#### ITEM 1.01. ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT.

On June 16, 2006, Cytokinetics, Incorporated (the Company) and Glaxo Group Limited (GSK), a GlaxoSmithKline company, executed an amendment to their Collaboration and License Agreement dated June 20, 2001 (the Collaboration Agreement). The amendment is effective as of June 19, 2006.

Pursuant to the Collaboration Agreement, the Company formed a strategic alliance with GSK to discover, develop and commercialize novel small molecule compounds targeting mitotic kinesin targets for potential applications in the treatment of cancer and other diseases. In September 2005, the Company and GSK amended the Collaboration Agreement to provide the Company additional rights to lead and fund development activities in certain hematologic cancers for one of the drug candidates that has entered clinical trials under the strategic alliance, subject to GSK s option to resume these activities. A further description of the material terms of the Collaboration Agreement is set forth in the Company s Annual Report on Form 10-K for the year ended December 31, 2005, as filed with the Securities and Exchange Commission on March 10, 2006.

The June 19, 2006 amendment extends the research term under the Collaboration Agreement for an additional year to facilitate continued research activities under an updated research plan focused towards the mitotic kinesin centromere-associated protein E (CENP-E). Accordingly, the research term with respect to all mitotic kinesin targets other than CENP-E expired on June 19, 2006. Under the amendment, GSK will have no obligation to reimburse the Company for its full-time employee equivalents during the extension of the research term. A copy of the amendment is attached to this Current Report on Form 8-K (Current Report) as Exhibit 10.65, and is incorporated herein by reference.

# ITEM 9.01. FINANCIAL STATEMENTS AND EXHIBITS.

### (c) Exhibits.
