders' personal income tax returns.

(c)
Pro forma financial information

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

The following unaudited pro forma condensed combined balance sheet as of June 30, 2001 and unaudited pro forma condensed, combined statements of income for the six months ended June 30, 2001 and the year ended December 31, 2000 combine Team Financial's historical consolidated financial statements with the historical consolidated financial statements of Post Bancorp and are intended to give you a better picture of what the companies might have looked like as a combined entity. The unaudited pro forma condensed combined balance sheet assumes that the Post Bancorp acquisition was consummated on the balance sheet date. The unaudited pro forma condensed combined statements of income assume that the Post Bancorp acquisition was consummated at the beginning of the periods indicated. The companies may have performed differently if they had been combined.

The acquisition of Post Bancorp will be accounted for as a purchase and the results of operation of Post Bancorp from the date of acquisition will be included in the consolidated financial statements of Team Financial.

The unaudited pro forma condensed combined financial statements are presented for illustrative purposes only. You should not rely on the pro forma information as being indicative of the consolidated financial position or results of future operations of the combined entity or of the actual results that would have been achieved had the acquisition been consummated as of the dates indicated above.

The unaudited pro forma condensed combined financial statements do not incorporate, nor do they assume, potential benefits of cost savings or synergies of the combined entity.
