Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

specific recommendations relating to options and index trading.

ARBITRAGE. The Company engages for its own account in both "classic" and "risk" arbitrage. The Company's risk arbitrage activities generally involve the purchase of securities at a discount from a value that is expected to be realized if a proposed or anticipated merger, recapitalization, tender or exchange offer is consummated. In classic arbitrage, the Company seeks to profit from temporary discrepancies (i) between the price of a security in two or more markets, (ii) between the price of a convertible security and its underlying security, (iii) between securities that are, or will be, exchangeable at a future date, and (iv) between the prices of securities with contracts settling on different dates.

STRATEGIC STRUCTURING AND TRANSACTIONS (SST). The Company targets mispriced assets using sophisticated models and proprietary quantitative methods. The Company maintains substantial proprietary trading and investment positions in domestic and foreign markets covering a wide spectrum of equity and futures products including listed and OTC options and swaps.

OTC EQUITY SECURITIES. The Company makes markets on a principal basis in common and preferred stocks, warrants, and other securities traded on the NASD's Automated Quotation System and otherwise in the OTC market.

Known for theme-oriented research underpinned by meticulous financial modeling, the Department offers detailed information on over 1,200 companies in roughly 100 industries (including approximately 55% of the S&P 500). It also has a group of distinguished economists and strategists that maintain a close watch on domestic and international markets, and are known for the quality of their strategic guidance. The Department's broad-based domestic coverage is complemented by extensive research teams in Latin America, Asia and Europe, giving its clients a crucial advantage in a world where national boundaries are becoming more porous. This breadth of coverage allows the Department to maintain a particularly wide-ranging recommended list, and gives clients a steady stream of new investment ideas and insights into the more obscure corners of the financial world.

The Company is one of the leading firms in the US in providing brokerage services to institutional investors. Institutional equity sales involves the execution of transactions in US equity securities for domestic and foreign institutional customers and providing these customers with liquidity, trading expertise, trade execution, research and investment advice. The Company also provides customers execution capabilities for baskets of equity securities using sophisticated computer systems. SPECIALIST ACTIVITIES

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

The Company is a participant in a specialist unit on the NYSE and the AMEX that performs specialist functions in NYSE-listed stocks as well as stocks and options traded on the AMEX. The market-making functions of a specialist involve risk of loss during periods of market fluctuation, since specialists are obliged to take positions in their issues counter to the direction of the market in order to minimize short-term imbalances in the auction market.

FIXED INCOME

GENERAL. The Company makes inter-dealer markets and trades on a principal basis in a wide range of instruments including: corporate debt, US and foreign government securities, government agency securities, mortgages and mortgage-backed securities, other asset-backed securities, municipal and other tax-exempt securities, interest rate swaps and other derivative products. Bear Stearns is one of the largest dealers in the US in such fixed income securities. Inventories of fixed income securities are generally carried to facilitate sales to customers and other dealers.

US GOVERNMENT AND AGENCY OBLIGATIONS. The Company is designated by the Federal Reserve Bank of New York as a primary dealer in US government obligations. The Company participates in the auction of, and maintains proprietary positions in, US Treasury bills, notes, bonds, and stripped principal and coupon securities. The Company also participates as a selling group member and/or underwriter in the distribution of various US government agency and sponsored corporation securities and maintains proprietary positions in such securities. In connection with these activities, the Company enters into transactions in options, futures and forward contracts to hedge such positions.

As a primary dealer, Bear Stearns furnishes weekly reports of its inventory positions and market transactions in US government securities to the Federal Reserve Bank of New York. Bear Stearns also buys and sells government securities directly with the Federal Reserve Bank of New York as part of the Bank's open-market activities. In addition, the Company engages in matched book activities, which involve acting as an intermediary between borrowers and lenders of short-term funds, mainly via repurchase agreements and reverse repurchase agreements. The objective of this matched book activity is to earn a positive spread between interest rates.

CORPORATE FIXED INCOME SECURITIES. The Company acts as a dealer in sovereign and corporate fixed income securities and preferred stocks in New York, London and Tokyo. It buys and sells these securities for its own account in principal transactions with institutional and individual customers, as well as other dealers. The Company conducts trading in the full spectrum of dollar and non-dollar debt securities. The Company offers hedging and arbitrage services to domestic and foreign institutional and individual customers utilizing financial futures and other instruments. Moreover, the Company offers quantitative, strategic, and research services relating to fixed income securities to its domestic and international clients. The Company participates in the trading of high yield, non-investment grade securities and the securities and bank loans of companies, sovereigns and sovereign agencies.

MORTGAGE-RELATED SECURITIES AND PRODUCTS. The Company trades and makes markets in the following mortgage-related securities and products: Government National Mortgage Association ("GNMA") securities; Federal Home Loan Mortgage Corporation ("FHLMC") participation certificates; Federal National Mortgage Association ("FNMA") mortgage-backed securities; Small Business Administration loans; loans guaranteed by the Farmers Home Loan Administration; Federal Housing Authority insured multi-family loans; real estate mortgage investment conduit ("REMIC") and non-REMIC collateralized mortgage obligations, including residual interests; and other derivative mortgage-backed securities and products. The Company also trades real estate mortgage loans originated by unaffiliated

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

mortgage lenders, both on a securitized and non-securitized basis. The Company acts as underwriter and placement agent in transactions involving rated and

4

unrated mortgage-related securities issued by affiliated and unaffiliated parties. The Company enters into significant commitments - such as forward contracts - on GNMA, FNMA, and FHLMC securities, and on other rated and unrated mortgage-related securities. Certain rated and unrated mortgage-related securities are considered to be liquid, while other such securities, and non-securitized mortgage loans, are considered to be less readily marketable.

The Company trades GNMA, FNMA and FHLMC "to be announced" securities (i.e., securities having a stated coupon and the original term to maturity, although the issuer and/or the specific pool of mortgage loans is not known at the time of the transaction). The Company buys and sells such securities for its own account in transactions with institutional and individual customers, as well as with other dealers.

The Company, through various special purpose subsidiaries, purchases, sells, and services entire loan portfolios of varying quality. These portfolios are generally purchased from financial institutions and other secondary mortgage-market sellers. Prior to bidding on a portfolio of loans, an analysis of the portfolio is performed by experienced mortgage-loan underwriters. Upon acquisition of a loan portfolio, the loans are classified as either investment grade or non-investment grade. Loan collection is emphasized for the non-investment grade segment of the loan portfolio. A collection department employs a staff of workout specialists and loan counselors who assist delinquent borrowers. If collection efforts are unsuccessful, the foreclosure unit will commence and monitor the foreclosure process until either the borrower makes the loan current, or the property securing the loan is foreclosed or otherwise acquired. The portfolio may include real estate that has been foreclosed or was in the process of foreclosure at the time of its acquisition. The foreclosure unit maintains and markets properties through regional real estate brokers. Investment grade mortgage loans are sold to other institutional investors in either securitized or non-securitized form. In addition, special purpose vehicles issue REMIC and non-REMIC collateralized mortgage obligations directly or through trusts that are established for this purpose.

The Company also operates a commercial mortgage conduit that originates and accumulates commercial mortgage loans for the purpose of securitizing its portfolio. After receipt of loan applications, extensive credit underwriting reviews are conducted. After completing pricing analysis and successful negotiations, the loan will "close" and be included in an ensuing securitization.

ASSET-BACKED SECURITIES. The Company acts as underwriter and placement agent with respect to investment grade and non-investment grade, asset-backed securities issued by unaffiliated third parties. These asset-backed securities include: securities backed by consumer automobile receivables originated by the captive finance subsidiaries of automobile manufacturers, commercial banks and finance companies; credit card receivables; and home-equity lines of credit or second mortgages. The Company also trades and makes markets in these asset-backed securities. While there are ready markets for the investment grade asset-backed securities described above, non-investment grade securities and related varieties thereof may lack liquidity.

MUNICIPAL SECURITIES AND RELATED PRODUCTS. The Company is a dealer in tax-exempt and taxable municipal securities and instruments including: general obligation and revenue bonds; notes; leases; and variable-rate obligations issued by state and local governments and authorities, as well as not-for-profit

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

institutions. The Company is active as a managing underwriter of negotiated and competitive new security issuances and on a select basis, provides financial advisory services. The Company makes markets in a broad spectrum of long-term and short-term municipal securities, mainly to facilitate transactions with institutional and individual customers, as well as other dealers. As agent for issuers, the Company earns fees by remarketing short-term debt instruments to investors in the variable rate, demand bond market. The Company periodically uses both municipal and treasury bond futures to hedge its cash-market bond inventory. In addition, the Company maintains a municipal arbitrage portfolio for its own account consisting of municipal futures and cash bond positions. The Company's underwriting, trading and sales activities are supported by a municipal research group.

DERIVATIVES. The Company offers to customers, and trades for its own account, a variety of exchange-traded and OTC derivative products, including fixed income, credit, and equity derivatives. These products are transacted, as principal, with customers for hedging, risk management, asset/liability

5

management, investment, financing and other purposes. These transactions are in the form of swaps, options, swaptions, asset swaps, and structured notes, as well as more complex, structured trades which are customized to meet customers' specific needs. The Company also enters into derivative transactions for various purposes and to manage the risks to which the Company is exposed in its various businesses and through its funding activities. The Company manages its market and counterparty derivatives risks in a manner consistent with its overall risk-management policies.

FOREIGN EXCHANGE. The Company trades foreign exchange with clients as principal, for its own account and to hedge its securities positions or other assets and liabilities. Foreign exchange products include major and minor currencies on a spot and forward basis, listed and OTC foreign currency options, and foreign exchange futures contracts. Foreign exchange trading desks are maintained in New York and London and clients can trade or leave orders 24 hours per day. The Company serves a select list of funds, major corporations, and mid-size commercial banks. Currency option strategies are made available to customers to help them meet their specific risk management objectives.

FIXED INCOME RESEARCH. The Company is one of the leaders in the distribution, trading and underwriting of corporate, government, high yield, emerging markets, municipal debt, and mortgage-backed and asset-backed securities. The Fixed Income Research Department is comprised of economists, industry analysts and strategists covering the full range of research disciplines: quantitative, economic, strategic, credit portfolio, relative value and market-specific analysis. The Fixed Income Research Department provides ongoing support for the Company's sales and trading efforts, producing reports, studies, and technical market analyses. Industry specialty groups include financial services, general industrial services and products, health care/pharmaceuticals, media/entertainment, merchandising, natural resources, real estate, gaming and lodging, technology and telecommunications. The Company also has a group that focuses on financial sponsors. The Company's investments generally take the form of either common or preferred stock or warrants. Equity securities purchased in these transactions generally are held for appreciation and are not readily marketable. While the Company believes that the current carrying value of these instruments is at least equal to their eventual realizable value, it is not possible to determine whether, or when, the Company will realize the value of these investments.

COMMERCIAL REAL ESTATE. The Company is engaged in a variety of real estate activities on a nationwide basis. It provides comprehensive real estate-related investment banking, capital markets and financial advisory services.

EMERGING MARKETS

To the extent that the correspondent has available resources, the Company is protected against claims by customers of the correspondent when the latter has been allocated responsibility for a function giving rise to a claim. However, if the correspondent is unable to meet its obligations, dissatisfied customers may attempt to seek recovery from the Company.

ADMINISTRATION AND OPERATIONS

Administration and operations personnel, besides performing other functions, are responsible for the processing of securities transactions; receipt, identification and delivery of funds and securities; internal financial controls; accounting functions; regulatory and financial reporting; office services; the custody of customer securities; and the overseeing of margin accounts of the Company and correspondent organizations. The processing, settlement, and accounting for transactions for the Company, correspondent organizations, and the customers of correspondent organizations are handled by employees located in separate operations offices in New York City and Whippany, New Jersey and, to a lesser extent, the Company's offices worldwide.

The Company executes its own and correspondent transactions on US exchanges and in the OTC market. The Company clears all of its domestic and international transactions (i.e., delivery of securities sold, receipt of securities purchased, and transfer of related funds) through its own facilities, unaffiliated commercial banks, other broker-dealers and through memberships in various clearing corporations.

INTERNATIONAL

Outside the US, the Company, through its international subsidiaries, provides various services including investment banking, securities trading and

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

brokerage and clearing activities to corporations, governments, institutions and

9

individual clients throughout the world. These international subsidiaries of the Company have memberships on various foreign securities and futures exchanges.

BSIL is based in London and provides investors and issuers with a full range of products and services in both international and US equities, fixed income, exchange-traded futures and options, and foreign exchange. In addition, BSIL is a major sales and trading center within the Company's global fixed income and equity-related derivative businesses. BSIL has a growing investment banking capability and is also enhancing its service to the Company's growing clearance business in Europe.

Bear Stearns Japan, Ltd. ("BSJL"), based in Tokyo, serves the diverse needs of Japanese corporations, financial institutions and government agencies by offering a range of international fixed income and equity products as well as listed futures. BSJL also offers a range of derivative products within Japan with special focus on credit and equity derivatives. Mergers and acquisitions, corporate finance and restructuring services are also available for local and cross-border business.

Bear Stearns Asia Limited ("BSAL"), based in Hong Kong, acts as the regional headquarters for the Company's activities in the Asia-Pacific region, excluding Japan. This office provides equity and fixed income sales and trading, international equity and fixed income research, and investment banking services to institutional and individual clients in Asia. The representative offices of Bear Stearns located in Beijing, Shanghai and Seoul support the efforts of BSAL.

BSB, based in Dublin, allows the Company's existing and prospective clients the choice of dealing with a banking counterparty. BSB also serves as a platform from which the Company directs its international banking activities, gaining easier access to worldwide markets, and thereby expanding its capacity to increase its client base and product range. BSB engages in capital market activities with particular focus on the trading and sales of OTC interest rate derivative products.

COMPETITION

The Company encounters intense competition in all aspects of the securities business and competes directly with other securities firms - both domestic and foreign - many having substantially greater capital and resources and offering a wider range of financial services than does the Company. Besides competition from firms in the securities business, in recent years the Company has experienced increasing competition from other sources, such as commercial banks and insurance companies. The Company believes that the principal factors affecting competition involve the caliber and abilities of professional personnel, the relative price of the service and products being offered, and the quality of service.

REGULATIONS AND OTHER FACTORS AFFECTING THE COMPANY AND THE SECURITIES INDUSTRY

The securities industry in the US is subject to extensive regulation under both federal and state laws. Moreover, Bear Stearns is registered as an investment adviser with the SEC. Much of the regulation of broker-dealers has been delegated to self-regulatory organizations, principally the NASD, the Municipal Securities Rulemaking Board, and national securities exchanges such as the NYSE, which has been designated by the SEC as the primary regulator of certain of the Company's subsidiaries, including Bear Stearns and BSSC. These

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

self-regulatory organizations (i) adopt rules, subject to approval by the SEC, that govern the industry and (ii) conduct periodic examinations of the Company's operations. Securities firms are also subject to regulation by state securities administrators in those states where they conduct business.

US broker-dealers are subject to regulations which cover all aspects of the securities business including: sales methods; trade practices; use and safekeeping of customer funds and securities; capital structures; recordkeeping; and the conduct of directors, officers and employees. The types of regulations to which investment advisers are subject include: recordkeeping; fee arrangements; client disclosure; and the conduct of directors, officers and employees. The mode of operation and profitability of broker-dealers or investment advisers may be directly affected by new legislation, changes in rules promulgated by the SEC and self-regulatory organizations, and changes in

10

the interpretation or enforcement of existing laws and rules. The SEC, self-regulatory organizations and state securities commissions may conduct administrative proceedings that can result in censures, fines, the issuance of cease-and-desist orders, and the suspension or expulsion of a broker-dealer or an investment adviser, its officers or employees. The principal purpose of regulation and discipline of broker-dealers and investment advisers is the protection of customers and the securities markets, rather than the protection of creditors and stockholders of broker-dealers or investment advisers. On occasion, the Company's subsidiaries have been subject to routine investigations and proceedings, and sanctions have been imposed for infractions of various regulations, none of which, to date, has had a material adverse effect on the Company or its business.

The Market Reform Act of 1990 (the "Market Reform Act") was adopted to strengthen the SEC's regulatory oversight of the national securities markets and increase the efficacy and stability of such markets by, among other things: (i) providing the SEC with discretion to halt securities trading on any national exchange for the protection of investors; (ii) requiring broker-dealers and other registrants to regularly provide information to the SEC regarding holding companies and other affiliated entities whose activities can impact their financial condition; (iii) requiring broker-dealers and other registrants who execute large-trade orders to provide information to the SEC regarding such transactions; and (iv) allowing the SEC to prosecute market participants who violate SEC rules and regulations designed to maintain fair and orderly markets. The SEC has adopted the Risk Assessment Reporting Requirements for Brokers and Dealers (the "Risk Assessment Rules") to implement the provisions of the Market Reform Act. The Risk Assessment Rules require that broker-dealers: (i) have an organizational chart; (ii) maintain risk-management procedures or standards for monitoring and controlling risks; (iii) maintain and preserve records and other information; and (iv) file quarterly reports covering the risk-management procedures and the financial and securities activities of the holding companies of broker-dealers, or broker-dealer affiliates or subsidiaries that are reasonably likely to have a material impact on the financial and operational condition of the broker-dealer.

The Insider Trading and Securities Fraud Enforcement Act of 1988 was adopted to strengthen the SEC's ability to deter, detect, and punish insider trading by, among other things: (i) increasing civil penalties that can be assessed against controlling persons who purposefully or recklessly fail to take adequate measures to prevent insider trading; (ii) allowing the SEC to provide cash rewards to individuals who provide evidence of insider trading; (iii) affirming the government's ability to obtain criminal sanctions against those found guilty of insider trading; and (iv) requiring broker-dealers and investment advisors to establish and enforce written procedures reasonably

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

designed to prevent the misuse of material, nonpublic information.

The Government Securities Act of 1986 was adopted to decrease volatility and increase investor confidence and liquidity in the government securities market by creating a coordinated and comprehensive regulatory structure for the market where none had previously existed. In particular, the Government Securities Act: (i) requires broker-dealers solely involved in government securities to register with the SEC; (ii) allows the Secretary of the Treasury to adopt rules regarding the custody, use, transfer, and control of government securities; and (iii) bestows upon the SEC authority to enforce such rules as to broker-dealers and other SEC registrants.

The futures industry in the US is subject to regulation under the Commodity Exchange Act, as amended. The CFTC is the federal agency charged with the administration of the Commodity Exchange Act and the regulations thereunder. Bear Stearns and BSSC are registered with the CFTC as futures commission merchants and are subject to regulation as such by the CFTC and various domestic boards of trade and other futures exchanges. Bear Stearns' and BSSC's futures business is also regulated by the NFA, a not-for-profit membership corporation, which has been designated a registered futures association by the CFTC.

As registered broker-dealers and member firms of the NYSE, both Bear Stearns and BSSC are subject to the Net Capital Rule (Rule 15c3-1) (the "Net Capital Rule") under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which has been adopted through incorporation by reference in NYSE Rule 325. The Net Capital Rule, which specifies minimum net capital requirements for registered broker-dealers, is designed to measure the general financial integrity and liquidity of broker-dealers and requires that at least a minimal portion of its assets be kept in relatively liquid form.

11

Bear Stearns and BSSC are also subject to the net capital requirements of the CFTC and various futures exchanges, which generally require that Bear Stearns and BSSC maintain a minimum net capital equal to the greater of the alternative net capital requirement provided for under the Exchange Act or 4% of the funds required to be segregated under the Commodity Exchange Act and the regulations promulgated thereunder.

Compliance with the Net Capital Rule could limit those operations of Bear Stearns and/or BSSC that require significant capital usage, such as underwriting, trading and the financing of customer margin-account debit balances. The Net Capital Rule could also restrict the Company's ability to withdraw capital from Bear Stearns or BSSC, which in turn could limit the Company's ability to pay dividends, pay interest, repay debt, or redeem or purchase shares of its outstanding capital stock. Additional information regarding net-capital requirements is set forth under Item 8. Financial Statements and Supplementary Data in Notes to Consolidated Financial Statements, Footnote 7, entitled "Regulatory Requirements".

Bear Stearns and BSSC are members of the Securities Investor Protection Corporation ("SIPC"), which provides insurance protection for customer accounts held by these entities of up to \$500,000 for each customer, subject to a limitation of \$100,000 for cash balance claims in the event of the liquidation of a broker-dealer. In addition, all BSSC security accounts are protected by an excess securities bond issued by the Travelers Casualty and Surety Company, up to the amount of their total net equity (both cash and securities) in excess of the underlying SIPC protection.

The activities of the Company's bank and trust company subsidiary, CTC, are regulated by the New Jersey Department of Banking and Insurance and the

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

Federal Deposit Insurance Corporation ("FDIC"). FDIC regulations applicable to CTC limit the extent to which CTC and Bear Stearns may have common directors or may share physical facilities. FDIC regulations require certain disclosures in connection with joint advertising or promotional activities conducted by Bear Stearns and CTC. Such regulations also restrict certain activities of CTC in connection with the securities business of Bear Stearns. The Competitive Banking Act limits (i) an expansion in the scope of the activities of CTC, (ii) the cross-marketing of certain services with its affiliates and (iii) the use of overdrafts at Federal Reserve banks on behalf of affiliates.

BSIL is a full service broker-dealer based in London and is a member of the Eurex, IPE, LCE, LIFFE, OMLX, MATIF and LCH. Another London subsidiary, Bear, Stearns International Trading Limited ("BSIT"), is a market-maker in various non-dollar-denominated equity securities and is a member of the London Stock Exchange. BSIL and BSIT are subject to the United Kingdom Financial Services Act 1986, which governs all aspects of the investment business in the United Kingdom including: regulatory capital, sales and trading practices, use and safekeeping of customer funds, securities recordkeeping, margin practices and procedures, registration standards for individuals, periodic reporting and settlement procedures. BSIL and BSIT are supervised by and are regulated in accordance with the rules of the SFA.

BSJL is a Tokyo broker-dealer registered with the Japanese Ministry of Finance. BSJL has a membership on the Tokyo Stock Exchange, TIFFE and the Osaka Stock Exchange. Bear Stearns Hong Kong Ltd. is a member of the Securities and Futures Commission and sells US futures to retail customers. BSAL is a member of the Shanghai Stock Exchange and the Stock Exchange of Hong Kong. Bear Stearns Singapore Pte. Limited is a broker-dealer registered with the Monetary Authority of Singapore and sells fixed income and equity securities, including derivatives, to institutional investors in Singapore, Southeast Asia, Australia and New Zealand.

BSB is an Irish-based bank, which was incorporated in 1996 and subsequently granted a banking license under the Irish Central Bank Act, 1971.

The Company's principal business activities, investment banking, securities trading and brokerage, are, by their nature, highly competitive and subject to various risks, in particular, volatile trading markets and fluctuations in the volume of market activity. Consequently, the Company's net income and revenues have been, and are likely to continue to be, subject to wide fluctuations, reflecting the impact of many factors, including securities market conditions, the level and volatility of interest rates, competitive conditions,

12

liquidity of global markets, international and regional political events, regulatory developments and the size and timing of transactions. These and other factors can affect the Company's volume of security new-issues, mergers and acquisitions, and business restructurings; the stability and liquidity of securities and futures markets; and ability of issuers, other securities firms and counterparties to perform on their obligations. Decrease in the volume of security new-issues, mergers and acquisitions or restructurings generally results in lower revenues from investment banking and, to a lesser extent, reduced principal transactions. A reduced volume of securities and futures transactions and reduced market liquidity generally results in lower revenues from principal transactions and commissions. Lower price levels for securities may result in a reduced volume of transactions, and may also result in losses from declines in the market value of securities held in proprietary trading and underwriting accounts. In periods of reduced sales and trading or investment banking activity, profitability may be adversely affected because certain expenses remain relatively fixed. The Company's securities trading, derivatives,

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

arbitrage, market-making, specialist, leveraged lending, leveraged buyout and underwriting activities are conducted by the Company on a principal basis and expose the Company to significant risk of loss. Such risks include market, counterparty credit, and liquidity risks. See Item 7A. Quantitative and Qualitative Disclosures about Market Risk.

SUCH FORWARD-LOOKING STATEMENTS CONCERNING MANAGEMENT'S EXPECTATIONS, STRATEGIC OBJECTIVES, BUSINESS PROSPECTS, ANTICIPATED ECONOMIC PERFORMANCE AND FINANCIAL CONDITION AND OTHER SIMILAR MATTERS ARE SUBJECT TO RISKS AND UNCERTAINTIES, INCLUDING THOSE PREVIOUSLY MENTIONED, WHICH COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE DISCUSSED IN THE FORWARD-LOOKING STATEMENTS. ITEM 2. PROPERTIES.

The Company's executive offices and principal administrative offices occupy approximately 753,000 square feet of space at 245 Park Avenue, New York, New York under leases expiring through 2002. The Company has recently completed a lease for approximately 207,000 square feet on floors 15-20 at 245 Park Avenue (part of current premises). This lease will commence on January 1, 2003 (after expiration of current lease) and is scheduled to expire December 31, 2022 (20 years).

The Company also leases approximately 320,000 square feet of office space at One MetroTech Center, Brooklyn, New York pursuant to a lease expiring in 2004 for its securities processing, accounting and clearance operations. Additionally, the Company leases approximately 43,000, 30,000, 140,000, 13,000, 59,000 and 61,000 square feet of space at five locations in New York City under leases expiring in 2001, 2002, 2004, 2007, 2009 and 2011, respectively. The Company's offices in Atlanta, Boston, Chicago, Dallas, Denver, Houston, Irving, Los Angeles, Philadelphia, Princeton, Puerto Rico, San Francisco and Tampa occupy an aggregate of approximately 618,000 square feet, while its eleven foreign offices occupy a total of approximately 168,000 square feet under leases expiring on various dates through the year 2016.

The Company owns approximately 65 acres of land in Whippany, New Jersey, including five buildings comprising an aggregate of approximately 493,000 square feet. The Company is currently using the existing facilities on the property to house its data processing facility and other operations, compliance, personnel and accounting functions. Because the Whippany property includes land in excess of current needs, the Company has received approval to construct two additional buildings, one of which it is currently developing for itself. This building under construction (approximately 187,500 square feet) is scheduled for completion by mid-2001.

The Company has entered into a lease arrangement with respect to the development and building of an office tower at 383 Madison Avenue, New York, New York. This tower will serve as its new world headquarters. The office tower

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-K405

under construction will contain 1.2 million square feet and is scheduled to be completed in advance of the expiration of the current lease at 245 Park Avenue in 2002.

ITEM 3. LEGAL PROCEEDINGS.

The Company and Bear Stearns have been named as defendants in lawsuits in the normal course of business which involve claims for substantial amounts. Additionally, the Company is involved from time to time in investigations and proceedings by governmental agencies and self-regulatory organizations. Although the ultimate outcome of these matters cannot be ascertained at this time, it is the opinion of management, after consultation with counsel, that the resolution of the foregoing matters will not have a material adverse effect on the financial condition of the Company, taken as a whole; such resolution may, however, have a material effect on the operating results in any future period, depending upon the level of such results in such period.

A.I.A. Holding, S.A., et al. v. Lehman Brothers, Inc., et al. On July 8, 1997, 277 alleged customers of Ahmad Ihsan El-Daouk ("Daouk") commenced an action in the United States District Court for the Southern District of New York against Lehman Brothers, Inc. ("Lehman") and Bear Stearns. Plaintiffs alleged that Daouk, acting through corporations he controlled, entered into introducing broker agreements with Lehman and then Bear Stearns, and that he arranged for each of the plaintiffs to invest funds with Lehman and/or Bear Stearns.

On July 3, 1998, 276 of the 277 original plaintiffs filed an amended complaint against Lehman and Bear Stearns. As amended, the complaint alleges, among other things, that the defendants committed breach of fiduciary duty, fraud, constructive fraud, breach of contract, negligent hiring, retention and supervision, aided and abetted fraud and aided and abetted breach of fiduciary duty in connection with alleged improper trading activities in the accounts of Daouk's customers. Plaintiffs seek compensatory damages in unspecified amounts and imposition of constructive trusts with respect to any property that "belongs, or may belong" to plaintiffs in Lehman's or Bear Stearns' possession.

On August 12, 1998, Bear Stearns filed an answer to the amended complaint denying liability.

On May 5, 1999, the court granted permission to 21 moving plaintiffs to dismiss their cases with prejudice on the condition that each provides a covenant not to sue and a release.

As amended, the complaint alleges, among other things, that Bear Stearns, BSSC, a managing director of Bear Stearns and Baron engaged in a scheme to manipulate the market for and to inflate the prices of the Baron securities. Plaintiffs allege violations of Sections 10(b) and 20(a) of the Exchange Act and Rule 10b-5 promulgated thereunder. Plaintiffs purport to represent a class consisting of all persons who acquired Baron securities from Baron between July 20, 1995 and June 28, 1996. Damages in an unspecified amount are sought.

The complaint seeks to recover compensatory damages in excess of \$6.5 million, treble damages in excess of \$19.5 million, punitive damages of \$6.5 million from each defendant other than Bear Stearns and BSSC, and punitive damages in the aggregate of \$130 million from Bear Stearns and BSSC.
