Cautionary Statement Concerning Forward-Looking Statements

This Current Report on Form 8-K contains statements about expected future events and financial results that are forward-looking and subject to risks and uncertainties. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. The following important factors could affect future results and could cause those results to differ materially from those expressed in the forward-looking statements: the duration and extent of the current economic downturn; materially adverse changes in economic conditions in the markets served by us or by companies in which we have substantial investments; material changes in available technology; an adverse change in the ratings afforded our debt securities by nationally accredited ratings organizations; the final outcome of federal, state, and local regulatory initiatives and proceedings, including arbitration proceedings, and judicial review of those initiatives and proceedings, pertaining to, among other matters, the terms of interconnection, access charges, and unbundled network element and resale rates; the extent, timing, success, and overall effects of competition from others in the local telephone and toll service markets; the timing and profitability of our entry and expansion in the national long-distance market; our ability to satisfy regulatory merger conditions and obtain combined company revenue enhancements and cost savings; the profitability of our broadband operations; the ability of Verizon Wireless to achieve revenue enhancements and cost savings, and obtain sufficient spectrum resources; the continuing financial needs of Genuity Inc., our ability to convert our ownership interest in Genuity into a controlling interest consistent with regulatory conditions, and Genuity's ensuing profitability; our ability to recover insurance proceeds relating to equipment losses and other adverse financial impacts resulting from the terrorist attacks on Sept. 11, 2001; and changes in our accounting assumptions that regulatory agencies, including the SEC, may require or that result from changes in the accounting rules or their application, which could result in an impact on earnings.
