Item 8.01 Other Events.

On May 21, 2009, Lyle R. Knight, the Chief Executive Officer of First Interstate BancSystem, Inc. (the Registrant) issued the following statement to shareholders. References to we and our in this statement mean First Interstate BancSystem, Inc. and our consolidated subsidiaries, unless the context indicates that we refer only to the parent company, First Interstate BancSystem, Inc.

We have just received our March 31, 2009 common stock valuation and I reported last Friday that the appraised value declined from \$74.50 to \$61.00 per share. This decrease is the largest drop we have ever experienced. You may also recall that we released our March 31st quarterly earnings on May 8th and we re proud to have reported net income to common shareholders of \$15,844,000. Our website has all of our public reports available for you to review. The appraisal of our common stock occurs once a quarter and is evaluated by the appraiser only on the last day of each calendar quarter (March 31st, June 30th, September 30th and December 31st).

During first quarter 2009, domestic and global common stock values declined significantly, particularly stocks in the financial sector. From December 31, 2008 until March 31, 2009, the peer group of publicly traded bank stocks utilized by our appraiser in the March 31st appraisal had a median decline in value of 27.2%. Even though we too had a significant decline in stock value this past quarter, the reduction reflects a decline of only 18.1%, far better than the typical bank our size. Our appraiser also utilizes a discounted cash flow technique in valuing our stock. This technique involves applying a discount rate to the estimated future earnings of the company to determine a theoretical present value. This technique requires the use of a number of assumptions and estimates, including the discount rate which is based on long-term interest rates. Changes in estimates and assumptions utilized by our appraiser also resulted in a lower valuation this quarter.

Even though we ve all now experienced this significant decline in value, we re hopeful that the stock market will continue to improve as it has since March 31st. The variable we manage is the performance of our own company. Although asset quality has deteriorated the past several quarters and continues to show stress, our earnings continue to be good.

Although I m disappointed with any reduction in the value of our stock, I know we ll all work together to be successful and build value in the future.

Thanks,

/s/ LRK
